BASIC DOCUMENTS

SECTION 1

*Joint operational programmes**Article 3***Preparation of joint operational programmes**

Each joint operational programme shall be defined by common agreement of all the participating countries, in accordance with Regulation (EC) No 1638/2006, the strategy paper and this Regulation.

*Article 4***Content of joint operational programmes**

Each joint operational programme shall describe the objectives, priorities and measures concerning the operations to be undertaken and shall explain how they fit in with other ongoing or planned bilateral and multilateral programmes in the countries and regions concerned, in particular programmes financed by the European Union.

In particular, each joint operational programme shall:

- (a) list the territorial units eligible, including the possible adjacent regions, as locations for projects financed by the programme, as defined in Regulation (EC) No 1638/2006 and the strategy paper;
- (b) lay down rules for participation in the programmes by adjacent areas in third countries which are not covered by Regulation (EC) No 1638/2006 but which are allowed to take part in cooperation on the basis of the strategy paper;
- (c) lay down priorities and measures addressing the objectives identified in the strategy paper;
- (d) set out the composition of the Joint Monitoring Committee in accordance with Article 11 of this Regulation;
- (e) identify the body appointed by the participating countries to perform the role of Joint Managing Authority;
- (f) describe the structure that will be set up by the Joint Managing Authority for the management of the programme in accordance with Articles 14, 15, 16 and 17 of this Regulation. This description shall be detailed enough to enable the Commission to be reasonably confident that effective and efficient internal control systems have been put in place, based on best international practices;

▼B

- (g) include a financial table describing the provisional yearly allocations of commitments and payments under the programme, established in accordance with the priorities and specifying in particular the amounts allocated to technical assistance;
- (h) identify programme implementation methods, in accordance with the contractual procedures referred to in Article 23 of this Regulation;
- (i) specify a provisional indicative timetable for the launching of procedures and the selection of projects to be financed;
- (j) describe any regulatory requirements regarding environmental impact assessment studies and give a provisional indicative timetable for the carrying-out of these studies;
- (k) state the language(s) adopted by the programme;
- (l) include an information and communication plan in accordance with Article 42.

The table referred to in point (g) of the second paragraph shall indicate the European Community contribution and divide the provisional indicative amounts to be committed by the Commission each year up to 2013 (the allocations for 2011-2013 shall be confirmed in the Indicative Programme for 2011-2013). The table shall also contain the provisional indicative amounts of co-financing from the own resources of participating countries.

For the purposes of point (h) of the second paragraph, the projects financed under the programme shall generally be selected following calls for proposals. Nevertheless, the participating countries may also, in agreement with the European Commission, jointly identify large-scale cross-border investment projects which will not be selected through calls for proposals: these projects shall be specifically mentioned in the programme or be selected at a later stage by the Joint Monitoring Committee, referred to in Articles 11 to 13, provided that they are consistent with the programme's priorities and measures and that there is a budget specifically for this purpose.

Article 5

Adoption of joint operational programmes

1. Each joint operational programme shall be submitted by the Joint Managing Authority to the Commission after the explicit agreement of all countries having participated in and contributed to the preparation of the programme.
2. The Commission shall examine the joint operational programme in order to verify that it contains all the elements referred to in Article 4, which shall involve in particular:
 - (a) assessing its conformity with the strategy paper;
 - (b) checking the quality of the analysis, its consistency with the proposed priorities and measures, and its consistency with the other bilateral and multilateral programmes ongoing or planned in the regions concerned by the programme;

▼B

- (c) verifying that the programme complies with the Community legislation applicable;
- (d) checking that any environmental impact assessment studies that may be required have been carried out or are planned before the proposed projects are implemented;
- (e) ensuring the consistency of the financial table for the programme, particularly with regard to the amounts to be committed by the Commission;
- (f) ensuring the management capacity of the Joint Managing Authority is commensurate with the volume, content and complexity of the operations planned under the programme. In particular, the Commission shall check that the Joint Managing Authority has sufficient properly qualified human resources fully dedicated to the programme, the requisite computerised management and accountancy tools and financial circuits that comply with the relevant Community legislation. These checks may be carried out through an *ex ante* on-the-spot audit, if considered necessary by the Commission;
- (g) ensuring that the Joint Managing Authority has planned for and set up satisfactory internal control and audit systems, based on international best practices.

3. Following the review of the joint operational programme, the Commission may ask the participating countries to provide additional information or, where necessary, to revise certain parts.

