▼B**REGULATION (EU) No 1316/2013 OF THE EUROPEAN
PARLIAMENT AND OF THE COUNCIL****of 11 December 2013****establishing the Connecting Europe Facility, amending Regulation
(EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and
(EC) No 67/2010****(Text with EEA relevance)**

TITLE I

COMMON PROVISIONS

CHAPTER I

*The connecting europe facility**Article 1***Subject-matter**

This Regulation establishes the Connecting Europe Facility ("CEF"), which determines the conditions, methods and procedures for providing Union financial assistance to trans-European networks in order to support projects of common interest in the sectors of transport, telecommunications and energy infrastructures and to exploit potential synergies between those sectors. It also establishes the breakdown of the resources to be made available under the multiannual financial framework for the years 2014-2020.

*Article 2***Definitions**

For the purposes of this Regulation, the following definitions apply:

▼M3

- (1) "project of common interest" means a project identified in Regulation (EU) No 1315/2013, Regulation (EU) No 347/2013 or Regulation (EU) No 283/2014 of the European Parliament and of the Council ⁽¹⁾;

▼B

- (2) 'cross-border section' means, in the transport sector, the section which ensures the continuity of a project of common interest between the nearest urban nodes on both sides of the border of two Member States or between a Member State and a neighbouring country;
- (3) 'neighbouring country' means a country falling within the scope of the European Neighbourhood Policy including the Strategic Partnership, the Enlargement Policy, and the European Economic Area or the European Free Trade Association;
- (4) 'third country' means any neighbouring country or any other country with which the Union may cooperate to achieve the objectives pursued by this Regulation;

⁽¹⁾ Regulation (EU) No 283/2014 of the European Parliament and of the Council of 11 March 2014 on guidelines for trans-European networks in the area of telecommunications infrastructure and repealing Decision No 1336/97/EC (OJ L 86, 21.3.2014, p. 14).

▼B

- (5) "works" means the purchase, supply and deployment of components, systems and services including software, the carrying-out of development and construction and installation activities relating to a project, the acceptance of installations and the launching of a project;
- (6) "studies" means activities needed to prepare project implementation, such as preparatory, mapping, feasibility, evaluation, testing and validation studies, including in the form of software, and any other technical support measure, including prior action to define and develop a project and decide on its financing, such as reconnaissance of the sites concerned and preparation of the financial package;
- (7) 'programme support actions' means, at the level of the CEF, all accompanying measures necessary for its implementation and the implementation of the individual sector-specific guidelines, such as services, in particular the provision of technical assistance, including for the use of financial instruments, as well as preparatory, feasibility, coordination, monitoring, stakeholder consultation, control, audit and evaluation activities which are required directly for the management of the CEF and the achievement of its objectives. Programme support actions include, in particular, studies, meetings, infrastructure mapping, information, dissemination, communication and awareness raising actions, expenditure linked to IT tools and networks focusing on exchanges of information about the CEF, together with all other technical and administrative assistance expenditure incurred by the Commission that may be required for the management of the CEF or implementation of the individual sector-specific guidelines. Programme support actions also include activities required in order to facilitate the preparation of projects of common interest, in particular in the Member States, eligible for financing from the Cohesion Fund, with a view to obtaining financing under this Regulation or on the financial market. Programme support actions shall also include, where appropriate, meeting the costs of the Executive Agency entrusted by the Commission with the implementation of specific parts of the CEF ("Executive Agency");
- (8) "action" means any activity which has been identified as financially and technically independent, has a set time-frame and is necessary for the implementation of a project of common interest;
- (9) "eligible costs" has the same meaning as in Regulation (EU, Euratom) No 966/2012;
- (10) "beneficiary" means a Member State, an international organisation, or a public or private undertaking or body that has been selected to receive Union financial assistance under this Regulation and in accordance with the arrangements established in the relevant work programme referred to in Article 17;
- (11) "implementing body" means a public or private undertaking or body designated by a beneficiary, where the beneficiary is a Member State or an international organisation, to implement the action concerned. Such designation shall be decided upon by the

▼B

beneficiary under its own responsibility and, if it requires the award of a procurement contract, in compliance with the applicable Union and national public procurement rules;

- (12) "comprehensive network" means the transport infrastructure identified in accordance with Chapter II of Regulation (EU) No 1315/2013;
- (13) "core network" means the transport infrastructure identified in accordance with Chapter III of Regulation (EU) No 1315/2013;
- (14) "core network corridors" means an instrument to facilitate the coordinated implementation of the core network as provided for in Chapter IV of Regulation (EU) No 1315/2013 and listed in Part I of Annex I to this Regulation;
- (15) "bottleneck" in the transport sector means a physical, technical or functional barrier which leads to a system break affecting the continuity of long-distance or cross-border flows and which can be surmounted by creating new infrastructure, or substantially upgrading existing infrastructure, that could bring significant improvements which will solve the bottleneck constraints;
- (16) "priority" means any priority electricity corridors, priority gas corridors or priority thematic areas designated in Regulation (EU) No 347/2013;
- (17) "telematic applications" means the applications as defined in Regulation (EU) No 1315/2013;
- (18) "energy infrastructure" means the infrastructure as defined in Regulation (EU) No 347/2013;
- (19) "synergies between sectors" means the existence, across at least two of the transport, telecommunications and energy sectors, of similar or complementary actions that may enable costs or results to be optimised through the pooling of financial, technical or human resources;
- (20) 'isolated network' means the rail network of a Member State, or a part thereof, as defined in Regulation (EU) No 1315/2013.

*Article 3***General objectives**

The CEF shall enable projects of common interest to be prepared and implemented within the framework of the trans-European networks policy in the sectors of transport, telecommunications and energy. In particular, the CEF shall support the implementation of those projects of common interest which aim at the development and construction of new infrastructures and services, or at the upgrading of existing infrastructures and services, in the transport, telecommunications and energy sectors. It shall give priority to missing links in the transport sector. The CEF shall also contribute to supporting projects with a European added value and significant societal benefits which do not receive adequate financing from the market. The following general objectives shall apply to the transport, telecommunications and energy sectors:

▼B

- (a) contributing to smart, sustainable and inclusive growth, in line with the Europe 2020 Strategy, by developing modern and high-performing trans-European networks which take into account expected future traffic flows, thus benefiting the entire Union in terms of improving competitiveness on the global market and economic, social and territorial cohesion in the internal market and creating an environment more conducive to private, public or public-private investment through a combination of financial instruments and Union direct support where projects could benefit from such a combination of instruments and by appropriately exploiting synergies across the sectors.

The achievement of this objective shall be measured by the volume of private, public or public-private partnership investment in projects of common interest, and in particular the volume of private investment in projects of common interest achieved through the financial instruments under this Regulation. Special focus shall be placed on the efficient use of public investment;

- (b) enabling the Union to achieve its sustainable development targets, including a minimum 20 % reduction of greenhouse gas emissions compared to 1990 levels and a 20 % increase in energy efficiency, and raising the share of renewable energy to 20 % by 2020, thus contributing to the Union's mid-term and long-term objectives in terms of decarbonisation, while ensuring greater solidarity among Member States.

*Article 4***Specific sectoral objectives**

1. Without prejudice to the general objectives set out in Article 3, the CEF shall contribute to the achievement of the specific sectoral objectives referred to in paragraphs 2, 3 and 4 of this Article.

2. In the transport sector, the CEF shall support projects of common interest, as identified in Article 7(2) of Regulation (EU) No 1315/2013, that pursue the objectives set out below, as further specified under Article 4 of that Regulation:

- (a) removing bottlenecks, enhancing rail interoperability, bridging missing links and, in particular, improving cross-border sections. The achievement of this objective shall be measured by:
- (i) the number of new or improved cross-border connections;
 - (ii) the number of kilometres of railway line adapted to the European nominal gauge standard and fitted with ERTMS;
 - (iii) the number of removed bottlenecks and sections of increased capacity on transport routes for all modes which have received funding from the CEF;
 - (iv) the length of the inland waterway network by class in the Union; and
 - (v) the length of the railway network in the Union upgraded following the requirements set out in Article 39(2) of Regulation (EU) No 1315/2013;

▼B

- (b) ensuring sustainable and efficient transport systems in the long run, with a view to preparing for expected future transport flows, as well as enabling all modes of transport to be decarbonised through transition to innovative low-carbon and energy-efficient transport technologies, while optimising safety. The achievement of this objective shall be measured by:
 - (i) the number of supply points for alternative fuels for vehicles using the TEN-T core network for road transport in the Union;
 - (ii) the number of inland and maritime ports of the TEN-T core network equipped with supply points for alternative fuels in the Union; and
 - (iii) the reduction in casualties on the road network in the Union;
- (c) optimising the integration and interconnection of transport modes and enhancing the interoperability of transport services, while ensuring the accessibility of transport infrastructures. The achievement of this objective shall be measured by:
 - (i) the number of multimodal logistic platforms, including inland and maritime ports and airports, connected to the railway network;
 - (ii) the number of improved rail-road terminals, and the number of improved or new connections between ports through motorways of the sea;
 - (iii) the number of kilometres of inland waterways fitted with RIS; and
 - (iv) the level of deployment of the SESAR system, VTMISS and ITS for the road sector.

The indicators referred to in this paragraph shall not apply to Member States which do not have a rail network or an inland waterway network, as appropriate.

Those indicators shall not constitute selection or eligibility criteria for actions for support from the CEF.

