

**COMMISSION DELEGATED REGULATION (EU) No 1268/2012  
of 29 October 2012**

**on the rules of application of Regulation (EU, Euratom)  
No 966/2012 of the European Parliament and of the Council on  
the financial rules applicable to the general budget of the Union**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union <sup>(1)</sup>, and in particular Articles 8, 11, 13, 19, 21, 22, 23, 25, 26, 29, 30, 31, 34, 35, 38, 41, 44, 49, 53, 54, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 68, 69, 70, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 83, 84, 85, 86, 87, 88, 89, 90, 92, 93, 98, 99, 100, 101, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 121, 122, 123, 124, 125, 126, 128, 129, 130, 131, 132, 133, 134, 135, 137, 138, 139, 140, 142, 144, 145, 146, 148, 151, 154, 156, 157, 181, 183, 184, 186, 187, 188, 190, 191, 192, 195, 196, 199, 201, 203, 204, 205, 208 and 209 thereof,

Whereas:

- (1) Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities <sup>(2)</sup> has been substantially amended and replaced by Regulation (EU, Euratom) No 966/2012 (hereinafter ‘Financial Regulation’). It is therefore necessary to align Commission Regulation (EC, Euratom) No 2342/2002 of 23 December 2002 laying down detailed rules for the implementation of Council Regulation (EC, Euratom) No 1605/2002 on the Financial Regulation applicable to the general budget of the European Communities <sup>(3)</sup> to the Financial Regulation. In the interests of clarity, it is necessary to replace Regulation (EC, Euratom) No 2342/2002.
- (2) Under Article 290 of the Treaty on the Functioning of the European Union (hereinafter ‘TFEU’) a legislative act may delegate to the Commission the power to adopt non-legislative acts only to supplement or amend certain non-essential elements of the legislative act. Therefore, some provisions laid down in Regulation (EC, Euratom) No 2342/2002 have been incorporated in the Financial Regulation. Thus those provisions should not be included in this Regulation.
- (3) During its preparatory work, the Commission has carried out appropriate consultations, including at expert level and ensured a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and the Council.

<sup>(3)</sup> OJ L 357, 31.12.2002, p. 1.

**▼B**

- (4) As regards the budgetary principles, in particular the principle of unity, the simplification of the rules governing the generation and recovery of interest yielded on pre-financing, and in particular the waiver of the obligation for grant recipients to generate such interest, render obsolete the provisions on the scope and conditions for the recovery of the interest. Where such obligation would still be imposed on entities entrusted with budget implementation tasks, the rules governing the identification, use and accounting for the interest generated should be included in the delegation agreements with those entities. In those cases where the interest yielded on pre-financing is due to the Union on the basis of those agreements that interest should be paid to the budget as assigned revenue.
- (5) For the principle of annuality, it is important to clarify the meaning of annual appropriations and the preparatory stages of the commitment procedure which, if completed by 31 December, may allow the carryover of commitment appropriations.
- (6) As regards the principle of the unit of account, the rates to be used for conversion between the euro and the other currencies for the requirements of the management of the cash flow and the accounts should be specified. In addition, the transparency in the accounting for the results of such currency conversion operations should be further enhanced. Following the introduction of the euro, the obligation on the Commission to provide information to the Member States on cash transfers carried out between different currencies should be removed.
- (7) As regards the derogations from the principle of universality, the budget treatment to be given to assigned revenue, in particular to contributions by Member States or third countries to certain Union programmes, should be specified, as well as the limits on the netting of expenditure and revenue. In particular, having regard to the current practice, for reasons of legal certainty, it is necessary to clarify that as a general rule assigned revenue should generate commitment and payments appropriations automatically, as soon as the revenue has been received by the institution. It is also necessary to specify the cases where, by way of exception, assigned revenue can be made available before the revenue has actually been received by the institution.
- (8) As regards the principle of specification, a precise definition should be given of the calculation of the percentage of appropriations which the institutions are authorised to transfer by virtue of their autonomy. The European Parliament and the Council should receive full information through a detailed explanation of the requests for transfers which have to be submitted to them.
- (9) As for sound financial management, it is necessary to specify the objectives of the *ex ante*, interim and *ex post* evaluations of the programmes and activities, the minimum frequency with which they are to be carried out and the information to be given in the legislative financial statement.

**▼B**

- (10) As for the principle of transparency, publication of data by name relating to the recipients concerned and the precise amounts received by them increases transparency with respect to the use of the funds concerned. Such information made available to citizens reinforces public control of the use to which that money is put and contributes to the best use of public funds. At the same time, where recipients are natural persons, such publication is subject to the rules on protection of personal data. Therefore personal data should be published only if it is necessary and proportionate with respect to the legitimate aim pursued.
- (11) The information on the use of Union funds should be published on an internet website of the institutions and should include at least the name, the locality, the amount and the purpose of the funds. That information should take into account the criteria laid down in Article 35(3) of the Financial Regulation, in particular the type and the importance of the award.
- (12) The name and locality of the recipients of Union funds should be published for prizes, grants and contracts awarded following the opening-up of a public procedure to competition, as it is the case in particular for contests, call for proposals and call for tenders, in the respect the principles of the TFEU and in particular the principles of transparency, proportionality, equal treatment and non-discrimination. Moreover such publication should contribute to the control of the public selection procedures by the rejected applicants of the competition.
- (13) The publication of personal data referring to natural persons should not exceed the duration during which the funds are being used by the recipient and should therefore be removed after two years. The same should apply to personal data referring to legal persons for whom the official title identifies one or more natural persons.
- (14) In most of the cases covered by this Regulation, the publication concerns legal persons.
- (15) When natural persons are concerned, such publication should only be envisaged respecting the principle of proportionality between the importance of the amount granted and the need to control the best use of the funds. Where natural persons are concerned, the publication of the region on NUTS 2 level is consistent with the objective of publication of recipients, ensures equal treatment between Member States of different sizes while respecting the recipients' right to private life and in particular the protection of their personal data.
- (16) Information on scholarships, and other direct support paid to natural persons in most need should remain exempt from publication.

**▼B**

- (17) In order to ensure the respect of the principle of equal treatment between recipients, the publication of information related to natural persons should also be ensured in line with the obligation for the Member States to establish a large transparency of the contracts above the amount laid down in Directive 2004/18/EC of the European Parliament and of the Council of 31 March 2004 on the coordination of procedures for the award of public works contracts, public supply contracts and public service contracts <sup>(1)</sup>.
- (18) The name and the locality of the recipient and the amount and the purpose of the funds should not be published if it risks endangering the integrity of the recipient as protected by the Charter of Fundamental Rights of the European Union or would harm the legitimate commercial interests of the recipient.
- (19) The budgetary nomenclature should provide clarity and transparency necessary for the budgetary process.
- (20) Acts likely to constitute a conflict of interests should also be defined.
- (21) In respect of indirect management, it is necessary to lay down the framework of such delegation of powers and the content of the delegation agreement. Any entity or person entrusted with budget implementation tasks should guarantee a level of protection of the financial interests of the Union which is equivalent to that required under the Financial Regulation. The conditions under which the Commission may accept that the systems, rules and procedures of these entities or persons are equivalent to its own should be laid down in order to ensure sound financial management of Union funds by the entrusted entities.
- (22) The executive agencies, which remain under Commission control, should be recognised as authorising officers by delegation of that institution for implementation of the Union budget.
- (23) In the case of indirect management with international organisations, the organisations eligible for this kind of management should be identified.
- (24) Where budget implementation tasks are entrusted to public bodies or bodies governed by private law with a public service mission, the conditions of their designation should be set out.
- (25) For indirect management it is necessary to establish detailed rules for the procedures for the examination and acceptance of accounts and for the exclusion from Union financing of expenditure for which disbursements have been made in breach of applicable rules.

---

<sup>(1)</sup> OJ L 134, 30.4.2004, p. 114.

**▼B**

- (26) Private-law entities performing preparatory or ancillary tasks on the Commission's behalf should be selected in accordance with procurement procedures.
- (27) As regards the role of the financial actors, the reform of financial management, together with the abolition of centralised *ex ante* controls, increases the responsibilities of the authorising officers in all revenue and expenditure operations, including in terms of internal control systems. The European Parliament and Council should in future be informed of the appointment or termination of duties of an authorising officer by delegation. Consequently, the tasks, responsibilities and principles of the procedures to be observed should also be laid down. The internalisation of *ex ante* controls requires, in particular, a clear distinction between tasks relating to the initiation of operations in implementation of the budget and tasks relating to the verification of such operations. Moreover, each institution should adopt a code of professional standards applicable to the staff responsible for *ex ante* and *ex post* verifications. It is also necessary to provide that the responsibilities assumed are accounted for in an annual report to the institution which is in charge of, inter alia, the *ex post* verifications. The supporting documents relating to the operations carried out should be kept. Finally, all the various forms of negotiated procedure for the award of public contracts should, since those contracts represent derogations from the usual award procedures, be the subject of a special report to the institution and of a communication to the European Parliament and Council.
- (28) Regulation (EC, Euratom) No 2342/2002 should be adapted to take into account the double role of the head of delegation as authorising officer by subdelegation for the European External Action Service (hereinafter 'EEAS') and, as regards operational appropriations, for the Commission.
- (29) In order to clarify responsibilities, a precise definition should also be given of the tasks and responsibilities of the accounting officer in connection with the accounting systems, treasury management, the management of bank accounts and third-party files. The arrangements for the termination of the accounting officer's duties should also be established.
- (30) The conditions for the use of imprest accounts, a system of management which constitutes an exception to normal budgetary procedures, should also be laid down, and the tasks and responsibilities of the imprest administrators, as well as those of the authorising officer and accounting officer in connection with the control of imprest accounts, should be set out. The European Parliament and Council should be informed of any appointment or termination of duties. For reasons of efficiency, only one imprest account should be set up in delegations, for appropriations from both the Commission and EEAS sections of the Budget. It has proven necessary to introduce the possibility to use debit cards linked to imprest accounts in order to facilitate payments in particular in the Union delegations and representations, and avoid the risks associated with handling cash.

**▼B**

- (31) Once the tasks and responsibilities of each financial actor have been defined, they may be held liable only under the conditions laid down in the Staff Regulations of Officials of the European Union and the Conditions of Employment of Other Servants of the European Union. The specialised financial irregularities panel set up in each institution have proven to be an efficient mechanism to determine whether irregularities of a financial nature have occurred and should therefore be maintained. It is necessary to lay down the procedure by which an authorising officer may seek confirmation of an instruction which that officer considers to be irregular or contrary to the principle of sound financial management, and thus be released from any liability.
- (32) As regards revenue, except for the special case of own resources covered by Council Decision 2007/436/EC, Euratom of 7 June 2007 on the system of the Communities' own resources <sup>(1)</sup> it is necessary to specify the tasks and controls falling within the responsibility of the authorising officers at the different stages of the procedure: establishment of the estimate of amounts receivable, recovery order, dispatch of the debit note informing the debtor that the amount receivable has been established, calculation of any default interest due, and the decision, where necessary, to waive an entitlement subject to criteria guaranteeing compliance with sound financial management in order to ensure a efficient collection of revenues.
- (33) It is necessary to specify the role of the accounting officer in the collection of revenue and in allowing any additional time for payment of expenditures. The accounting officer should also have a flexibility in the recovery of payments such as the possibility to offset debts directly, or in exceptional circumstances to waive the requirement of lodging a guarantee to repay a debt, when the debtor is willing and able to make the payment in the additional time period but is not able to lodge such guarantee taking due account of the principle of proportionality.
- (34) In order to secure the management of assets whilst also yielding financial remuneration, it is necessary to have the amounts provisionally cashed, such as competitions fines which are being contested, invested in financial assets, and to determine the assignment of the interests yielded by those investments.
- (35) In order to ensure that the Commission has all the necessary information for the adoption of the financing decisions, it is necessary to lay down the minimum requirements for the contents of financing decisions on grants, procurement, trust funds, prizes and financial instruments.
- (36) As regards expenditure, the relationship between financing decisions, global commitments and individual commitments as well as characteristics of those different stages should be defined in order to establish a clear framework for the different stages of budget implementation.