4. The adoption of each joint operational programme shall be taken as an *ex ante* accreditation by the Commission of the management and control structures set up by the Joint Managing Authority.

5. Each joint operational programme shall be adopted by a Commission decision for the whole of the programme's duration.

Article 6

Monitoring and evaluation of joint operational programme

1. The aim of monitoring and evaluating each joint operational programme shall be to improve the quality, effectiveness and consistency of implementation. The findings of evaluations shall be taken into account in future programming exercises.

2. A mid-term evaluation of the joint operational programme shall be carried out as part of the programme review in accordance with the strategy paper.

This evaluation shall be carried out by the Commission, and its results, which shall be communicated to the Joint Monitoring Committee and Joint Managing Authority for the indicative programme may lead to adjustments in the programme.

3. In addition to the mid-term evaluation, an evaluation of the joint operational programme, or a part thereof, may be carried out at any moment by the Commission.

▼B

4. In the year following the end of the implementation phase of the projects financed by the joint operational programme, an *ex post* evaluation of the programme shall be carried out by the Commission.

*Article 7***Revision of joint operational programmes**

1. Adjustments to the joint operational programme financial table which merely involve the transfer from one priority to another of no more than 20 % of the Community funds initially allocated to each priority may be made directly by the Joint Managing Authority, with the prior approval of the Joint Monitoring Committee. The Joint Managing Authority shall inform the Commission of any such changes.

This rule shall apply to technical assistance financed by Community funds only with the written prior approval of the Commission.

2. Following a reasoned request from the Joint Monitoring Committee or at the initiative of the Commission in agreement with the Joint Monitoring Committee, joint operational programmes may be reviewed and, if necessary, revised in the following cases:

- (a) in order to make allowance for major socio-economic changes or substantial changes in Community, national or regional priorities in the area covered by the programme;
- (b) following implementation difficulties giving rise to substantial delays;
- (c) where there is a transfer of Community funds from one priority to another going beyond the margin of flexibility referred to in paragraph 1 of this Article;
- (d) following the evaluations referred to in Article 6(2) and 6(3);
- (e) where the programme is terminated in accordance with Article 44.

3. Any revision of a joint operational programme in the cases referred to in paragraph 2 shall be adopted by a decision of the Commission and shall require the signing of an amendment to the financing agreements referred to in Article 10.

*Article 8***Use of languages**

1. The management structures for joint operational programmes shall use one or more of the European Union's official languages as their working language(s).

2. In order to take account of the partnership nature of the programmes, the project beneficiaries may submit to the Joint Managing Authority documents concerning their project in their national language, provided that this possibility is specifically mentioned in the programme and that the Joint Monitoring Committee makes provision, through the Joint Managing Authority, for any interpretation and translation that may be necessary.

▼B

3. Interpreting and translation costs for all languages selected by the programme shall be met:
- (a) from the technical assistance budget at joint operational programme level;
 - (b) from the budget of each individual project at project level.

*Article 9***Starting phase of joint operational programmes**

1. Following the adoption of the joint operational programme by Commission decision, the programme shall start immediately in the Member States with the allocation in the European Neighbourhood and Partnership Instrument for cross-border cooperation from heading 1B of the Financial Perspective (Interinstitutional Agreement 2006/C 139/01) ⁽¹⁾. Joint actions required to launch the programme may also be undertaken, namely:

- (a) the establishment of the Joint Managing Authority and of the Joint Technical Secretariat;
- (b) the first meetings of the Joint Monitoring Committee, including representatives of partner countries that have not yet signed a financing agreement;
- (c) the preparation and launching of tender procedures or calls for proposals, if necessary with a suspension clause linked to the signing of the financing agreements.

2. Commission decisions referred to in paragraph 1 shall be applicable in each partner country from the signing of a financing agreement by the country in accordance with Article 10.

*SECTION 2****Financing agreement****Article 10***Signing of financing agreements**

1. A financing agreement shall be established between the Commission and each partner country for each joint operational programme. The Joint Managing Authority designated under each joint operational programme may countersign the financing agreement.

2. The joint operational programme adopted by the Commission shall be a technical annex to the financing agreement.

⁽¹⁾ Interinstitutional Agreement between the European Parliament, the Council and the Commission on budgetary discipline and sound financial management, OJ C 139, 14.6.2006, p. 1.

▼B

4. If the financing agreement is not concluded within the time-limit, the external component of the joint operational programme with the partner country may not be launched.

Where a programme includes several partner countries, it may be launched with each partner country as soon as that country has signed its financing agreement.