Indicative percentages reflecting the proportion of the overall budgetary resources referred to in point (a) of Article 5(1) to be allocated to each of the three transport-specific objectives are set out in Part IV of Annex I to this Regulation. The Commission shall not deviate from those indicative percentages by more than 5 percentage points;

3. In the energy sector, the CEF shall support projects of common interest that pursue one or more of the following objectives:

- (a) increasing competitiveness by promoting the further integration of the internal energy market and the interoperability of electricity and gas networks across borders. The achievement of this objective shall be measured ex post by:

▼B

- (i) the number of projects effectively interconnecting Member States' networks and removing internal constraints;
 - (ii) the reduction or elimination of Member States' energy isolation;
 - (iii) the percentage of electricity cross-border transmission power in relation to installed electricity generation capacity in the relevant Member States;
 - (iv) price convergence in the gas and/or electricity markets of the Member States concerned; and
 - (v) the percentage of the highest peak demand of the two Member States concerned covered by reversible flow interconnections for gas;
- (b) enhancing Union security of energy supply;

The achievement of this objective shall be measured ex post by:

- (i) the number of projects allowing diversification of supply sources, supplying counterparts and routes;
 - (ii) the number of projects increasing storage capacity;
 - (iii) system resilience, taking into account the number of supply disruptions and their duration;
 - (iv) the amount of avoided curtailment of renewable energy;
 - (v) the connection of isolated markets to more diversified supply sources;
 - (vi) the optimal use of energy infrastructure assets;
- (c) contributing to sustainable development and protection of the environment, inter alia by the integration of energy from renewable sources into the transmission network, and by the development of smart energy networks and carbon dioxide networks.

The achievement of this objective shall be measured ex post by:

- (i) the amount of renewable electricity transmitted from generation to major consumption centres and storage sites;
- (ii) the amount of avoided curtailment of renewable energy;
- (iii) the number of deployed smart grid projects which benefited from the CEF and the demand response enabled by them;
- (iv) the amount of CO₂ emissions prevented by the projects which benefited from the CEF.

▼B

The indicators referred to in this paragraph, used for the ex post measurement of the achievement of the objectives, shall not constitute selection or eligibility criteria for actions of support from the CEF.

The conditions of eligibility for Union financial assistance for projects of common interest are set out in Article 14 of Regulation (EU) No 347/2013, whilst the selection criteria for projects of common interest are set out in Article 4 of that Regulation.

▼M3

4. In the telecommunications sector, the CEF shall support actions that pursue the objectives specified in Regulation (EU) No 283/2014.

▼B*Article 5***Budget****▼M2**

1. The financial envelope for the implementation of the CEF for the period 2014 to 2020 is set at EUR 30 442 259 000 in current prices. That amount shall be distributed as follows:

(a) transport sector: EUR 24 050 582 000, of which EUR 11 305 500 000 shall be transferred from the Cohesion Fund to be spent in line with this Regulation exclusively in Member States eligible for funding from the Cohesion Fund;

▼M3

(b) telecommunications sector: EUR 1 066 602 000;

▼M2

(c) energy sector: EUR 5 350 075 000.

These amounts are without prejudice to the application of the flexibility mechanism provided for under Council Regulation (EU, Euratom) No 1311/2013 ⁽¹⁾.

▼B

2. The financial envelope for the implementation of the CEF shall cover expenses pertaining to:

(a) actions contributing to projects of common interest and programme support actions as provided for in Article 7;

(b) programme support actions consisting of technical and administrative assistance expenses incurred by the Commission for the management of the CEF, including those necessary to ensure the transition between the CEF and the measures adopted under Regulation (EC) No 680/2007, up to 1 % of the financial envelope; the costs of the Executive Agency shall be included under this ceiling.

⁽¹⁾ Council Regulation (EU, Euratom) No 1311/2013 of 2 December 2013 laying down the multiannual financial framework for the years 2014-20 (OJ L 347, 20.12.2013, p. 884).

▼B

3. Following the mid-term evaluation referred to in Article 27(1), the European Parliament and the Council may, upon a proposal by the Commission, transfer appropriations between the transport, telecommunications and energy sectors of the allocation set out in paragraph 1, with the exception of the amount of EUR 11 305 500 000 transferred from the Cohesion Fund to finance transport sector projects in the Cohesion Fund-eligible Member States.

4. The annual appropriations shall be authorised by the European Parliament and the Council within the limits of the multiannual financial framework for the years 2014-2020.

*CHAPTER II**Forms of financing and financial provisions**Article 6***Forms of financial assistance**

1. The CEF shall be implemented by one or more of the forms of financial assistance provided for by Regulation (EU, Euratom) No 966/2012, in particular, grants, procurement and financial instruments.

2. For the purposes of this Regulation, the work programmes referred to in Article 17 shall establish the forms of financial assistance, in particular grants, procurement and financial instruments.

3. The Commission may entrust, subject to a cost-benefit analysis, part of the implementation of the CEF to the bodies referred to in point (a) of Article 58(1) and Article 62 of Regulation (EU, Euratom) No 966/2012, and in particular to the Executive Agency, with a view to the optimum management and efficiency requirements of the CEF in the transport, telecommunications and energy sectors. The Commission may also entrust part of the implementation of the CEF to the bodies referred to in point (c) of Article 58(1) of Regulation (EU, Euratom) No 966/2012.

*Article 7***Eligibility and conditions for financial assistance****▼M3**

1. Only actions contributing to projects of common interest in accordance with Regulations (EU) No 1315/2013, (EU) No 347/2013 and (EU) No 283/2014, as well as programme support actions, shall be eligible for support through Union financial assistance, in particular in the form of grants, procurement and financial instruments.

▼B

2. In the transport sector, only actions contributing to projects of common interest in accordance with Regulation (EU) No 1315/2013 and programme support actions shall be eligible for support through Union financial assistance in the form of procurement and financial instruments under this Regulation. Only the following shall be eligible to receive Union financial assistance in the form of grants under this Regulation:

▼B

- (a) actions implementing the core network in accordance with Chapter III of Regulation (EU) No 1315/2013, including the deployment of new technologies and innovation in accordance with Article 33 of that Regulation, and projects and horizontal priorities identified in Part I of Annex I to this Regulation;
- (b) actions implementing the comprehensive network in accordance with Chapter II of Regulation (EU) No 1315/2013, when such actions contribute to bridging missing links, facilitating cross-border traffic flows or removing bottlenecks and when those actions also contribute to the development of the core network or interconnect core network corridors, or when such actions contribute to the deployment of ERTMS on principal routes of rail freight corridors as defined in the Annex to Regulation (EU) No 913/2010, up to a ceiling of 5 % of the financial envelope for transport as specified in Article 5 of this Regulation;
- (c) studies for projects of common interest as defined in points (b) and (c) of Article 8(1) of Regulation (EU) No 1315/2013;
- (d) studies for cross-border priority projects as defined in Annex III to Decision No 661/2010/EU of the European Parliament and of the Council ⁽¹⁾;
- (e) actions supporting projects of common interest as defined in points (a), (d) and (e) of Article 8(1) of Regulation (EU) No 1315/2013;
- (f) actions implementing transport infrastructure in nodes of the core network, including urban nodes, as defined in Article 41 of Regulation (EU) No 1315/2013;
- (g) actions supporting telematic applications systems in accordance with Article 31 of Regulation (EU) No 1315/2013;
- (h) actions supporting freight transport services in accordance with Article 32 of Regulation (EU) No 1315/2013;
- (i) actions to reduce rail freight noise, including by retrofitting existing rolling stock in cooperation with, inter alia, the railway industry;
- (j) programme support actions;
- (k) actions implementing safe and secure infrastructure in accordance with Article 34 of Regulation (EU) No 1315/2013;
- (l) actions supporting motorways of the sea as provided for in Article 21 of Regulation (EU) No 1315/2013.

Transport-related actions involving a cross-border section or a part of such a section shall be eligible to receive Union financial assistance only if there is a written agreement between the Member States concerned or between the Member States and third countries concerned relating to the completion of the cross-border section.

⁽¹⁾ Decision No 661/2010/EU of the European Parliament and of the Council of 7 July 2010 on Union guidelines for the development of the trans-European transport network (OJ L 204, 5.8.2010, p. 1).

▼B

3. In the energy sector, all actions implementing those projects of common interest that relate to the priority corridors and areas referred to in Part II of Annex I to this Regulation and that meet the conditions set out in Article 14 of Regulation (EU) No 347/2013, as well as programme support actions, shall be eligible for Union financial assistance in the form of financial instruments, procurement and grants under this Regulation.

To allow for the most efficient use of the Union budget so as to enhance the multiplier effect of Union financial assistance, the Commission shall provide financial assistance as a priority in the form of financial instruments whenever appropriate, subject to market take-up and whilst respecting the ceiling for the use of financial instruments in accordance with Article 14(2) and Article 21(4).

▼M3

4. In the telecommunications sector, all actions implementing the projects of common interest and programme support actions identified in Regulation (EU) No 283/2014 and meeting eligibility criteria and/or conditions laid down in accordance with that Regulation shall be eligible to receive Union financial assistance under this Regulation, as follows:

- (a) generic services, core service platforms and programme support actions shall be financed through grants and/or procurement;
- (b) actions in the field of broadband networks shall be financed through financial instruments;
- (c) actions in the field of providing local wireless connectivity that is free of charge and without discriminatory conditions in local communities shall be financed through grants or other forms of financial assistance, not including financial instruments.

▼B

5. Actions with synergies between sectors contributing to projects of common interest eligible under at least two Regulations referred to in point (1) of Article 2 shall be eligible to receive financial assistance under this Regulation for the purpose of multi-sectoral calls for proposals as referred to in Article 17(7) only if the components and costs of such an action can be clearly separated per sector within the meaning of paragraphs (2), (3) and (4) of this Article.

*CHAPTER III**Grants**Article 8***Forms of grants and eligible costs**

1. Grants under this Regulation may take any of the forms provided for by Regulation (EU, Euratom) No 966/2012.

The work programmes referred to in Article 17 of this Regulation shall establish the forms of grants that may be used to fund the actions concerned.

