Article 53

Conditions for granting the support

1. Member States shall lay down eligibility criteria for coupled support measures in compliance with the framework set out in Regulation (EU) No 1307/2013 and the conditions laid down in this Regulation.

2. Areas and yields and number of animals referred to in Article 52(6) of Regulation (EU) No 1307/2013 shall be fixed by the Member States at regional or sector level. They shall reflect the maximum yields, area cultivated or number of animals reached in the targeted region or sector in at least one year in the period of five years preceding the year of the decision referred to in Article 53(1) of that Regulation.

[^{F2}The annual payment shall be expressed as the per unit amount of support. It may be either one of the following amounts, or, when the area or the number of animals eligible for the support does not exceed the area or the number of animals fixed as referred to in the first subparagraph of this paragraph, an amount between them:

- (a) the ratio between the amount fixed for the financing of the measure as notified according to point (3)(i) of Annex I to this Regulation and the area or the number of animals eligible for the support in the year in question;
- (b) the ratio between the amount fixed for the financing of the measure as notified according to point (3)(i) of Annex I to this Regulation and the area or the number of animals fixed as referred to in the first subparagraph of this paragraph.]

[^{F3}Without prejudice to Article 52(6) of Regulation (EU) No 1307/2013, for the per unit amount of support referred to in the second subparagraph of this paragraph, Member States may decide to apply modulated per unit amounts in respect of certain categories of farmers or at farm level in order to take into account economies of scale resulting from the size of the production structures in the targeted specific type of farming or specific agricultural sector, or, if the measure targets a region or an entire sector, in the region or sector concerned. Article 67(1) of this Regulation shall apply *mutatis mutandis* to the notification of such decisions.]

3. Where the coupled support measure concerns the oilseeds referred to in the Annex to the Memorandum of Understanding between the European Economic Community and the United States of America on oilseeds within the framework of the GATT, the total of the maximum areas to be supported as notified by the Member States shall not exceed a maximum area for the whole Union for the purpose of ensuring compliance with its international commitments.

Where the maximum area referred to in the first subparagraph is exceeded, the Member States concerned shall adjust the area notified by applying a reduction coefficient resulting from the ratio between the maximum area and the total of the areas notified for the support of those oilseeds referred to in the first subparagraph.

The Commission shall fix the reduction coefficient referred to in the second subparagraph by means of implementing acts adopted without applying the procedure referred to in Article 71(2) or (3) of Regulation (EU) No 1307/2013.

4. Where the coupled support measure concerns bovine animals and/or sheep and goats, Member States shall define as an eligibility condition for the support, the requirements to

[^{F4}However, without prejudice to other eligibility conditions, an animal shall also be deemed eligible for support where the identification and registration requirements referred to in the first subparagraph are met by a date to be fixed by the Member State which shall not be later than:

- (a) the first day of the retention period of the animal, where a retention period is applied;
- (b) a date chosen on the basis of objective criteria and consistent with the corresponding measure notified in accordance with Annex I, where no retention period is applied.

By 15 September 2015, Member States shall notify the Commission of the dates referred to in the second subparagraph.]

5. Member States may not grant area-related coupled support for areas that are not eligible areas within the meaning of Article 32(2), (3) and (4) of Regulation (EU) No 1307/2013. Where Member States grant coupled support to hemp, the condition referred to in Article 32(6) of Regulation (EU) No 1307/2013 and in Article 9 of this Regulation shall apply.

^{F5}Article 53a

Transfer of funds between measures

1. Without prejudice to the requirements set out in Chapter I of Title IV of Regulation (EU) No 1307/2013, Member States may decide to use the amounts notified in accordance with point (3)(i) of Annex I to this Regulation for the purpose of financing one or several other support measures under Chapter I of Title IV of Regulation (EU) No 1307/2013 in respect of the same claim year.

A transfer of funds between support measures shall not result in a support measure notified to the Commission pursuant to Article 54 of Regulation (EU) No 1307/2013 and Article 67(1) and (2) of this Regulation becoming void.

3. Where the area or the number of animals eligible for support under a voluntary coupled support measure in the claim year concerned is lower compared to the area or the number of animals referred to in Article 52(6) of Regulation (EU) No 1307/2013 as notified in accordance with point (3)(j) of Annex I to this Regulation, a transfer of funds shall not result in the per unit amount becoming lower than the ratio between the amount fixed for the financing as notified in accordance with point (3)(i) of that Annex and the area or the number of animals referred to in Article 52(6) of Regulation (EU) No 1307/2013.]

4. Where Member States grant coupled support for protein crops while using the possibility provided for in Article 53(3) of Regulation (EU) No 1307/2013, a transfer of funds shall not result in the support available for protein crops to be less than 2 % of the annual national ceiling set out in Annex II to that Regulation.

5. A decision to transfer funds between support measures shall be taken before the date of the first payment or payment of advances to farmers in respect of the voluntary coupled support. However, in respect of transfers from and to measures for which no payment has been made yet, such decision may be taken after that date, but no later than:

- (a) the last day of the month in which the first payment or payment of advances to farmers in respect of the voluntary coupled support is made;
- (b) 30 November where such first payment or payment of advances is made in the period from 16 to 31 October.

6. The competent authority of the Member State intending to take a decision to transfer funds between support measures shall inform farmers of a possible transfer before the date of opening of the application period.]

Criteria for approval by the Commission

1. For the purposes of Article 55(1)(a) of Regulation (EU) No 1307/2013, a lack of alternatives shall exist if:
 - (a) no other production than the production subject to coupled support measure can be carried out in the targeted region or sector or the continuation of such production requires significant changes in the production structures; or
 - (b) conversion towards another production is severely limited due to the unavailability of land or infrastructures adapted to that production, the consecutive significant reduction in the number of holdings, the level of investments needed resulting from the conversion or due to similar reasons.
2. For the purposes of Article 55(1)(b) of Regulation (EU) No 1307/2013, it shall be necessary to provide stable supply to the local processing industry where a suspension or reduction of the production in the targeted region or sector is expected to negatively impact the activity and the related economic viability or employment in downstream enterprises which significantly depend on such production, such as processors of raw material, slaughterhouses or food industries. Such downstream enterprises need to be located in the respective region or need to be significantly reliant on the sector for the continuation of their activity.
3. For the purposes of Article 55(1)(c) of Regulation (EU) No 1307/2013, continuing disturbances on the related market shall exist where farmers in the targeted region or sector are affected by economic losses resulting in particular from occurrence of pollution, contamination or degradation in the quality of the environment related to a specific event of limited geographical scope.

Where it is planned to withdraw the approval, the Member State shall notify that intention to the inter-branch organisation, together with the reasons for the withdrawal.