5. If no partner country signs a financing agreement within the set time limit, the external component of the joint operational programme shall become null and void and paragraphs 3 and 4 of Article 44 shall apply.

CHAPTER III

The secretary shall be chosen from the members of the Joint Managing Authority.

2. 3. The Commission shall be invited to each meeting of the Joint Monitoring Committee at the same time as the participants and shall be informed of the results of its deliberations. It may take part in all or part of each committee meeting on its own initiative, as an observer and without any decision-making power.

3. The appointed representatives shall elect a chairperson. The committee may decide to elect a representative of the Joint Managing Authority or another outside person as chairperson.

The chairperson of the Joint Monitoring Committee shall act as arbitrator and lead discussions. The chairperson shall retain their vote, unless the position of chairperson has been given to a representative of the Joint Managing Authority or another outside person. In the latter case, the chairperson shall have no vote.

4. The Joint Monitoring Committee shall meet as often as necessary and at least once a year. It shall be convened by its chairperson at the request of the Joint Managing Authority or following a duly justified request from one of its appointed members or from the Commission. It may also take decisions through written procedure at the initiative of its chairperson, the Joint Managing Authority or one of the participating countries. In case of a disagreement, any member may request that the decision be discussed at a meeting.

5. Minutes shall be drawn up after each meeting of the Joint Monitoring Committee for signature by the chairperson and the secretary. Minutes shall be given to each member of the committee and to the Commission.

If, when taking decisions referred to in point (e) of the first paragraph, the Joint Monitoring Committee decides not to follow all or part of the recommendations of the selection committee, it shall explain its decision in writing. The decision shall then be sent via the Joint managing authority to the Commission for prior approval. Commission communicates its opinion to the Joint Managing Authority within 15 working days.

Duties of the Joint Managing Authority shall be performed in compliance with regulations and provisions in force. The Joint Managing Authority is responsible for ensuring that decisions of the Joint Monitoring Committee comply with these rules.

4. The accounts established by the Joint Managing Authority shall be subject to an annual *ex post* external audit carried out by an independent organisation as referred to in Article 31.

5. The organisation of the Joint Managing Authority shall be based on international best practice in management and internal control and shall draw on management and internal control systems suited to the carrying out of its tasks in such a way as to ensure that its operations comply with laws, other rules and the principle of sound financial management.

Using appropriate verification procedures, it shall ensure that the funds paid under grant agreements or procurement contracts are used only for the purposes for which they were granted.

A general system shall be used for the management of accounts and the administrative and financial monitoring of grants and contracts (correspondence, follow-up letters or reminders, receipt of reports, etc.).

9. The Joint Managing Authority shall without delay notify the Commission and the Joint Monitoring Committee of any change in its procedures or its organisation, or any other circumstance likely to affect programme implementation.

10. The Joint Managing Authority, and the various beneficiaries, contractors and partners with which it signs contracts for the implementation of the projects, shall be subject to controls by the Commission, the European Court of Auditors and the European Anti-Fraud Office (OLAF).

*Article 15***Functions of the Joint Managing Authority**

1. The Joint Managing Authority shall be responsible for managing and implementing the joint operational programme, including technical assistance, in line with the principle of sound financial management and the principles of economy, efficiency and effectiveness, and shall carry out any controls necessary in accordance with the rules and procedures provided for by the relevant regulations.

2. The various tasks of the Joint Managing Authority shall include:

- (a) organising and acting as a secretariat for meetings of the Joint Monitoring Committee, including drawing-up the minutes of the meetings;

The operation of the Joint Technical Secretariat shall be financed from the technical assistance budget.

2. The Joint Technical Secretariat may, if necessary, establish small branch offices in participating countries for the purpose of informing potential beneficiaries in those countries of activities planned under the programme.

*Article 17***Principle of continuity**

Where an existing Joint Managing Authority with Commission-approved systems for the management of previous or ongoing programmes is reappointed to manage a joint operational programme, it shall not be necessary to modify the Joint Managing Authority's organisational arrangements, provided the systems used meet the requirements of this Regulation.

CHAPTER IV
**FINANCIAL MANAGEMENT OF THE JOINT OPERATIONAL
PROGRAMMES**

SECTION 1

Financing

Article 18

Technical assistance financed by the Community contribution

No more than 10 % of the Community's total contribution to a joint operational programme may be allocated to technical assistance.

However, on a case-by-case basis and if warranted by the level of expenditure incurred during previous years of implementation and forecast legitimate programme requirements, an increase in the amount of the technical assistance initially allocated to the programme may be considered.