▼B

2. Without prejudice to Regulation (EU, Euratom) No 966/2012, expenditure for actions resulting from projects included in the first multiannual and annual work programmes may be eligible as from 1 January 2014.
3. Only expenditure incurred in Member States may be eligible, except where the project of common interest involves the territory of one or more third countries and where the action is indispensable to the achievement of the objectives of the project concerned.
4. The cost of equipment and infrastructure which is treated as capital expenditure by the beneficiary may be eligible up to its entirety.
5. Expenditure related to environmental studies on the protection of the environment and on compliance with the relevant Union law may be eligible.
6. Expenditure related to the purchase of land shall not be an eligible cost, except for funds transferred from the Cohesion Fund in the transport sector in accordance with a Regulation laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provision on the European Regional Development Fund, the European Social Fund and the Cohesion Fund.
7. Eligible costs shall include value added tax ("VAT") in accordance with point (c) of Article 126(3) of Regulation (EU, Euratom) No 966/2012.

As regards the amount of EUR 11 305 500 000 transferred from the Cohesion Fund to be spent in Member States eligible for funding from the Cohesion Fund, the eligibility rules concerning VAT shall be those applicable to the Cohesion Fund referred to in a Regulation laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provision on the European Regional Development Fund, the European Social Fund and the Cohesion Fund.

8. Rules on the eligibility of costs incurred by beneficiaries shall apply mutatis mutandis to costs incurred by implementing bodies.

*Article 9***Conditions for participation**

1. Proposals shall be submitted by one or more Member States or, with the agreement of the Member States concerned, by international organisations, joint undertakings, or public or private undertakings or bodies established in Member States.

▼M3

- 1a. Where justified by the need to avoid an undue administrative burden, in particular in the case of low value grants within the meaning of Article 185 of Delegated Regulation (EU) No 1268/2012, the Member States referred to in paragraph 1 of this Article may agree to a category of proposals under the work programmes adopted pursuant

▼M3

to Article 17 of this Regulation, without indicating individual applicants. Such an agreement shall eliminate the need for Member States to approve each individual application.

▼B

2. Proposals may be submitted by entities which do not have legal personality under the applicable national law, provided that their representatives have the capacity to assume legal obligations on their behalf and offer a guarantee for the protection of the Union's financial interests equivalent to that offered by legal persons.

3. Proposals submitted by natural persons shall not be eligible.

4. Where necessary in order to achieve the objectives of a given project of common interest and where their participation is duly justified, third countries and entities established in third countries may participate in actions contributing to projects of common interest.

They may not receive financial assistance under this Regulation except where it is indispensable to the achievement of the objectives of a given project of common interest.

5. Multiannual and annual work programmes referred to in Article 17 may contain additional specific rules on the submission of proposals.

*Article 10***Funding rates**

1. Except in those cases referred to in Regulation (EU, Euratom) No 966/2012, proposals shall be selected on the basis of calls for proposals based on the work programmes referred to in Article 17 of this Regulation.

2. In the transport sector, the amount of Union financial assistance shall not exceed:

- (a) with regard to grants for studies, 50 % of the eligible costs;
- (b) with regard to grants for works:
 - (i) for railway networks, and road networks in the case of Member States with no railway network established in their territory or in the case of a Member State, or part thereof, with an isolated network without long-distance rail freight transport: 20 % of the eligible costs; the funding rate may be increased to a maximum of 30 % for actions addressing bottlenecks and to 40 % for actions concerning cross-border sections and actions enhancing rail interoperability;
 - (ii) for inland waterways: 20 % of the eligible costs; the funding rate may be increased to a maximum of 40 % for actions addressing bottlenecks and to a maximum of 40 % for actions concerning cross-border sections;
 - (iii) for inland transport, connections to and the development of multimodal logistics platforms including connections to inland and maritime ports and airports, as well as the development of ports: 20 % of the eligible costs;

▼B

- (iv) for actions to reduce rail freight noise including by retrofitting existing rolling stock: 20 % of the eligible costs up to a combined ceiling of 1 % of the budgetary resources referred to in point (a) of Article 5(1);
 - (v) for better accessibility to transport infrastructure for disabled persons: 30 % of the eligible cost of adaptation works, not exceeding in any case 10 % of the total eligible cost of works;
 - (vi) for actions supporting new technologies and innovation for all modes of transport: 20 % of the eligible costs;
 - (vii) for actions to support cross-border road sections: 10 % of the eligible costs;
- (c) with regard to grants for telematic applications systems and services:
- (i) for land-based components of the ERTMS, of the SESAR system, of RIS and of VTMS: 50 % of the eligible costs;
 - (ii) for land-based components of ITS for the road sector: 20 % of the eligible costs;
 - (iii) for on-board components of ERTMS: 50 % of the eligible costs;
 - (iv) for on-board components of the SESAR system, of RIS, of VTMS and of ITS for the road sector: 20 % of the eligible costs, up to a combined ceiling of 5 % of the budgetary resources referred to in point (a) of Article 5(1);
 - (v) for actions to support the development of motorways of the sea: 30 % of the eligible costs.

The Commission shall create conditions conducive to the development of projects involving motorways of the sea with third countries;

- (vi) for telematic applications systems other than those mentioned in points (i) to (iv), freight transport services and secure parkings on the road core network: 20 % of the eligible costs.
3. In the energy sector, the amount of Union financial assistance shall not exceed 50 % of the eligible cost of studies and/or works. The funding rates may be increased to a maximum of 75 % for actions which, based on the evidence referred to in Article 14(2) of Regulation (EU) No 347/2013, provide a high degree of regional or Union-wide security of supply, strengthen the solidarity of the Union or comprise highly innovative solutions.
4. In the telecommunications sector, the amount of Union financial assistance shall not exceed:
- (a) for actions in the field of generic services: 75 % of the eligible costs;
 - (b) for horizontal actions including infrastructure mapping, twinning and technical assistance: 75 % of the eligible costs.

▼B

The core service platforms shall be typically funded by procurement. In exceptional cases, they may be funded by a grant covering up to 100 % of eligible costs, without prejudice to the co-financing principle.

▼M3

Actions in the field of providing local wireless connectivity that is free of charge and without discriminatory conditions in local communities shall be funded by Union financial assistance covering up to 100 % of the eligible costs, without prejudice to the principle of co-financing.

▼B

5. The funding rates may be increased by up to 10 percentage points over the percentages laid down in paragraphs 2, 3 and 4 for actions with synergies between at least two of the sectors covered by the CEF. This increase shall not apply to the funding rates referred to in Article 11.

6. The amount of financial assistance to be granted to the actions selected shall be modulated on the basis of a cost-benefit analysis of each project, the availability of Union budget resources and the need to maximise the leverage of Union funding.

Article 11

Specific calls for funds transferred from the Cohesion Fund in the transport sector

1. As regards the amount of EUR 11 305 500 000 transferred from the Cohesion Fund to be spent exclusively in Member States eligible for funding from the Cohesion Fund, specific calls shall be launched for projects implementing the core network or for projects and horizontal priorities identified in Part I of Annex I exclusively in Member States eligible for funding from the Cohesion Fund.

2. Applicable rules for the transport sector under this Regulation shall apply to such specific calls. Until 31 December 2016, the selection of projects eligible for financing shall respect the national allocations under the Cohesion Fund. With effect from 1 January 2017, resources transferred to the CEF which have not been committed to a transport infrastructure project shall be made available to all Member States eligible for funding from the Cohesion Fund, to finance transport infrastructure projects in accordance with this Regulation.

3. In order to support Member States eligible for funding from the Cohesion Fund which may experience difficulties in designing projects that are of sufficient maturity and/or quality and which have sufficient added value for the Union, particular attention shall be given to programme support actions aimed at strengthening institutional capacity and the efficiency of public administrations and public services in relation to the development and implementation of projects listed in Part I of Annex I. To ensure the highest possible absorption of

▼B

the transferred funds in all Member States eligible for funding from the Cohesion Fund, the Commission may organise additional calls.

4. The amount of EUR 11 305 500 000 transferred from the Cohesion Fund may be used to commit budgetary resources to financial instruments under this Regulation only as from 1 January 2017. From that date, the amount of EUR 11 305 500 000 transferred from the Cohesion Fund may be used to commit budgetary resources to projects for which contractual commitments have already been entered into by the entrusted entities.

5. Notwithstanding Article 10, and as regards the amount of EUR 11 305 500 000 transferred from the Cohesion Fund to be spent exclusively in Member States eligible for funding from the Cohesion Fund, the maximum funding rates shall be those applicable to the Cohesion Fund as referred to in a Regulation laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provision on the European Regional Development Fund, the European Social Fund and the Cohesion Fund for the following:

- (a) actions with regard to grants for studies;
- (b) actions with regard to grants for works:
 - (i) railways and inland waterways;
 - (ii) actions to support cross-border road sections and, in the case of Member States with no rail networks, the TEN-T road network;
 - (iii) actions for inland transport, connections to and the development of multimodal logistics platforms including connections to inland and maritime ports and airports, including automatic gauge-changing facilities, and the development of ports including ice-breaking capacities, as well as interconnecting points, with particular attention being given to rail connections, except in the case of Member States with no rail network;
- (c) actions with regard to grants for telematic applications systems and services:
 - (i) ERTMS, RIS and VTMISS, the SESAR system and ITS for the road sector;
 - (ii) other telematic applications systems;
 - (iii) actions to support the development of motorways of the sea;
- (d) actions with regard to grants to support new technologies and innovation for all modes of transport.

Article 12

Cancellation, reduction, suspension and termination of the grant

1. Except in duly justified cases, the Commission shall cancel financial assistance granted for studies which have not been started within one year following the start date laid down in the conditions governing the granting of aid or within two years of that date for all other actions eligible for financial assistance under this Regulation.

▼B

2. The Commission may suspend, reduce, recover or terminate financial assistance in accordance with the conditions set out in Regulation (EU, Euratom) No 966/2012 or following an evaluation of the progress of the project, in particular in the event of major delays in the implementation of the action.

3. The Commission may require the complete or partial reimbursement of the financial assistance granted if, within two years of the completion date laid down in the conditions governing the granting of aid, the implementation of the action receiving the financial assistance has not been completed.

