[^{F1}Article 79]

Ports of weighing catches of herring, mackerel, horse mackerel and blue whiting

1 Catches of species referred to in Article 78 of this Regulation shall be weighed immediately on landing. However, catches of these species may be weighed after transport where:

- for a destination within a Member State the Member State concerned has adopted a control plan as referred to in Article 61(1) of the Control Regulation in accordance with the risk-based methodology described in Annex XXI,
- for a destination in another Member State the Member States concerned have adopted a common control programme as referred to in Article 61(2) of the Control Regulation in accordance with the risk-based methodology described in Annex XXII,

and where this control plan or common control programme has been approved by the Commission

2 Each Member State concerned shall establish at which of its ports the weighing of species referred to in Article 78 of this Regulation shall be carried out and shall ensure that all landings of such species are carried out in those ports. Such ports shall have:

- a established landing and transshipment times;
- b established landing and transshipment places;
- c established inspection and surveillance procedures.

3 The Member States concerned shall communicate to the Commission the list of such ports and the inspection and surveillance procedures applicable in those ports, including the terms and conditions for recording and transmitting the quantities of any such species within each landing.

4 Any changes to the lists of ports and to the inspection and surveillance procedures referred to in paragraph 3 shall be transmitted to the Commission, at least 15 days before they enter into force.

5 Member States shall ensure that all landings of species referred to in Article 78 of this Regulation by their vessels outside the European Union are carried out in ports expressly chosen for the purpose of weighing by third countries which have concluded agreements with the European Union concerning such species.

6 The Commission shall transmit the information referred to in paragraphs 3 and 4 as well as the list of ports chosen by third countries to all Member States concerned.

7 The Commission and the Member States concerned shall publish the list of ports and changes thereto on their official websites.

Article 80

Entry into a port of a Member State

1 For the purpose of weighing, the master of a fishing vessel or his representative shall inform the competent authorities of the Member State in which the landing is to be made, at least 4 hours in advance of entry to port of landing concerned of the following:

- a the port he intends to enter, the name of the vessel and its external registration letters and numbers;
- b the estimated time of arrival at that port;
- [^{F1}c] the quantities in kilograms live weight of herring, mackerel, horse mackerel and blue whiting retained on board;]
- d relevance geographical area(s) where the catch was taken; the zone shall refer to the sub-area and division or sub-division in which catch limits apply pursuant to Union law.

2 The master of [^{F1}a][^{F1}Union fishing vessel] which is under the obligation to record fishing logbook data electronically shall send the information referred to in paragraph 1 electronically to his flag Member State. The Member States shall transmit this information without delay to the Member State where the landing is to be made. The electronic fishing logbook data referred to in Article 15 of the Control Regulation and the information referred to in paragraph 1 may be sent in a single electronic transmission.

3 Member States may provide for a shorter notification period than laid down in paragraph 1. In such a case the Member States concerned shall inform the Commission 15 days before the entry into force of the shorter notification period. The Commission and the Member States concerned shall put this information on their websites.

[^{F1}Article 89

Monitoring of weighing

1 The weighing of catches of herring, mackerel, horse mackerel and blue whiting from the vessel shall be monitored by species. In the case of vessels pumping catch ashore the weighing of the entire discharge shall be monitored. In the case of landings of frozen herring, mackerel, horse mackerel and blue whiting, all boxes shall be counted and the methodology for calculating the average net weight of boxes provided for in Annex XVIII shall be monitored.

2 The following data shall be cross-checked in addition to those referred to in Article 88 of this Regulation:

- a quantities by species of herring, mackerel, horse mackerel and blue whiting recorded in the records of weighing at public or private facilities and the quantities by species recorded in the takeover declaration or the sales note;
- b quantities by species of herring, mackerel, horse mackerel and blue whiting recorded in any transport documents as part of a control plan or a common control programme referred to in Article 79(1) of this Regulation;
- c unique identity numbers of tankers entered into the record in accordance with Article 84(2)(b) of this Regulation.