Article 19

Co-financing sources

1. Co-financing shall come from the own resources of the countries or bodies participating in each joint operational programme.
2. Within each joint operational programme the participating countries shall be free to determine the source, amount and distribution of co-financing between objectives and priorities.
3. Contributions in kind from the Joint Managing Authority may be considered as co-financing, subject to the prior approval of the Commission. In this case they shall be explicitly mentioned in the programme document.

Article 20

Co-financing rate

1. Co-financing shall amount to at least 10 % of the Community contribution to the joint operational programme, minus the amount of technical assistance financed from the Community contribution.
2. Where possible, co-financing shall be distributed in a balanced way throughout the duration of the programme in such a way that the minimum objective of 10 % is achieved by the end of the programme.

Article 21

Bank account of the joint operational programme and interest on pre-financing

1. A single bank account in euro, specifically dedicated to the programme, shall be opened and managed by the service acting as accounting officer within the Joint Managing Authority. The account shall be set up in such a way that the transactions require signatures of both the authorising officer and the accounting officer.

▼B

2. If the bank account bears interest, any interest generated by the pre-financing payments shall be assigned to the joint operational programme and shall be declared to the Commission in the final report referred to in Article 32.

*Article 22***Accounts for the joint operational programme**

Accounts for the joint operational programme shall be drawn up by the service within the Joint Managing Authority responsible for financial transactions. These accounts shall be independent and separate and shall include only transactions relating to the joint operational programme. They shall be kept in such a way as to enable analytical monitoring of the programme by objective, priority and measure.

▼C1

The Joint Managing Authority shall present the Joint Monitoring Committee and the Commission with reports reconciling these accounts with the balance in the bank account for the programme to accompany the annual report and any request for additional pre-financing.

▼B*Article 23***Contractual procedures**

1. The contractual procedures for procurement contracts and grants necessary for implementation of the joint operational programme by the Joint Managing Authority shall be those applicable to external actions as defined in Articles 162 to 170 of Council Regulation (EC, Euratom) No 1605/2002 and Articles 231 to 256 of the Commission Regulation (EC, Euratom) No 2342/2002.

The procedures and related standard documents and contract templates to be used shall be those included in the Practical Guide to contract procedures for EC external actions with annexes in force at the time of the launching of procurement procedures or calls for proposals.

2. The eligibility rules for participation in the calls for tenders and calls for proposals shall be those referred to in Article 14 of Regulation (EC) No 1638/2006 in conformity with Articles 40 and 41 of this Regulation.

3. These provisions shall be applicable to the entire geographical area of the programme, both on the territory of the Member States and on the territory of the partner countries.

*SECTION 2****Payments****Article 24***Annual commitments by the Commission**

Further to the initial commitment accompanying the decision adopting the joint operational programme, the Commission shall each year make the corresponding commitment no later than 31 March of the year concerned. The amount of this commitment shall be determined in

▼B

accordance with the financial table detailing the provisional yearly allocations in the joint operational programme, and shall also depend on the programme's progress and the availability of funds. The Commission shall inform the Joint Managing Authority of the exact date on which the annual commitment is made.

*Article 25***Common rules for payments**

1. The Commission shall make each payment from the Community contribution, subject to the availability of funds. The Commission shall automatically deduct any payment to the Joint Managing Authority from the oldest annual commitment tranche until the entire amount of this commitment has been spent. When the oldest annual commitment tranche has been entirely spent, the next annual commitment tranche may be used.
2. Payments shall be made in euro to the bank account of the joint operational programme.
3. Payments may take the form of pre-financing or the final balance.

*Article 26***Pre-financing**

1. Each year, once the Joint Managing Authority has been notified of the budgetary commitment, it may request, as pre-financing, the transfer of up to 80 % of the Community contribution to the budget for the year in question.

From the second year of the joint operational programme, requests for pre-financing shall be accompanied by the provisional annual financial report covering all expenditure and revenue from the previous year not yet certified in the annual external audit report, and by the provisional budget detailing the Joint Managing Authority's commitments and payments for the following year.

After reviewing this report, assessing actual financing needs for the programme and verifying the availability of funds, the Commission shall proceed with the payment of all or part of the requested pre-financing.

2. In the course of the year, the Joint Managing Authority may ask for the transfer of all or part of the balance of the annual Community contribution, as additional pre-financing.

In support of its request, the Joint Managing Authority shall submit an interim financial report showing that the expenditure actually incurred or likely to be incurred before the end of the year exceeds the amount of pre-financing already granted.