4. Before the Commission takes any of the decisions provided for in paragraphs 1, 2 and 3 of this Article, it shall examine the case comprehensively in coordination with the bodies respectively mentioned in Article 6(3) and consult the beneficiaries concerned so that they may present their observations within a reasonable time-frame. After the mid-term evaluation, the Commission shall notify the European Parliament and the Council of all decisions taken on the annual adoption of the work programmes under Article 17.

*CHAPTER IV***Procurement***Article 13***Procurement**

1. Public procurement procedures carried out by the Commission or one of the bodies referred to in Article 6(3) on its own behalf or jointly with Member States may:

- (a) provide for specific conditions, such as the place of performance of the procured activities, where such conditions are duly justified by the objectives of the actions and provided such conditions do not infringe Union and national public procurement principles;
- (b) authorise the multiple award of contracts within the same procedure ("multiple sourcing").

2. Where duly justified and required by the implementation of the actions, paragraph 1 may also apply to procurement procedures carried out by beneficiaries of grants.

*CHAPTER V***Financial instruments***Article 14***Types of financial instruments****▼M3**

1. Financial instruments set up in accordance with Title VIII of Regulation (EU, Euratom) No 966/2012 may be used to facilitate access to finance by entities implementing actions contributing to projects of common interest as defined in Regulations (EU) No 1315/2013, (EU) No 347/2013 and (EU) No 283/2014, and to the achievement of their objectives. Those financial instruments shall be

▼ M3

based on *ex-ante* assessments of market imperfections or sub-optimal investment situations and investment needs. The main terms, conditions and procedures for each financial instrument shall be those laid down in Part III of Annex I to this Regulation.

▼ M2

2. The overall contribution from the Union budget to the financial instruments shall not exceed 8,4 % of the overall financial envelope of the CEF as referred to in Article 5(1).

▼ B

3. All financial instruments established under Regulation (EC) No 680/2007 and the risk-sharing instrument for project bonds established under Decision No 1639/2006/EC may, if applicable and subject to a prior evaluation, be merged together with those under this Regulation.

The merging of project bonds shall be subject to the interim report to be carried out in the second half of 2013 as defined in Regulation (EC) No 680/2007 and in Decision No 1639/2006/EC. The Project Bond Initiative shall start up progressively within a ceiling of EUR 230 000 000 during the years 2014 and 2015. The full implementation of the initiative shall be subject to independent full-scale evaluation to be carried out in 2015 as provided for in Regulation (EC) No 680/2007 and in Decision No 1639/2006/EC. In the light of that evaluation, taking into account all options, the Commission shall consider proposing appropriate regulatory changes, including legislative changes, in particular if the predicted market uptake is not satisfactory or in the event that sufficient alternative sources of long-term debt financing become available.

4. The following financial instruments may be used:

- (a) equity instruments, such as investment funds with a focus on providing risk capital for actions contributing to projects of common interest;
- (b) loans and/or guarantees facilitated by risk-sharing instruments, including the credit enhancement mechanism for project bonds, backing individual projects or portfolios of projects issued by a financial institution on its own resources with a Union contribution to the provisioning and/or capital allocation.

*Article 15***Conditions for granting financial assistance through financial instruments**

1. Actions supported by means of financial instruments shall be selected on the basis of maturity and shall seek sectoral diversification in accordance with Articles 3 and 4 as well as geographical balance across the Member States. They shall:

▼B

- (a) represent European added value;
 - (b) respond to the objectives of the Europe 2020 Strategy;
 - (c) present a leverage effect with regard to Union support, i.e. aim at mobilising a global investment exceeding the size of the Union contribution according to the indicators defined in advance.
2. The Union, any Member State and other investors may provide financial assistance in addition to contributions received by financial instruments, provided that the Commission agrees to any changes to the eligibility criteria of actions and/or the investment strategy of the instrument which may be necessary due to the additional contribution.
 3. The financial instruments shall aim to enhance the multiplier effect of Union spending by attracting additional resources from private investors. The financial instruments may generate acceptable returns to meet the objectives of other partners or investors, whilst aiming to preserve the value of assets provided by the Union budget.
 4. Financial instruments under this Regulation may be combined with grants funded from the Union budget.
 5. The Commission may lay down additional conditions in the work programmes referred to in Article 17 according to the specific needs of the transport, telecommunications and energy sectors.

*Article 16***Actions in third countries**

Actions in third countries may be supported by means of the financial instruments if those actions are necessary for the implementation of a project of common interest.

*CHAPTER VI****Programming, implementation and control****Article 17***Multiannual and/or annual work programmes**

1. The Commission shall adopt, by means of implementing acts, multiannual and annual work programmes for each of the transport, telecommunications and energy sectors. The Commission may also adopt multiannual and annual work programmes that cover more than one sector. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 25(2).
2. The Commission shall review the multiannual work programmes at least at mid-term. If necessary, it shall revise the multiannual work programme by means of an implementing act. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 25(2).

▼B

3. The Commission shall adopt the multiannual work programmes in the transport sector for projects of common interest as listed in Part I of Annex I.

The amount of the financial envelope shall lie within a range of 80 % to 85 % of the budgetary resources referred to in point (a) of Article 5(1).

The projects detailed in Part I of Annex I are not binding on the Member States for their programming decisions. The decision to implement those projects is a competence of Member States and depends on public financing capacities, and on their socio-economic viability in accordance with Article 7 of Regulation (EU) No 1315/2013.

4. The Commission shall adopt the annual work programmes for the transport, telecommunications and energy sectors for projects of common interest which are not included in the multiannual work programmes.

▼M3

5. The Commission, when adopting multiannual and sectoral annual work programmes, shall establish the selection and award criteria in line with the objectives and priorities laid down in Articles 3 and 4 of this Regulation and in Regulations (EU) No 1315/2013, (EU) No 347/2013 and (EU) No 283/2014. When setting the award criteria, the Commission shall take into account the general orientations laid down in Part V of Annex I to this Regulation.

▼B

6. In the energy sector, in the first two annual work programmes, priority consideration shall be given to projects of common interest and related actions aimed at ending energy isolation and eliminating energy bottlenecks, and at the completion of the internal energy market.

7. Work programmes shall be coordinated in such a way as to exploit the synergies between transport, energy and telecommunications, in particular in such areas as smart energy grids, electric mobility, intelligent and sustainable transport systems, joint rights of way or infrastructure coupling. The Commission shall adopt at least one multi-sectoral call for proposals for actions eligible under Article 7(5), with the financial amounts allocated for each sector being weighted according to each sector's relative involvement in the eligible costs of the actions selected for financing under the CEF.

*Article 18***Granting of Union financial assistance**

1. Following every call for proposals based on a multiannual or annual work programme as referred to in Article 17, the Commission, acting in accordance with the examination procedure referred to in Article 25, shall decide on the amount of financial assistance to be granted to the projects selected or to parts thereof. The Commission shall specify the conditions and methods for their implementation.

▼B

2. The beneficiaries and the Member States concerned shall be informed by the Commission of any financial assistance to be granted.

*Article 19***Annual instalments**

The Commission may divide budgetary commitments into annual instalments. In that case, it shall commit the annual instalments taking into account the progress of the actions receiving financial assistance, their estimated needs and the budget available.

The Commission shall communicate to the beneficiaries of grants, to the Member States concerned and, if applicable for financial instruments, to the financial institutions concerned an indicative timetable covering the commitment of the individual annual instalments.

*Article 20***Carry-over of annual appropriations**

Appropriations which have not been used at the end of the financial year for which they were entered shall be carried over in accordance with Regulation (EU, Euratom) No 966/2012.

*Article 21***Delegated acts**

1. Subject to the approval of the Member State(s) concerned as provided for in the second paragraph of Article 172 TFEU, the Commission shall be empowered to adopt delegated acts in accordance with Article 26 of this Regulation concerning the modification of Part I of Annex I to this Regulation, to take account of changing financing priorities in the trans-European networks and of changes relating to projects of common interest identified in Regulation (EU) No 1315/2013. When amending Part I of Annex I to this Regulation, the Commission shall ensure:

- (a) that the projects of common interest in accordance with Regulation (EU) No 1315/2013 are likely to be realised fully or partly under the multiannual financial framework for the years 2014-2020;
- (b) that the modifications comply with the eligibility criteria set out in Article 7 of this Regulation;
- (c) as regards Part I of Annex I to this Regulation, that all sections include infrastructure projects the realisation of which will necessitate their inclusion in a multiannual work programme under Article 17(3) of this Regulation, without changing the alignment of the core network corridors.

▼B

2. The Commission shall be empowered to adopt delegated acts in accordance with Article 26 of this Regulation to modify the main terms, conditions and procedures laid down in Part III of Annex I to this Regulation governing the Union contribution to each financial instrument established under the Debt Framework or Equity Framework laid down in Part III of Annex I to this Regulation in accordance with the results of the interim report and the independent full -scale evaluation of the pilot phase of the Europe 2020 Project Bond Initiative established under Decision No 1639/2006/EC and Regulation (EC) No 680/2007, and in order to take into account changing market conditions with a view to optimising the design and implementation of the financial instruments under this Regulation.

When amending Part III of Annex I to this Regulation in the cases set out in the first subparagraph, the Commission shall at all times ensure that:

- (a) the amendments are made in accordance with the requirements laid down in Regulation (EU, Euratom) No 966/2012, including the ex ante evaluation referred to in point (f) of Article 140(2) thereof, and
- (b) the amendments are limited to:
 - (i) modification of the threshold of the subordinated debt financing as referred to in I.1(a) and I.1(b) of Part III of Annex I to this Regulation, with a view to seeking sectoral diversification and geographical balance across the Member States in accordance with Article 15;
 - (ii) modification of the threshold of the senior debt financing as referred in I.1(a) of Part III of Annex I to this Regulation, with a view to seeking sectoral diversification and geographical balance across the Member States in accordance with Article 15;
 - (iii) the combination with other sources of funding as referred in I.3 and II.3 of Part III of Annex I;
 - (iv) the selection of entrusted entities as referred in I.4 and II.4 of Part III of Annex I; and
 - (v) pricing, risk and revenue-sharing as referred in I.6 and II.6 of Part III of Annex I.

