ANNEX

The headings of the columns in this Annex refer to the following:

- (a) prohibition;
- (b) prior written notification and consent as described in Article 35 of Regulation (EC) No 1013/2006;
- (c) no control in the country of destination;

[F1(d)other control procedures will be followed in the country of destination under applicable national law.]

Where two codes are separated by a hyphen, this is to be understood as covering the two codes and all codes in between them.

Where two codes are separated by a semicolon, this is to be understood as covering the two codes in question.

[F2Where column (b) and column (d) are both designated for the same entry, that means that control procedures in the country of destination are applicable in addition to those laid down in Article 35 of Regulation (EC) No 1013/2006.]

[F3Where a particular waste or mixture of wastes is not indicated for a given country, this means that this country has not issued a sufficiently clear confirmation that this waste or mixture of wastes may be exported for recovery in that country and as to which control procedure, if any, would be followed in that country. Pursuant to Article 37(2) of Regulation (EC) No 1013/2006, the procedure of prior written notification and consent as described in Article 35 of that Regulation is applicable in such cases.]