Such subsequent transfers shall constitute additional pre-financing in so far as they are not certified by an external audit report.

▼B

3. In the second half of each year of the programme's implementation, the Commission shall clear previous pre-financing payments on the basis of eligible expenditure actually incurred, as certified by the annual external audit report referred to in Article 31.

On the basis of the results of this clearance, the Commission may proceed with the necessary financial adjustments.

▼M2*Article 26a***Financial corrections by the Joint Managing Authority**

1. The Joint Managing Authority shall in the first instance be responsible for preventing and investigating irregularities and for making the financial corrections required and pursuing recoveries.

The Joint Managing Authority shall make the financial corrections required in connection with individual irregularities detected in projects or technical assistance. Financial corrections shall consist of cancelling all or part of the Union contribution to a project or to technical assistance. The Joint Managing Authority shall take into account the nature and gravity of the irregularities and the financial loss and shall apply a proportionate financial correction. The criteria for establishing the level of financial correction to be applied and the criteria for applying flat rates or extrapolated financial correction may be those adopted in accordance with Regulation (EU) No 1303/2013 ⁽¹⁾, in particular Article 144, as well as those contained in the Commission Decision of 19 December 2013 ⁽²⁾. Financial corrections shall be recorded in the annual accounts by the Joint Managing Authority for the accounting year in which the cancellation is decided.

2. The Union contribution cancelled in accordance with paragraph 1 may be reused within the concerned programme, subject to paragraph 3. The reallocation of these programme's resources shall comply, inter alia, with Articles 7, 13, 18 and 43.

3. The contribution cancelled in accordance with paragraph 1 may not be reused for the project that was the subject of a financial correction or for projects selected through calls for proposals.

⁽¹⁾ Regulation (EU) No 1303/2013 of the European Parliament and of the Council of 17 December 2013 laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund and the European Maritime and Fisheries Fund and repealing Council Regulation (EC) No 1083/2006 (OJ L 347, 20.12.2013, p. 320).

⁽²⁾ Commission Decision of 19 December 2013 on the setting out and approval of the guidelines for determining financial corrections to be made by the Commission to expenditure financed by the Union under shared management for non-compliance with the rules on public procurement (C(2013) 9527).

▼B*Article 27***Recovery**

1. The Joint Managing Authority shall be responsible for the recovery of any unjustified or ineligible expenditure and for the reimbursement to the Commission of its share or amounts recovered, in proportion to its contribution to the programme.

Where ineligible expenditure already covered by a payment is identified on receipt of the final report for a contract or following a control or an audit, the Joint Managing Authority shall make out recovery orders to the beneficiaries or contractors concerned.

2. Where the recovery relates to a claim against a beneficiary, contractor or partner established in a Member State and the Joint Managing Authority is unable to recover the debt within one year of issuing the recovery order, the Member State in which the beneficiary, contractor or partner is established shall pay the amount owing to the Joint Managing Authority and claim it back from the beneficiary, contractor or partner.

3. Where the recovery relates to a claim against a beneficiary, contractor or partner established in a partner country and the Joint Managing Authority is unable to recover the debt within one year of the issuing of the recovery order, the Joint Managing Authority shall refer the case to the Commission, which, on the basis of a complete file, shall take over the task of recovering the amounts owing from the beneficiary, contractor or partner established in the partner country or directly from the national authorities of that country.

4. Files transferred to a Member State or to the Commission shall contain all the documents needed for recovery as well as proof of steps taken by the Joint Managing Authority to the beneficiary or contractor with a view to recovering the amounts owed.

2. In this case the Joint Managing Authority shall refer the request to the Commission and transmit the final report within the deadline of three months following the decision of the Commission. After clearing the previous pre-financing payments, the Commission shall pay the final balance or, where appropriate, issue the final recovery order vis-à-vis the Joint Managing Authority. The Commission shall also decommit the balance of commitments.

The closure of the operational programme shall not prejudice the Commission's right to undertake, at a later stage, financial corrections vis-à-vis the Joint Managing Authority or the project beneficiaries if the final amount of the programme or the projects has to be readjusted as a result of controls carried out after the closure date.

▼M3

3. Where the Joint Managing Authority has not been able to declare to the Commission final amounts because of:
 - (a) projects suspended by a legal proceeding or by an administrative appeal having suspensory effect; or
 - (b) reasons of *force majeure* seriously affecting the implementation of all or part of the programme;