3. In the transport sector, and within the general objectives set out in Article 3 and the specific sectoral objectives referred to in Article 4(2), the Commission shall be empowered to adopt delegated acts in accordance with Article 26 detailing the funding priorities to be reflected in the work programmes referred to in Article 17 for the duration of the CEF for eligible actions under Article 7(2). The Commission shall adopt a delegated act by 22 December 2014.

▼M2

4. The Commission shall be empowered to adopt delegated acts in accordance with Article 26 to raise the ceiling set out in Article 14(2) up to 10 %, provided the following conditions are met:

▼ M2

- (i) the evaluation of the pilot phase of the Project Bond Initiative carried out in 2015 is positive; and
- (ii) the take-up of financial instruments exceeds 6,5 % in terms of project contractual commitments.

▼ B

5. Where it proves necessary to deviate from the allocation for a specific transport objective by more than five percentage points, the Commission shall be empowered to adopt delegated acts in accordance with Article 26 to amend the indicative percentages set out in Part IV of Annex I.

6. The Commission shall be empowered to adopt delegated acts in accordance with Article 26 to modify the list of general orientations in Part V of Annex I to be taken into account when setting award criteria in order to reflect the mid-term evaluation of this Regulation or conclusions drawn from its implementation. This shall be done in a manner compatible with the respective sectoral guidelines.

*Article 22***Responsibility of beneficiaries and Member States**

Within their respective responsibilities, and without prejudice to the obligations incumbent on beneficiaries under the conditions governing grants, beneficiaries and Member States shall make every effort to implement the projects of common interest which receive Union financial assistance granted under this Regulation.

Member States shall undertake the technical monitoring and financial control of actions in close cooperation with the Commission and shall certify that the expenditure incurred in respect of projects or parts thereof has been disbursed and that the disbursement was in conformity with the relevant rules. The Member States may request the Commission to participate during on-the-spot checks and inspections.

Member States shall inform the Commission annually, if relevant through an interactive geographical and technical information system, about the progress made in implementing projects of common interest and the investments made for this purpose, including the amount of support used with a view to attaining climate-change objectives. On that basis, the Commission shall make public, and update at least annually, information about the specific projects under the CEF.

▼ M3

The certification of the expenditure referred to in the second paragraph of this Article is not mandatory for grants or other forms of financial assistance awarded pursuant to point (c) of Article 4(1) of Regulation (EU) No 283/2014.

The requirement to inform the Commission annually referred to in the third paragraph of this Article shall not apply for grants or other forms of financial assistance awarded pursuant to point (c) of Article 4(1) of Regulation (EU) No 283/2014.

▼ B*Article 23***Compliance with Union policies and Union law**

Only actions which are in conformity with Union law and which are in line with the relevant Union policies shall be financed under this Regulation.

*Article 24***Protection of the Union's financial interests**

1. The Commission shall take appropriate measures to ensure that, when actions financed under this Regulation are implemented, the financial interests of the Union are protected by the application of preventive measures against fraud, corruption and any other illegal activities, by effective checks and, if irregularities are detected, by the recovery of the amounts unduly paid and, where appropriate, by effective, proportionate and dissuasive administrative and financial penalties.

2. The Commission or its representatives and the Court of Auditors shall have the power to audit, on the basis of documents and on the spot checks, the actions of all grant beneficiaries, implementing bodies, contractors and subcontractors who have received Union funds under this Regulation.

3. The European Anti-Fraud Office (OLAF) may carry out investigations, including on-the-spot checks and inspections, in accordance with the provisions and procedures laid down in Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council⁽¹⁾ and Council Regulation (Euratom, EC) No 2185/96⁽²⁾, with a view to establishing whether there has been fraud, corruption or any other illegal activity affecting the financial interests of the Union in connection with a grant agreement or grant decision or a contract funded under this Regulation.

4. Without prejudice to paragraphs 1, 2 and 3, cooperation agreements with third countries and with international organisations, grant agreements and grants decisions and contracts resulting from the implementation of this Regulation shall contain provisions expressly empowering the Commission, the Court of Auditors and OLAF to conduct such audits and investigations, according to their respective competences.

TITLE II

GENERAL AND FINAL PROVISIONS

*Article 25***Committee procedure**

1. The Commission shall be assisted by the CEF Coordination Committee. The Committee shall be a committee within the meaning of Regulation (EU) No 182/2011.

2. Where reference is made to this paragraph, Article 5 of Regulation (EU) No 182/2011 shall apply.

⁽¹⁾ Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council of 11 September 2013 concerning investigations conducted by the European Anti-Fraud Office (OLAF) and repealing Regulation (EC) No 1073/1999 of the European Parliament and of the Council and Council Regulation (Euratom) No 1074/1999 (OJ L 248, 18.9.2013, p. 1).

⁽²⁾ Council Regulation (Euratom, EC) No 2185/96 of 11 November 1996 concerning on-the-spot checks and inspections carried out by the Commission in order to protect the European Communities' financial interests against fraud and other irregularities (OJ L 292, 15.11.1996, p. 2).

▼B

3. The committee shall ensure a horizontal overview of the work programmes referred to in Article 17 to ensure that they are consistent and that synergies are identified, exploited and assessed between the transport, telecommunications and energy sectors. It shall seek, in particular, to coordinate those work programmes with a view to allowing multi-sectoral calls for proposals.

*Article 26***Exercise of delegation**

1. The power to adopt delegated acts is conferred on the Commission subject to the conditions laid down in this Article.

2. The power to adopt delegated acts referred to in Article 21 shall be conferred on the Commission from 1 January 2014 to 31 December 2020.

3. The delegation of power referred to in Article 21 may be revoked at any time by the European Parliament or by the Council. A decision to revoke shall put an end to the delegation of the power specified in that decision. It shall take effect the day following the publication of the decision in the *Official Journal of the European Union* or at a later date specified therein. It shall not affect the validity of any delegated acts already in force.

4. As soon as it adopts a delegated act, the Commission shall notify it simultaneously to the European Parliament and to the Council.

5. A delegated act adopted pursuant to Article 21 shall enter into force only if no objection has been expressed either by the European Parliament or by the Council within a period of two months of notification of that act to the European Parliament and to the Council or if, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by two months at the initiative of the European Parliament or of the Council.

*Article 27***Evaluation**

1. No later than 31 December 2017, the Commission, in cooperation with the Member States and beneficiaries concerned, shall prepare an evaluation report to be presented to the European Parliament and the Council by the Commission on the achievement of the objectives of all the measures (at the level of results and impacts), the efficiency of the use of resources and the European added value of the CEF, with a view to deciding on the renewal, modification or suspension of the measures. The evaluation shall also address the scope for simplification, the internal and external coherence of the measures, the continued relevance of all objectives and their contribution to the Union priorities of smart, sustainable and inclusive growth, including their impact on economic, social and territorial cohesion. The evaluation report shall include an assessment of the economies of scale made by the Commission at a financial, technical and human level when managing the CEF and, where applicable, of the total number of projects harnessing the synergies between the sectors. That assessment shall also examine how to make financial instruments more effective. The evaluation report shall take into account evaluation results concerning the long-term impact of the predecessor measures.

▼B

2. The CEF shall take into account the independent full-scale evaluation of the Europe 2020 Project Bond Initiative, to be carried out in 2015. On the basis of that evaluation, the Commission and the Member States shall assess the relevance of the Europe 2020 Project Bond Initiative and its effectiveness in increasing the volume of investment in priority projects and enhancing the efficiency of Union spending.

3. The Commission shall carry out ex post evaluation in close cooperation with the Member States and beneficiaries. The ex post evaluation shall examine the effectiveness and efficiency of the CEF and its impact on economic, social and territorial cohesion, as well as its contribution to the Union priorities of smart, sustainable and inclusive growth and the scale and results of support used with a view to attaining climate-change objectives.

4. Evaluations shall take account of progress as measured against the performance indicators referred to in Articles 3 and 4.

5. The Commission shall communicate the conclusions of those evaluations to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions.

6. The Commission and the Member States, assisted by the other possible beneficiaries, may undertake an evaluation of the methods of carrying out projects as well as the impact of their implementation, in order to assess whether the objectives, including those relating to environmental protection, have been attained.

7. The Commission may request a Member State concerned by a project of common interest to provide a specific evaluation of the actions and the linked projects financed under this Regulation or, where appropriate, to supply it with the information and assistance required to undertake an evaluation of such projects.

*Article 28***Information, communication and publicity**

1. Beneficiaries and, where appropriate, Member States concerned shall ensure that suitable publicity is given, and transparency applied, to aid granted under this Regulation in order to inform the public of the role of the Union in the implementation of the projects.

2. The Commission shall implement information and communication actions relating to the CEF projects and results. Resources allocated to communication actions under Article 5(2) shall also contribute to the corporate communication of the political priorities of the Union as far as they are related to the general objectives referred to in Article 3.

▼B*Article 29***Amendment of Regulation (EU) No 913/2010**

Regulation (EU) No 913/2010 is hereby amended as follows:

The Annex to Regulation (EU) No 913/2010 is replaced by the text of Annex II to this Regulation. Consequently, the rail freight corridors revised shall remain subject to the provisions of Regulation (EU) No 913/2010.

*Article 30***Transitional provisions**

This Regulation shall not affect the continuation or modification, including the total or partial cancellation, of the projects concerned, until their closure, or of financial assistance awarded by the Commission pursuant to Regulations (EC) No 680/2007 and (EC) No 67/2010, or any other law applying to that assistance on 31 December 2013, which shall continue to apply to the actions concerned until their closure.

*Article 31***Repeal**

Without prejudice to Article 30 of this Regulation, Regulations (EC) No 680/2007 and (EC) No 67/2010 are repealed with effect from 1 January 2014.

*Article 32***Entry into force**

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2014.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

ANNEX I

PART I

LIST OF PRE-IDENTIFIED PROJECTS ON THE CORE NETWORK IN
THE TRANSPORT SECTOR

1. Horizontal Priorities

Innovative management & services	Single European Sky – SESAR system
Innovative management & services	Telematic applications systems for road, rail, inland waterways and vessels (ITS, ERTMS, RIS and VTMS)
Innovative management & services	Core network ports, motorways of the sea (MoS) and airports, safe and secure infrastructure
New technologies and innovation	New technologies and innovation in accordance with points (a) to (d) of Article 33 of Regulation (EU) No 1315/2013

2. Core network corridors

Baltic – Adriatic

ALIGNMENT:

Gdynia – Gdańsk – Katowice/Ślasków

Gdańsk – Warszawa – Katowice

Katowice – Ostrava – Brno – Wien

Szczecin/Świnoujście – Poznań – Wrocław – Ostrava

Katowice – Žilina – Bratislava – Wien

Wien – Graz – Villach – Udine – Trieste

Udine – Venezia – Padova – Bologna – Ravenna

Graz – Maribor – Ljubljana – Koper/Trieste

PRE-IDENTIFIED SECTIONS INCLUDING PROJECTS:

Gdynia - Katowice	Rail	Works
Gdynia, Gdańsk	Ports	Port interconnections, (further) development of multimodal platforms
Warszawa - Katowice	Rail	Works
Wrocław – Poznań – Szczecin/Świnoujście	Rail	Works
Świnoujście, Szczecin	Port	Port interconnections
Bielsko Biala – Žilina	Road	Works
Katowice - Ostrava - Brno - Wien & Katowice - Žilina - Bratislava - Wien	Rail	Works, in particular cross-border sections PL-CZ, CZ-AT, PL-SK and SK-AT, Brno-Přerov line; (further) development of multimodal platforms and airport-rail interconnections

▼ **B**

Wien - Graz - Klagenfurt - Udine - Venezia - Ravenna	Rail	Partial construction of new lines (Semmering Base Tunnel and Koralm Railway line), rail upgrading; works ongoing; (further) development of multimodal platforms; upgrading of existing two-track line between Udine - Cervignano and Trieste
Graz - Maribor - Pragersko	Rail	Studies and works for second track
Trieste, Venenezia, Ravenna, Koper	Ports	Port interconnections; (further) development of multimodal platforms

North Sea – Baltic

ALIGNMENT:

Helsinki – Tallinn – Rīga

Ventspils – Rīga

Rīga – Kaunas

Klaipėda – Kaunas – Vilnius

Kaunas – Warszawa

BY border – Warszawa – Poznań – Frankfurt/Oder – Berlin – Hamburg

Berlin – Magdeburg – Braunschweig – Hannover

Hannover – Bremen – Bremerhaven/Wilhelmshaven

Hannover – Osnabrück – Hengelo – Almelo – Deventer – Utrecht

Utrecht – Amsterdam

Utrecht – Rotterdam – Antwerpen

Hannover – Köln – Antwerpen

PRE-IDENTIFIED SECTIONS INCLUDING PROJECTS:

Helsinki - Tallinn	Ports, MoS	Port interconnections; (further) development of multimodal platforms and their interconnections; icebreaking capacity; MoS
Tallinn - Rīga - Kaunas - Warszawa	Rail	(Detailed) studies for new UIC gauge fully interoperable line; works for new line to start before 2020; upgrading and new line on PL territory; rail – airports/ports interconnections, rail-road terminals, MoS
Ventspils – Rīga	Rail	Upgrading, port interconnections, MoS
Klaipėda – Kaunas	Rail	Upgrading, port interconnections, MoS
Kaunas – Vilnius	Rail	Upgrading, airports interconnections, rail-road terminals

▼**B**

Via Baltica Corridor	Road	Works for cross-border sections (EE, LV, LT, PL)
BY border - Warszawa - Poznań - DE border	Rail	Works on existing line, studies for high-speed rail
PL Border - Berlin - Hannover - Amsterdam/ Rotterdam	Rail	Studies and upgrading of several sections (Amsterdam – Utrecht – Arnhem; Hannover – Berlin)
Wilhelmshaven - Bremerhaven - Bremen	Rail	Studies and works
Berlin - Magdeburg – Hannover, Mittellandkanal, western German canals, Rhine, Waal, Noordzeekanaal, IJssel, Twentekanaal	IWW	Studies, works for better navigability and upgrading waterways and locks
Amsterdam locks & Amsterdam - Rijnkanaal	IWW	Locks studies ongoing; port: interconnections (studies and works, including Beatrix lock upgrade)

Mediterranean

ALIGNMENT:

Algeciras – Bobadilla – Madrid – Zaragoza – Tarragona

Sevilla – Bobadilla – Murcia

Cartagena – Murcia – Valencia – Tarragona

Tarragona – Barcelona – Perpignan – Marseille/Lyon – Torino – Novara – Milano – Verona – Padova – Venezia – Ravenna/Trieste/Koper - Ljubljana – Budapest

Ljubljana/Rijeka – Zagreb – Budapest – UA border

PRE-IDENTIFIED SECTIONS INCLUDING PROJECTS:

Algeciras - Madrid	Rail	Studies ongoing, works to be launched before 2015, to be completed 2020
Sevilla - Antequera - Granada - Almería - Cartagena - Murcia - Alicante - Valencia	Rail	Studies and works
Madrid-Zaragoza-Barcelona	Rail	Upgrading of existing lines (gauge, sidings, platforms)
Valencia - Tarragona - Barcelona	Rail	Construction between 2014 - 2020
Barcelona	Port	Interconnections rail with port and airport
Barcelona - Perpignan	Rail	Cross-border section, works ongoing, new line completed by 2015, upgrading existing line (gauge, sidings, platforms)
Perpignan - Montpellier	Rail	Bypass Nîmes - Montpellier to be operational in 2017, Montpellier - Perpignan for 2020

PART II

LIST OF INFRASTRUCTURE PRIORITY CORRIDORS AND AREAS IN THE ENERGY SECTOR

1. Priority electricity corridors

- (1) Northern Seas offshore grid ("NSOG"): integrated offshore electricity grid development and the related interconnectors in the North Sea, the Irish Sea, the English Channel, the Baltic Sea and neighbouring waters to transport electricity from renewable offshore energy sources to centres of consumption and storage and to increase cross-border electricity exchange.

Member States concerned: Belgium, Denmark, France, Germany, Ireland, Luxemburg, the Netherlands, Sweden, the United Kingdom;

- (2) North-South electricity interconnections in Western Europe ("NSI West Electricity"): interconnections between Member States of the region and with the Mediterranean area including the Iberian peninsula, notably to integrate electricity from renewable energy sources and reinforce internal grid infrastructures to foster market integration in the region.

Member States concerned: Austria, Belgium, France, Germany, Ireland, Italy, Luxembourg, Netherlands, Malta, Portugal, Spain, the United Kingdom;

- (3) North-South electricity interconnections in Central Eastern and South Eastern Europe ("NSI East Electricity"): interconnections and internal lines in North-South and East-West directions to complete the internal market and integrate generation from renewable energy sources.

Member States concerned: Austria, Bulgaria, Croatia, Czech Republic, Cyprus, Germany, Greece, Hungary, Italy, Poland, Romania, Slovakia, Slovenia;

- (4) Baltic Energy Market Interconnection Plan in electricity ("BEMIP Electricity"): interconnections between Member States in the Baltic region and reinforcing internal grid infrastructures accordingly, to end isolation of the Baltic States and to foster market integration, inter alia by working towards the integration of renewable energy in the region;

Member States concerned: Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland, and Sweden.

▼B**2. Priority gas corridors**

- (1) North-South gas interconnections in Western Europe ("NSI West Gas"): gas infrastructure for North-South gas flows in Western Europe to further diversify routes of supply and increase short-term gas deliverability.

Member States concerned: Belgium, Denmark, France, Germany, Ireland, Italy, Luxembourg, Malta, the Netherlands, Portugal, Spain, the United Kingdom;

- (2) North-South gas interconnections in Central Eastern and South Eastern Europe ("NSI East Gas"): gas infrastructure for regional connections between and in the Baltic Sea region, the Adriatic and Aegean Seas, the Eastern Mediterranean Sea and the Black Sea, and to enhance diversification and security of gas supply;

Member States concerned: Austria, Bulgaria, Croatia, Cyprus, Czech Republic, Germany, Greece, Hungary, Italy, Poland, Romania, Slovakia, Slovenia;

- (3) Southern Gas Corridor ("SGC"): infrastructure for the transmission of gas from the Caspian Basin, Central Asia, the Middle East and the Eastern Mediterranean Basin to the Union, to enhance diversification of gas supply.

Member States concerned: Austria, Bulgaria, Croatia, Czech Republic, Cyprus, France, Germany, Hungary, Greece, Italy, Poland, Romania, Slovakia, Slovenia;

- (4) Baltic Energy Market Interconnection Plan in gas ("BEMIP Gas"): gas infrastructure to end the isolation of the three Baltic States and Finland and their dependency on a single supplier, to reinforce internal grid infrastructures accordingly, and to increase diversification and security of supplies in the Baltic Sea region;

Member States concerned: Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland, and Sweden.

3. Priority thematic areas

- (1) Smart grids deployment: adoption of smart grid technologies across the Union to efficiently integrate the behaviour and actions of all users connected to the electricity network, in particular the generation of large amounts of electricity from renewable or distributed energy sources and demand response by consumers;

Member States concerned: all;

- (2) Electricity highways: first electricity highways by 2020, with a view to building an electricity highways system across the Union that is capable of:

(a) accommodating ever-increasing wind surplus generation in and around the Northern and Baltic Seas and increasing renewable generation in the East and South of Europe and also North Africa;

(b) connecting these new generation hubs with major storage capacities in the Nordic countries, the Alps and other regions with major consumption centres, and

(c) coping with an increasingly variable and decentralised electricity supply and flexible electricity demand;

Member States concerned: all;

▼B

- (3) Cross-border carbon dioxide network: development of carbon dioxide transport infrastructure between Member States and with neighbouring third countries with a view to the deployment of carbon dioxide capture and storage.