<sup>(1)</sup> OJ L 163, 23.6.2007, p. 17.

**▼B**

- (37) It is necessary to clarify the relationship between validation, authorisation and payment operations and the controls to be carried out by the authorising officer when validating expenditure, with the endorsement 'passed for payment'. The documents to be produced in support of payments should be specified and rules laid down for the clearing of pre-financing and interim payments.
- (38) Detailed rules for the application of time limits applicable for validation and payment operations should be laid down, taking into account Directive 2011/7/EU of the European Parliament and of the Council of 16 February 2011 on combating late payment in commercial transactions <sup>(1)</sup> in order to ensure there is no undue delay for payments to recipients.
- (39) For the internal audit, it is necessary to lay down the procedure for appointing the auditor and to guarantee his independence within the institution which has appointed him and to which he must report on his activities. The European Parliament and Council should be informed of any appointment or termination of duties in order to ensure transparency towards the European Parliament and the Council.
- (40) Rules on procurement should be based on Directive 2004/18/EC. It is necessary to define the various types of procurement procedures, the advertising and publication measures applicable, the conditions in which use may be made of a particular type of procedure and the main features of the existing procedures, the specification of selection and award criteria, rules for access to tender documents and for communication with tenderers or candidates and, for cases where the Commission awards contracts on its own account, the thresholds applicable and the rules for estimating the value of the contracts to be awarded.
- (41) The purpose of the procedures for the award of contracts is to satisfy the needs of the institutions on the best possible terms while guaranteeing equal access to public contracts and complying with the principles of transparency and non-discrimination. With a view to ensuring transparency and the equal treatment of candidates and tenderers, as well as the full responsibility of authorising officers in the final choice, it is necessary to lay down the procedure for opening and then evaluating tenders and requests to participate, from the appointment of a committee up to the substantiated and documented award decision, which ultimately rests with the contracting authority.
- (42) On the basis of past experience, it is necessary to establish a new procurement procedure for middle value contracts. It is necessary to allow the use of the 'vendors' list' under the same conditions as the existing 'call for expression of interest' as that list provides for less administrative burden for potential tenderers.
- (43) In order to protect the Union financial interests during contract execution, it is necessary to provide for a possibility to require the entities providing financial capacity in procurement to be jointly liable for the execution of the corresponding contract.

<sup>(1)</sup> OJ L 48, 23.2.2011, p. 1.

**▼B**

- (44) In order to protect the Union financial interests and to guarantee control over the contract execution, it is necessary to provide for a possibility to require the contractor to perform himself directly certain critical tasks.
- (45) In order to guarantee execution of a contract to the highest professional standard, it is necessary to provide for a possibility to reject the tenderers who have potential conflicts of interest.
- (46) Given that the request for financial guarantees is no longer automatic, it is necessary to lay down the criteria according to which they may be requested.
- (47) It is necessary to clarify the scope of the Title on grants, particularly with regard to the type of action or body of general European interest eligible for a grant as well as with regard to the types of legal commitments that may be used to cover grants. For those legal commitments, the criteria for choosing between agreements and decisions, their minimum content and the possibility to conclude specific grant agreement or decision under framework partnerships should be specified, so as to ensure equal treatment and avoid restricting access to Union funding.
- (48) The scope of the Title on grants should also take account of the introduction in the Financial Regulation of, on the one hand, specific titles on prizes and financial instruments and, on the other hand, of the key rules applicable to grants, eligible costs, deletion of the degressivity principle, use of simplified forms of grants (lump sums, unit costs and flat rates) and removal of compulsory submission of pre-financing guarantees.
- (49) Progress towards electronic exchange of information and electronic submission of documents, which constitute a major simplification measure, should be accompanied by clear conditions for the acceptance of the systems to be used, so as to establish a legally sound environment.
- (50) The no-profit and co-financing principles should be revised in line with the clarifications and simplification measures introduced in the Financial Regulation. In particular, for the sake of clarity, it is necessary to establish detailed rules on the types of receipts to be retained for the no-profit principle as well as the forms of external co-financing and in kind contributions.
- (51) With regard to the transparency principle, adoption and publication of multiannual work programmes should be authorised, since they have an added value for applicants, which can more easily anticipate and better prepare for calls for proposals. In this context, the conditions under which work

**▼B**

programmes may be considered as the financing decisions should be specified. To ensure transparency, it is also necessary to publish calls for proposals, except in cases of urgency or where the action may only be implemented by one entity. It is necessary to specify the minimum content of such publication.

- (52) As the eligibility conditions for value added tax (VAT) paid by beneficiaries is prone to errors and discrepancies, there is a need to ensure that the notions of non-recoverable VAT and non-taxable persons within the meaning of Article 13(1) of the Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax<sup>(1)</sup> are consistently understood and applied, by reference to the activities that those notions encompass.
- (53) In order to ensure transparency, equal treatment for applicants and the enhancement of the accountability of authorising officers, it is necessary to lay down the award procedure, from the application for the grant, for which the Commission should have provided minimum information for applicants, to its evaluation in the light of previously specified eligibility, selection and award criteria before the authorising officer responsible takes his final, appropriately documented decision. It is necessary to establish detailed rules on the composition and tasks of the committee in charge of assessing the proposals against the selection and award criteria, as well as the possibilities to contact applicants during the award procedure or to invite them to adjust their proposals. Those possibilities should properly reflect the requirements in terms of good administration introduced in the Financial Regulation and should include the conditions under which proposals may be adjusted before signature of the grant agreements or notification of the grant decisions, while ensuring equal treatment of applicants and compliance with the principle according to which initiative for the actions lies solely with the applicants.
- (54) The use of lump sums, unit costs and flat rates being facilitated and broadened under the Financial Regulation, the definitions of those simplified forms of grants should be clarified. It is in particular necessary to clarify that they are meant, as any form of grant, to cover categories of eligible costs and indicate that their amounts should not necessarily be fixed *ex ante*, which is particularly relevant where they are determined on the basis of the beneficiary's usual cost accounting practices. There is also a need to ensure stability in the rules of funding under a specific programme. For that purpose, it should be allowed to use the simplified forms of grants for its full duration. For statistical, methodological or fraud-prevention and detection purposes, it is necessary to have access to general accounting information from a beneficiary, even where those are financed by way of lump sums, unit costs or flat rates. Those verifications, however, should not be used for questioning the unit values of the lump sums, unit costs or flat rates already agreed on.

<sup>(1)</sup> OJ L 347, 11.12.2006, p. 1.

**▼B**

- (55) Sound financial management requires that the Commission protect itself with guarantees. At the stage of grant applications, by arranging financial audits for applications involving larger amounts, at the time of paying pre-financing, where the risks as assessed by the authorising officer justify, by requiring advance financial guarantees and at the stage of interim payment or payment of the balance, by arranging submission of certificates established by auditors for the payment requests which involve the largest amounts and which present most risk.
- (56) The conditions and procedures for suspending and reducing grants should be clarified, so as to better define the grounds for such suspension or reduction, provide adequate information to beneficiaries and ensure that the beneficiaries have the possibility to exercise their right of defence at any stage.
- (57) Sound management of Union funds also means that the grant beneficiaries themselves use Union grants with economy and efficiency. In particular, the costs of contracts awarded by beneficiaries to implement the action should be eligible provided those implementation contracts are awarded to the tender offering best value for money.
- (58) As the restrictions on recourse to financial support to third parties are softened in the Financial Regulation, it is necessary to lay down the minimum provisions to be agreed on at the level of the grant agreement or to be inserted in the grant decision in order to clearly differentiate the award of financial support to third parties by a beneficiary from the implementation of budget tasks by a delegatee under indirect management.
- (59) Powers for imposing penalties on grant beneficiaries should be aligned with those conferred in the context of procurement considering that they are of the same nature and should be subject to the same rules in terms of effectiveness and proportionality.
- (60) Prizes should be subject to the principles of transparency and equal treatment, in the same way as grants. In that context, the minimum characteristics of work programmes and of contests should also be laid down, taking account of the corresponding requirements for grants. In particular, the conditions under which the work programmes may be considered as financing decisions, as well as the minimum content of rules of contest, notably the conditions for paying the prize to the winners in case of award, and the appropriate publication means should be specified.
- (61) Compliance with the transparency and equal treatment principles also requires the establishment of a clearly defined award procedure, from submission of the entries to information of applicants and notification to the winning participant. That procedure should include evaluation of the entries by a panel of experts appointed by the authorising officer responsible,

**▼B**

using the award criteria announced in the rules of the contest in order to ensure competence and neutrality in the assessment of entries. Based on their recommendations, the authorising officer responsible should take the final decision on the award of the prize since the responsibility for budget implementation always lies with the Commission.

- (62) In order to ensure a harmonised implementation of the various financial instruments within the Commission, the general framework included in Title VIII of the Financial Regulation should be complemented by detailed rules for the management of financial instruments, including provisions for the selection of entrusted entities, content of delegation agreements, management costs and fees and for fiduciary accounts.
- (63) Rules for the selection of financial intermediaries and final recipients should be defined in particular where financial instruments are managed directly in exceptional cases, either through dedicated investment vehicles or other delivery mechanisms, thereby ensuring efficient spending of Union funds.
- (64) It is necessary to determine the conditions for the use of financial instruments, including the leverage effect, and the monitoring framework. It is also necessary to ensure that financial instruments are implemented on the basis of a robust *ex ante* evaluation, which allows the Commission to design them specifically to respond to market failures and suboptimal investment situations.
- (65) As regards the keeping and presentation of the accounts, the generally accepted accounting principles on which the financial statements must be based are defined in the Union accounting rules. These accounting rules also specify the conditions for entering a transaction in the accounts and the rules for valuing assets and liabilities and for the constitution of provisions in order to ensure that information is properly presented, complete and accurate.
- (66) On accounting matters, it should be specified that the accounting officer of each institution must produce documents describing the organisation of the accounts and the accounting procedures of that institution and define the conditions to be respected by the computerised accounting systems, in particular in order to ensure security of access and the audit trail for any changes made to the systems.
- (67) As regards the keeping of the accounts, it is necessary to specify the principles applicable to the accounting ledgers, the trial balance, the periodical reconciliation of the totals in that balance and the inventory, and to specify the components of the chart of accounts adopted by the Commission's accounting officer. The rules applicable to the registration of operations, in particular the

**▼B**

double-entry method, the rules for the conversion of operations which are not denominated in euro and the supporting documents for accounting entries, should be laid down. The content of the accounting records should also be specified.

- (68) It is necessary to lay down the rules relating to the property inventory and to clarify the respective responsibilities in this field of the accounting officers and authorising officers, as well as the rules applicable to the resale of property entered in the inventory with the view to an efficient asset management.
- (69) For external actions, this Regulation, in line with the Financial Regulation, should provide for exceptions which reflect the specific operational features of that sector, mainly as regards procurement and the award of grants, notably because these procedures are carried out by the authorities of third countries receiving Union financial support. As regards procurement, such differences should mainly pertain to types of procedures and thresholds from which they apply. As regards grants, full financing should be allowed in certain cases, mainly to take the reduced co-financing capacity of the beneficiaries into account.
- (70) It is necessary to establish detailed provisions concerning the use of budget support, specifying the conditions under which budget support may be used and the obligation of the partner to provide the Commission with timely and reliable information to evaluate the fulfilment of those conditions.
- (71) In regard to Union Trust Funds, it is necessary to specify the principles applicable to the Union contribution to Union Trust Funds as well as to the contributions of the other donors, to lay down the accounting and reporting rules of the Union Trust Fund, in particular for the interest matured in the bank account of the trust fund, to clarify the respective responsibilities of the financial actors and of the Board of the Trust Fund, as well as to define external audit obligations. It is also necessary to ensure a fair representation of the participating donors in the Board of the Trust Fund and to ensure a mandatory positive vote of the Commission for the use of the funds.
- (72) In order to simplify procurement procedures under external actions, some thresholds have been modified and other thresholds and management procedures coming from the common provisions have been added and adapted.
- (73) As for grants, the conditions for derogating from the principle of co-financing should be streamlined in line with the Financial Regulation.
- (74) To guarantee the sound management of Union appropriations, it is also necessary to specify the pre-conditions and the rules to be included in the agreements when the management of appropriations is decentralised or if imprest accounts are used.

**▼B**

- (75) It is appropriate to define the European Offices and to set out specific rules for the Publications Office and provisions authorising the Commission's accounting officer to delegate some of his tasks to staff in those Offices. Operating procedures should also be laid down for the bank accounts which the European Offices may be authorised to open in the Commission's name.
- (76) By analogy with the publication of information on recipients of Union's funds, the list of experts referred to in Article 204 of the Financial Regulation selected through a call for expressions of interest and the subject of their tasks should be published. Their remuneration should also be published when it exceeds EUR 15 000.
- (77) The new procedure introduced in Article 203 of the Financial Regulation should be complemented, in particular regarding the type of costs to be included in the thresholds established therein. It is necessary to establish detailed rules on the building projects in Union delegations given their specificities, in particular in cases of urgency. It is appropriate to provide that residential buildings, namely in delegations, which need to be rented or purchased within a short period of time, should be excluded from the procedure laid down in Article 203 of the Financial Regulation. The acquisition of land for free or for a symbolic amount should not fall within the procedure laid down in Article 203 of the Financial Regulation as it does not impose in itself an additional burden to the budget.
- (78) To ensure the coherence with the provisions of the Financial Regulation it is necessary to establish transitional provisions. Moreover, in order to ensure coherence with the sectorial legal basis, it is appropriate to defer application of the provisions on the management modes and financial instruments to 1 January 2014,

HAS ADOPTED THIS REGULATION:

PART ONE  
**COMMON PROVISIONS**

TITLE I  
**SUBJECT MATTER**

*Article 1*

**Subject matter**

This Regulation lays down the rules of application for Regulation (EU, Euratom) No 966/2012 (hereinafter 'the Financial Regulation').

**▼B**

TITLE II  
**BUDGETARY PRINCIPLES**

*CHAPTER 1*

*Principles of unity and budgetary accuracy*

*Article 2*

**Accounting for interest yielded on pre-financing**  
**(Article 8(4) of the Financial Regulation)**

Where interest is due to the budget, the agreement concluded with the entities or persons listed in points (ii) to (viii) of Article 58(1)(c) of the Financial Regulation shall stipulate that pre-financing is paid to bank accounts or sub-accounts which allow the funds and related interest to be identified. Otherwise, the accounting methods of the recipients or intermediaries must make it possible to identify the funds paid by the Union and the interest or other benefits yielded by those funds.

Provisions of this Regulation concerning interest on pre-financing shall be without prejudice to the entry of pre-financing on the assets side of financial statements, as laid down in the accounting rules referred to in Article 143 of the Financial Regulation.

*CHAPTER 2*

*Principle of annuality*

*Article 3*

**Appropriations for the financial year**  
**(Article 11(3) of the Financial Regulation)**

The commitment appropriations and payment appropriations authorised for the financial year shall consist of:

- (a) appropriations provided in the budget, including by amending budgets;
- (b) appropriations carried over;

If, in the course of the financial year, additional appropriations are provided on the budget lines with EFTA State participation without the EFTA States being able, during that year, to adjust their contributions accordingly in order to comply with the ‘proportionality factor’ provided for in Article 82 of the EEA Agreement, the Commission may, as a provisional and exceptional measure, use its cash resources to pre-finance the share of the EFTA States. If the instruction is confirmed in writing and that confirmation is received in good time and is sufficiently clear, in that it refers explicitly to the points which the authorising officer by delegation or subdelegation has challenged, the authorising officer may not be held liable. He shall carry out the instruction, unless it is manifestly illegal or constitutes a breach of the relevant safety standards.

2. Paragraph 1 shall also apply in cases where an authorising officer learns, in the course of acting on a binding instruction, that the circumstances of the case may give rise to an irregular situation.

However, in agreement with the Member State or administrative entity concerned, the accounting officer may proceed with the recovery by offsetting before the deadline has passed.

3. The offsetting referred to in paragraph 1 shall have the same effect as a payment and discharge the Union for the amount of the debt and, where appropriate of the interest due.

*Article 88***Recovery procedure failing voluntary payment****(Articles 79 and 80 of the Financial Regulation)**

In exceptional circumstances, following a request by the debtor, the accounting officer may waive the requirement of a guarantee referred to in point (b) of the first paragraph when, on the basis of his assessment, the debtor is willing and able to make the payment in the additional time period but is not able to lodge such guarantee and is in a distressed situation.

*Article 90***Recovery of fines or other penalties****(Articles 80 and 83 of the Financial Regulation)**

1. Where an action is brought before the Court of Justice of the European Union against a Commission decision imposing a fine or other penalties under the TFEU or Euratom Treaty and until such time as all legal remedies have been exhausted, the debtor shall either provisionally pay the amounts concerned on the bank account designated by the accounting officer or provide a financial guarantee acceptable to the accounting officer. The guarantee shall be independent of the obligation to pay the fine or penalty payment or other penalties and shall be enforceable upon first call. It shall cover the claim as to principal and the interest due as specified in Article 83(4).

2. The Commission shall secure the provisionally cashed amounts by having them invested in financial assets thus ensuring the security and liquidity of the monies whilst also aiming at yielding a positive return.

3. After the exhaustion of all legal remedies and where the fine or penalty has been confirmed any of the following measures shall be taken:

- (b) where the amount receivable cannot be recovered in view of its age or the insolvency of the debtor;
- (c) where recovery is inconsistent with the principle of proportionality.

2. In the case referred to in point (c) of paragraph 1, the authorising officer responsible shall act in accordance with predetermined procedures established within each institution and shall apply the following criteria which are compulsory and applicable in all circumstances:

- (a) the facts, having regard to the gravity of the irregularity giving rise to the establishment of the amount receivable (fraud, repeat offence, intent, diligence, good faith, manifest error);
- (b) the impact that waiving recovery would have on the operation of the Union and its financial interests (amount involved, risk of setting a precedent, undermining of the authority of the law).

Depending on the circumstances of the case, the authorising officer responsible may also have to take the following additional criteria into account:

- (a) any distortion of competition that would be caused by the waiving of recovery;
- (b) the economic and social damage that would be caused were the debt to be recovered in full.

3. The waiver decision referred to in Article 80(2) of the Financial Regulation shall be substantiated and shall refer to the diligence exercised to secure recovery and the points of law and fact on which the waiver is based. The authorising officer responsible shall waive recovery in accordance with Article 84.

**▼B**

4. The waiving of recovery of an established amount receivable may not be delegated by the institution in any of the following cases:

- (a) where the amount to be waived is EUR 1 000 000 or more;
- (b) where the amount to be waived is EUR 100 000 or more, where this represents 25 % or more of the established amount receivable.

Beneath the thresholds set out in the first subparagraph, each institution shall lay down in its internal rules the conditions and procedure for delegating the power to waive recovery of an established debt.

5. Each institution shall send to the European Parliament and Council each year a report on the waivers referred to in paragraphs 1 to 4 of this Article involving EUR 100 000 or more. In the case of the Commission, that report shall be annexed to the summary of the annual activity reports referred to in Article 66(9) of the Financial Regulation.

The limitation period for entitlements of third parties in respect of the Union shall be interrupted by any act notified to the Union by its creditors or on behalf of its creditors aiming at recovering the debt.

**▼B**

3. A new limitation period of five years shall begin to run on the day following the interruptions referred to in paragraph 2.
4. Any legal action relating to an amount receivable as referred to in paragraph 1, including actions brought before a court which later declares itself not to have jurisdiction, shall interrupt the limitation period. The new limitation period of five years shall not begin until a judgment having the force of *res judicata* is given or there is an extra-judicial settlement between the same parties on the same action.
5. Where the accounting officer allows the debtor additional time for payment in accordance with Article 89, this shall be considered as an interruption of the limitation period. The new limitation period of five years shall begin to run on the day following the expiry of the extended time for payment.
6. Entitlements shall not be recovered after the expiry of the limitation period, as established in paragraphs 1 to 5.

The contracting authority may not include other economic operators that did not initially request to participate or that it did not initially invite.

5. During a negotiation, the contracting authority shall ensure equal treatment for all tenderers.

A negotiation may take place in successive stages in order to reduce the number of tenders to be negotiated by applying the award criteria specified in the procurement documents. The contracting authority shall indicate whether it will use that option in the procurement documents.

6. For the procedures laid down in points (d) and (g) of Article 134(1) and Articles 136a and 137, the contracting authority shall invite at least all economic operators who have expressed interest following *ex ante* publicity as set out in Article 124(1) or prospection of the local market or a design contest.

The innovation partnership shall set intermediate targets to be attained by the partners.

Based on those intermediate targets, the contracting authority may decide after each phase to terminate the innovation partnership or, in the case of an innovation partnership with several partners, to reduce the number of partners by terminating individual contracts, provided that the contracting authority has indicated in the procurement documents those possibilities and the conditions for their use.

2. Before launching an innovation partnership, the contracting authority shall consult the market as provided for in Article 137a in order to ascertain that the work, supply or service does not exist on the market or as near-to-market development activity.

It shall indicate which elements of this description define the minimum requirements. The information provided shall be sufficiently precise to enable economic operators to identify the nature and scope of the required solution and decide whether to request to participate in the procedure.

The contracting authority may decide to set up the innovation partnership with one partner or with several partners conducting separate research and development activities.

The contracts shall be awarded on the sole basis of the best price-quality ratio as set out in Article 110(4) of the Financial Regulation.

3. In the procurement documents, the contracting authority shall specify the arrangements applicable to intellectual property rights.

In the framework of the innovation partnership, the contracting authority shall not reveal to the other partners solutions proposed or other confidential information communicated by a partner without its agreement.

The contracting authority shall ensure that the structure of the partnership and, in particular, the duration and value of the different phases reflect the degree of innovation of the proposed solution and the sequence of the research and innovation activities required for the development of an innovative solution not yet available on the market. The estimated value of works, supplies or services shall not be disproportionate in relation to the investment required for their development.

*Article 130***Design contests****(Article 104(1) of the Financial Regulation)**

2. The jury shall be appointed by the authorising officer responsible. It shall be composed exclusively of natural persons who are independent of candidates in the contest. Where a particular professional qualification is required from candidates in a contest, at least one third of the members of the jury must have the same or an equivalent qualification.

The jury shall be autonomous in its opinions. Its opinions shall be adopted on the basis of projects submitted to it anonymously by the candidates and solely in the light of the criteria set out in the contest notice.

**▼ M1**

3. The proposals of the jury, based on the merits of each project, and its ranking and remarks, shall be recorded in a report signed by its members.

Candidates shall remain anonymous until the jury has given its opinion.

Candidates may be asked by the jury to answer the questions recorded in the report in order to clarify a project. A full report of the resulting dialogue shall be drawn up.

4. The contracting authority shall then take an award decision giving the name and address of the candidate selected and the reasons for the choice by reference to the criteria announced in the contest notice, especially if it departs from the proposals made in the jury's opinion.

*Article 131***Dynamic purchasing system****(Article 104(6) of the Financial Regulation)**

1. The dynamic purchasing system is a completely electronic process for making commonly used purchases, which is open throughout its duration to any economic operator who satisfies the selection criteria. It may be divided into categories of works, supplies or services that are objectively defined on the basis of characteristics of the procurement to be undertaken under the category concerned. In this case, selection criteria must be defined for each category.

2. The contracting authority shall indicate in the procurement documents the nature and estimated quantity of the purchases envisaged and all the necessary information concerning the purchasing system, the electronic equipment used and the technical connection arrangements and specifications.

3. The contracting authority shall give any economic operator, throughout the period of validity of the dynamic purchasing system, the possibility of requesting to participate in the system. It shall complete its evaluation of such requests within 10 working days of receipt of that request. This deadline may be prolonged to 15 working days where justified. However, the contracting authority may extend the evaluation period provided that no invitation to tender is issued in the meantime.

The contracting authority shall inform the candidate at the earliest possible opportunity of whether or not it has been admitted to the dynamic purchasing system.

4. The contracting authority shall invite all candidates admitted to the system under the relevant category to submit a tender within a reasonable time. The contracting authority shall award the contract to the tenderer who has submitted the most economically advantageous tender on the basis of the award criteria set out in the contract notice. Those criteria may, if appropriate, be formulated more precisely in the invitation to tender.

**▼M1**

5. The contracting authority shall indicate the period of validity of the dynamic purchasing system in the contract notice.

A dynamic purchasing system may not last for more than four years, except in duly justified exceptional cases.

The contracting authority may not resort to this system to prevent, restrict or distort competition.

*Article 132***Competitive dialogue****(Article 104(1) of the Financial Regulation)**

1. The contracting authority shall specify its needs and requirements, the award criteria and an indicative timeframe in the contract notice or in a descriptive document.

It shall award the contract to the tender offering the best price-quality ratio.

2. The contracting authority shall open a dialogue with the candidates satisfying the selection criteria in order to identify and define the means best suited to satisfying its needs. It may discuss all aspects of the procurement with the selected candidates during this dialogue but it cannot alter its needs and requirements and award criteria as provided for in paragraph 1.

During the course of dialogue, the contracting authority shall ensure equality of treatment among all tenderers and shall not reveal the solutions proposed or other confidential information communicated by a tenderer without its agreement to waive that confidentiality.

The competitive dialogue may take place in successive stages in order to reduce the number of solutions to be discussed by applying the announced award criteria if provision is made for this possibility in the contract notice or the descriptive document.

3. The contracting authority shall continue the dialogue until it can identify the solution or solutions which are capable of meeting its needs.

After informing the remaining tenderers that the dialogue is concluded, the contracting authority shall ask each of them to submit their final tenders on the basis of the solution or solutions presented and specified during the dialogue. These tenders shall contain all the elements required and necessary for the performance of the project.

At the request of the contracting authority, these final tenders may be clarified, specified and optimised provided this does not involve substantial changes to the tender or to the procurement documents.

The contracting authority may negotiate with the tenderer having submitted the tender offering the best price-quality ratio to confirm

**▼ M1**

commitments contained in the tender provided this does not have the effect of modifying substantial aspects of the tender and does not risk distorting competition or causing discrimination.

4. The contracting authority may specify payments to the selected candidates taking part in the dialogue.

*Article 133***Interinstitutional procedures****(Article 104a(1) of the Financial Regulation)**

In the case of an interinstitutional procedure, one contracting authority shall manage the procedure and the subsequent direct or framework contract acting on its own behalf and on behalf of the other contracting authorities concerned.

The contract notice shall indicate the contracting authorities referred to in Article 104a(1) of the Financial Regulation which are involved in the procurement procedure, the institution responsible for the procedure and the global volume of the contracts for all those contracting authorities.

*Article 134***Use of a negotiated procedure without prior publication of a contract notice****(Article 104(5) of the Financial Regulation)**

1. When the contracting authority uses the negotiated procedure without prior publication of a contract notice, it shall follow the arrangements on negotiation set out in Article 104(4) of the Financial Regulation and in Article 128(5) of this Regulation.

The contracting authority may use the negotiated procedure regardless of the estimated value of the contract, in the following cases:

- (a) where no tenders, or no suitable tender, or no request to participate or no suitable request to participate as provided for in paragraph 2 have been submitted in response to an open procedure or restricted procedure after this procedure has been completed, provided that the original procurement documents are not substantially altered;
- (b) where the works, supplies or services can only be provided by a single economic operator under the conditions set out in paragraph 3 and for any of the following reasons:
  - (i) the aim of the procurement is the creation or acquisition of a unique work of art or artistic performance;
  - (ii) competition is absent for technical reasons;
  - (iii) the protection of exclusive rights including intellectual property rights must be ensured;

**▼ M1**

- (c) in so far as is strictly necessary where, for reasons of extreme urgency brought about by unforeseeable events, it is impossible to comply with the time limits laid down in Articles 152, 154 and 275 and where the justification of such extreme urgency is not attributable to the contracting authority;
- (d) where a service contract follows a design contest and is to be awarded to the winner or to one of the winners; in the latter case, all winners must be invited to participate in the negotiations;
- (e) for new services or works consisting in the repetition of similar services or works entrusted to the economic operator to which the same contracting authority awarded an original contract, provided that these services or works are in conformity with a basic project for which the original contract was awarded after publication of a contract notice, subject to the conditions set out in paragraph 4;
- (f) for supply contracts:
  - (i) for additional deliveries which are intended either as a partial replacement of supplies or installations or as the extension of existing supplies or installations, where a change of supplier would oblige the contracting authority to acquire supplies having different technical characteristics which would result in incompatibility or disproportionate technical difficulties in operation and maintenance; when the institutions award contracts on their own account, the duration of such contracts may not exceed three years;
  - (ii) where the products are manufactured purely for the purpose of research, experimentation, study or development; however such contracts shall not include quantity production to establish commercial viability or to recover research and development costs;
  - (iii) for supplies quoted and purchased on a commodity market;
  - (iv) for purchases of supplies on particularly advantageous terms, from either an economic operator which is definitively winding up its business activities, or the liquidators in an insolvency procedure, an arrangement with creditors, or a similar procedure under national law;
- (g) for building contracts, after prospecting the local market;
- (h) for contracts for any of the following:
  - (i) legal representation by a lawyer within the meaning of Article 1 of Council Directive 77/249/EEC <sup>(1)</sup> in arbitration or conciliation or judicial proceedings;
  - (ii) legal advice given in the preparation of the proceedings referred to above or where there is tangible indication and high probability that the matter to which the advice relates will become the subject of such proceedings, provided that the advice is given by a lawyer within the meaning of Article 1 of Directive 77/249/EEC;

<sup>(1)</sup> Council Directive 77/249/EEC of 22 March 1977 to facilitate the effective exercise by lawyers of freedom to provide services (OJ L 78, 26.3.1977, p. 17).

- (iii) for arbitration and conciliation services;
- (iv) document certification and authentication services which must be provided by notaries;
- (i) for contracts declared to be secret or for contracts whose performance must be accompanied by special security measures, in accordance with the administrative provisions in force or when the protection of the essential interests of the Union so requires, provided the essential interests concerned cannot be guaranteed by other measures; these measures may consist of requirements to protect the confidential nature of information which the contracting authority makes available in the procurement procedure;
- (j) for financial services in connection with the issue, sale, purchase or transfer of securities or other financial instruments within the meaning of Directive 2004/39/EC of the European Parliament and of the Council <sup>(1)</sup>, central bank services and operations conducted with the European Financial Stability Facility and the European Stability Mechanism;
- (k) loans, whether or not in connection with the issue, sale, purchase or transfer of securities or other financial instruments;
- (l) for the purchase of public communication networks and electronic communications services within the meaning of Directive 2002/21/EC of the European Parliament and of the Council <sup>(2)</sup>;
- (m) services provided by an international organisation where it cannot participate in competitive procedures according to its statute or act of establishment.

2. A tender shall be considered unsuitable where it does not relate to the subject matter of the contract and a request to participate shall be considered unsuitable where the economic operator is in an exclusion situation under Article 106(1) of the Financial Regulation or does not meet the selection criteria.

3. The exceptions set out in points (ii) and (iii) of point (b) of paragraph 1 shall only apply when no reasonable alternative or substitute exists and the absence of competition is not the result of an artificial narrowing down of the parameters when defining the procurement.

4. In the cases referred to in point (e) of paragraph 1, the basic project shall indicate the extent of possible new services or works and the conditions under which they will be awarded. As soon as the basic project is put up for tender, the possible use of the negotiated procedure shall be disclosed, and the total estimated amount for the subsequent services or works shall be taken into consideration in applying the thresholds referred to in Article 118(1) of the Financial Regulation or in Articles 265(1)(a), 267(1)(a) or 269(1)(a) of this Regulation in the field of external actions. When the institutions award contracts on their own account, that procedure may only be used during the performance of the original contract and at the latest during the three years following its signature.

▼ M1*Article 135***Use of a competitive procedure with negotiation or competitive dialogue****(Article 104(5) of the Financial Regulation)**

1. When the contracting authority uses the competitive procedure with negotiation or the competitive dialogue, it shall follow the arrangements on negotiation set out in Article 104(4) of the Financial Regulation and in Article 128(5) of this Regulation. The contracting authority may use these procedures regardless of the estimated value of the contract, in the following cases:

- (a) where only irregular or unacceptable tenders as defined in paragraphs 2 and 3 have been submitted in response to an open or restricted procedure after this procedure has been completed provided that the original procurement documents are not substantially altered; the publication of a contract notice may be waived under the conditions set out in paragraph 4;
- (b) with regard to works, supplies or services fulfilling one or more of the following criteria:
  - (i) where the needs of the contracting authority cannot be met without the adaptation of a readily available solution;
  - (ii) the works, supplies or services include design or innovative solutions;
  - (iii) the contract cannot be awarded without prior negotiations because of specific circumstances related to the nature, complexity or the legal and financial make-up of the contract or the risks attached to the subject matter of the contract;

- (f) for service contracts for the acquisition, development, production or co-production of programme material intended for audiovisual or radio media services as defined in Directive 2010/13/EU of the European Parliament and of the Council <sup>(1)</sup> or contracts for broadcasting time or programme provision.

2. A tender shall be considered irregular in any of the following cases:

- (a) when it does not comply with the minimum requirements specified in the procurement documents;

*Article 136***Procedure involving a call for expressions of interest****(Article 104(5) of the Financial Regulation)**

1. For contracts with a value below the thresholds referred to in Article 118(1) of the Financial Regulation or in Article 265(1)(b) of this Regulation and without prejudice to Articles 134 and 135 of this Regulation, the contracting authority may use a call for expressions of interest to do either of the following:

- (b) to collect a list of vendors to be invited to submit requests to participate or tenders.

2. The list drawn up following a call for expressions of interest shall be valid for not more than four years from the date on which the notice referred to in Article 124(1) is published.

The list referred to in the first subparagraph may include sub-lists.

Any interested economic operator may express interest at any time during the period of validity of the list, with the exception of the last three months of that period.

**▼ M1**

3. Where a contract is to be awarded, the contracting authority shall invite all candidates or vendors entered on the relevant list or sub-list to do either of the following:

Article 128(3) of this Regulation shall apply to such procedures. Only candidates invited simultaneously and in writing by the contracting authority may submit an initial tender.

3. Payments of amounts not exceeding EUR 1 000 in respect of items of expenditure may consist simply in payment against invoices, without prior acceptance of a tender.

**▼ M1***Article 137a***Preliminary market consultation****(Article 105(1) of the Financial Regulation)**

1. For preliminary market consultation, the contracting authority may seek or accept advice from independent experts or authorities or from economic operators. That advice may be used in the planning and conduct of the procurement procedure, provided that such advice does not have the effect of distorting competition and does not result in a violation of the principles of non-discrimination and transparency.

