

Commission Regulation (EC) No 633/2007 of 7 June 2007 laying down requirements for the application of a flight message transfer protocol used for the purpose of notification, coordination and transfer of flights between air traffic control units (Text with EEA relevance)

Article 1	Subject matter and scope
Article 2	Definitions
Article 3	Application of the flight message transfer protocol
Article 4	Conformity assessment of constituents
Article 5	Verification of systems
Article 6	Compliance
Article 7	Transitional arrangements
Article 8	Entry into force and application
	Signature

ANNEX I

Interoperability requirements referred to in Article 3

1. Each flight message transfer peer entity shall have an identifier....
2. An identification function shall ensure that communications can take place...
3. A connection management function shall establish and release connections between...
4. A data transfer function shall send and receive flight data...
5. A monitoring function shall verify the continuity of service of...
6. All functions exchanged between flight message transfer entities shall use...

ANNEX II

Requirements for the assessment of the conformity of constituents carried out under Article 4

1. The verification activities shall demonstrate the conformity of constituents implementing...
2. The manufacturer shall manage the verification activities and shall in...
3. The manufacturer shall ensure that the constituents implementing flight message...
4. Upon satisfactory completion of verification of conformity, the manufacturer shall...

Changes to legislation: There are outstanding changes not yet made to Commission Regulation (EC) No 633/2007. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

ANNEX III

Conditions referred to in Article 5

1. The air navigation service provider must have in place reporting...
2. The air navigation service provider must ensure that the personnel...
3. The air navigation service provider must ensure that the personnel...
4. The air navigation service provider must ensure that the personnel...
5. The air navigation service provider must ensure that the personnel...

ANNEX IV

Part A:

Requirements for the verification of systems carried out under Article 5(1)

1. The verification of systems implementing flight message transfer protocol shall...
2. The verification of systems implementing flight message transfer protocol shall...
3. Test tools used for the verification of systems implementing flight...
4. The verification of systems implementing flight message transfer protocol shall...
5. The air navigation service provider shall manage the verification activities...
6. The air navigation service provider shall ensure that the implementation...
7. Upon satisfactory completion of verification of compliance, air navigation service...

Part B:

Requirements for the verification of systems carried out under Article 5(2)

1. The verification of systems implementing flight message transfer protocol shall...
2. The verification of systems implementing flight message transfer protocol shall...
3. Test tools used for the verification of systems implementing flight...
4. The verification of systems implementing flight message transfer protocol shall...
5. The air navigation service provider shall determine the appropriate simulated...
6. The notified body shall manage the verification activities and shall...
7. The notified body shall ensure that the implementation of flight...

Changes to legislation: There are outstanding changes not yet made to Commission Regulation (EC) No 633/2007. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

8. Upon satisfactory completion of verification tasks, the notified body shall...
9. Then, the air navigation service provider shall draw up the...
