Article 12

Conditions for the implementation of green harvesting

 - a adopt detailed provisions on the implementation of the measure, including:
 - (i) prior notification of green harvesting;
 - (ii) the amount of compensation to be paid;

The control referred to in point (d) of the first subparagraph shall include:

- (i) verification of the existence of the vineyard concerned and whether the given area has been properly tended;
- (ii) that all bunches have been totally removed or destroyed;
- (iii) which method has been used; each farmer applying for green harvesting aid shall keep evidence of the costs of the operation.

- 2 Green harvesting shall not be applied on the same parcel for two consecutive years.
- 3 In case of complete or partial damage of the crops due to in particular natural disaster within the meaning of Article 2(8) of Commission Regulation (EC) No 1857/2006⁽⁴⁾ before the date of green harvesting, no support shall be granted.

In case the application is withdrawn without duly justified reason they may provide for the producer concerned to bear the costs incurred concerning the treatment of its request.

Article 14

Compensation

- 1 Each year Member States shall calculate the direct costs of green harvesting according to the different methods manual, mechanical and chemical that they allow in relation to Article 12(1)(a)(iii). In case more than one method is used on the same given area, compensation shall be calculated on the basis of the cheapest method.
- 2 The Member States shall define the loss of revenue caused by green harvesting on the basis of objective and non-discriminatory criteria.

Subject to Article 12(4) of Regulation (EC) No 479/2008 Member States shall fix the level of support provided for in Article 12(3) of that Regulation on the basis of standard costs and standard assumptions of loss of revenue. Member States shall ensure that the calculations:
