**COMMISSION IMPLEMENTING REGULATION (EU) 2015/2450****of 2 December 2015****laying down implementing technical standards with regard to the templates for the submission of information to the supervisory authorities according to Directive 2009/138/EC of the European Parliament and of the Council****(Text with EEA relevance)**

## CHAPTER I

**GENERAL PROVISIONS AND SUPERVISORY REPORTING REQUIREMENTS***Article 1***Subject matter**

This Regulation lays down implementing technical standards on regular supervisory reporting by establishing the templates for the submission of information to the supervisory authorities referred to in Article 35(1) and (2) of Directive 2009/138/EC for individual insurance and reinsurance undertakings and in Article 244(2) and Article 245(2) of Directive 2009/138/EC for groups.

*Article 2***Supervisory reporting formats**

Insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit the information referred to in this Regulation in the data exchange formats and representations determined by the supervisory authorities or by the group supervisor and in accordance with the following specifications:

- (a) data points with the data type ‘monetary’ shall be expressed in units with no decimals with the exception of templates S.06.02, S.08.01, S.08.02 and S.11.01, which shall be expressed in units with two decimals;
- (b) data points with the data type ‘percentage’ shall be expressed as per unit with four decimals;
- (c) data points with the data type ‘integer’ shall be expressed in units with no decimals.

*Article 3***Currency**

1. For the purposes of this Regulation ‘reporting currency’, unless otherwise required by the supervisory authority, shall be:

- (a) for individual reporting, the currency used for the preparation of the insurance or reinsurance undertaking's financial statements;

**▼B**

(b) for group reporting, the currency used for the preparation of the consolidated financial statements.

2. Data points with the data type ‘monetary’ shall be reported in the reporting currency, which requires the conversion of any other currency into the reporting currency unless otherwise stated in this Regulation.

3. When expressing the value of any asset or liability denominated in a currency other than the reporting currency, the value shall be converted into the reporting currency as if the conversion had taken place at the closing rate on the last day for which the appropriate rate is available in the reporting period to which the asset or liability relates.

4. When expressing the value of any income or expense, the value shall be converted into the reporting currency using such basis of conversion as that used for accounting purposes.

5. The conversion into the reporting currency shall be calculated by applying the exchange rate from the same source as that used for the insurance or reinsurance undertaking's financial statements in the case of individual reporting or for the consolidated financial statements in the case of group reporting, unless otherwise required by the supervisory authority.

*Article 4***Re-submission of data**

Insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall re-submit as soon as practicable the information reported using the templates referred to in this Regulation when the information originally reported has materially changed in relation to the same reporting period after the last submission to the supervisory authorities or to the group supervisor.

## CHAPTER II

**QUANTITATIVE REPORTING TEMPLATES FOR INDIVIDUAL UNDERTAKINGS***Article 5***Quantitative templates for the opening information for individual undertakings**

Insurance and reinsurance undertakings shall submit the information referred to in Article 314(1)(a) and (c) of Commission Delegated Regulation (EU) 2015/35 using the following templates:

(a) template S.01.01.03 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex II;

**▼B**

- (b) template S.01.02.01 of Annex I, specifying basic information on the undertaking and the content of reporting in general, following the instructions set out in section S.01.02 of Annex II;
- (c) template S.01.03.01 of Annex I, specifying basic information on the ring-fenced funds and matching adjustment portfolios, following the instructions set out in section S.01.03 of Annex II;
- (d) template S.02.01.02 of Annex I, specifying balance sheet information using the valuation in accordance with Article 75 of Directive 2009/138/EC, following the instructions set out in section S.02.01 of Annex II to this Regulation;
- (e) template S.23.01.01 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex II;
- (f) where the undertaking uses the standard formula for the calculation of the Solvency Capital Requirement, template S.25.01.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex II;
- (g) where the undertaking uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template S.25.02.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex II;
- (h) where the undertaking uses a full internal model for the calculation of the Solvency Capital Requirement, template S.25.03.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex II;
- (i) where insurance and reinsurance undertakings are engaged in only life or only non-life insurance or reinsurance activity, template S.28.01.01 of Annex I, specifying the Minimum Capital Requirement, following the instructions set out in section S.28.01 of Annex II;
- (j) where insurance undertakings are engaged in both life and non-life insurance activity, template S.28.02.01 of Annex I, specifying the Minimum Capital Requirement, following the instructions set out in section S.28.02 of Annex II.

*Article 6***Quarterly quantitative templates for individual undertakings**

1. Insurance and reinsurance undertakings shall submit quarterly, unless the scope or frequency of the reporting is limited in accordance with Article 35(6) of Directive 2009/138/EC, the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.01.01.02 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex II;

**▼B**

- (b) template S.01.02.01 of Annex I, specifying basic information on the undertaking and the content of reporting in general, following the instructions set out in section S.01.02 of Annex II;
- (c) template S.02.01.02 of Annex I, specifying balance sheet information using the valuation in accordance with Article 75 of Directive 2009/138/EC, following the instructions set out in section S.02.01 of Annex II to this Regulation;
- (d) template S.05.01.02 of Annex I, specifying information on premiums, claims and expenses applying the valuation and recognition principles used in the undertaking's financial statements for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.05.01 of Annex II to this Regulation;
- (e) template S.06.02.01 of Annex I, providing an item-by-item list of assets, following the instructions set out in section S.06.02 of Annex II and using the Complementary Identification Code ('CIC code') as set out in Annex V and defined in Annex VI;
- (f) where the ratio of collective investments held by the undertaking to total investments is higher than 30 %, template S.06.03.01 of Annex I, providing information on the look-through of all collective investments held by the undertaking, following the instructions set out in section S.06.03 of Annex II;
- (g) template S.08.01.01 of Annex I, providing an item-by-item list of open positions of derivatives, following the instructions set out in section S.08.01 of Annex II and using the CIC code as set out in Annex V and defined in Annex VI;
- (h) template S.08.02.01 of Annex I, providing an item-by-item list of derivatives closed during the reporting period, following the instructions set out in section S.08.02 of Annex II and using the CIC code as set out in Annex V and defined in Annex VI;
- (i) template S.12.01.02 of Annex I, specifying information on the technical provisions relating to life insurance and health insurance pursued on a similar technical basis to that of life insurance ('health SLT') for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.12.01 of Annex II to this Regulation;
- (j) template S.17.01.02 of Annex I, specifying information on non-life technical provisions for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.17.01 of Annex II to this Regulation;

**▼B**

- (k) template S.23.01.01 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex II;
- (l) where insurance and reinsurance undertakings are engaged in only life or only non-life insurance or reinsurance activity, template S.28.01.01 of Annex I, specifying the Minimum Capital Requirement, following the instructions set out in section S.28.01 of Annex II;
- (m) where insurance undertakings are engaged in both life and non-life insurance activity, template S.28.02.01 of Annex I, specifying the Minimum Capital Requirement, following the instructions set out in section S.28.02 of Annex II.

2. For the purposes of point (f) of paragraph 1, the ratio of collective investments held by the undertaking to total investments shall be determined by the sum of items C0010/R0180, collective investment undertakings included in item C0010/R0220 and collective investment undertakings included in item C0010/R0090 of template S.02.01.02, divided by the sum of items C0010/R0070 and C0010/R0220 of template S.02.01.02.

*Article 7***Simplifications allowed on quarterly reporting for individual undertakings**

1. With regard to the information referred to in point (c) of Article 6(1), quarterly measurements may rely on estimates and estimation methods to a greater extent than measurements of annual financial data. The measurement procedures for the quarterly reporting shall be designed to ensure that the resulting information is reliable and complies with the standards laid down in Directive 2009/138/EC and that all material information that is relevant for the understanding of the data is reported.

2. When submitting the information referred to in points (i) and (j) of Article 6(1), insurance and reinsurance undertakings may apply simplified methods in the calculation of the technical provisions.

*Article 8***Annual quantitative templates for individual undertakings — Basic information and content of submission**

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.01.01.01 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex II;

**▼B**

- (b) template S.01.02.01 of Annex I, specifying basic information on the undertaking and the content of the reporting in general, following the instructions set out in section S.01.02 of Annex II;
- (c) template S.01.03.01 of Annex I, specifying basic information on the ring-fenced funds and matching adjustment portfolios, following the instructions set out in section S.01.03 of Annex II.

*Article 9***Annual quantitative templates for individual undertakings —  
Balance sheet and other general information**

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.02.01.01 of Annex I, specifying balance sheet information using the valuation in accordance with Article 75 of Directive 2009/138/EC and the valuation following the undertaking's financial statements, following the instructions set out in section S.02.01 of Annex II to this Regulation;
- (b) template S.02.02.01 of Annex I, specifying information on assets and liabilities by currency, following the instructions set out in section S.02.02 of Annex II;
- (c) template S.03.01.01 of Annex I, specifying general information on off-balance sheet items, following the instructions set out in section S.03.01 of Annex II;
- (d) template S.03.02.01 of Annex I, providing a list of off-balance sheet unlimited guarantees received, following the instructions set out in section S.03.02 of Annex II;
- (e) template S.03.03.01 of Annex I, providing a list of off-balance sheet unlimited guarantees provided, following the instructions set out in section S.03.03 of Annex II;
- (f) template S.04.01.01 of Annex I, specifying information on activity by country, including EEA and non-EEA, applying the valuation and recognition principles used in the undertaking's financial statements for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.04.01 of Annex II to this Regulation;
- (g) template S.04.02.01 of Annex I, specifying information on class 10 in Part A of Annex I of Directive 2009/138/EC, excluding carrier's liability, following the instructions set out in section S.04.02 of Annex II to this Regulation;

**▼B**

- (h) template S.05.01.01 of Annex I, specifying information on premiums, claims and expenses applying the valuation and recognition principles used in the undertaking's financial statements for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.05.01 of Annex II to this Regulation;
  
- (i) template S.05.02.01 of Annex I, specifying information on premiums, claims and expenses by country, applying the valuation and recognition principles used in the undertaking's financial statements, following the instructions set out in section S.05.02 of Annex II.

*Article 10***Annual quantitative templates for individual undertakings —  
Investments information**

Insurance and reinsurance undertakings shall submit annually, unless exempted under Article 35(7) of Directive 2009/138/EC in relation to a specific template, the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) where the undertaking is exempted from the annual submission of information in templates S.06.02.01 or S.08.01.01 in accordance with Article 35(7) of Directive 2009/138/EC, template S.06.01.01 of Annex I to this Regulation, providing summary information of assets, following the instructions set out in section S.06.01 of Annex II to this Regulation;
  
- (b) where the undertaking is exempted from reporting the template S.06.02.01 in relation to the last quarter in accordance with Article 35(6) of Directive 2009/138/EC, template S.06.02.01 of Annex I to this Regulation, providing an item-by-item list of assets, following the instructions set out in section S.06.02 of Annex II to this Regulation and using the CIC code as set out in Annex V and defined in Annex VI to this Regulation;
  
- (c) where the undertaking is exempted from reporting the template S.06.03.01 in relation to the last quarter in accordance with Article 35(6) of Directive 2009/138/EC or has not reported it quarterly because the ratio of collective investments held by the undertaking to total investments, as referred to in Article 6(1)(f) of this Regulation, is not higher than 30 %, template S.06.03.01 of Annex I to this Regulation, providing information on the look-through of all collective investments held by the undertakings, following the instructions set out in section S.06.03 of Annex II to this Regulation;

**▼B**

- (d) where the value of structured products, determined as the sum of assets classified in categories 5 and 6, as defined in Annex V, represents more than 5 % of the total investments as reported in items C0010/R0070 and C0010/R0220 of template S.02.01.01, template S.07.01.01 of Annex I, providing an item-by-item list of structured products, following the instructions set out in section S.07.01 of Annex II;
- (e) where the undertakings are exempted from reporting the template S.08.01.01 in relation to the last quarter in accordance with Article 35(6) of Directive 2009/138/EC, template S.08.01.01 of Annex I to this Regulation, providing an item-by-item list of open positions of derivatives, following the instructions set out in section S.08.01 of Annex II to this Regulation and using the CIC code as set out in Annex V and defined in Annex VI to this Regulation;
- (f) where the undertakings are exempted from reporting the template S.08.02.01 in relation to the last quarter in accordance with Article 35(6) of Directive 2009/138/EC, template S.08.02.01 of Annex I to this Regulation, providing an item-by-item list of derivatives closed during the reporting period, following the instructions set out in section S.08.02 of Annex II to this Regulation and using the CIC code as set out in Annex V and defined in Annex VI to this Regulation;
- (g) template S.09.01.01 of Annex I, specifying information on income, gains and losses in the reporting period by asset category as defined in Annex IV, following the instructions set out in section S.09.01 of Annex II;
- (h) where the value of the underlying securities, on and off balance sheet, involved in lending or repurchase agreements, for contracts with maturity dates falling after the reporting reference date, represents more than 5 % of the total investments as reported in items C0010/R0070 and C0010/R0220 of template S.02.01.01, template S.10.01.01 of Annex I, providing an item-by-item list of securities lending and repurchase agreements, on and off-balance sheet, following the instructions set out in section S.10.01 of Annex II;
- (i) template S.11.01.01 of Annex I, providing an item-by-item list of assets held as collateral, consisting of all types of off-balance sheet asset categories held as collateral, following the instructions set out in section S.11.01 of Annex II.

*Article 11***Annual quantitative templates for individual undertakings —  
Technical provisions information**

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.12.01.01 of Annex I, specifying information on life and health SLT technical provisions by line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.12.01 of Annex II to this Regulation;
- (b) template S.12.02.01 of Annex I, specifying information on life and health SLT technical provisions by country, following the instructions set out in section S.12.02 of Annex II;
- (c) template S.13.01.01 of Annex I, specifying information on the projection of best estimate future cash flows of the life business, following the instructions set out in section S.13.01 of Annex II;
- (d) template S.14.01.01 of Annex I, specifying information on life obligations analysis, including life insurance and reinsurance contracts and annuities stemming from non-life contracts, by product and by homogeneous risk group issued by the undertaking, following the instructions set out in section S.14.01 of Annex II;
- (e) template S.15.01.01 of Annex I, specifying information on description of the guarantees of variable annuities by product issued by the undertaking under direct insurance business, following the instructions set out in section S.15.01 of Annex II;
- (f) template S.15.02.01 of Annex I, specifying information on the hedging of guarantees of variable annuities by product issued by the undertaking under direct insurance business, following the instructions set out in section S.15.02 of Annex II;
- (g) template S.16.01.01 of Annex I, specifying information on annuities stemming from non-life insurance obligations issued by the undertaking under direct insurance business originating annuities, regarding all lines of business as defined in Annex I to Delegated Regulation (EU) 2015/35 and additionally by currency, following the instructions set out in section S.16.01 of Annex II to this Regulation; the information by currency shall only be reported

**▼B**

where the best estimate for the annuity claims provisions on a discounted basis from one non-life line of business represents more than 3 % of the total best estimate for all annuity claims provisions, with the following split:

- (i) amounts for the reporting currency;
  - (ii) amounts for any currency that represents more than 25 % of the best estimate for the annuity claims provisions on a discounted basis in the original currency from that non-life line of business;
  - (iii) amounts for any currency that represents less than 25 % of the best estimate for the annuity claims provisions (discounted basis) in the original currency from that non-life line of business but more than 5 % of total best estimate for all annuity claims provisions;
- (h) template S.17.01.01 of Annex I, specifying information on non-life technical provisions by lines of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.17.01 of Annex II to this Regulation;
- (i) template S.17.02.01 of Annex I, specifying information on non-life technical provisions referred to direct insurance business by country, following the instructions set out in section S.17.02 of Annex II;
- (j) template S.18.01.01 of Annex I, specifying information on the projection of future cash flows based on best estimate of the non-life business, following the instructions set out in section S.18.01 of Annex II;
- (k) template S.19.01.01 of Annex I, specifying information on non-life insurance claims in the format of development triangles, for the total of each non-life line of business as defined in Annex I to Delegated Regulation (EU) 2015/35 and additionally by currency, following the instructions set out in section S.19.01 of Annex II to this Regulation; the information by currency shall only be reported where the total gross best estimate for one non-life line of business represents more than 3 % of the total gross best estimate of the claims provision, with the following split:
- (i) amounts for the reporting currency;
  - (ii) amounts for any currency that represents more than 25 % of the gross best estimate of the claims provisions in the original currency from that non-life line of business;

**▼B**

- (iii) amounts for any currency that represents less than 25 % of the gross best estimate of the claims provisions in the original currency from that non-life line of business but more than 5 % of total gross best estimate of the claims provisions in the original currency;
  
- (l) template S.20.01.01 of Annex I, specifying information on the development of the distribution of the claims incurred at the end of the financial year for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.20.01 of Annex II to this Regulation;
  
- (m) template S.21.01.01 of Annex I, specifying information on loss distribution risk profile of non-life business for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.21.01 of Annex II to this Regulation;
  
- (n) template S.21.02.01 of Annex I, specifying information on the non-life underwriting risks, following the instructions set out in section S.21.02 of Annex II;
  
- (o) template S.21.03.01 of Annex I, specifying information on non-life underwriting risks by sum insured by line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions in S.21.03 of Annex II to this Regulation.

*Article 12***Annual quantitative templates for individual undertakings —  
Long-term guarantees information**

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.22.01.01 of Annex I, specifying information on the impact of the long term guarantees and transitional measures, following the instructions set out in section S.22.01 of Annex II;
  
- (b) template S.22.04.01 of Annex I, specifying information on the interest rate transitional measure, following the instructions set out in section S.22.04 of Annex II;
  
- (c) template S.22.05.01 of Annex I, specifying information on the transitional measure on technical provisions, following the instructions set out in section S.22.05 of Annex II;

**▼B**

- (d) template S.22.06.01 of Annex I, specifying information on the best estimate subject to volatility adjustment by country and currency, following the instructions set out in section S.22.06 of Annex II.

*Article 13***Annual quantitative templates for individual undertakings — Own funds and participations information**

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.23.01.01 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex II;
- (b) template S.23.02.01 of Annex I, providing detailed information on own funds by tiers, following the instructions set out in section S.23.02 of Annex II;
- (c) template S.23.03.01 of Annex I, specifying information on annual movements on own funds, following the instructions set out in section S.23.03 of Annex II;
- (d) template S.23.04.01 of Annex I, providing a list of items on own funds, following the instructions set out in section S.23.04 of Annex II;
- (e) template S.24.01.01 of Annex I, specifying information on participations held by the undertaking and an overview of the calculation for the deduction from own funds related to participations in financial and credit institutions, following the instructions set out in section S.24.01 of Annex II.

*Article 14***Annual quantitative templates for individual undertakings — Solvency Capital Requirement information**

1. Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) where the undertaking uses the standard formula for the calculation of the Solvency Capital Requirement, template S.25.01.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex II;

**▼B**

- (b) where the undertaking uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template S.25.02.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex II;
- (c) where the undertaking uses a full internal model for the calculation of the Solvency Capital Requirement, template S.25.03.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex II;
- (d) template S.26.01.01 of Annex I, specifying information on market risk, following the instructions set out in section S.26.01 of Annex II;
- (e) template S.26.02.01 of Annex I, specifying information on counterparty default risk, following the instructions set out in section S.26.02 of Annex II;
- (f) template S.26.03.01 of Annex I, specifying information on life underwriting risk, following the instructions set out in section S.26.03 of Annex II;
- (g) template S.26.04.01 of Annex I, specifying information on health underwriting risk, following the instructions set out in section S.26.04 of Annex II;
- (h) template S.26.05.01 of Annex I, specifying information on non-life underwriting risk, following the instructions set out in section S.26.05 of Annex II;
- (i) template S.26.06.01 of Annex I, specifying information on operational risk, following the instructions set out in section S.26.06 of Annex II;
- (j) template S.26.07.01 of Annex I, specifying information on the simplifications used in the calculation of the Solvency Capital Requirement, following the instructions set out in section S.26.07 of Annex II;
- (k) template S.27.01.01 of Annex I, specifying information on non-life catastrophe risk, following the instructions set out in section S.27.01 of Annex II.

2. In case of existence of ring-fenced funds or matching adjustment portfolios, the templates referred to in points (d) to (k) of paragraph 1 shall not be reported for the entity as a whole.

**▼B**

3. Where a partial internal model is used, the templates referred to in points (d) to (k) of paragraph 1 shall only be reported in relation to the risks covered by the standard formula, unless otherwise decided on the basis of Article 19.

4. Where a full internal model is used, the templates referred to in points (d) to (k) of paragraph 1 shall not be reported.

*Article 15***Annual quantitative templates for individual undertakings —  
Minimum capital requirement information**

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) where insurance and reinsurance undertakings are engaged in only life or only non-life insurance or reinsurance activity, template S.28.01.01 of Annex I, specifying the Minimum Capital Requirement, following the instructions set out in section S.28.01 of Annex II;
- (b) where insurance undertakings are engaged in both life and non-life insurance activity, template S.28.02.01 of Annex I, specifying the Minimum Capital Requirement, following the instructions set out in section S.28.02 of Annex II.

*Article 16***Annual quantitative templates for individual undertakings —  
Variation analysis information**

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.29.01.01 of Annex I, specifying information on the variation of the excess of assets over liabilities during the reporting year providing a summary of main sources of this variation, following the instructions set out in section S.29.01 of Annex II;
- (b) template S.29.02.01 of Annex I, specifying information on the part of variation of the excess of assets over liabilities during the reporting year explained by investments and financial liabilities, following the instructions set out in section S.29.02 of Annex II;

**▼B**

- (c) templates S.29.03.01 and S.29.04.01 of Annex I, specifying information on the part of variation of the excess of assets over liabilities during the reporting year explained by technical provisions, following the instructions set out in section S.29.03 and S.29.04 of Annex II.

*Article 17***Annual quantitative templates for individual undertakings —  
Reinsurance and special purpose vehicles information**

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.30.01.01 of Annex I, specifying information on facultative covers in the next reporting year covering information on the 10 most important risks in terms of reinsured exposure for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35 for which facultative reinsurance is used, following the instructions set out in section S.30.01 of Annex II to this Regulation;
- (b) template S.30.02.01 of Annex I, specifying information on shares of reinsurers of facultative covers in the next reporting year covering information on the 10 most important risks in terms of reinsured exposure for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.30.02 of Annex II to this Regulation;
- (c) template S.30.03.01 of Annex I, specifying information on the outgoing reinsurance program in the next reporting year covering prospective information on reinsurance treaties the period of validity of which includes or overlaps the next reporting year, following the instructions set out in section S.30.03 of Annex II;
- (d) template S.30.04.01 of Annex I, specifying information on the outgoing reinsurance program in the next reporting year covering prospective information on reinsurance treaties the period of validity of which includes or overlaps the next reporting year, following the instructions set out in section S.30.04 of Annex II;
- (e) template S.31.01.01 of Annex I, specifying information on the share of reinsurers, following the instructions set out in section S.31.01 of Annex II;

**▼B**

- (f) template S.31.02.01 of Annex I, specifying information on special purpose vehicles from the perspective of the insurance or reinsurance undertaking transferring risk to the special purpose vehicles, following the instructions set out in section S.31.02 of Annex II.

*Article 18***Annual quantitative templates for individual undertakings — ring-fenced funds, material matching adjustment portfolios and remaining part information**

1. Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 in relation to each material ring-fenced fund, each material matching adjustment portfolio and the remaining part, using the following templates:

- (a) template SR.01.01.01 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex II;
- (b) for each material ring-fenced fund and for the remaining part, template SR.02.01.01 of Annex I, specifying balance sheet information using both the valuation in accordance with Article 75 of Directive 2009/138/EC and the valuation following the undertaking's financial statements, following the instructions set out in section S.02.01 of Annex II to this Regulation;
- (c) template SR.12.01.01 of Annex I, specifying information on life and health SLT technical provisions for each line of business as defined in Annex I of Delegated Regulation (EU) 2015/35, following the instructions set out in section S.12.01 of Annex II to this Regulation;
- (d) template SR.17.01.01 of Annex I, specifying information on non-life technical provisions for each line of business as defined in Annex I of Delegated Regulation (EU) 2015/35, following the instructions set out in section S.17.01 of Annex II to this Regulation;
- (e) template SR.22.02.01 of Annex I, specifying information on the projection of future cash flows for the best estimate calculation by each material matching adjustment portfolio, following the instructions set out in section S.22.02 of Annex II;
- (f) template SR.22.03.01 of Annex I, specifying information on the matching adjustment portfolios by each material matching adjustment portfolio, following the instructions set out in section S.22.03 of Annex II;

**▼B**

- (g) where the undertaking uses the standard formula for the calculation of the Solvency Capital Requirement, template SR.25.01.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex II;
- (h) where the undertaking uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template SR.25.02.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex II;
- (i) where the undertaking uses a full internal model for the calculation of the Solvency Capital Requirement, template SR.25.03.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex II;
- (j) template SR.26.01.01 of Annex I, specifying information on market risk, following the instructions set out in section S.26.01 of Annex II;
- (k) template SR.26.02.01 of Annex I, specifying information on counterparty default risk, following the instructions set out in section S.26.02 of Annex II;
- (l) template SR.26.03.01 of Annex I, specifying information on life underwriting risk, following the instructions set out in section S.26.03 of Annex II;
- (m) template SR.26.04.01 of Annex I, specifying information on health underwriting risk, following the instructions set out in section S.26.04 of Annex II;
- (n) template SR.26.05.01 of Annex I, specifying information on non-life underwriting risk, following the instructions set out in section S.26.05 of Annex II;
- (o) template SR.26.06.01 of Annex I, specifying information on operational risk, following the instructions set out in section S.26.06 of Annex II;
- (p) template SR.26.07.01 of Annex I, specifying information on the simplifications used in the calculation of the Solvency Capital Requirement, following the instructions set out in section S.26.07 of Annex II;
- (q) template SR.27.01.01 of Annex I, specifying information on non-life catastrophe risk, following the instructions set out in section S.27.01 of Annex II.

**▼B**

2. Where a partial internal model is used, the templates referred to in points (j) to (q) shall only be reported in relation to the risks covered by the standard formula, unless otherwise decided on the basis of Article 19.

3. Where a full internal model is used, the templates referred to in points (j) to (q) shall not be reported.

*Article 19***Annual quantitative templates for individual undertakings — internal model users**

Insurance and reinsurance undertakings that calculate the Solvency Capital Requirement using an approved partial or full internal model shall agree with its supervisory authority on the templates to be submitted annually in relation to the information on the Solvency Capital Requirement.

*Article 20***Annual quantitative templates for individual undertakings — intra-group-transactions information**

Insurance and reinsurance undertakings which are not part of a group referred to in points (a), (b) or (c) of Article 213(2) of Directive 2009/138/EC and the parent undertaking of which is a mixed-activity insurance holding company shall submit annually the information referred to in the second subparagraph of Article 245(2) of that Directive, in conjunction with Article 265 of that Directive, using the following templates:

- (a) template S.36.01.01 of Annex I, specifying information on significant intra-group-transactions, involving equity-type transactions, debt and asset transfer, following the instructions set out in section S.36.01 of Annex II;
- (b) template S.36.02.01 of Annex I, specifying information on significant intra-group-transactions on derivatives, including the guarantees supporting any derivatives instruments, following the instructions set out in section S.36.02 of Annex II;
- (c) template S.36.03.01 of Annex I, specifying information on significant intra-group-transactions on reinsurance, following the instructions set out in section S.36.03 of Annex II;
- (d) template S.36.04.01 of Annex I, specifying information on significant intra-group-transactions on internal cost sharing, contingent liabilities other than derivatives and off-balance sheet items and other types of intra-group transactions, following the instructions set out in section S.36.04 of Annex II.

**▼B***Article 21***Quantitative templates for individual undertakings — intra-group transactions information**

Insurance and reinsurance undertakings which are not part of a group referred to in points (a), (b) or (c) of Article 213(2) of Directive 2009/138/EC and the parent undertaking of which is a mixed-activity insurance holding company shall report very significant intra-group transactions referred to in the second subparagraph of Article 245(2) of that Directive, in conjunction with Article 265 of that Directive, and intra-group transactions to be reported in all circumstances referred to in Article 245(3) of that Directive, in conjunction with Article 265 of that Directive, as soon as practicable using the relevant templates among templates S.36.01.01 to S.36.04.01 of Annex I to this Regulation, following the instructions set out in section S.36.01 to S.36.04 of Annex II to this Regulation.

## CHAPTER III

**QUANTITATIVE REPORTING TEMPLATES FOR GROUPS***Article 22***Quantitative templates for the opening information for groups**

1. Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit the information referred to in Article 314(1)(a) and (c) of Delegated Regulation (EU) 2015/35, in conjunction with Article 375(1) of that Delegated Regulation, using the following templates:

- (a) template S.01.01.06 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex III;
- (b) template S.01.02.04 of Annex I, specifying basic information on the group and the content of the reporting in general, following the instructions set out in section S.01.02 of Annex III;
- (c) template S.01.03.04 of Annex I, specifying basic information on the ring-fenced funds and the matching adjustment portfolios, following the instructions set out in section S.01.03 of Annex III;
- (d) template S.02.01.02 of Annex I, specifying balance sheet information, following the instructions set out in section S.02.01 of Annex III;
- (e) template S.23.01.04 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex III;

**▼B**

- (f) where the group uses the standard formula for the calculation of the Solvency Capital Requirement, template S.25.01.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex III;
- (g) where the group uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template S.25.02.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex III;
- (h) where the group uses a full internal model for the calculation of the Solvency Capital Requirement, template S.25.03.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex III;
- (i) template S.32.01.04 of Annex I, specifying information on the insurance and reinsurance undertakings in the scope of the group, following the instructions set out in section S.32.01 of Annex III;
- (j) template S.33.01.04 of Annex I, specifying information on requirements of insurance and reinsurance undertakings in the scope of the group, following the instructions set out in section S.33.01 of Annex III;
- (k) template S.34.01.04 of Annex I, specifying information on other regulated financial undertakings and other non-regulated financial undertakings including insurance holding companies and mixed financial holding companies, following the instructions set out in section S.34.01 of Annex III.

2. The templates referred to in points (c), (d), (f), (g) and (h) of paragraph 1 shall only be submitted by participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive.

*Article 23***Quarterly quantitative templates for groups**

1. Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit quarterly, unless the scope or the frequency of the reporting is limited in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) template S.01.01.05 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex III;

**▼B**

- (b) template S.01.02.04 of Annex I, specifying basic information on the group and the content of the reporting in general, following the instructions set out in section S.01.02 of Annex III;
- (c) where, for the calculation of group solvency, the group uses method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, template S.02.01.02 of Annex I to this Regulation, specifying balance sheet information using the valuation in accordance with Article 75 of Directive 2009/138/EC, following the instructions set out in section S.02.01 of Annex III to this Regulation;
- (d) template S.05.01.02 of Annex I, specifying information on premiums, claims and expenses for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35 using the valuation and recognition principles used in the consolidated financial statements, following the instructions set out in section S.05.01 of Annex III to this Regulation;
- (e) template S.06.02.04 of Annex I, providing an item-by-item list of assets, following the instructions set out in section S.06.02 of Annex III and using the CIC code as set out in Annex V and defined in Annex VI;
- (f) where the ratio of collective investments held by the group to total investments is higher than 30 %, template S.06.03.04 of Annex I, providing information on the look-through of all collective investments held by the group, following the instructions set out in section S.06.03 of Annex III;
- (g) template S.08.01.04 of Annex I, providing an item-by-item list of open positions of derivatives, following the instructions set out in section S.08.01 of Annex III and using the CIC code as set out in Annex V and defined in Annex VI;
- (h) template S.08.02.04 of Annex I, providing an item-by-item list of transactions of derivatives during the reporting year, following the instructions set out in section S.08.02 of Annex III and using the CIC code as set out in Annex V and defined in Annex VI;
- (i) template S.23.01.04 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex III.

2. For the purposes of point (f) of paragraph 1, where for the calculation of group solvency method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively, the ratio of collective investments held by the group to total investments shall be determined by the sum of items C0010/R0180, collective investment undertakings included in item C0010/R0220 and collective investment undertakings included in item C0010/R0090 of template S.02.01.02, divided by the

**▼B**

sum of items C0010/R0070 and C0010/R0220 of template S.02.01.02. Where, for the calculation of group solvency, method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC, or method 2 is used exclusively, the ratio shall be calculated in accordance with the first sentence and adjusted in order to capture the required items of all entities included in the scope of template S.06.02.04.

*Article 24***Simplifications allowed on quarterly reporting for groups**

With regard to the information referred to in point (c) of Article 23(1), quarterly measurements may rely on estimates and estimation methods to a greater extent than measurements of annual financial data. The measurement procedures for the quarterly reporting shall be designed to ensure that the resulting information is reliable and complies with the standards laid down in Directive 2009/138/EC and that all material information that is relevant for the understanding of the data is reported.

*Article 25***Annual quantitative templates for groups — Basic information and content of submission**

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) template S.01.01.04 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex III;
- (b) template S.01.02.04 of Annex I, specifying basic information on the undertaking and the content of the reporting in general, following the instructions set out in section S.01.02 of Annex III;
- (c) where, for the calculation of group solvency, the group uses method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, template S.01.03.04 of Annex I to this Regulation, specifying basic information on the ring-fenced funds and matching adjustment portfolios, following the instructions set out in section S.01.03 of Annex III to this Regulation.

*Article 26***Annual quantitative templates for groups — Balance sheet and other general information**

1. Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:
  - (a) template S.02.01.01 of Annex I, specifying balance sheet information using both the valuation in accordance with Article 75 of Directive 2009/138/EC and the valuation following the consolidated financial statements, following the instructions set out in section S.02.01 of Annex III;
  - (b) template S.02.02.01 of Annex I, specifying information on assets and liabilities by currency, following the instructions set out in section S.02.02 of Annex III;
  - (c) template S.03.01.04 of Annex I, specifying general information on off-balance sheet items, following the instructions set out in section S.03.01 of Annex III;
  - (d) template S.03.02.04 of Annex I, providing a list of off-balance sheet unlimited guarantees received, following the instructions set out in section S.03.02 of Annex III;
  - (e) template S.03.03.04 of Annex I, providing a list of off-balance sheet unlimited guarantees provided, following the instructions set out in section S.03.03 of Annex III;
  - (f) template S.05.01.01 of Annex I, specifying information on premiums, claims and expenses for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35 applying the valuation and recognition principles used in the consolidated financial statements, following the instructions set out in section S.05.01 of Annex III to this Regulation;
  - (g) template S.05.02.01 of Annex I, specifying information on premiums, claims and expenses by country applying the valuation and recognition principles used in the consolidated financial statements, following the instructions set out in section S.05.02 of Annex III.
2. The templates referred to in points (a) and (b) of paragraph 1 shall only be submitted by participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive.

**▼B***Article 27***Annual quantitative templates for groups — Investments information**

1. Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall, unless exempted under the third subparagraph of Article 254(2) of Directive 2009/138/EC in relation to a specific template, submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) where the group is exempted from the annual submission of information in templates S.06.02.04 or S.08.01.04 in accordance with the third subparagraph of Article 254(2) of Directive 2009/138/EC, template S.06.01.01 of Annex I to this Regulation, providing summary information of assets, following the instructions set out in section S.06.01 of Annex III to this Regulation;
- (b) where the group is exempted from reporting the template S.06.02.04 in relation to the last quarter in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, template S.06.02.04 of Annex I to this Regulation, providing an item-by-item list of assets, following the instructions set out in section S.06.02 of Annex III to this Regulation;
- (c) where the group is exempted from reporting the template S.06.03.04 in relation to the last quarter in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, or has not reported it quarterly because the ratio of collective investment held by the group to total investments, as referred to in Article 23(1)(f) of this Regulation, is not higher than 30 %, template S.06.03.04 of Annex I to this Regulation, providing information on the look-through of all collective investments held by the undertakings, following the instructions set out in section S.06.03 of Annex III to this Regulation;
- (d) where the ratio of the value of structured products held by the group to total investments is higher than 5 %, template S.07.01.04 of Annex I, providing an item-by-item list of structured products, following the instructions set out in section S.07.01 of Annex III;
- (e) where the group is exempted from reporting the template S.08.01.04 in relation to the last quarter in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, template S.08.01.04 of Annex I to this Regulation, providing an item-by-item list of open positions of derivatives, following the instructions set out in section S.08.01 of Annex III to this Regulation;

**▼B**

- (f) where the group is exempted from reporting the template S.08.02.04 in relation to the last quarter in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, template S.08.02.04 of Annex I to this Regulation, providing an item-by-item list of transactions of derivatives, following the instructions set out in section S.08.02 of Annex III to this Regulation;
  
- (g) template S.09.01.04 of Annex I, specifying information on income, gains and losses in the reporting period by asset category as defined in Annex IV, following the instructions set out in section S.09.01 of Annex III;
  
- (h) where the ratio of the value of underlying securities, on and off balance sheet, involved in lending or repurchase agreements, for contracts with maturity dates falling after the reporting reference date, to the total investments is higher than 5 %, template S.10.01.04 of Annex I, providing an item-by-item list securities lending and repurchase agreements on and off-balance sheet, following the instructions set out in section S.10.01 of Annex III;
  
- (i) template S.11.01.04 of Annex I, providing an item-by-item list of assets held as collateral, consisting of all types of off-balance sheet asset categories held as collateral, following the instructions set out in section S.11.01 of Annex III.

2. For the purposes of point (d) of paragraph 1, where for the calculation of group solvency method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively, the ratio of the value of structured products held by the group to total investments shall be determined by the sum of assets classified in categories 5 and 6, as defined in Annex IV to this Regulation, divided by the sum of items C0010/R0070 and C0010/R0020 of template S.02.01.01. Where, for the calculation of group solvency, method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC, or method 2 is used exclusively, the ratio shall be calculated in accordance with the first sentence and adjusted in order to capture the required items of all entities included in the scope of template S.06.02.04.

3. For the purposes of point (h) of paragraph 1, where for the calculation of group solvency method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively, the ratio shall be determined by the sum of the underlying securities, on and off balance sheet, involved in lending or repurchase agreements, for contracts with maturity dates falling after the reporting reference date, divided by the sum of items C0010/R0070 and C0010/R0220 of template S.02.01.01. Where, for the calculation of group solvency, method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC, or method 2 is used exclusively, the ratio shall be calculated in accordance with the first sentence and adjusted in order to capture the required items of all entities included in the scope of template S.06.02.04.

**▼B***Article 28***Annual quantitative templates for groups — Variable annuities information**

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) template S.15.01.04 of Annex I, specifying information on the description of the guarantees of variable annuities by product issued under direct business by undertakings in the scope of the group and established outside the EEA, following the instructions set out in section S.15.01 of Annex III;
- (b) template S.15.02.04 of Annex I, specifying information on the hedging of guarantees of variable annuities by product issued under direct business by undertakings in the scope of the group and established outside the EEA, following the instructions set out in section S.15.02 of Annex III.

*Article 29***Annual quantitative templates for groups — Long term guarantees information**

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using template S.22.01.04 of Annex I to this Regulation, specifying information on the impact of the long term guarantees and transitional measures, following the instructions set out in section S.22.01 of Annex III to this Regulation.

*Article 30***Annual quantitative templates for groups — Own funds information**

1. Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) template S.23.01.04 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex III;

**▼B**

- (b) template S.23.02.04 of Annex I, providing detailed information on own funds by tiers, following the instructions set out in section S.23.02 of Annex III;
- (c) template S.23.03.04 of Annex I, specifying information on annual movements on own funds, following the instructions set out in section S.23.03 of Annex III;
- (d) template S.23.04.04 of Annex I, providing a list of items on own funds, following the instructions set out in section S.23.04 of Annex III.

2. The templates referred to in points (b) and (c) of paragraph 1 shall only be submitted by participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive.

*Article 31***Annual quantitative templates for groups — Solvency Capital Requirement information**

1. Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) where the group uses the standard formula for the calculation of the Solvency Capital Requirement, template S.25.01.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex III;
- (b) where the group uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template S.25.02.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex III;
- (c) where the group uses a full internal model for the calculation of the Solvency Capital Requirement, template S.25.03.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex III;
- (d) template S.26.01.04 of Annex I, specifying information on market risk, following the instructions set out in section S.26.01 of Annex III;

**▼ B**

- (e) template S.26.02.04 of Annex I, specifying information on counterparty default risk, following the instructions set out in section S.26.02 of Annex III;
- (f) template S.26.03.04 of Annex I, specifying information on life underwriting risk, following the instructions set out in section S.26.03 of Annex III;
- (g) template S.26.04.04 of Annex I, specifying information on health underwriting risk, following the instructions set out in section S.26.04 of Annex III;
- (h) template S.26.05.04 of Annex I, specifying information on non-life underwriting risk, following the instructions set out in section S.26.05 of Annex III;
- (i) template S.26.06.04 of Annex I, specifying information on operational risk, following the instructions set out in section S.26.06 of Annex III;
- (j) template S.26.07.04 of Annex I, specifying information on the simplifications used in the calculation of the Solvency Capital Requirement, following the instructions set out in section S.26.07 of Annex III;
- (k) template S.27.01.04 of Annex I, specifying information on non-life catastrophe risk, following the instructions set out in section S.27.01 of Annex III.

2. In case of existence of ring-fenced funds or matching adjustment portfolios, the templates referred to in points (d) to (k) of paragraph 1 shall not be reported for the group as a whole.

3. Where a partial internal model is used, the templates referred to in points (d) to (k) of paragraph 1 shall only be reported in relation to the risks covered by the standard formula, unless otherwise decided on the basis of Article 35.

4. Where a full internal model is used, the templates referred to in points (d) to (k) of paragraph 1 shall not be reported.

*Article 32***Annual quantitative templates for groups — Reinsurers and special purpose vehicles information**

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) template S.31.01.04 of Annex I, specifying information on share of reinsurers, following the instructions set out in section S.31.01 of Annex III;

**▼B**

- (b) template S.31.02.04 of Annex I, specifying information on special purpose vehicles from the perspective of the insurance or reinsurance undertaking transferring risk to the special purpose vehicles, following the instructions set out in section S.31.02 of Annex III.

*Article 33***Annual quantitative templates for groups — Group specific information**

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation using the following templates:

- (a) template S.32.01.04 of Annex I, specifying information on the insurance and reinsurance undertakings in the scope of the group, following the instructions set out in section S.32.01 of Annex III;
- (b) template S.33.01.04 of Annex I, specifying information on requirements of insurance and reinsurance undertakings in the scope of the group, following the instructions set out in section S.33.01 of Annex III;
- (c) template S.34.01.04 of Annex I, specifying information on financial undertakings other than insurance and reinsurance undertakings, and on non-regulated undertakings carrying out financial activities as defined in Article 1(52) of Delegated Regulation (EU) 2015/35, following the instructions set out in section S.34.01 of Annex III;
- (d) template S.35.01.04 of Annex I, specifying information on technical provisions of undertakings of the group, following the instructions set out in section S.35.01 of Annex III;
- (e) template S.36.01.01 of Annex I, specifying information on significant intra-group-transactions involving equity-type transactions, debt and asset transfer, above the threshold determined by the group supervisor in accordance with Article 245(3) of Directive 2009/138/EC, following the instructions set out in section S.36.01 of Annex III to this Regulation;
- (f) template S.36.02.01 of Annex I, specifying information on significant intra-group-transactions on derivatives, including the guarantees supporting any derivatives instruments, above the threshold determined by the group supervisor in accordance with Article 245(3) of Directive 2009/138/EC, following the instructions set out in section S.36.02 of Annex III to this Regulation;

**▼B**

- (g) template S.36.03.01 of Annex I, specifying information on significant intra-group-transactions on reinsurance, above the threshold determined by the group supervisor in accordance with Article 245(3) of Directive 2009/138/EC, following the instructions set out in section S.36.03 of Annex III to this Regulation;
  
- (h) template S.36.04.01 of Annex I, specifying information on significant intra-group-transactions on internal cost sharing, contingent liabilities (other than derivatives) and off-balance sheet items and other types of intra-group transactions, above the threshold determined by the group supervisor in accordance with Article 245(3) of Directive 2009/138/EC, following the instructions set out in section S.36.04 of Annex III to this Regulation;
  
- (i) template S.37.01.04 of Annex I, specifying information on significant risk concentrations, above the threshold determined by the group supervisor in accordance with Article 244(3) of Directive 2009/138/EC, following the instructions set out in section S.37.01 of Annex III to this Regulation.

*Article 34***Annual quantitative templates for groups — ring-fenced funds, material matching adjustment portfolios and remaining part information**

1. Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates in relation to all material ring-fenced funds and all material matching adjustment portfolios related to the part that is consolidated as referred to in points (a) and (c) of Article 335(1) of Delegated Regulation (EU) 2015/35, as well as in relation to the remaining part:

- (a) template SR.01.01.04 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex III;
  
- (b) where the group uses the standard formula for the calculation of the Solvency Capital Requirement, template SR.25.01.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex III;

**▼B**

- (c) where the group uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template SR.25.02.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex III;
- (d) where the group uses a full internal model for the calculation of the Solvency Capital Requirement, template SR.25.03.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex III;
- (e) template SR.26.01.01 of Annex I, specifying information on market risk, following the instructions set out in section S.26.01 of Annex III;
- (f) template SR.26.02.01 of Annex I, specifying information on counterparty default risk, following the instructions set out in section S.26.02 of Annex III;
- (g) template SR.26.03.01 of Annex I, specifying information on life underwriting risk, following the instructions set out in section S.26.03 of Annex III;
- (h) template SR.26.04.01 of Annex I, specifying information on health underwriting risk, following the instructions set out in section S.26.04 of Annex III;
- (i) template SR.26.05.01 of Annex I, specifying information on non-life underwriting risk, following the instructions set out in section S.26.05 of Annex III;
- (j) template SR.26.06.01 of Annex I, specifying information on operational risk following, the instructions set out in section S.26.06 of Annex III;
- (k) template SR.26.07.01 of Annex I, specifying information on the simplifications used in the calculation of the Solvency Capital Requirement, following the instructions set out in section S.26.07 of Annex III;
- (l) template SR.27.01.01 of Annex I, specifying information on non-life catastrophe risk, following the instructions set out in section S.27.01 of Annex III.

2. Where a partial internal model is used, the templates referred to in points (e) to (l) of paragraph 1 shall only be reported in relation to the risks covered by the standard formula, unless otherwise decided on the basis of Article 35.

3. Where a full internal model is used, the templates referred to in points (e) to (l) of paragraph 1 shall not be reported.

**▼B**

4. Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, shall, in addition to the information submitted using templates referred to in paragraph 1, annually submit balance sheet information in relation to all material ring-fenced funds related to the part that is consolidated as referred to in points (a) or (c) of Article 335(1) of Delegated Regulation (EU) 2015/35, as well as in relation to the remaining part, as referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using template SR.02.01.01 of Annex I to this Regulation, following the instructions set out in section S.02.01 of Annex III to this Regulation.

*Article 35***Annual quantitative templates for groups — internal model users**

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies that calculate the Solvency Capital Requirement using an approved partial or full internal model shall agree with its group supervisor the templates to be submitted annually in relation to the information on the Solvency Capital Requirement.

*Article 36***Quantitative templates for groups — intra-group transactions and risk concentrations**

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall report:

- (a) significant and very significant intra-group transactions referred to in the first and second subparagraphs of Article 245(2) of Directive 2009/138/EC and intra-group transactions to be reported in all circumstances referred to in Article 245(3) of that Directive using, as appropriate, templates S.36.01.01, S.36.02.01, S.36.03.01 and S.36.04.01 of Annex I to this Regulation, following the instructions set out in section S.36.01 to S.36.04 of Annex III to this Regulation;
- (b) significant risk concentrations referred to in Article 244(2) of Directive 2009/138/EC and risk concentrations to be reported in all circumstances referred to in Article 244(3) of that Directive using template S.37.01.04 of Annex I to this Regulation, following the instructions set out in section S.37.01 of Annex III to this Regulation.

## ANNEX II

**Instructions regarding reporting templates for individual undertakings**

This Annex contains additional instructions in relation to the templates included in Annex I of this Regulation. The first column of the tables identifies the items to be reported by identifying the columns and rows as showed in the template in Annex I.

Templates which shall be filled in in accordance with the instructions of the different sections of this Annex are referred to as 'this template' throughout the text of the Annex.

**S.01.01 — Content of the submission****General comments:**

This section relates to opening, quarterly and annual submission of information for individual entities, ring fenced-funds, matching portfolios and remaining part.

When a special justification is needed, the explanation is not to be submitted within the reporting template but shall be part of the dialogue between undertakings and national competent authorities.

|             | ITEM  | INSTRUCTIONS   |
|-------------|---|--|
| Z0010       | Ring-fenced fund/<br>matching portfolio/<br>remaining part                    | Identifies whether the reported figures are with regard to a ring-fenced fund ('RFF'), matching adjustment portfolio ('MAP') or to the remaining part. One of the options in the following closed list shall be used:<br><br>1 — RFF/MAP<br><br>2 — Remaining part |
| Z0020       | Fund/Portfolio number   | When item Z0010 = 1, identification number for a ring-fenced fund or matching portfolio. This number is attributed by the undertaking and must be consistent over time and with the fund/portfolio number reported in other templates.<br><br>► <b>M2</b> ————— ◀  |

**S.01.03 — Basic Information — RFF and matching adjustment portfolios****General comments:**

This section relates to opening and annual submission of information for individual entities.

All ring-fenced funds and matching portfolios should be identified regardless if they are material for the purposes of submission of information.

In the first table all ring-fenced funds and matching adjustments portfolios shall be reported. In case a ring-fenced fund has a matching portfolio not covering the full RFF three funds have to be identified, one for the RFF, other for the MAP inside the RFF and other for the remaining part of the fund (vice-versa for the situations where a MAP has a RFF).

**▼B**

In the second table the relations between the funds as explained in previous paragraph are explained. Only the funds with such relations shall be reported in the second table.

|   | ITEM   | INSTRUCTIONS   |
|---|--|--|
| <b>List of all RFF/MAP (overlaps allowed)</b> |  |  |
| C0040   | Fund /Portfolio Number                                     | Number which is attributed by the undertaking, corresponding to the unique number assigned to each ring fenced fund and matching adjustment portfolio. This number has to be consistent over time and shall be used to identify the ring fenced funds and the matching portfolio number in other templates.  |
| C0050   | Name of ring-fenced fund/<br>Matching adjustment portfolio | Indicate the name of the ring fenced fund and matching adjustment portfolio.<br><br>When possible (if linked to a commercial product) the commercial name shall be used. If not possible, e.g. if the fund is linked to several commercial products, a different name shall be used.<br><br>The name shall be unique and be kept consistent over time. |
| C0060   | RFF/MAP/Remaining part of a fund                           | Indicate if it is a ring fenced fund or a matching portfolio. In the cases where other funds are included within one fund this cell shall identify the type of each fund or sub-fund. One of the options in the following closed list shall be used:<br><br>1 — Ring-fenced fund<br>2 — Matching portfolio<br>3 — Remaining part of a fund             |
| C0070   | RFF/MAP with sub RFF/MAP                                   | Identify if the fund identified has other funds embedded. One of the options in the following closed list shall be used:<br><br>1 — Fund with other funds embedded<br>2 — Not a fund with other funds embedded<br><br>Only the 'mother' fund shall be identified with option 1.  |
| C0080   | Material   | Indicate if the ring-fenced fund or a matching portfolio is material for the purposes of detailed submission of information. One of the options in the following closed list shall be used:<br><br>1 — Material<br>2 — Not material<br><br>In case of fund with other funds embedded, this item is to be reported only for the 'mother' fund.          |
| C0090   | Article 304  | Indicate whether the RFF is under Article 304 of Solvency II Directive. One of the following option shall be used:<br><br>1 — RFF under Article 304 — with the option for the equity risk sub-module<br>2 — RFF under Article 304 — without the option for the equity risk sub-module<br>3 — RFF not under Article 304                                 |
| <b>List of RFF/MAP with sub RFF/MAP</b>       |  |  |
| C0100   | Number of RFF/MAP with sub RFF/MAP                         | For the funds with other funds embedded (option 1 reported in item C0070) identify the number as defined for item C0040.<br><br>The fund shall be repeated for as many rows as needed to report the funds embedded.  |

| C0120 | Sub RFF/MAP           | Identify if the nature of the fund embedded in other funds. One of the options in the following closed list shall be used:<br>1 — Ring-fenced fund<br>2 — Matching portfolio |

**S.02.01 — Balance sheet****General comments:**

This section relates to opening, quarterly and annual submission of information for individual entities, ring fenced-funds and remaining part.

The 'Solvency II value' column (C0010) shall be completed using the valuation principles set out in the Directive2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency 2 Technical Standards and Guidelines.

With regards to the 'Statutory accounts value' column (C0020), recognition and valuation methods are the ones used by undertakings in their statutory accounts in accordance with the local GAAP or IFRS if accepted as local GAAP. In template SR.02.01 this column is only applicable if the development of financial statements by RFF is required by national law.

The default instruction is that each item shall be reported in the 'Statutory accounts value' column, separately. However, in the 'Statutory accounts value' column the dotted rows were introduced in order to enable the reporting of aggregated figures if the split figures are not available.

**S.02.02 — Assets and liabilities by currency****General comment:**

This section relates to annual submission of information for individual entities.

This template is to be filled in accordance to the Balance sheet (S.02.01). Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

This template is not required to be submitted if one single currency represents more than 90 % of assets and also of liabilities.

If submitted, information on the reporting currency shall always be reported regardless of the amount of assets and liabilities. Information reported by currency shall at least represent 90 % of the total assets and of the total liabilities. The remaining 10 % shall be aggregated. If a specific currency has to be reported for either assets or liabilities to comply with the 90 % rule then that currency shall be reported for both assets and liabilities.

**S.03.01 — Off-balance sheet items — General****General comments:**

This section relates to annual submission of information for individual entities.

This section includes the information referring to off-balance sheet items and the maximum and solvency II value of contingent liabilities in Solvency II balance sheet.

As regards the Solvency II value, the instructions define the items from a recognition perspective. Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

Guarantees require the issuer to make specified payments to reimburse the holder for a loss it incurs if a specified debtor fails to make payment when due under the original or modified terms of a debt instrument. These guarantees can have various legal forms, such as financial guarantees, letters of credit, credit default contracts. These items shall not include guarantees stemming from insurance contracts, which are recognised in technical provisions.

A contingent liability is defined as:

- a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- b) a present obligation that arises from past events even if:
  - i. it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
  - ii. the amount of the obligation cannot be measured with sufficient reliability.

**▼B**

Collateral is an asset with a monetary value or a commitment that secure the lender against the defaults of the borrower.

The guarantees listed in this template are not reported in S.03.02 and S.03.03. This means that only limited guarantees are to be reported in this template.

**S.04.01 — Activity by country****General comments:**

This section relates to annual submission of information for individual entities.

**▼ M2**

This template is to be reported from an accounting perspective, i.e.: Local GAAP or IFRS if accepted as local GAAP. It shall however be fulfilled using the lines of business as defined in Annex I to Delegated Regulation (EU) 2015/35. Undertakings shall use the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required, except for the classification between investment contracts and insurance contracts when this is applicable in the financial statements. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements.

**▼ B**

When the insurance and reinsurance undertaking has business outside the home-country information shall be reported distinguishing between the home country, each of the other countries belonging to the European Economic Area and material non-EEA countries;

- a) The information in relation to EEA countries shall cover the following:
  - i. Business underwritten by the undertaking in the country where it is established;
  - ii. Business underwritten by the undertaking under freedom to provide services ('FPS') in other EEA members;
  - iii. Business underwritten by each EEA branch in the country where they are established;
  - iv. Business underwritten by each EEA branch under freedom to provide services in other EEA members;
  - v. Premiums written in the country under freedom to provide services by the undertaking or any of the undertaking's EEA branches;
- b) Material non-EEA shall be reported when needed to report at least 90 % of the gross written premiums or if gross written premiums of a non-EEA country are higher than 5 % of the total gross written premiums;
- c) The information not reported by non-EEA country shall be reported as a sum. The localisation of business by country shall depend on where the business is underwritten, meaning that the business performed by a branch under FPS shall be reported under the country where the branch is established.

Information shall include direct business and accepted reinsurance business and be presented gross, without deduction of reinsurance ceded.

The average insured vehicles correspond to the mean between the number of insured vehicles at the end of the reporting year and the number of insured vehicles at the end of the year before the reporting year. Claims without any incurred amounts shall not be taken into account.            |
| C0020/R0030<br>... | Branch — Average cost of claims for Motor Vehicle Liability (except carrier's liability)            | Average of claims incurred, for each branch in relation to the business performed in the country where the branch is established, with regard to class 10 in Part A of Annex I of Solvency II Directive (except carrier's liability), measured as amount of claims incurred divided by the number of claims incurred. Claims without any incurred amounts shall not be taken into account.  |
| C0030/R0030<br>... | FPS — Average cost of claims for Motor Vehicle Liability (except carrier's liability)               | Average of claims incurred, for each branch in relation to the business performed through freedom to provide services, with regard to class 10 in Part A of Annex I of Solvency II Directive (except carrier's liability), measured as amount of claims incurred divided by the number of claims incurred. Claims without any incurred amounts shall not be taken into account.   |

**▼B****S.05.01 — Premiums, claims and expenses by line of business****General comments**

This section relates to quarterly and annual submission of information for individual entities.

This template shall be reported from an accounting perspective, i.e.: Local GAAP or IFRS if accepted as local GAAP but using Solvency II lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35. Undertakings shall use the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required. The template is based on a year-to-date basis ►**M2**, except for the classification between investment contracts and insurance contracts when this is applicable in the financial statements. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements. ◀

For quarterly reporting administrative expenses, investment management expenses, acquisition expenses, overhead expenses shall be presented aggregated.

**S.05.02 — Premiums, claims and expenses by country****General comments:**

This section relates to annual submission of information for individual entities.

► **M2** The template is not due when the thresholds for reporting by country described below are not applicable, i.e. the home country represents 90 % or more of the total gross written premiums. ◀

This template shall be reported from an accounting perspective, i.e.: Local GAAP or IFRS if accepted as local GAAP. The template is based on a year-to-date basis. Undertakings shall use the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required ► **M2**, except for the classification between investment contracts and insurance contracts when this is applicable in the financial statements. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements. ◀

The following criteria for the classification by country shall be used:

- The information, provided by country, shall be completed for the five countries with the biggest amount of gross written premiums in addition to the home country or until reaching 90 % of the total gross written premiums;
- For the direct insurance business for the lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, ‘Medical expense’, ‘Income protection’, ‘Workers’ compensation’, ‘Fire and other damage to property’ and ‘Credit and suretyship’ information shall be reported by country where the risk is situated as defined in Article 13 (13) of Directive 2009/138/EC;
- For direct insurance business for all other line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, information shall be reported by country where the contract was entered into;

**▼ B**

— For proportional and non-proportional reinsurance information shall be reported by country of localisation of the ceding undertaking.

For the purposes of this template ‘country where the contract was entered into’ means:

- a) The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- b) The country where the branch is located (host country) when the contract was sold through a branch;
- c) The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- d) If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

**S.06.01 — Summary of assets****General comments:**

This section relates to annual submission of information for individual entities. This template is relevant only for the insurance and reinsurance undertakings exempted from the annual submission of information in templates S.06.02 or S.08.01 in accordance with Article 35 (7) of Directive 2009/138/EC.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation.

This template contains a summary of information on assets and derivatives regarding the undertaking as a whole, including assets and derivatives held in unit linked and index linked contracts.

Items shall be reported with positive values unless its Solvency II value is negative (e.g. the case of derivatives that are a liability of the undertaking).

**S.06.02 — List of assets****General comments:**

This section relates to quarterly and annual submission of information for individual entities.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to Complementary Identification Code ('CIC') refer to Annex VI — CIC table of this Regulation.

**▼B**

This template shall reflect the list of all assets included in the Balance-sheet classifiable as asset categories 0 to 9 of Annex IV — Assets Categories of this Regulation. In particular in case of securities lending and repurchase agreements the underlying securities that are kept in the Balance-sheet shall be reported in this template.

This template contains an item-by-item list of assets held directly by the undertaking (i.e. not on a look-through basis), classifiable as asset categories 0 to 9 (in case of unit-linked and index-linked product managed by the (re)insurance undertaking, the assets to be reported are also only the ones covered by asset categories 0 to 9, e.g. recoverables and liabilities related to this products shall not be reported), with the following exceptions:

- a) Cash shall be reported in one row per currency, for each combination of items C0060, C0070, C0080 and C0090;
- b) Transferable deposits (cash equivalents) and other deposits with maturity of less than one year shall be reported in one row per pair of bank and currency, for each combination of items C0060, C0070, C0080, C0090 and C0290;
- c) Mortgages and loans to individuals, including loans on policies, shall be reported in two rows, one row regarding loans to administrative, management and supervisory body, for each combination of items C0060, C0070, C0080, C0090 and C0290 and another regarding loans to other natural persons, for each combination of items C0060, C0070, C0080, C0090 and C0290;
- d) Deposits to cedants shall be reported in one single line, for each combination of items C0060, C0070, C0080 and C0090;
- e) Plant and equipment for the own use of the undertaking shall be reported in one single line, for each combination of items C0060, C0070, C0080 and C0090.

This template comprises two tables: Information on positions held and Information on assets.

**▼MI**

On the table Information on positions held, each asset shall be reported separately in as many lines as needed in order to properly fill in all non-monetary variables with the exception of item 'Quantity', requested in that table. If for the same asset two values can be attributed to one variable, then this asset needs to be reported in more than one line.

**▼B**

On the table Information on assets, each asset shall be reported separately, with one row for each asset, filling in all applicable variables requested in that table.

The information regarding the external rating (C0320) and nominated External Credit Assessment Institutions ('ECAI') (C0330) may be limited (not reported) in the following circumstances:

- a) through a decision of the national supervisory authority ('NSA') under Article 35 (6) and (7) of the Directive 2009/138/EC; or
- b) through a decision of the national supervisory authority in the cases where the insurance and reinsurance undertakings have in place outsourcing arrangements in the area of investments that lead to this specific information not being available directly to the undertaking.

| C0390 | Maturity date                                   | <p>Only applicable for CIC categories 1, 2, 5, 6, and 8, CIC 74 and CIC 79.</p> <p>Identify the ISO 8601 (yyyy-mm-dd) code of the maturity date.</p> <p>It corresponds always to the maturity date, even for callable securities.</p> <p>The following shall be considered:</p> <ul style="list-style-type: none"> <li>— For perpetual securities use ‘9999-12-31’</li> <li>— For CIC category 8, regarding loans and mortgages to individuals, the weighted (based on the loan amount) remaining maturity is to be reported.</li> </ul> |

**S.06.03 — Collective investment undertakings — look-through approach****General comments:**

This section relates to quarterly and annual submission of information for individual entities.

This template contains information on the look through of collective investment undertakings or investments packaged as funds, including when they are participations, by underlying asset category, country of issue and currency.

► **M2** Considering proportionality and specific instructions of the template, the look through shall be performed until the asset categories, countries and currencies are identified. In case of funds of funds the look-through shall follow the same approach. ◀

**▼ M2**

For the identification of countries the look-through shall be implemented in order to identify the country exposure of 90 % of the value of the funds. Undertakings shall have a reasonable confidence that the 10 % not identified by country is diversified across geographical areas, for example that not more than 5 % is in one single country. The look-through shall be applicable considering the amount invested, starting from the major to the lowest single fund and the approach shall be kept consistent over time.

**▼ B**

Quarterly information shall only be reported when the ratio of collective investments undertakings held by the undertaking to total investments, measured as the ratio between item C0010/R0180 of template S.02.01 plus collective investments undertakings included in item C0010/R0220 of template S.02.01 plus collective investments undertakings included in item C0010/R0090 and the sum of item C0010/R0070 and C0010/RC0220 of template S.02.01, is higher than 30 %.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

**▼ B**

The asset categories referred to in this template are the ones defined in Annex IV  
— Assets Categories of this Regulation and references to CIC codes refer to  
Annex VI — CIC table of this Regulation.

**S.07.01 — Structured products****General comments:**

This section relates to annual submission of information for individual entities.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

This template contains an item-by-item list of structured products held directly by the undertaking in its portfolio (i.e. not on a look-through basis). Structured products are defined as assets falling into the asset categories 5 (Structured notes) and 6 (Collateralised securities).

This template shall only be reported when the amount of structured products, measured as the ratio between assets classified as asset categories 5 (Structured notes) and 6 (Collateralised securities) as defined in Annex IV — Asset Categories of this Regulation and the sum of item C0010/R0070 and C0010/R0220 of template S.02.01, is higher than 5 %.

**▼ B**

In some cases the types of structured products (C0070) identify the derivative embedded in the structured product. In this case this classification shall be used when the structured product has the referred derivative embedded.

|       | ITEM               | INSTRUCTIONS   |
|-------|--------------------|--|
| C0040 | Asset ID Code      | <p>The Identification code of the structured product, as reported in S.06.02. using the following priority:</p> <ul style="list-style-type: none"> <li>— ISO 6166 ISIN when available</li> <li>— Other recognised codes (e.g.: CUSIP, Bloomberg Ticker, Reuters RIC)</li> <li>— Code attributed by the undertaking, when the options above are not available. The code used shall be kept consistent over time and shall not be reused for other product.</li> </ul> <p>When the same Asset ID Code needs to be reported for one asset that is issued in 2 or more different currencies, it is necessary to specify the Asset ID code and the ISO 4217 alphabetic code of the currency, as in the following example: 'code+EUR'</p>  |
| C0050 | Asset ID Code type | <p>Type of ID Code used for the 'Asset ID Code' item. One of the options in the following closed list shall be used:</p> <ul style="list-style-type: none"> <li>1 — ISO/6166 for ISIN</li> <li>2 — CUSIP (The Committee on Uniform Securities Identification Procedures number assigned by the CUSIP Service Bureau for U.S. and Canadian companies)</li> <li>3 — SEDOL (Stock Exchange Daily Official List for the London Stock Exchange)</li> <li>4 — WKN (Wertpapier Kenn-Nummer, the alphanumeric German identification number)</li> <li>5 — Bloomberg Ticker (Bloomberg letters code that identify a company's securities)</li> <li>6 — BBGID (The Bloomberg Global ID)</li> <li>7 — Reuters RIC (Reuters instrument code)</li> <li>8 — FIGI (Financial Instrument Global Identifier)</li> <li>9 — Other code by members of the Association of National Numbering Agencies</li> <li>99 — Code attributed by the undertaking</li> </ul> <p>When the same Asset ID Code needs to be reported for one asset that is issued in 2 or more different currencies and the code in C0040 is defined by Asset ID code and the ISO 4217 alphabetic code of the currency, the Asset ID Code Type shall refer to option 9 and the option of the original Asset ID Code, as in the following example for which the code reported was ISIN code+currency: '9/1'.</p> |
| C0060 | Collateral type    | <p>Identify the type of collateral, using the assets categories defined in Annex IV — Assets Categories. One of the options in the following closed list shall be used:</p> <ul style="list-style-type: none"> <li>1 — Government bonds</li> <li>2 — Corporate bonds</li> <li>3 — Equity</li> <li>4 — Collective Investment Undertakings</li> <li>5 — Structured notes</li> <li>6 — Collateralised securities</li> </ul>   |

| C0130 | Collateral value                        | Total amount of collateral attached to the structured product despite the nature of the collateral.<br><br>In case of collateralisation on a portfolio basis, only the value referred to the single contract must be reported and not the total.   |
| C0140 | Collateral portfolio                    | This item informs if the collateral to the structured product covers only one structured product or more than one structured product that is held by the undertaking. Net positions refer to the positions held on structured products. One of the options in the following closed list shall be used:   |

**▼ B**

|       | ITEM                   | INSTRUCTIONS  |
|-------|------------------------|---|
|       |                        | 1 — Collateral calculated on the basis of net positions resulting from a set of contracts<br>2 — Collateral calculated on the basis of a single contract<br>10 — No collateral  |
| C0150 | Fixed annual return    | Identify the coupon (reported as a decimal), if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities).  |
| C0160 | Variable annual return | Identify variable rate of return, if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities). It is most commonly identified as a benchmark market rate plus a spread, or as dependent on the performance of a portfolio or index (underlying dependent) or more complex returns set by the path of the underlying asset's price (path dependent), among others. ► <b>M2</b> When needed this item may be reported as a string to reflect how the return is calculated. ◀ |
| C0170 | Loss given default     | The percentage (reported as a decimal, ► <b>M2</b> ————— ◀) of the invested amount that will not be recovered following default, if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities).<br><br>If information is not defined in the contract this item shall not be reported. This item is not applicable for non-credit structured product.   |
| C0180 | Attachment point       | The contractually defined loss percentage (reported as a decimal) above which the losses affect the structured product, if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities). This item is not applicable for non-credit structured product.  |
| C0190 | Detachment point       | The contractually defined loss percentage (reported as a decimal) above which the losses cease to affect the structured product, if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities). This item is not applicable for non-credit structured product.   |

**S.08.01 — Open derivatives****General comments:**

This section relates to quarterly and annual submission of information for individual entities.

The derivatives categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation. This template contains an item-by-item list of derivatives held directly by the undertaking (i.e. not on a look-through basis), classifiable as asset categories A to F.

**▼ M1**

Derivatives are considered assets if their Solvency II value is positive or zero. They are considered liabilities if their Solvency II value is negative. Both derivatives considered as assets or considered as liabilities shall be included.

**▼ B**

Information shall include all derivatives contracts that existed during the reporting period and were not closed prior to the reporting reference date.

**▼B**

If there are frequent trades on the same derivative, resulting in multiple open positions, the derivative can be reported on an aggregated or net basis, as long as all the relevant characteristics are common and following the specific instruction for each relevant item.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

A derivative is a financial instrument or other contract with all three of the following characteristics:

- a) Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the 'underlying').
- b) It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- c) It is settled at a future date.

This template comprises two tables: Information on positions held and Information on derivatives.

On the table Information on positions held, each derivative shall be reported separately in as many rows as needed in order to properly fill in all items requested in that table. If for the same derivative two values can be attributed to one variable, then this derivative needs to be reported in more than one line.

In particular, for derivatives that have more than a pair of currencies, it shall be split into the pair components and reported in different rows.

On the table Information on derivative, each derivative shall be reported separately, with one row for each derivative, filling in all variables requested in that table.

The information regarding the External rating (C0290) and Nominated ECAI (C0300) may be limited (not reported) in the following circumstances:

- c) through a decision of the national supervisory authority under Article 35 (6) and (7) of the Directive 2009/138/EC; or
- d) through a decision of the national supervisory authority in the cases where the insurance and reinsurance undertakings have in place outsourcing arrangements in the area of investments that lead to this specific information not being available directly to the undertaking.

|-------|------------------------------------|---|
| C0150 | Premium paid to date               | ► <b>M2</b> The payment made (if bought), for options and also up-front and periodical premium amounts paid for swaps, since the moment the undertaking entered into the derivative contract. ◀   |
| C0160 | Premium received to date           | ► <b>M2</b> The payment received (if sold), for options and also up-front and periodical premium amounts received for swaps, since the moment the undertaking entered into the derivative contract. ◀   |
| C0170 | Number of contracts                | Number of similar derivative contracts reported in the line. It shall be the number of contracts entered into. For Over-The-Counter derivatives, e.g., one swap contract, '1' shall be reported, if ten swaps with the same characteristics, '10' shall be reported.<br><br>The number of contracts shall be the ones outstanding at the reporting date.  |
| C0180 | Contract size                      | Number of underlying assets in the contract (e.g. for equity futures it is the number of equities to be delivered per derivative contract at maturity, for bond futures it is the reference amount underlying each contract).<br><br>The way the contract size is defined varies according with the type of instrument. For futures on equities it is common to find the contract size defined as a function of the number of shares underlying the contract.<br><br>For futures on bonds, it is the bond nominal amount underlying the contract.<br><br>Only applicable for futures and options. |
| C0190 | Maximum loss under unwinding event | Maximum amount of loss if an unwinding event occurs. Applicable to CIC category F.<br><br>Where a credit derivative is 100 % collateralised, the maximum loss under an unwinding event is zero.   |
| C0200 | Swap outflow amount                | Amount delivered under the swap contract (other than premiums), during the reporting period. Corresponds to interest paid for IRS and amounts delivered for currency swaps, credit swaps, total return swaps and other swaps.<br><br>In the cases where the settlement is made on a net basis then only one of the items C0200 and C0210 shall be reported.   |
| C0210 | Swap inflow amount                 | Amount received under the swap contract (other than premiums), during the reporting period. Corresponds to interest received for IRS and amounts received for currency swaps, credit swaps, total return swaps and other swaps.<br><br>In the cases where the settlement is made on a net basis then only one of the items C0200 and C0210 shall be reported.   |
| C0220 | Initial date                       | Identify the ISO 8601 (yyyy-mm-dd) code of the date when obligations under the contract come into effect.   |

|       | ITEM                       | INSTRUCTIONS   |
|-------|----------------------------|--|
| C0390 | Trigger value              | <p>Reference price for futures, strike price for options (for bonds, price shall be a percentage of the par amount), currency exchange rate or interest rate for forwards, etc.</p> <p>Not applicable to CIC D3 — Interest rate and currency swaps. For CIC F1 — Credit default swaps it shall not be completed if not possible.</p> <p>In the case of more than one trigger over time, report the next trigger occurring.</p> <p>When the derivative has a range of trigger values, report the set separated by comma ‘,’ if the range is not continuous and report the range separated by ‘-’ if it is continuous.</p>   |
| C0400 | Unwind trigger of contract | <p>Identify the event that causes the unwinding of the contract, out of the regular expiration or term conditions. One of the options in the following closed list shall be used:</p> <p>1 — Bankruptcy of the underlying or reference entity</p> <p>2 — Adverse fall in value of the underlying reference asset</p> <p>3 — Adverse change in credit rating of the underlying assets or entity</p> <p>4 — Novation, i.e. the act of replacing an obligation under the derivative with a new obligation, or replacing a party of the derivative with a new party</p> <p>5 — Multiple events or a combination of events</p> <p>6 — Other events not covered by the previous options</p> <p>9 — No unwind trigger</p> |
| C0410 | Swap delivered currency    | Identify the ISO 4217 alphabetic code of the currency of the swap price (only for currency swaps and currency and interest rate swaps).  |
| C0420 | Swap received currency     | Identify the ISO 4217 alphabetic code of the currency of the swap notional amount (only for currency swaps and currency and interest rate swaps).  |
| C0430 | Maturity date              | Identify the contractually defined ISO 8601 (yyyy-mm-dd) code of the date of close of the derivative contract, whether at maturity date, expiring date for options (European or American), etc.  |

**S.08.02 — Derivatives Transactions****General comments:**

This section relates to quarterly and annual submission of information for individual entities.

The derivatives categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex V — CIC table of this Regulation.

This template contains an item-by-item list of closed derivatives held directly by the undertaking (i.e. not on a look-through basis), classifiable as asset categories A to F. When a contract is still open but has been reduced in size the closed portion shall be reported.

**▼ B**

Derivatives are considered assets if their Solvency II value is positive or zero. ► **M2** They are considered liabilities if their Solvency II value is negative. ◀ Both derivatives considered as assets or considered as liabilities shall be included.

Closed derivatives are the ones that were open at some point of the reference period (i.e. last quarter if template is submitted quarterly or last year if template is only submitted annually) but were closed before the end of the reporting period.

If there are frequent trades on the same derivative, the derivative can be reported on an aggregated or net basis (indicating only the first and the last trade dates), as long as all the relevant characteristics are common and following the specific instruction for each relevant item.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

A derivative is a financial instrument or other contract with all three of the following characteristics:

- d) Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the ‘underlying’).
- e) It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- f) It is settled at a future date.

This template comprises two tables: Information on positions held and Information on derivatives.

On the table Information on positions held, each derivative shall be reported separately in as many rows as needed in order to properly fill in all items requested in that table. If for the same derivative two values can be attributed to one variable, then this derivative needs to be reported in more than one line.

In particular, for derivatives that have more than a pair of currencies, it shall be split into the pair components and reported in different rows.

On the table Information on derivative, each derivative shall be reported separately, with one row for each derivative, filling in all variables requested in that table.

| C0370 | Maturity date              | Identify the contractually defined ISO 8601 (yyyy-mm-dd) code of the date of close of the derivative contract, whether at maturity date, expiring date for options (European or American), etc.   |

**S.09.01 — Information on gains/income and losses in the period****General comments:**

This section relates to annual submission of information for individual entities.

This template contains information on gains/income and losses by asset category (including derivatives). i.e., no item-by-item reporting is required. The asset categories considered in this template are the ones defined in Annex IV — Assets Categories.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

|       | ITEM           | INSTRUCTIONS   |
|-------|----------------|--|
| C0040 | Asset category | Identify the asset categories present in the portfolio.<br>Use the categories defined in Annex IV — Assets Categories.   |
| C0050 | Portfolio      | Distinction between life, non-life, shareholder's funds, other internal funds, general (no split) and ring fenced funds. One of the options in the following closed list shall be used:<br>1 — Life<br>2 — Non-life<br>3 — Ring fenced funds |

▼ **B**

|       | ITEM   | INSTRUCTIONS  |
|-------|--|---|
|       |  | <p>4 — Other internal funds</p> <p>5 — Shareholders' funds</p> <p>6 — General</p> <p>The split is not mandatory, except for identifying ring fenced funds, but shall be reported if the undertaking uses it internally. When an undertaking does not apply a split 'general' must be used.</p>  |
| C0060 | Asset held in unit linked and index linked contracts | <p>Identify the assets that are held by unit linked and index linked contracts. One of the options in the following closed list shall be used:</p> <p>1 — Unit-linked or index-linked</p> <p>2 — Neither unit-linked nor index-linked</p>   |
| C0070 | Dividends  | <p>Amount of dividends earned over the reporting period, i.e. dividends received less the right to receive a dividend already recognised at the beginning of the reporting period, plus the right to receive a dividend recognised at the end of the reporting period. Applicable to dividend paying assets such as equity, preferred securities and collective investment undertakings.</p> <p>Includes also dividends received from assets that have been sold or matured.</p>  |
| C0080 | Interest   | <p>Amount of interest earned, i.e. interest received less accrued interest at the start of the period plus accrued interest at the end of the reporting period.</p> <p>Includes interest received when the asset is sold/matured or when the coupon is received.</p> <p>Applicable to coupon and interest paying assets such as bonds, loans and deposits.</p>  |
| C0090 | Rent   | <p>Amount of rent earned i.e. rent received less accrued rent at the start of the period plus accrued rent at the end of the reporting period. Includes also rents received when the asset is sold or matured.</p> <p>Only applicable to properties, regardless of the function.</p>  |
| C0100 | Net gains and losses                                 | <p>Net gains and losses resulting from assets sold or matured during the reporting period.</p> <p>The gains and losses are calculated as the difference between selling or maturity value and the value according to Article 75 of Directive 2009/138/EC at the end of the prior reporting year (or, in case of assets acquired during the reporting period, the acquisition value).</p> <p>The net value can be positive, negative or zero.</p> <p>► <b>M2</b> This calculation shall be performed without interest accrued. ◀</p> |
| C0110 | Unrealised gains and losses                          | <p>Unrealised gains and losses resulting from assets not sold nor matured during the reporting period.</p>  |

|  | ITEM | INSTRUCTIONS  |
|--|------|---|
|  |      | <p>The unrealised gains and losses are calculated as the difference between the value according to Article 75 of Directive 2009/138/EC at the end of the reporting year end and the value according to Article 75 of Directive 2009/138/EC at the end of the prior reporting year (or, in case of assets acquired during the reporting period, the acquisition value).</p> <p>The net value can be positive, negative or zero.</p> <p>► <b>M2</b> This calculation shall be performed without interest accrued. ◀</p> |

**S.10.01 — Securities lending and repos****General comments:**

This section relates to annual submission of information for individual entities.

This template contains an item-by-item list of securities lending transactions and repurchase agreements (buyer and seller) contracts, held directly by the undertaking (i.e. not on a look-through basis), which include also the liquidity swaps referred to in Article 309 (2)(f) of the Delegated Regulation (EU) 2015/35.

It shall be reported only when the value of the underlying securities on and off balance sheet involved in lending or repurchase agreements, with maturity date falling after the reporting reference date represent more than 5 % of the total investments as reported in C0010/R0070 and C0010/R0220 of template S.02.01.

All contracts that are on the balance sheet or off balance sheet shall be reported. The information shall include all contracts in the reporting period regardless of whether they were open or closed at the reporting date. For contracts which are part of a roll-over strategy, where they substantially are the same transaction, only open positions shall be reported.

A repurchase agreement (repo) is defined as the sale of securities together with an agreement for the seller to buy back the securities at a later date. Securities lending is defined as the lending of securities by one party to another, which requires that the borrower provides the lender with collateral.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

Each repo and securities lending contract shall be reported in as many rows as needed to provide the information requested. If for one item one option fits one part of the instrument being reported and a different option fits the other part then the contract needs to be unbundled unless is stated otherwise in the instructions.

|       | ITEM      | INSTRUCTIONS   |

**S.11.01 — Assets held as collateral****General comments:**

This section relates to annual submission of information for individual entities.

This template contains an item-by-item list of off-balance sheet assets held as collateral for covering balance sheet assets held directly by the undertaking (i.e. not on a look-through basis).

**▼ B**

It consists of detailed information from the perspective of the assets held as collateral and not from the perspective of the collateral arrangement.

If there is a pool of collaterals or a collateral arrangement comprising multiple assets, as many rows as the assets in the pool or arrangement shall be reported.

This template comprises two tables: Information on positions held and Information on assets.

On the table Information on positions held, each asset held as collateral shall be reported separately in as many rows as needed in order to properly fill in all variables requested in that table. If for the same asset two values can be attributed to one variable, then this asset needs to be reported in more than one line.

On the table Information on assets, each asset held as collateral shall be reported separately, with one row for each asset, filling in all variables requested in that table.

All items except items 'Type of asset for which the collateral is held' (C0140), 'Name of the counterparty pledging the collateral' (C0060) and 'Name of the group of the counterparty pledging the collateral' (C0070) relate to information on the assets held as collateral. Item C0140 relates to the asset on the balance sheet for which the collateral is held while items C0060 and C0070 relate to the counterparty pledging the collateral.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

| C0260 | Unit price                                      | Unit price of the asset, if relevant.<br>This item shall not be reported if item Unit percentage of par amount Solvency II price (C0270) is reported.   |
| C0270 | Unit percentage of par amount Solvency II price | ► <b>M1</b> Amount in percentage of par value, clean price without accrued interest, for the asset, if relevant.<br>This item shall be reported if a ‘par amount’ information (C0100) has been provided in the first part of the template (‘Information on positions held’) except for CIC category 71 and 9.<br>This item shall not be reported if item Unit Solvency II price (C0260) is reported. ◀  |
| C0280 | Maturity date                                   | Only applicable for CIC categories 1, 2, 5, 6 and 8, and CIC 74 and CIC 79.<br>Identify the ISO 8601 (yyyy–mm–dd) code of the maturity date.<br>Corresponds always to the maturity date, even for callable securities. The following shall be considered:<br>— For perpetual securities use ‘9999–12–31’<br>— For CIC category 8, regarding loans and mortgages to individuals, the weighted (based on the loan amount) remaining maturity is to be reported. |

**S.12.01 — Life and Health SLT Technical Provisions****General comments:**

This section relates to quarterly and annual submission of information for individual entities, ring fenced–funds, matching adjustment portfolios and remaining part.

Undertakings may apply appropriate approximations in the calculation of the technical provisions as referred to in Article 21 of Delegated Regulation (EU) 2015/35. In addition, Article 59 of the Delegated Regulation (EU) 2015/35 may be applied to calculate the risk margin during the financial year.

