TITLE VII

SPECIAL PROCEDURES

CHAPTER 3

Storage

Section 3

Free zones

Article 243

Designation of free zones

1 Member States may designate parts of the customs territory of the Union as free zones. For each free zone the Member State shall determine the area covered and define the entry and exit points.

2 Member States shall communicate to the Commission information on their free zones which are in operation.

3 Free zones shall be enclosed.

The perimeter and the entry and exit points of the area of free zones shall be subject to customs supervision.

4 Persons, goods and means of transport entering or leaving free zones may be subject to customs controls.

Article 244

Buildings and activities in free zones

1 The construction of any building in a free zone shall require the prior approval of the customs authorities.

2 Subject to the customs legislation, any industrial, commercial or service activity shall be permitted in a free zone. The carrying on of such activities shall be subject to notification, in advance, to the customs authorities.

3 The customs authorities may impose prohibitions or restrictions on the activities referred to in paragraph 2, having regard to the nature of the goods in question, or the requirements of customs supervision, or security and safety requirements.

Changes to legislation: There are currently no known outstanding effects for the Regulation (EU) No 952/2013 of the European Parliament and of the Council, Section 3. (See end of Document for details)

4 The customs authorities may prohibit persons who do not provide the necessary assurance of compliance with the customs provisions from carrying on an activity in a free zone.

Article 245

Presentation of goods and their placing under the procedure

1 Goods brought into a free zone shall be presented to customs and undergo the prescribed customs formalities in any of the following cases:

- a where they are brought into the free zone directly from outside the customs territory of the Union;
- b where they have been placed under a customs procedure which is ended or discharged when they are placed under the free zone procedure;
- c where they are placed under the free zone procedure in order to benefit from a decision granting repayment or remission of import duty;
- d where legislation other than the customs legislation provides for such formalities.

2 Goods brought into a free zone in circumstances other than those covered by paragraph 1 shall not be presented to customs.

3 Without prejudice to Article 246, goods brought into a free zone are deemed to be placed under the free zone procedure:

- a at the moment of their entry into a free zone, unless they have already been placed under another customs procedure; or
- b at the moment when a transit procedure is ended, unless they are immediately placed under a subsequent customs procedure.

Article 246

Union goods in free zones

1 Union goods may be entered, stored, moved, used, processed or consumed in a free zone. In such cases the goods shall not be regarded as being under the free zone procedure.

2 Upon application by the person concerned, the customs authorities shall establish the customs status as Union goods of any of the following goods:

- a Union goods which enter a free zone;
- b Union goods which have undergone processing operations within a free zone;
- c goods released for free circulation within a free zone.

Article 247

Non-Union goods in free zones

1 Non-Union goods may, while they remain in a free zone, be released for free circulation or be placed under the inward processing, temporary admission or end-use procedure, under the conditions laid down for those procedures.

In such cases the goods shall not be regarded as being under the free zone procedure.

Changes to legislation: There are currently no known outstanding effects for the Regulation (EU) No 952/2013 of the European Parliament and of the Council, Section 3. (See end of Document for details)

2 Without prejudice to the provisions applicable to supplies or to victualling storage, where the procedure concerned so provides, paragraph 1 shall not preclude the use or consumption of goods of which the release for free circulation or temporary admission would not entail application of import duty or measures laid down under the common agricultural or commercial policies.

In the case of such use or consumption, no customs declaration for the release for free circulation or temporary admission procedure shall be required.

Such declaration shall, however, be required if such goods are subject to a tariff quota or ceiling.

Article 248

Taking goods out of a free zone

1 Without prejudice to legislation in fields other than customs, goods in a free zone may be exported or re-exported from the customs territory of the Union, or brought into another part of the customs territory of the Union.

2 Articles 134 to 149 shall apply to goods taken out of a free zone into other parts of the customs territory of the Union.

Article 249

Customs status

Where goods are taken out of a free zone into another part of the customs territory of the Union or placed under a customs procedure, they shall be regarded as non-Union goods unless their customs status as Union goods has been proven.

However, for the purposes of applying export duty and export licences or export control measures laid down under the common agricultural or commercial policies, such goods shall be regarded as Union goods, unless it is established that they do not have the customs status of Union goods.

Changes to legislation:

There are currently no known outstanding effects for the Regulation (EU) No 952/2013 of the European Parliament and of the Council, Section 3.