Member States concerned: all.

PART III

TERMS, CONDITIONS AND PROCEDURES OF FINANCIAL INSTRUMENTS**Objective and rationale**

The objective of the financial instruments under the CEF is to facilitate infrastructure projects' access to project and corporate financing by using Union funding as leverage.

The financial instruments shall help finance projects of common interest with a clear European added value, and facilitate greater private sector involvement in the long-term financing of such projects in the transport, telecommunications and energy sectors, including broadband networks.

The financial instruments shall benefit projects with medium- to long-term financing needs and shall produce greater benefits in terms of market impact, administrative efficiency and resource use.

They shall provide to infrastructure stakeholders such as financiers, public authorities, infrastructure managers, construction companies and operators a coherent market-oriented toolbox of Union financial assistance.

The financial instruments shall consist of:

- (a) an instrument for loans and guarantees facilitated by risk-sharing instruments, including credit enhancement mechanisms to project bonds ('Debt Instrument'); and
- (b) an instrument for equity ('Equity Instrument'),

which shall help to overcome market constraints by improving the financing and/or risk profiles of the infrastructure investments. This, in turn, shall enhance the access of firms and other beneficiaries to loans, guarantees, equity and other forms of private financing.

Prior to the finalisation of the design of the Debt and Equity Instruments, the Commission shall carry out an ex-ante assessment in accordance with Regulation (EU, Euratom) No 966/2012. Evaluations of existing, comparable financial instruments shall, where appropriate, contribute to that assessment.

I. Debt instrument**1. General provisions**

The goal of the Debt Instrument shall be to contribute to overcoming deficiencies of the European debt capital markets by offering risk-sharing for debt financing. Debt financing shall be provided by entrusted entities or dedicated investment vehicles in the form of senior and subordinated debt or guarantees.

▼B

The Debt Instrument shall consist of a risk-sharing instrument for loans and guarantees and of the Project Bond Initiative. The project promoters may, in addition, seek equity financing under the Equity Instrument.

a. Risk-sharing instrument for loans and guarantees

The risk-sharing instrument for loans and guarantees shall be designed to create additional risk capacity in the entrusted entities. This shall allow the entrusted entities to provide funded and unfunded subordinated and senior debt to projects and corporates in order to facilitate promoters' access to bank financing. If the debt financing is subordinated, it shall rank behind the senior debt but ahead of equity and related financing related to equity.

The unfunded subordinated debt financing shall not exceed 30 % of the total amount of the senior debt issued.

The senior debt financing provided under the Debt Instrument shall not exceed 50 % of the total amount of the overall senior debt financing provided by the entrusted entity or the dedicated investment vehicle.

b. Project Bond Initiative

The risk-sharing instrument for project bonds shall be designed as a subordinated debt financing in order to facilitate financing for project companies raising senior debt in the form of bonds. This credit enhancement instrument shall aim at helping the senior debt to achieve an investment grade credit rating.

It shall rank behind the senior debt but ahead of equity and financing related to equity.

The subordinated debt financing shall not exceed 30 % of the total amount of the senior debt issued.

2. *Financial parameters and leverage*

Risk- and revenue-sharing parameters shall be set in such a way that specific policy objectives, including targeting of particular categories of projects, can be achieved while still preserving the market-oriented approach of the Debt Instrument.

The expected leverage of the Debt Instrument — defined as the total funding (i.e. Union contribution plus contributions from other financial sources) divided by the Union contribution — shall be expected to range from 6 to 15, depending on the type of operations involved (level of risk, target beneficiaries, and the debt financing concerned).

3. *Combination with other sources of funding*

Funding from the Debt Instrument may be combined with other ring-fenced budgetary contributions listed below, subject to the rules laid down in Regulation (EU, Euratom) No 966/2012 and the relevant legal base:

- (a) other parts of the CEF;
- (b) other instruments, programmes and budget lines in the Union budget;
- (c) Member States, including regional and local authorities, that wish to contribute own resources or resources available from the funds under the cohesion policy without changing the nature of the instrument.

▼ B4. *Implementation*

Entrusted entities

Entrusted entities shall be selected in accordance with Regulation (EU, Euratom) No 966/2012.

The implementation under indirect management mode may take the form of direct mandates to entrusted entities. For instruments under direct mandates (i.e. in indirect management mode), the entrusted entities shall manage the Union contribution to the Debt Instrument and shall be risk-sharing partners.

In addition, the setting-up of dedicated investment vehicles may be envisaged to allow the pooling of contributions from multiple investors. The Union contribution may be subordinated to that of other investors.

Design and implementation

The design shall be aligned with the general provisions for financial instruments set out in Regulation (EU, Euratom) No 966/2012.

The detailed terms and conditions for implementing the Debt Instrument, including monitoring and control, shall be laid down in an agreement between the Commission and a respective entrusted entity, taking into account the provisions laid down in this Annex and in Regulation (EU, Euratom) No 966/2012.

Fiduciary account

The entrusted entity shall set up a fiduciary account to hold the Union contribution and revenues resulting from the Union contribution.

5. *Use of the Union contribution*

The Union contribution shall be used:

(a) towards risk provisioning;

(b) to cover agreed fees and costs associated with the establishment and management of the Debt Instrument, including its evaluation and support actions, which have been determined in line with Regulation (EU, Euratom) No 966/2012 and market practice. The administrative and performance-based fees to be paid to the entrusted entity shall not exceed 2 % and 3 % respectively of the Union contribution effectively used for individual operations, on the basis of a cost-based agreed methodology between the Commission and the entrusted entities;

(c) for directly related support actions.

6. *Pricing, risk and revenue sharing*

The Debt Instruments shall bear a price, to be charged to the beneficiary, in accordance with the relevant rules and criteria of the entrusted entities or dedicated investment vehicles and in line with best market practices.

As regards direct mandates to entrusted entities, the risk-sharing pattern shall be reflected in an appropriate sharing between the Union and the entrusted entity of the risk remuneration charged by the entrusted entity to its borrowers.

As regards dedicated investment vehicles, the risk-sharing pattern shall be reflected in an appropriate sharing between the Union and the other investors of the risk remuneration charged by the dedicated investment vehicle to its borrowers.

▼B

Notwithstanding the risk-sharing pattern chosen, the entrusted entity shall always share a portion of the defined risk and shall always bear the full residual risk tranche.

The maximum risk covered by the Union budget shall not exceed 50 % of the risk of the target debt portfolio under the debt instrument. The maximum risk-taking ceiling of 50 % shall apply to the target size of dedicated investment vehicles.

7. *Application and approval procedure*

Applications shall be addressed to the entrusted entity or a dedicated investment vehicle, respectively, in accordance with their standard application procedures. The entrusted entities and the dedicated investment vehicles shall approve the projects in accordance with their internal procedures.

8. *Duration of the Debt Instrument*

The last tranche of the Union contribution to the Debt Instrument shall be committed by the Commission by 31 December 2020. The actual approval of debt financing by the entrusted entities or the dedicated investment vehicles shall be finalised by 31 December 2022.

9. *Expiry*

The Union contribution allocated to the Debt Instrument shall be reimbursed to the relevant fiduciary account as debt financing expires or is repaid. The fiduciary account shall maintain sufficient funding to cover fees or risks related to the Debt Instrument until its expiry.

10. *Reporting*

The reporting methods on the implementation of the Debt Instrument shall be agreed by the Commission in the agreement and the entrusted entity in line with Regulation (EU, Euratom) No 966/2012.

In addition, the Commission shall, with the support of the entrusted entities, report annually to the European Parliament and the Council until 2023 on implementation, the prevailing market conditions for the use of the instrument, the updated projects and the project pipeline including information on projects at different stages of the procedure while respecting confidentiality and sensitive market information in accordance with Article 140(8) of Regulation (EU, Euratom) No 966/2012.

11. *Monitoring, control and evaluation*

The Commission shall monitor the implementation of the Debt Instrument, including through on-the-spot controls as appropriate, and shall perform verification and controls in line with Regulation (EU, Euratom) No 966/2012.

12. *Support Actions*

The implementation of the Debt Instrument may be supported by a set of accompanying measures. These may include, amongst other measures, technical and financial assistance, measures to raise the awareness of capital providers and schemes to attract private investors.

The European Investment Bank shall, at the request of the European Commission or the Member States concerned, provide technical assistance, including on financial structuring to projects of common interest, including the ones implementing the core network corridors as listed in Part I. Such technical assistance shall also include support to administrations in order to develop appropriate institutional capacity.

▼B**II. Equity instrument****1. General provisions**

The goal of the Equity Instrument shall be to contribute to overcoming the deficiencies of European capital markets by providing equity and quasi-equity investments.

The maximum amounts of the Union contribution shall be limited as follows:

- 33 % of the target equity fund size; or
- co-investment by the Union in a project shall not exceed 30 % of the total equity of a company.

The project promoters may, in addition, seek debt financing under the Debt Instrument.

2. Financial parameters and leverage

Investment parameters shall be set in such a way that specific policy objectives, including the targeting of particular categories of infrastructure projects, can be achieved while still preserving the market-oriented approach of this instrument.

The expected leverage of the Equity Instrument — defined as the total funding (i.e. the Union contribution plus all contributions from other investors) divided by the Union contribution — shall be expected on average to range from 5 to 10, depending on market specificities.

3. Combination with other sources of funding

Funding from the Equity Instrument may be combined with other ring-fenced budgetary contributions listed below, subject to the rules of Regulation (EU, Euratom) No 966/2012 and the relevant legal base:

- (a) other parts of the CEF;
- (b) other instruments, programmes and budget lines in the Union budget; and
- (c) Member States, including regional and local authorities, that wish to contribute own resources or resources available from the funds under the cohesion policy without changing the nature of the instrument.

4. Implementation

Entrusted entities

Entrusted entities shall be selected in accordance with Regulation (EU, Euratom) No 966/2012.

