- (3) It is incumbent upon the Council to adopt measures on the fixing and allocation of fishing opportunities by fishery or group of fisheries, including certain conditions functionally linked thereto, as appropriate. Fishing opportunities should be distributed among Member States in such a way as to assure each Member State relative stability of fishing activities for each stock or fishery and having due regard to the objectives of the common fisheries policy established in Regulation (EC) No 2371/2002.
- (4) The total allowable catches (TACs) should be established on the basis of the available scientific advice, by taking into account the biological and socioeconomic aspects whilst ensuring fair treatment between fishing sectors, as well as in light of the opinions expressed during the consultation of stakeholders, in particular at the meetings with the Advisory Committee on Fisheries and Aquaculture and the concerned Regional Advisory Councils.
- (5) For stocks subject to specific multiannual plans, the fishing opportunities should be established in accordance with the rules laid down in these plans. Consequently, catch limits and fishing effort limits for the cod stocks in the Baltic Sea should be established in accordance with the rules laid down in Council Regulation (EC) No 1098/2007 of

1. Member States shall allocate the right to vessels flying their flag and fishing with trawls, Danish seines or similar gear of a mesh size equal to or larger than 90 mm, with gillnets, entangling nets or trammel nets of a mesh size equal to or larger than 90 mm, with bottom set lines, longlines except drifting lines, handlines and jigging equipment, to be up to:
 - (a) 163 days absent from port in ICES Subdivisions 22-24, with the exception of the period from 1 to 30 April when Article 8(1)(a) of Regulation (EC) No 1098/2007 applies; and
 - (b) 160 days absent from port in ICES Subdivisions 25-28, with the exception of the period from 1 July to 31 August when Article 8(1)(b) of Regulation (EC) No 1098/2007 applies.
2. The maximum number of days absent from port per year for which a vessel may be present within the two areas referred to in point 1(a) and (b) fishing with the gears specified in point 1 may not exceed the maximum number of days absent from port allocated for one of these two areas.
3. By way of derogation from points 1 and 2, and where efficient management of fishing opportunities so requires, a Member State may allocate to vessels flying its flag the right to additional days absent from port where an equal amount of days absent from port is withdrawn from other vessels flying its flag that are subject to effort restriction in the same area and where the capacity, in terms of kW, of each of the donor vessels is equal to, or larger than, that of the receiving vessels. The number of receiving vessels may not exceed 10 % of the total number of vessels of the Member State concerned, as indicated in point 1.]
