Document Generated: 2023-11-21

Changes to legislation: There are currently no known outstanding effects for the Regulation (EU) No 305/2011 of the European Parliament and of the Council, Division 1.. (See end of Document for details)

ANNEX I

BASIC REQUIREMENTS FOR CONSTRUCTION WORKS

1. Mechanical resistance and stability

The construction works must be designed and built in such a way that the loadings that are liable to act on them during their constructions and use will not lead to any of the following:

- (a) collapse of the whole or part of the work;
- (b) major deformations to an inadmissible degree;
- damage to other parts of the construction works or to fittings or installed equipment as a result of major deformation of the load-bearing construction;
- (d) damage by an event to an extent disproportionate to the original cause.

Changes to legislation:

There are currently no known outstanding effects for the Regulation (EU) No 305/2011 of the European Parliament and of the Council, Division 1..