The implementation under indirect management mode may take the form of direct mandates to entrusted entities, in indirect management mode. For instruments under direct mandates (i.e. in indirect management mode), the entrusted entities shall manage the Union contribution to the Equity Instrument.

In addition, the setting-up of dedicated investment vehicles may be envisaged to allow the pooling of contributions from multiple investors. The Union contribution may be subordinated to that of other investors.

▼B

In duly justified cases, in order to achieve specific policy objectives, the Union contribution may be provided to a specific project by an entrusted entity as a co-investment.

Design and implementation

The design shall be aligned with the general provisions for financial instruments set out in Regulation (EU, Euratom) No 966/2012.

The detailed terms and conditions for implementing the Equity Instrument, including its monitoring and control, shall be laid down in an agreement between the Commission and a respective entrusted entity, taking into account the provisions laid down in this Annex and in Regulation (EU, Euratom) No 966/2012.

Fiduciary account

The entrusted entity shall set up a fiduciary account to hold the Union contribution and revenues resulting from the Union contribution.

5. *Use of the Union contribution*

The Union contribution shall be used:

- (a) towards equity participations;
- (b) to cover agreed fees and costs associated with the establishment and management of the Equity Instrument, including its evaluation, which have been determined in line with Regulation (EU, Euratom) No 966/2012 and market practice; and
- (c) for directly related support actions.

6. *Pricing, risk and revenue sharing*

The equity remuneration shall comprise the customary return components allocated to equity investors and shall depend on the performance of the underlying investments.

7. *Application and approval procedure*

Applications shall be addressed to the entrusted entity or a dedicated investment vehicle, respectively, in accordance with their standard application procedures. The entrusted entities and the dedicated investment vehicles shall approve the projects in accordance with their internal procedures.

8. *Duration of the Equity Instrument*

The last tranche of the Union contribution to the Equity Instrument shall be committed by the Commission by 31 December 2020. The actual approval of equity investments by the entrusted entities or the dedicated investment vehicles shall be finalised by 31 December 2022.

9. *Expiry*

Union contribution allocated to the Equity Instrument shall be reimbursed to the relevant fiduciary account as investments are exited or otherwise mature. The fiduciary account shall maintain sufficient funding to cover fees or risks related to the Equity Instrument until its expiry.

10. *Reporting*

Annual reporting methods on the implementation of the Equity Instrument shall be agreed by the Commission and the entrusted entity in the agreement in line with Regulation (EU, Euratom) No 966/2012.

▼B

In addition, the Commission, with the support of the entrusted entities, shall report on implementation annually to the European Parliament and the Council until 2023 in accordance with Article 140(8) of Regulation (EU, Euratom) No 966/2012.

11. *Monitoring, control and evaluation*

The Commission shall monitor the implementation of the Equity Instrument, including through on-the-spot controls as appropriate, and shall perform verification and controls in line with the Regulation (EU, Euratom) No 966/2012.

12. *Support actions*

The implementation of the Equity Instrument may be supported by a set of accompanying measures. These may include, amongst other measures, technical and financial assistance, measures to raise the awareness of capital providers, and schemes to attract private investors.

PART IV

INDICATIVE PERCENTAGES FOR SPECIFIC TRANSPORT OBJECTIVES

The budgetary resources referred to in point (a) of Article 5(1), excluding those allocated to programme support actions, shall be distributed to the transport-specific objectives as defined in Article 4(2) as follows:

- (a) removing bottlenecks, enhancing rail interoperability, bridging missing links and, in particular, improving cross-border sections - 80 %;
- (b) ensuring sustainable and efficient transport systems in the long run, with a view to preparing for expected future transport flows as well as enabling the decarbonisation of all modes of transport through transition to innovative low-carbon and energy-efficient transport technologies, while optimising safety - 5 %;
- (c) optimising the integration and interconnection of transport modes and enhancing interoperability of transport services, while ensuring the accessibility of transport infrastructures, and taking into account the ceiling for on-board components of the SESAR system, RIS, VTMIS and of ITS for the road sector referred to in point (vi) of Article 10(2)(b) - 15 %.

The amount of EUR 11 305 500 000 transferred from the Cohesion Fund shall be spent entirely on projects implementing the core network or for projects and horizontal priorities identified in Part I of this Annex.

PART V

LIST OF GENERAL ORIENTATIONS TO BE TAKEN INTO ACCOUNT WHEN SETTING AWARD CRITERIA

When setting award criteria in accordance with Article 17(5), at least the following general orientations shall be taken into account:

- (a) maturity of the action in the project development;
- (b) soundness of the implementation plan proposed;
- (c) stimulating effect of Union support on public and private investment, when applicable;

▼ B

- (d) the need to overcome financial obstacles, such as the lack of market finance;
- (e) when applicable, the economic, social, climate and environmental impact, and accessibility;
- (f) the cross-border dimension, when applicable.

▼ M1

PART VI

TRANSPORT FUNDING PRIORITIES FOR THE PURPOSE OF THE MULTIANNUAL AND ANNUAL WORK PROGRAMMES**1. Funding priorities for the multiannual work programmes**

- 1.1. Funding priorities for the objective of bridging missing links, removing bottlenecks, enhancing rail interoperability, and, in particular, improving cross-border sections:
 - i) Pre-identified projects on the Corridors of the Core Network (railways, inland waterways, roads, maritime and inland ports).
 - ii) Pre-identified projects on the other sections of the Core Network (railways, inland waterways, roads, maritime and inland ports).
 - iii) Rail interoperability.
 - iv) Deployment of ERTMS.
- 1.2. Funding priorities for the objective of ensuring sustainable and efficient transport systems in the long run, with a view to preparing for expected future transport flows, as well as enabling all modes of transport to be decarbonised through transition to innovative low-carbon and energy-efficient transport technologies, while optimising safety:
 - i) Deployment of new technologies and innovation in all transport modes, with a focus on decarbonisation, safety and innovative technologies for the promotion of sustainability, operation, management, accessibility, multimodality and efficiency of the network.
 - ii) Safe and Secure infrastructure, including safe and secure parkings on the road Core Network.
- 1.3. Funding priorities for the objective of optimising the integration and inter-connection of transport modes and enhancing the interoperability of transport services, while ensuring the accessibility of transport infrastructures:
 - i) Single European Sky – SESAR.
 - ii) River Information Services.
 - iii) Intelligent Transport Services for road.
 - iv) Vessel Traffic Monitoring and Information Systems.
 - v) Motorways of the Sea.

▼ M1

- vi) Actions implementing transport infrastructure in nodes of the Core Network, including urban nodes.
 - vii) Connections to and development of multimodal logistics platforms.
- 1.4. Programme support actions
- 2. Funding priorities for the annual work programmes**
- 2.1. Funding priorities for the objective of removing bottlenecks, enhancing rail interoperability, bridging missing links and, in particular, improving cross-border sections:
- i) Railways, inland waterways and roads projects on the Core Network including connections to inland and maritime ports and airports, as well as development of ports.
 - ii) Projects on the Comprehensive Network (railways, inland waterways, roads, maritime and inland ports).
 - iii) Projects to connect the trans-European transport network with infrastructure networks of the neighbouring countries, in particular related to cross-border sections (railways, inland waterways, roads, maritime and inland ports).
- 2.2. Funding priorities for the objective of ensuring sustainable and efficient transport systems in the long run, with a view to preparing for expected future transport flows, as well as enabling all modes of transport to be decarbonised through transition to innovative low-carbon and energy-efficient transport technologies, while optimising safety:
- i) Deployment of new technologies and innovation, other than those covered by the multiannual Work Programme.
 - ii) Freight Transport Services.
 - iii) Actions to reduce rail freight noise, including by retrofitting of existing rolling stock.
- 2.3. Funding priorities for the objective of optimising the integration and inter-connection of transport modes and enhancing the interoperability of transport services, while ensuring the accessibility of transport infrastructures:
- i) Telematic applications systems other than those covered by the multi-annual Work Programme.
 - ii) Actions for better accessibility to transport infrastructure for disabled persons.
 - iii) Actions implementing transport infrastructure in nodes of the Core Network, including urban nodes.
 - iv) Connections to and development of multimodal logistics platforms.
- 2.4. CEF Financial instruments:
- i) Contribution to the financial instruments, as defined in article 14 and Part III of the CEF annex.
 - ii) Programme support actions for innovative financial instruments.

ANNEX II

"ANNEX

LIST OF INITIAL FREIGHT CORRIDORS

	Member States	Principal routes ⁽¹⁾	Establishment of freight corridors:

⁽¹⁾ '/' means alternative routes. In line with the TEN-T guidelines, the Atlantic and the Mediterranean corridors should in the future be completed by the Sines/Algeciras-Madrid-Paris freight axis which crosses the central Pyrenees via a low elevation tunnel.

⁽⁺⁾ Routes marked with + shall be included in the respective corridors at the latest 3 years after the date of establishment set out in this table. Existing structures defined under Article 8 and Article 13(1) of this Regulation shall be adjusted with the participation of additional Member States and infrastructure managers in the respective corridors. These inclusions shall be based on market studies and take into consideration the aspect of existing passenger and freight transport in line with Article 14(3) of this Regulation.

^(*) Routes marked with * shall be included in the respective corridors at the latest 5 years after the date of establishment set out in this table. Existing structures defined under Article 8 and Article 13(1) of this Regulation shall be adjusted with the participation of additional Member States and infrastructure managers in the respective corridors. These inclusions shall be based on market studies and take into consideration the aspect of existing passenger and freight transport in line with Article 14(3) of this Regulation.

^(c) Until the realisation of a Rail Baltic line in 1435 mm nominal track gauge, the specificities of different track gauge systems shall be taken into account in the establishment and operation of this corridor.

^(d) The creation of this corridor shall be based on market studies and take into consideration the aspect of existing passenger and freight transport in line with Article 14(3) of this Regulation. The section "Čierna and Tisou (Slovak/ Ukrainian border)-Košice-Žilina-Horní Lideč-Praha" shall be established by 10 November 2013."