2. Where an economic operator has advised the contracting authority or has otherwise been involved in the preparation of the procurement procedure, the contracting authority shall take appropriate measures as set out in Article 142 to ensure that competition is not distorted by the participation of that economic operator.

*Article 138***Procurement documents****(Article 105(2) of the Financial Regulation)**

3. The tender specifications shall contain the following:

4. The draft contract shall contain the following:
- (a) specify the liquidated damages for failure to comply with its clauses;
  - (b) specify the details which must be contained in invoices and in the relevant supporting documents in accordance with Article 102;

**▼ M1**

For the purposes of point (g) of the first subparagraph, if a revision of prices is set out in the contract, the contracting authority shall take particular account of:

- (i) the subject matter of the procurement and the economic situation in which it is taking place;
- (ii) the type of contract and tasks and its duration;
- (iii) its financial interests.

Points (c) and (d) of the first subparagraph may be waived for contracts signed in accordance with point (m) of Article 134(1).

*Article 139***Technical specifications****(Article 105(2) of the Financial Regulation)**

1. Technical specifications shall allow equal access of economic operators to the procurement procedures and not have the effect of creating unjustified obstacles to the opening up of procurement to competition.

Technical specifications shall include the characteristics required for works, supplies or services, including minimum requirements, so that they fulfil the use for which they are intended by the contracting authority.

2. The characteristics referred to in paragraph 1 may include as appropriate:

- (a) the quality levels;
- (b) environmental performance and climate performance;
- (c) for purchases intended for use by natural persons, the accessibility criteria for people with disabilities or the design for all users, except in duly justified cases;
- (d) the levels and procedures of conformity assessment;

- (g) for works contracts, the procedures relating to quality assurance and the rules relating to design and costing, the test, inspection and acceptance conditions for works and methods or techniques of construction and all the other technical conditions which the contracting authority is in a position to prescribe under general or specific regulations in relation to the finished works and to the materials or parts which they involve.

**▼ M1**

3. The technical specifications shall be formulated in any of the following ways:

- (a) in order of preference, by reference to European standards, European technical assessments, common technical specifications, international standards, other technical reference systems established by European standardisation bodies or, failing this, their national equivalents; every reference shall be accompanied by the words 'or equivalent';
- (b) in terms of performance or of functional requirements, including environmental characteristics, provided that the parameters are sufficiently precise to allow tenderers to determine the subject matter of the contract and to allow the contracting authority to award the contract;
- (c) by a combination of the two methods set out in points (a) and (b).

4. Where the contracting authority uses the option of referring to the specifications provided for in point (a) of paragraph 3, it shall not reject a tender on the grounds that it does not comply with those specifications once the tenderer proves, by any appropriate means, that the solution proposed satisfies in equivalent manner the requirements defined in the technical specifications.

5. Where the contracting authority uses the option provided for in point (b) of paragraph 3, to formulate technical specifications in terms of performance or functional requirements, it shall not reject a tender which complies with a national standard transposing a European standard, a European technical approval, a common technical specifications, an international standard or technical reference systems established by a European standardisation body, if those specifications address the performance or functional requirements which it has laid down.

The tenderer shall prove by any appropriate means that the work, supply or service in compliance with the standard meets the performance or functional requirements set by the contracting authority.

6. Where a contracting authority intends to purchase works, supplies or services with specific environmental, social or other characteristics, it may require a specific label or specific requirements from a label, provided that all of the following conditions are satisfied:

- (a) the label requirements only concern criteria which are linked to the subject matter of the contract and are appropriate to define the characteristics of the purchase;
- (b) the label requirements are based on objectively verifiable and non-discriminatory criteria;
- (c) the labels are established in an open and transparent procedure in which all the relevant stakeholders may participate;
- (d) the labels are accessible to all interested parties;
- (e) the label requirements are set by a third party over which the economic operator applying for the label cannot exercise a decisive influence.

▼ **M1**

The contracting authority may require that economic operators provide a test report or a certificate as means of proof of conformity with the procurement documents from a conformity assessment body accredited in accordance with Regulation (EC) No 765/2008 of the European Parliament and of the Council<sup>(1)</sup> or an equivalent conformity assessment body.

7. The contracting authority shall accept any other appropriate means of proof than those referred to in paragraph 6, such as a technical dossier from the manufacturer, where the economic operator had no access to the certificates or test reports, or no possibility of obtaining them or obtaining a specific label within the relevant time limits, for reasons that are not attributable to that economic operator and provided that the economic operator concerned proves that the works, supplies or services to be provided fulfil the requirements of the specific label or specific requirements indicated by the contracting authority.

8. Unless justified by the subject matter of the contract, technical specifications shall not refer to a specific make or source, or a particular process which characterises the products or services provided by a specific economic operator, or to trade marks, patents, types or a specific origin or production with the effect of favouring or eliminating certain products or economic operators.

Such reference shall be permitted on an exceptional basis where a sufficiently detailed and intelligible description of the subject matter of the contract is not possible. Such reference shall be accompanied by the words 'or equivalent'.

*Article 141*

**Declaration and evidence of absence of situation of exclusion  
(Articles 106 and 107 of the Financial Regulation)**

1. For the purpose of Article 106(10) of the Financial Regulation, the contracting authority shall accept the European Single Procurement Document (ESPD) referred to in Directive 2014/24/EU or, failing that, a declaration on honour, signed and dated, stating that the economic operator is not in one of the situations referred to in paragraphs 1 and 4 of Article 106 and in Article 107 of the Financial Regulation or that it is in one of the cases referred to in point (a) of Article 106(7) of the Financial Regulation.

An economic operator may reuse an ESPD which has already been used in a previous procedure, provided that the economic operator confirms that the information contained therein continues to be correct.

Where the contracting authority limits the number of candidates under Article 104(3) of the Financial Regulation, all the candidates shall provide the evidence referred to in paragraph 3 of this Article.

Depending on its risk assessment, the contracting authority may decide not to request the ESPD or declaration on honour for any of the following:

(a) procedures for very low value contracts under Article 137(2);

<sup>(1)</sup> Regulation (EC) No 765/2008 of the European Parliament and of the Council of 9 July 2008 setting out the requirements for accreditation and market surveillance relating to the marketing of products and repealing Regulation (EEC) No 339/93 (OJ L 218, 13.8.2008, p. 30).

**▼ M1**

(b) procedures for contracts in the field of external actions with a value not exceeding EUR 20 000 under Articles 265(1), 267(1) or 269(1).

2. The successful tenderer shall provide, within a time limit set by the contracting authority and preceding the signature of the contract, the evidence referred to in paragraph 3, confirming the ESPD or the declaration on honour in the following cases:

(a) for contracts awarded by the institutions on their own account, with a value equal to or greater than the thresholds referred to in Article 118(1) of the Financial Regulation;

(b) for contracts in the field of external actions with a value equal to or greater than the thresholds laid down in Articles 265(1)(a), 267(1)(a) or 269(1)(a).

3. The contracting authority shall accept as satisfactory evidence that an economic operator is not in one of the situations described in points (a), (c), (d) or (f) of Article 106(1) of the Financial Regulation, a recent extract from the judicial record or, failing that, an equivalent document recently issued by a judicial or administrative authority in its country of establishment showing that those requirements are satisfied.

The contracting authority shall accept, as satisfactory evidence that an economic operator is not in the situation described in point (a) or (b) of Article 106(1) of the Financial Regulation, a recent certificate issued by the competent authority of the State concerned.

Where the certificate is not issued in the country concerned the economic operator may provide a sworn statement made before a judicial authority or notary or, failing that, a solemn statement made before an administrative authority or a qualified professional body in its country of establishment.

4. The contracting authority shall waive the obligation of an economic operator to submit the documentary evidence referred to in paragraph 3 in the case of international organisations, if it can access it on a national database free of charge or if such evidence has already been submitted to it for the purposes of another procedure and provided that the issuing date of the documents does not exceed one year and that they are still valid.

In such a case, the economic operator shall declare on its honour that the documentary evidence has already been provided in a previous procedure and confirm that no changes in its situation have occurred.

*Article 142***Measures to avoid distortion of competition****(Article 107(1) of the Financial Regulation)**

The measures referred to in point (c) of Article 107(1) of the Financial Regulation shall include the communication to the other candidates and tenderers of relevant information exchanged in the context of or resulting from the involvement of the candidate or tenderer in the preparation of the procurement procedure and the fixing of adequate time limits for the receipt of tenders.

**▼ M1**

The candidate or tenderer concerned shall only be rejected from the procedure where there are no other means to ensure compliance with the principle of equal treatment.

Prior to any such exclusion, candidates or tenderers shall be given the opportunity to prove that their involvement in preparing the procurement procedure is not capable of distorting competition.

*Article 143***Functioning of the database for the early detection and exclusion system****(Articles 108(1), (2), (3), (4) and (12) of the Financial Regulation)**

In order to ensure the functioning of the database referred in Article 108(1) of the Financial Regulation, the institutions, offices, bodies, agencies and entities referred to in points (c), (d) and (e) of Article 108(2) of the Financial Regulation shall designate authorised persons.

Where applicable, these authorised persons shall provide the information referred to in Article 108(3) of the Financial Regulation. They shall be granted access in accordance with paragraphs 4 and 12 of Article 108 of the Financial Regulation.

Authorised persons already designated by the entities referred to in point (d) of Article 108(2) of the Financial Regulation in accordance with the sector-specific rules may be used for the purposes of Article 108(12) of the Financial Regulation.

Information requested from the entities referred to in point (d) of Article 108(2) of the Financial Regulation shall be transmitted only through the Irregularity Management System which is the automated information system established by the Commission currently in use for reporting of fraud and irregularities, in accordance with the sector-specific rules.

*Article 144***Panel****(Article 108(6) of the Financial Regulation)**

1. The Chair of the panel shall be appointed by the Commission. He or she shall be chosen from among former members of the Court of Auditors, the Court of Justice or former officials who have had at least the rank of Director-General in an institution of the Union other than the Commission. He or she shall be selected on the basis of his/her personal and professional qualities, extensive experience in legal and financial matters and proven competence, independence and integrity. The term of office shall be five years and shall not be renewable. The Chair shall be appointed as special adviser within the meaning of Article 5 of the Conditions of Employment of Other Servants of the European Union.

**▼ M1**

2. Two permanent members shall be designated by the Commission. One additional member shall represent the requesting contracting authority and shall be designated in accordance with its own internal organisation.
3. The permanent secretariat of the panel shall ensure the following:
  - (a) prepare the analysis of the information submitted to the panel pursuant to Article 108(8)(a) of the Financial Regulation;
  - (b) liaise with the economic operators and the other authorising officers for the purposes of points (b), (c), and (f) of Article 108(8) of the Financial Regulation;
  - (c) keep the repository of the recommendations adopted by the panel in accordance with Article 108(5) of the Financial Regulation and the decisions taken by the contracting authority in accordance with Article 106(3) of the Financial Regulation;

4. Each member of the panel shall consider each submitted case in accordance with the rules and procedures laid down in this Regulation, the Financial Regulation and any other applicable rules established by the Commission. Prior to his or her designation, and throughout his or her service, each member of the panel shall have the obligation to promptly disclose any acts likely to constitute a conflict of interests within the meaning of Article 57 of the Financial Regulation and Article 32 of this Regulation. Members of the panel shall recuse themselves from any case in which they have an actual conflict of interests.
5. The rules of procedure of the panel shall be adopted by the Commission.

*Article 146***Selection criteria****(Article 110(2) of the Financial Regulation)**

1. The contracting authority shall indicate in the procurement documents the selection criteria, the minimum levels of capacity and the evidence required to prove this capacity. All requirements shall be related and proportionate to the subject matter of the contract.

The contracting authority shall specify in the procurement documents how groups of economic operators are to meet the selection criteria taking into account paragraph 6.

Where a contract is divided into lots, the contracting authority may set minimum levels of capacity for each lot. It may set additional minimum levels of capacity in case several lots are awarded to the same contractor.

2. With regard to capacity to pursue the professional activity, the contracting authority may require an economic operator to fulfil at least one of the following conditions:

▼ **M1**

- (a) be enrolled in a relevant professional or trade register, except for international organisations;
- (b) for service contracts, hold a particular authorisation proving that it is authorised to perform the contract in its country of establishment or be a member of a specific professional organisation.

3. When receiving requests to participate or tenders, the contracting authority shall accept the ESPD or, failing that, a declaration on honour stating that the candidate or tenderer fulfils the selection criteria.

The contracting authority may ask tenderers and candidates at any moment during the procedure to submit an updated declaration or all or part of the supporting documents where this is necessary to ensure the proper conduct of the procedure.

The contracting authority shall require the candidates or successful tenderer to submit up-to-date supporting documents except where it has already received them for the purpose of another procedure and provided that the documents are still up-to-date or it can access them on a national database free of charge.

4. The contracting authority may, depending on its assessment of risks, decide not to require evidence of the legal, regulatory, financial, economic, technical and professional capacity of economic operators in the following cases:

- (a) procedures for middle or low value contracts awarded by the institutions on their own account, with a value not exceeding the value referred to in Article 118(1) of the Financial Regulation;
- (b) procedures for contracts awarded in the field of external actions, with a value not exceeding the thresholds referred to in Articles 265(1)(a), 267(1)(a) or 269(1)(a).

Where the contracting authority decides not to require evidence of the legal, regulatory, financial, economic, technical and professional capacity of economic operators, no pre-financing shall be made.

5. An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for the performance of the contract by producing a commitment by those entities to that effect.

With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the works or services for which these capacities are required.

Where an economic operator relies on the capacities of other entities with regard to criteria relating to economic and financial capacity, the contracting authority may require that the economic operator and those entities be jointly liable for the performance of the contract.

**▼ M1**

The contracting authority may request information from the tenderer on any part of the contract that the tenderer intends to subcontract and on the identity of any subcontractors.

For works or services provided at a facility directly under the oversight of the contracting authority, the contracting authority shall require the contractor to indicate the names, contacts and authorised representatives of subcontractors involved in the performance of the contract, including any changes of subcontractors.

6. The contracting authority shall verify whether the entities on whose capacity the economic operator intends to rely and the envisaged subcontractors, when subcontracting represents a significant part of the contract, fulfil the relevant selection criteria.

The contracting authority shall require that the economic operator replaces an entity or subcontractor which does not meet a relevant selection criterion.

7. In the case of works contracts, service contracts and siting or installation operations in the context of a supply contract, the contracting authority may require that certain critical tasks be performed directly by the tenderer itself or, where the tender is submitted by a group of economic operators, a participant in the group.

*Article 147***Economic and financial capacity****(Article 110(2) of the Financial Regulation)**

1. To ensure that economic operators possess the necessary economic and financial capacity to perform the contract, the contracting authority may require in particular that:

- (a) economic operators have a certain minimum yearly turnover, including a certain minimum turnover in the area covered by the contract;
- (b) economic operators provide information on their annual accounts showing ratios between assets and liability;
- (c) economic operators provide an appropriate level of professional risk indemnity insurance.

For the purposes of point (a) of the first subparagraph, the minimum yearly turnover shall not exceed two times the estimated annual contract value, except in duly justified cases linked to the nature of the purchase, which the contracting authority shall explain in the procurement documents.

For the purposes of point (b) of the first subparagraph, the contracting authority shall explain the methods and criteria for such ratios in the procurement documents.

2. In the case of dynamic purchasing systems, the maximum yearly turnover shall be calculated on the basis of the expected maximum size of specific contracts to be awarded under that system.

**▼ M1**

3. The contracting authority shall define in the procurement documents the evidence to be provided by an economic operator to demonstrate its economic and financial capacity. It may request in particular one or more of the following documents:

- (a) appropriate statements from banks or, where appropriate, evidence of relevant professional risk indemnity insurance;
- (b) financial statements or their extracts for a period equal to or less than the last three years for which accounts have been closed;
- (c) a statement of the economic operator's overall turnover and, where appropriate, turnover in the area covered by the contract for a maximum of the last three financial years available.

If, for any valid reason, the economic operator is unable to provide the references requested by the contracting authority, it may prove its economic and financial capacity by any other document which the contracting authority considers appropriate.

*Article 148***Technical and professional capacity****(Article 110(2) of the Financial Regulation)**

1. The contracting authority shall verify that candidates or tenderers fulfil the minimum selection criteria concerning technical and professional capacity in accordance with paragraphs 2 to 5.

2. The contracting authority shall define in the procurement documents the evidence to be provided by an economic operator to demonstrate its technical and professional capacity. It may request one or more of the following documents:

- (a) for works, supplies requiring siting or installation operations or services, the educational and professional qualifications, skills, experience and expertise of the persons responsible for performance;
- (b) a list of the following:
  - (i) of the principal services provided and supplies delivered in the past three years, with the sums, dates and clients, public or private accompanied upon request by statements issued by the clients;
  - (ii) of the works carried out in the last five years, accompanied by certificates of satisfactory execution for the most important works;
- (c) a statement of the technical equipment, tools or plant available to the economic operator for performing a service or works contract;
- (d) a description of the technical facilities and means available to the economic operator to for ensuring quality, and a description of available study and research facilities;

**▼ M1**

- (e) a reference to the technicians or technical bodies available to the economic operator, whether or not belonging directly to it, especially those responsible for quality control;
- (f) in respect of supplies: samples, descriptions or authentic photographs or certificates drawn up by official quality control institutes or agencies of recognised competence attesting the conformity of the products clearly identified by references to technical specifications or standards;
- (g) for works or services, a statement of the average annual manpower and the number of managerial staff of the economic operator for the last three years;
- (h) an indication of the supply chain management and tracking systems that the economic operator will be able to apply when performing the contract;
- (i) an indication of the environmental management measures that the economic operator will be able to apply when performing the contract.

For the purposes of point (i) of point (b) of the first subparagraph, where necessary in order to ensure an adequate level of competition, the contracting authority may indicate that evidence of relevant supplies or services delivered or performed more than three years before will be taken into account.

For the purposes of point (ii) of point (b) of the first subparagraph, where necessary in order to ensure an adequate level of competition, the contracting authority may indicate that evidence of relevant works delivered or performed more than five years before will be taken into account.

3. Where the supplies or services are complex or, exceptionally, are required for a special purpose, evidence of technical and professional capacity may be secured by means of a check carried out by the contracting authority or on its behalf by a competent official body of the country in which the economic operator is established, subject to that body's agreement. Such checks shall concern the supplier's technical capacity and production capacity and, if necessary, its study and research facilities and quality control measures.

4. Where the contracting authority requires the provision of certificates drawn up by independent bodies attesting the compliance of the economic operator with certain quality assurance standards, including on accessibility for disabled persons, it shall refer to quality assurance systems based on the relevant European standards series certified by accredited bodies. The contracting authority shall also accept other evidence of equivalent quality assurance measures from an economic operator that has demonstrably no access to such certificates or has no possibility of obtaining such certificates within the relevant time limits, for reasons that are not attributable to that economic operator and provided that the economic operator proves that the proposed quality assurance measures comply with the required quality assurance standards.

**▼ M1**

5. Where the contracting authority requires the provision of certificates drawn up by independent bodies attesting that the economic operator complies with certain environmental management systems or standards, it shall refer to the European Union Eco-Management and Audit Scheme or to other environmental management systems as recognised in accordance with Article 45 of Regulation (EC) No 1221/2009 of the European Parliament and of the Council <sup>(1)</sup> or other environmental management standards based on the relevant European or international standards by accredited bodies. Where an economic operator had demonstrably no access to such certificates, or no possibility of obtaining them within the relevant time limits for reasons that are not attributable to that economic operator, the contracting authority shall also accept other evidence of environmental management measures, provided that the economic operator proves that these measures are equivalent to those required under the applicable environmental management system or standard.

6. A contracting authority may conclude that an economic operator does not possess the required professional capacity to perform the contract to an appropriate quality standard where the contracting authority has established that the economic operator has conflicting interests which may negatively affect its performance.

*Article 149***Award criteria****(Article 110(3) of the Financial Regulation)**

1. Quality criteria may include elements such as technical merit, aesthetic and functional characteristics, accessibility, design for all users, social, environmental and innovative characteristics, production, provision and trading process and any other specific process at any stage of their life cycle, organisation of the staff assigned to performing the contract, after-sales service, technical assistance or delivery conditions such as delivery date, delivery process and delivery period or period of completion.

2. The contracting authority shall specify, in the procurement documents the relative weighting which it gives to each of the criteria chosen to determine the most economically advantageous tender except when using the lowest price method. Those weightings may be expressed as a range with an appropriate maximum spread.

The weighting applied to price or cost in relation to the other criteria must not result in the neutralisation of price or cost.

If weighting is not possible for objective reasons, the contracting authority shall indicate the criteria in decreasing order of importance.

3. The contracting authority may lay down minimum levels of quality. Tenders below those levels of quality shall be rejected.

**▼ M1**

4. Life-cycle costing shall cover parts or all of the following costs, to the extent relevant, over the life cycle of works, supplies or services:

- (a) costs, borne by the contracting authority or other users, such as:
  - (i) costs relating to acquisition;
  - (ii) costs of use, such as consumption of energy and other resources;
  - (iii) maintenance costs;
  - (iv) end of life costs, such as collection and recycling costs;
- (b) costs attributed to environmental externalities linked to the works, supplies or services during their life cycle, provided their monetary value can be determined and verified.

5. Where the contracting authority assesses the costs using a life-cycle costing approach, it shall indicate in the procurement documents the data to be provided by the tenderers and the method which it will use to determine the life-cycle costs on the basis of those data.

The method used for the assessment of costs attributed to environmental externalities shall fulfil the following conditions:

- (a) it is based on objectively verifiable and non-discriminatory criteria;
- (b) it is accessible to all interested parties;
- (c) economic operators can provide the required data with reasonable effort.

Where applicable, the contracting authority shall use the mandatory common methods for the calculation of life-cycle costs provided for in Annex XIII of Directive 2014/24/EU.

*Article 150*

**Use of electronic auctions**

**(Article 110(5) of the Financial Regulation)**

1. The contracting authority may use electronic auctions, in which new prices, revised downwards or new values concerning certain elements of tenders are presented.

The contracting authority shall structure the electronic auction as a repetitive electronic process, which occurs after an initial full evaluation of the tenders, enabling them to be ranked using automatic evaluation methods.

2. In open, restricted or competitive procedures with negotiation, the contracting authority may decide that the award of a public contract is preceded by an electronic auction when the procurement documents can be established with precision.

An electronic auction may be held on the reopening of competition among the parties to a framework contract as referred to in Article 122(3)(b) and

**▼ M1**

on the opening for competition of contracts to be awarded under the dynamic purchasing system referred to in Article 131.

The electronic auction shall be based on one of the award methods set out in Article 110(4) of the Financial Regulation.

3. The contracting authority which decides to hold an electronic auction shall state that fact in the contract notice.

The procurement documents shall include the following details:

- (a) the values of the features which will be the subject of electronic auction, provided that those features are quantifiable and can be expressed in figures or percentages;
- (b) any limits on the values which may be submitted, as they result from the specifications relating to the subject matter of the contract;
- (c) the information which will be made available to tenderers in the course of the electronic auction and, where appropriate, when it will be made available to them;
- (d) the relevant information concerning the electronic auction process including whether it includes phases and how it will be closed, as set out in paragraph 7;
- (e) the conditions under which the tenderers will be able to tender and, in particular, the minimum differences which will, where appropriate, be required when submitting the tender;
- (f) the relevant information concerning the electronic equipment used and the arrangements and technical specifications for connection.

4. All tenderers who have submitted admissible tenders shall be invited simultaneously by electronic means to participate in the electronic auction using the connections in accordance with the instructions. The invitation shall specify the date and time of the start of the electronic auction.

The electronic auction may take place in a number of successive phases. The electronic auction may not start sooner than two working days after the date on which invitations are sent out.

5. The invitation shall be accompanied by the outcome of a full evaluation of the relevant tender.

The invitation shall also state the mathematical formula to be used in the electronic auction to determine automatic re-rankings on the basis of the new prices and/or new values submitted. That formula shall incorporate the weighting of all the criteria fixed to determine the most economically advantageous tender, as indicated in the procurement documents. For that purpose, any ranges shall, however, be reduced beforehand to a specified value.

Where variants are authorised, a separate formula shall be provided for each variant.

**▼ M1**

6. Throughout each phase of an electronic auction the contracting authority shall instantaneously communicate to all tenderers at least sufficient information to enable them to ascertain their relative rankings at any moment. It may also, where this has been previously indicated, communicate other information concerning other prices or values submitted as well as announce the number of participants in any specific phase of the auction. It may not however disclose the identities of the tenderers during any phase of an electronic auction.

7. The contracting authority shall close an electronic auction in one or more of the following ways:

- (a) at the previously indicated date and time;
- (b) when it receives no more new prices or new values which meet the requirements concerning minimum differences, provided that it has previously stated the time which it will allow to elapse after receiving the last submission before it closes the electronic auction;
- (c) when the previously indicated number of phases in the auction has been completed.

8. After closing an electronic auction, the contracting authority shall award the contract on the basis of the results of the electronic auction.

*Article 151***Abnormally low tenders****(Article 110(5) of the Financial Regulation)**

1. If, for a given contract, the price or cost proposed in a tender appears to be abnormally low, the contracting authority shall request in writing details of the constituent elements of the price or cost which it considers relevant and shall give the tenderer the opportunity to present its observations.

The contracting authority may, in particular, take into consideration observations relating to:

- (a) the economics of the manufacturing process, of the provision of services or of the construction method;
- (b) the technical solutions chosen or the exceptionally favourable conditions available to the tenderer;
- (c) the originality of the tender;
- (d) compliance of the tenderer with applicable obligations in the fields of environmental, social and labour law;
- (e) compliance of subcontractors with applicable obligations in the fields of environmental, social and labour law;
- (f) the possibility of the tenderer obtaining state aid in compliance with applicable rules.

**▼ M1**

2. The contracting authority may only reject the tender where the evidence supplied does not satisfactorily account for the low level of price or costs proposed.

The contracting authority shall reject the tender, where it has established that the tender is abnormally low because it does not comply with applicable obligations in the fields of environmental, social and labour law.

3. Where the contracting authority establishes that a tender is abnormally low because the tenderer has obtained state aid, it may reject the tender on that sole ground only if the tenderer is unable to prove, within a sufficient time limit fixed by the contracting authority, that the aid in question was compatible with the internal market within the meaning of Article 107 TFEU.

*Article 152***Time limits for receipt of tenders and requests to participate****(Article 111(1) of the Financial Regulation)**

1. The contracting authority shall lay down time limits for the receipt of tenders and requests to participate.

When fixing time limits, the contracting authority shall take account of the complexity of the contract and the time required for drawing up tenders. The time limits shall be longer than the minimum time limits set out in this Article where tenders can only be drawn after a visit to the site or after an on-the-spot consultation of the documents supporting the procurement documents.

The time limits shall be prolonged by five days in any of the following cases:

- (a) the contracting authority does not offer direct access free of charge by electronic means to the procurement documents;
- (b) the contract notice is published in accordance with point (b) of Article 125(2).

**▼ B**

2. In open procedures for contracts with a value equal to or above the thresholds set in Article 170(1), the time limit for receipt of tenders shall be no less than 42 days from the date on which the contract notice is dispatched.

3. In restricted procedures, in cases of use of the competitive dialogue referred to in Article 132 and in negotiated procedures with publication of a contract notice for contracts above the thresholds set in Article 170(1), the time limit for receipt of requests to participate shall be no less than 37 days from the date on which the contract notice is dispatched.

In restricted procedures for contracts with a value equal to or above the thresholds set in Article 170(1), the time limit for receipt of tenders shall be no less than 40 days from the date on which the invitation to tender is dispatched.

**▼B**

However, in the procedures after a call for expressions of interest referred to in Article 136(1), the time limit shall be:

- (a) no less than 21 days from the date on which the invitation to tender is dispatched for receipt of tenders in the case of the procedure referred to in Article 136(1)(a) and Article 136(3)(b)(i);
- (b) no less than 10 days for receipt of requests to participate and no less than 21 days for receipt of tenders in the case of the two-step procedure referred to in Article 136(3)(b)(ii).

**▼M1**

4. In restricted procedures and in competitive procedures with negotiation, the time limit for receipt of tenders shall be no less than 30 days from the date on which the invitation to tender is dispatched.

5. In a dynamic purchasing system, the time limit for receipt of tenders shall be no less than 10 days from the date on which the invitation to tender is dispatched.

6. In the procedures after a call for expressions of interest referred to in Article 136(1), the time limit shall be:

- (a) no less than 10 days from the date on which the invitation to tender is dispatched for receipt of tenders in the case of the procedure referred to in Article 136(1)(a) and Article 136(3)(b)(i);
- (b) no less than 10 days for receipt of requests to participate and no less than 10 days for receipt of tenders in the case of the two-step procedure referred to in Article 136(3)(b)(ii).

7. The contracting authority may reduce the time limits for receipt of tenders by five days for the open or restricted procedures if it accepts that tenders may be submitted by electronic means.

*Article 153***Access to procurement documents and time limit to provide additional information****(Article 111(1) of the Financial Regulation)**

1. The contracting authority shall offer direct access free of charge by electronic means to the procurement documents from the date of publication of the contract notice or, for the procedures without contract notice or under Article 136, from the date of dispatch of the invitation to tender.

In justified cases, the contracting authority may transmit the procurement documents by other means it specifies if direct access by electronic means is not possible for technical reasons or if the procurement documents contain information of a confidential nature. In these cases, the third subparagraph of Article 152(1) shall apply except in urgent cases as provided for in Article 154(1).

**▼ M1**

The contracting authority may impose on economic operators requirements aimed at protecting the confidential nature of information contained in the procurement documents. It shall announce these requirements as well as how access to the procurement documents concerned can be obtained.

2. The contracting authority shall provide additional information linked to the procurement documents simultaneously and in writing to all interested economic operators as soon as possible.

The contracting authority shall not be bound to reply to requests for additional information made less than six working days before the deadline for receipt of tenders.

3. The contracting authority shall extend the time limit for receipt of tenders where:

- (a) it did not provide additional information at the latest six days before the deadline for the receipt of tenders although the economic operator requested it in good time;
- (b) it makes significant changes to the procurement documents.

*Article 154***Time limits in urgent cases****(Article 111(1) of the Financial Regulation)**

1. Where duly substantiated urgency renders impracticable the minimum time limits laid down in Articles 152(2) and 152(3) for open or restricted procedures, the contracting authority may set:

- (a) a time limit for the receipt of requests to participate or tenders in open procedures which shall not be less than 15 days from the date on which the contract notice was dispatched;
- (b) a time limit for the receipt of tenders for restricted procedures which shall not be less than 10 days from the date of dispatch of the invitation to tender.

2. In urgent cases, the time limit set out in the first subparagraph of Article 153(2) and in Article 153(3)(a) shall be four days.

*Article 155***Arrangements for submission of tenders****(Article 111(1) and (2) of the Financial Regulation)**

1. The arrangements for the submission of tenders and requests to participate shall be determined by the contracting authority, which may choose an exclusive method of submission.

The means of communication chosen shall be such as to ensure that the following conditions are satisfied:

**▼ M1**

- (a) each submission contains all the information required for its evaluation;
- (b) the integrity of data is preserved;
- (c) the confidentiality of tenders and requests to participate is preserved and the contracting authority examines the content of tenders and requests to participate only after the time limit set for submitting them has expired;
- (d) the protection of personal data in accordance with the requirements of Regulation (EC) No 45/2001 is ensured.

2. Except for contracts below the thresholds laid down in Article 118(1) of the Financial Regulation, devices for the electronic receipt of tenders and requests to participate shall guarantee, through technical means and appropriate procedures, that:

- (a) the economic operator can be authenticated with certainty;
- (b) the exact time and date of the receipt of tenders and requests to participate can be determined precisely;
- (c) it may be reasonably ensured that, before the time limits laid down, no-one can have access to data transmitted under these requirements;
- (d) only authorised persons may set or change the dates for opening data received;
- (e) during the different stages of the procurement procedure only authorised persons may have access to all data submitted and may give access to these data as needed for the procedure;
- (f) it may be reasonably ensured that any attempt to infringe any of the conditions set out in points (a) to (e) can be detected.

3. Where the contracting authority authorises submission of tenders and requests to participate by electronic means, the electronic documents submitted by means of such systems shall be deemed to be the originals.

4. Where submission is by letter, candidates or tenderers may choose to submit requests to participate or tenders:

- (a) either by post or by courier service, in which case the evidence shall be constituted by the postmark or the date of the deposit slip;
- (b) by hand-delivery to the premises of the contracting authority by the tenderer or candidate in person or by an agent, in which case the evidence shall be constituted by the acknowledgement of receipt.

5. By submitting a request to participate or a tender, candidates or tenderers accept to receive notification of the outcome of the procedure by electronic means.

**▼ M1***Article 155a***Electronic catalogues****(Article 111(7) of the Financial Regulation)**

1. Where the use of electronic means of communication is required, the contracting authority may require tenders to be presented in the format of an electronic catalogue or to include an electronic catalogue.
2. Where the presentation of tenders in the form of electronic catalogues is accepted or required, the contracting authority shall:
  - (a) state so in the contract notice;
  - (b) indicate in the procurement documents all the necessary information concerning the format, the electronic equipment used and the technical connection arrangements and specifications for the catalogue.
3. Where a multiple framework contract has been concluded following the submission of tenders in the form of electronic catalogues, the contracting authority may provide that the reopening of competition for specific contracts takes place on the basis of updated catalogues by using one of the following methods:
  - (a) the contracting authority invites contractors to resubmit their electronic catalogues, adapted to the requirements of the specific contract in question;
  - (b) the contracting authority notifies contractors that it intends to collect from the electronic catalogues which have already been submitted the information needed to constitute tenders adapted to the requirements of the specific contract in question, provided that the use of that method has been announced in the procurement documents for the framework contract.
4. When using the method under point (b) of paragraph 3, the contracting authority shall notify contractors of the date and time at which they intend to collect the information needed to constitute tenders adapted to the requirements of the specific contract in question and shall give contractors the possibility to refuse such collection of information.

The contracting authority shall allow for an adequate period between the notification and the actual collection of information.

Before awarding the specific contract, the contracting authority shall present the collected information to the contractor concerned so as to give it the opportunity to contest or confirm that the tender thus constituted does not contain any material errors.

*Article 156***Tender guarantees****(Article 111(3) of the Financial Regulation)**

1. The contracting authority may require a tender guarantee, submitted in accordance with Article 163, representing 1 % to 2 % of the total value of the contract.

**▼ M1**

2. The contracting authority shall call in the tender guarantee if the tender is withdrawn before contract signature.

The contracting authority shall release the tender guarantee:

- (a) for tenderers rejected as referred to in point (b) of Article 159(2) and tenders rejected as referred to in point (c) of Article 159(2), after information on the outcome of the procedure;
- (b) for tenders ranked as referred to in point (e) of Article 159(2), when the contract is signed.

*Article 157*

**Opening of tenders and requests to participate  
(Article 111(4) of the Financial Regulation)**

1. In open procedures, authorised representatives from tenderers may attend the opening session.

2. Where the value of a contract is equal to or greater than the thresholds laid down in Article 118(1) of the Financial Regulation, the authorising officer responsible shall appoint a committee to open the tenders. The authorising officer may waive this obligation on the basis of a risk analysis when reopening competition within a framework contract and for the cases set out in Article 134(1) of this Regulation except points (d) and (g) of that Article.

The opening committee shall be made up of at least two persons representing at least two organisational entities of the institution concerned with no hierarchical link between them. However, the authorising officer responsible may decide that the evaluation committee is to evaluate and rank the tenders on the basis of the award criteria only and that the exclusion and selection criteria are to be evaluated by other appropriate means guaranteeing the absence of conflicts of interests.

2. The evaluation committee shall be made up of at least three persons representing at least two organisational entities of the institutions or bodies referred to in Article 208 of the Financial Regulation with no hierarchical link between them, at least one of which does not come under the authorising officer responsible.

Those criteria shall be defined in such a way as to ensure also that the Union funds are properly managed.

The award criteria shall be applied in such a way as to enable the selection of planned actions or work programmes which the Commission can be confident will comply with its objectives and priorities and guarantee the visibility of the Union financing.

*Article 204***Evaluation of applications and award****(Article 133 of the Financial Regulation)**

In the representations and local units referred to in Article 72 of this Regulation and the delegated bodies referred to in Articles 62 and 208 of the Financial Regulation, if there are no separate entities, the requirement of organisational entities with no hierarchical link between them shall not apply.

**▼B**

Outside experts may assist the committee by decision of the authorising officer responsible. The authorising officer responsible shall ensure that these experts satisfy the obligations laid down in Article 57 of the Financial Regulation.

2. The authorising officer responsible shall, where appropriate, divide the process into several procedural stages. The rules governing the process shall be announced in the call for proposals.

Where a call for proposals specifies a two-stage submission procedure, only those applicants whose proposals satisfy the evaluation criteria for the first stage shall be requested to submit a complete proposal in the second stage.

Where a call for proposals specifies a two-stage evaluation procedure, only those proposals that pass the first stage, based on the evaluation against a limited set of criteria, shall go forward for further evaluation.

The applicants whose proposals are rejected at any stage shall be informed in accordance with Article 133(3) of the Financial Regulation.

Each subsequent stage of the procedure must be clearly distinct from the previous one.

The same documents and information shall not be required to be provided more than once during the same procedure.

3. The evaluation committee or, where appropriate, the authorising officer responsible may ask an applicant to provide additional information or to clarify the supporting documents submitted in connection with the application, provided that such information or clarification does not substantially change the proposal. In accordance with Article 96 of the Financial Regulation, in the case of obvious clerical errors, the evaluation committee or the authorising officer may refrain from doing so only in duly justified cases. The authorising officer shall keep appropriate records of contacts with applicants during the procedure.

4. Upon completion of its work, the members of the evaluation committee shall sign a record of all the proposals examined, containing an assessment of their quality and identifying those which may receive funding. Those records may be signed in an electronic system providing sufficient authentication of the signatory.

Where necessary that record shall rank the proposals examined, provide recommendations on the maximum amount to award and possible non-substantial adjustments to the grant application.

The record shall be kept for future reference.

5. The authorising officer responsible may invite an applicant to adjust its proposal in the light of the recommendations of the evaluation committee. The authorising officer responsible shall keep appropriate records of contacts with applicants during the procedure.

*CHAPTER 4**Payment and control**Article 206***Pre-financing guarantee****(Article 134 of the Financial Regulation)**

1. In order to limit the financial risks connected with the payment of pre-financing, the authorising officer responsible may, on the basis of a risk assessment require the beneficiary to lodge a guarantee in advance, for up to the same amount as the pre-financing, except for low value grants, or split the payment into several instalments.

2. Whenever a guarantee is required, it is subject to the assessment and acceptance of the authorising officer responsible.

The guarantee shall be valid for a period sufficiently long to allow it to be activated.

3. The guarantee shall be provided by an approved bank or financial institution established in one of the Member States. When the beneficiary is established in a third country, the authorising officer responsible may agree that a bank or financial institution established in that third country may provide the guarantee if he considers that the bank or financial institution offers equivalent security and characteristics as those offered by a bank or financial institution established in a Member State.

**▼B**

At the request of the beneficiary, the guarantee referred to in the first subparagraph may be replaced by a joint and several guarantee by a third party or by the irrevocable and unconditional joint guarantee of the beneficiaries of an action who are parties to the same grant agreement or decision, after acceptance by the authorising officer responsible.

The guarantee shall be denominated in euro.

It shall have the effect of making the bank or financial institution, third party or the other beneficiaries stand as irrevocable collateral security, or first-call guarantor of the grant beneficiary's obligations.

4. The guarantee shall be released as the pre-financing is gradually cleared against interim payments or payment of the balance to the beneficiary in accordance with the conditions laid down in the grant agreement or decision.

*Article 207***Supporting documents for payment requests****(Article 135 of the Financial Regulation)**

1. For each grant, pre-financing may be split into several instalments in accordance with sound financial management.

The payment in full of the new pre-financing payment shall be subject to the consumption of at least 70 % of the total amount of any earlier pre-financing.

Where the consumption of the previous pre-financing is less than 70 %, the amount of the new pre-financing payment shall be reduced by the unused amounts of the previous pre-financing.

The statement of the beneficiary's outlay shall be produced in support of any request for a new payment.

2. The beneficiary shall, without prejudice to Article 110, certify on his honour that information contained in payment requests is full, reliable and true. He shall also certify that the costs incurred can be considered eligible in accordance with the grant agreement or decision and that payment requests are substantiated by adequate supporting documents that can be checked.

3. A certificate on the financial statements of the action or the work programme and underlying accounts, produced by an approved external auditor or in case of public bodies, by a competent and independent public officer, may be demanded by the authorising officer responsible in support of any payment, on the basis of a risk assessment. The certificate shall be attached to the payment request. The certificate shall certify, in accordance with a methodology approved by the authorising officer responsible and on the basis of agreed-upon procedures compliant with international standards, that the costs declared by the beneficiary in the financial statements on which the payment request is based are real, accurately recorded and eligible in accordance with the grant agreement or decision.

**▼B**

In specific and duly justified cases, the authorising officer responsible may request the certificate in the form of an opinion or other format in accordance with international standards.

The certificate on the financial statements and underlying accounts shall be compulsory for interim payments and for payments of balances in the following cases:

- (a) public bodies and the international organisations referred to in Article 43;
- (b) the beneficiaries of grants in connection with humanitarian aid, civil protection emergency operations and the management of crisis situations, save in respect of payments of balances;

- (d) beneficiaries of multiple grants who have provided independent certification offering equivalent guarantees on the control systems and methodology used to prepare their claims.

The authorising officer responsible may also waive the obligation to provide a certificate on the financial statements and underlying accounts where an audit has been or will be directly done by the Commission's own staff or by a body authorised to do so on its behalf, which provides equivalent assurances about the costs declared.

In the case of an agreement between the Commission and a number of beneficiaries, the thresholds referred to in points (a) and (b) of the third subparagraph shall apply to each beneficiary.

4. An operational verification report, produced by an independent third party approved by the authorising officer responsible, may be requested by the authorising officer responsible in support of any payment, on the basis of a risk assessment. Where requested by the authorising officer responsible, the verification report shall be attached to the payment request and the corresponding costs are eligible under the same conditions as the costs relating to audit certificates as laid down in Article 126 of the Financial Regulation. The verification report shall state that the operational verification was done in accordance with a methodology approved by the authorising officer responsible and whether the action or work programme was actually implemented in accordance with the conditions set out in the grant agreement or grant decision.

If they are not confirmed, implementation shall resume as soon as possible.

2. Where the agreed action or work programme is not carried out or is not carried out properly, in full or on time, the authorising officer responsible shall, provided that the beneficiary has been given the opportunity to make observations, either reduce or recover the grant in proportion, depending on the stage of the procedure.

2. Where implementation of the actions or work programme requires the award of a procurement contract with a value of more than EUR 60 000, the authorising officer responsible may require the beneficiary to abide by special rules in addition to those referred to in paragraph 1.

Those special rules shall be based on rules contained in the Financial Regulation and determined with due regard for the value of the contracts concerned, the relative size of the Union contribution in relation to the total cost of the action and the risk. Such special rules shall be included in the grant decision or agreement.

1. Financial instruments shall be based on *ex ante* evaluations identifying market imperfections or failures, or sub-optimal investment situations and assessing investment needs in view of the policy objectives.
2. The *ex ante* evaluation shall demonstrate that identified market needs cannot be addressed appropriately and in a timely manner through either market led activities or types of Union intervention other than funding by a financial instrument, such as regulation, liberalisation, reform or other policy action. It shall assess the likelihood and possible costs of market distortions and crowding-out of private funding through the financial instruments and shall identify means to minimise negative effects of such distortions.
3. In accordance with the principle of subsidiarity, the *ex ante* evaluation shall demonstrate that an Union-level financial instrument addresses identified market needs more appropriately than similar financial instruments at national or regional level, including those financed by CSF Funds. Factors such as difficult access to funding at national level, in particular for cross-border projects, economies of scale or strong demonstration effects linked to the diffusion of best practices to Member States shall be taken into account when assessing the added value of the Union contribution.
4. The *ex ante* evaluation shall determine the most efficient mode for delivering the financial instrument.
5. The *ex ante* evaluation shall also demonstrate that the planned financial instrument is consistent with:

  - (b) financial instruments and other forms of public intervention addressing the same market environment, avoiding inconsistencies and exploring potential synergies.
6. The *ex ante* evaluation shall assess proportionality of the envisaged intervention with regard to the size of the identified funding gap, the expected leverage effect of the planned financial instrument and also examine additional qualitative effects, such as the diffusion of best practices, the effective promotion of Union policy objectives throughout the implementation chain or the access to specific expertise available from actors involved in the implementation chain.
7. The *ex ante* evaluation shall establish a set of appropriate performance indicators for the proposed financial instruments and specify the expected output, results and impact.

**▼B**

8. A separate *ex ante* evaluation of financial instruments shall only be carried out where such evaluation complying in full with the criteria in paragraphs 1 to 7 is not included in the *ex ante* evaluation or an impact assessment of the programme or activity covered by a basic act.

2. The monitoring system shall be used to assess the progress of the implementation towards the achievement of the policy objectives reflected in the relevant output and result indicators established pursuant to the *ex ante* evaluation, and to analyse the compliance of the implementation with the defined requirements pursuant to Article 140(2) of the Financial Regulation and provide the basis for the Commission's reporting required under Articles 38(5) and 140(8) of the Financial Regulation.

3. In case of indirect management, the monitoring by the Commission shall build on the reporting and accounts provided by entrusted entities and on the audits available and controls carried out by the entrusted entity, taking due account of the management declaration of the entrusted entity and the opinion of the independent audit body referred to in Article 60(5) of the Financial Regulation. The Commission shall review the information provided by the entrusted entities and may carry out controls, including on a sample basis, at the appropriate implementation levels up to final recipients.

The monitoring by the entrusted entity shall build on the reporting and accounts provided by financial intermediaries and on the audits available and controls carried out by the financial intermediary, taking due account of the management declaration of the financial intermediary and the opinion of independent auditors.

Where, no financial intermediary exists, the entrusted entity shall directly monitor the use of the financial instrument based on the reporting and accounts provided by the final recipients.

The entrusted entity shall review, where appropriate on a sample basis, the information provided by the financial intermediaries or final recipients and shall carry out controls as set out in the agreement referred to in Article 217.

4. In case of direct management, the monitoring by the Commission shall build on the reporting and accounts provided by financial intermediaries and final recipients, subject to appropriate controls. The provisions under paragraph 3 shall apply to direct management *mutatis mutandis*.