Line of business for life obligations: The lines of business, referred to in Article 80 of the Directive 2009/138/EC, as defined in Annex I to Delegated Regulation (EU) 2015/35. The segmentation shall reflect the nature of the risks underlying the contract (substance), rather than the legal form of the contract (form). By default, where an insurance or reinsurance contract covers risks across the lines of business undertakings shall, where possible, unbundled the obligations into the appropriate lines of business (Article 55 of Delegated Regulation (EU) 2015/35).

Lines of business ‘Index–linked and unit–linked insurance’, ‘Other life insurance’ and ‘Health insurance’ are split between ‘Contracts without options and guarantees’ and ‘Contracts with options or guarantees’. For this split the following shall be considered:

**▼ B**

- ‘Contracts without options and guarantees’ shall include the amounts related to contracts without any financial guarantees or contractual options, meaning that the technical provision calculation does not reflect the amount of any financial guarantees or contractual options. Contracts with non-material contractual options or financial guarantees that are not reflected in the technical provisions calculation shall also be reported in this column;
- ‘Contracts with options or guarantees’ shall include contracts that have either financial guarantees, contractual options, or both as far as the technical provision calculation reflect the existence of those financial guarantees or contractual options.

The information reported shall be gross of reinsurance as information on Recoverables from reinsurance/SPV and Finite reinsurance is requested in specific rows.

The information to be reported between R0010 and R0100 shall be after the volatility adjustment, the matching adjustment and the transitional adjustment to the relevant risk-free interest rate term structure if applied but shall not include the transitional deduction to technical provisions. The amount of transitional deduction to technical provisions is requested separately between rows R0110 and R0130.

**S.12.02 — Life and Health SLT Technical Provisions — by Country****General comments:****▼ M2**

This section relates to annual submission of information for individual entities. The template is not due when the thresholds for reporting by country described below are not applicable, i.e. the home country represents 100 % of the sum of the technical provisions calculated as a whole and gross best estimate. When this amount is higher than 90 % but lower than 100 % then only R0010, R0020 and R0030 shall be reported.

**▼ B**

Undertakings shall take into account all the obligations in different currencies and convert them into the reporting currency.

**▼ B**

The information by country shall be reported according to the following specifications:

- ▶ **M2** a ◀ Information on the home country shall be always reported regardless of the amount of technical provisions calculated as a whole and gross best estimate;
- ▶ **M2** b ◀ Information reported by country shall at least represent 90 % of the sum of the technical provisions calculated as a whole and gross best estimate of any line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35;
- ▶ **M2** c ◀ If a specific country has to be reported for a particular line of business to comply with sub-paragraph b) then that country shall be reported for all lines of business;
- ▶ **M2** d ◀ The other countries shall be reported aggregated in ‘other-EEA’ or ‘other-non EEA’
- ▶ **M2** e ◀ For direct business information shall be reported by country where the contract was entered into;
- ▶ **M2** f ◀ For proportional and non-proportional reinsurance information shall be reported by country of localisation of the ceding undertaking.

For the purposes of this template ‘country where the contract was entered into’ means:

- ▶ **M2** a ◀ The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- ▶ **M2** b ◀ The country where the branch is located (host country) when the contract was sold through a branch;
- ▶ **M2** c ◀ The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- ▶ **M2** d ◀ If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

The information to be reported shall include the volatility adjustment, the matching adjustment, the transitional adjustment to the relevant risk-free interest rate term structure and the transitional deduction to technical provisions.

**S.13.01 — Projection of future gross cash flows (Best Estimate –life)****General comments:**

This part of Annex II relates to annual submission of information for individual entities.

This template shall include information only in relation to the best estimates. The cash flows to be reported are gross of reinsurance and undiscounted.

Cash-flow projections such as central scenarios can be used as no perfect reconciliation with Best Estimate calculation is required. If difficult to project some future cash-flows like collective Future Discretionary Benefits the undertaking shall report the cash flow it effectively uses for calculating the Best Estimate.

All cash flows expressed in different currencies shall be considered and converted in the reporting currency using the exchange rate at the reporting date

In case the undertaking uses simplifications for the calculation of technical provisions, for which an estimate of the expected future cash-flows arising from the contracts are not calculated, the information shall be reported only in those cases where more than 10 % of total technical provisions have a settlement period longer than 24 months.

**S.14.01 — Life obligations analysis****General comments:**

This section relates to annual submission of information for individual entities.

This template includes information about life insurance contracts (direct business and accepted reinsurance) and also includes annuities stemming from non–life contracts (which are also analysed in S.16.01). All insurance contracts shall be reported even if classified as investments contract on accounting basis. In case of products unbundled, the different parts of the product shall be reported in different rows, using different ID codes.

Columns C0010 to C0080 shall be reported by product.

**▼B**

Columns C0090 to C0160 characterise the product.

Columns C0170 to C0210 shall be reported by Homogeneous Risk Group.

|                  | ITEM                                       | INSTRUCTIONS   |

#### S.15.01 — Description of the guarantees of variable annuities

##### General comments:

This section relates to annual submission of information for individual entities.

This template shall only be reported in relation to the direct business by insurance companies that have variable annuities portfolios.

Variable annuities are unit-linked life insurance contracts with investment guarantees which, in exchange for single or regular premiums, allow the policyholder to benefit from the upside of the unit but be partially or totally protected when the unit loses value.

If Variable Annuities policies are split between two insurance undertakings, for instance a life company and a non-life company for the variable annuities guarantee, the company with the guarantee shall report this template. Only one row per product shall be reported.

|       | ITEM                       | INSTRUCTIONS  |
|-------|----------------------------|---|
| C0040 | Product ID code            | Internal product ID code used by the undertaking for the product. If a code is already in use or is attributed by the competent authority for supervisory purposes that code shall be used.       |
| C0050 | Product denomination       | Commercial name of product (undertaking-specific)   |
| C0060 | Description of the product | General qualitative description of the product. If a product code is attributed by the competent authority for supervisory purposes, the description of product type for that code shall be used. |
| C0070 | Initial date of guarantee  | The ISO 8601 (yyyy-mm-dd) code of the initial date of the cover.  |

**▼ B**

|       | ITEM                         | INSTRUCTIONS   |
|-------|------------------------------|--|
| C0080 | Final date of guarantee      | The ISO 8601 (yyyy-mm-dd) code of the final date of the cover.   |

| C0100 | Guaranteed level             | Indicate the level of the guaranteed benefit in percentage (as a decimal).   |
| C0110 | Description of the guarantee | General description of the guarantees.<br><br>This shall include at least the capital accumulation mechanisms (e.g. roll-up, ratchet, step-up, reset), its frequency (infra-annual, annual, x-yearly), the base for computation of guaranteed levels (e.g. premium paid, premium paid net of expenses and/or withdrawals and/or paid-ups, premium increased by the capital accumulation mechanism), the guaranteed conversion factor, other general information about how the guarantee works. |

**S.15.02 — Hedging of guarantees of variable annuities****General comments:**

This section relates to annual submission of information for individual entities.

This template shall only be reported in relation to the direct business by insurance companies that have Variable Annuities portfolios.

Variable annuities are unit-linked life insurance contracts with investment guarantees which, in exchange for single or regular premiums, allow the policyholder to benefit from the upside of the unit but be partially or totally protected when the unit loses value.

If Variable Annuities policies are split between two insurance undertakings, for instance a life company and a non-life company for the Variable Annuities guarantee, the company with the guarantee shall report this template. Only one row per product shall be reported.

|       | ITEM                 | INSTRUCTIONS   |
|-------|----------------------|--|
| C0040 | Product ID code      | Internal product ID code used by the undertaking for the product. If a code is already in use or is attributed by the competent authority for supervisory purposes that code shall be used.<br><br>The ID code shall be consistent over time and for the individual reporting correspond with the ID code reported in S.14.01 (C0010) and S.15.01 (C0020). |
| C0050 | Product denomination | Commercial name of product (undertaking-specific)  |

| C0130 | Economic result without hedging | The ‘economic result’ that the guarantee of the policies has generated during the reporting year if there is no hedging strategy in place, or would have generated without it if there is one in place.<br><br>It shall be equal to: written premium/fees for the guarantee, minus expenses incurred to the guarantee, minus claims due to the guarantee, minus variation of guarantee technical provisions.  |
| C0140 | Economic result with hedging    | The ‘economic result’ that the guarantee of the policies has generated during the reporting year considering the result of the hedging strategy. Where hedging is performed for a portfolio of products, for instance in cases where hedge instruments may not be allocated to specific products, the undertaking shall allocate the effect of hedging to the different products using the weight of each product in the ‘Economic result without hedging’ (C0110). |

**S.16.01. — Information on annuities stemming from Non–Life Insurance obligations****General comments:**

This section relates to annual submission of information for individual undertakings.

This template shall be reported only for annuities formally settled stemming from non–life contracts and relating to health insurance obligations and relating to insurance obligations other than health insurance obligations.

Undertakings are required to report data on an accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.

This template shall be reported by non–life line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, originating the annuity and by currency, considering the following specifications:

- i. If the best estimate for the annuity claims provisions on a discounted basis from one non–life line of business represents more than 3 % of the total best estimate for all annuity claims provisions the information shall be reported with the following split by currencies in addition to the total for the line of business:
  - a) Amounts for the reporting currency;

**▼ M2**

- b) Amounts for any currency that represents more than 25 % of the best estimate for the annuity claims provisions on a discounted basis from that non-life line of business; or
- c) Amounts for any currency that represents less than 25 % of the best estimate for the annuity claims provisions (discounted basis) from that non-life line of business but more than 5 % of total best estimate for all annuity claims provisions.

**▼ B**

- ii. If the best estimate for the annuity claims provisions on a discounted basis from one non-life line of business represents less than 3 % of the total best estimate for all annuity claims provisions no currency split is required, only the total for the line of business shall be reported;
- iii. The information shall be reported in the original currency of the contracts unless otherwise specified.

This template is interlinked with the non-Life template S.19.01. The sum of technical provisions in templates S.16.01 and S.19.01 for one non-life line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, represents the total claims best estimate originating from this line of business (also refer log to template S.19.01). All or part of an obligation moves from S.19.01 into S.16.01, when both of the conditions below are met:

- i. All or part of the obligation has been formally settled as an annuity; and
- ii. a best estimate of an obligation formally settled as an annuity can be established using life techniques.

Formally settled as an annuity typically means that a legal process has ordered that the beneficiary is to receive payments as an annuity.

In the event that after an obligation has been formally settled as an annuity some of that obligation subsequently ends up being settled via a lump sum payment that was not in the original annuity payment order, that lump sum would be recorded as a payment in template S.16.01; i.e. there is no movement of claims data out of template S.16.01 and into S.19.01.

**S.17.01 — Non-life Technical Provisions****General comments:**

This section relates to quarterly and annual submission of information for individual entities, ring fenced–funds, matching adjustment portfolios and remaining part.

Undertakings may apply appropriate approximations in the calculation of the technical provisions as referred to in Article 21 of Delegated Regulation (EU) 2015/35. In addition, Article 59 of the Delegated Regulation (EU) 2015/35 may be applied to calculate the risk margin during the financial year.

Line of Business for non–life obligations: The lines of business, referred to in Article 80 of the Directive 2009/138/EC, as defined in Annex I to Delegated Regulation (EU) 2015/35, referred to direct business/accepted proportional reinsurance and accepted non–proportional reinsurance. The segmentation shall reflect the nature of the risks underlying the contract (substance), rather than the legal form of the contract (form).

Health direct insurance business pursued on a non–similar technical basis to life insurance shall be segmented into Non–Life line of business 1 to 3.

Accepted proportional reinsurance shall be considered together with the direct business in the C0020 to C0130.

The information to be reported between R0010 and R0280 shall be after the volatility adjustment, the matching adjustment and the transitional adjustment to the relevant risk-free interest rate term structure if applied but shall not include the transitional deduction to technical provisions. The amount of transitional deduction to technical provisions is requested separately between rows R0290 and R0310.

**▼ B****S.17.02 — Non-Life Technical Provisions — By country****General comments:****▼ M2**

This section relates to annual submission of information for individual entities. The template is not due when the thresholds for reporting by country described below are not applicable, i.e. the home country represents 100 % of the sum of the technical provisions calculated as a whole and gross best estimate. When this amount is higher than 90 % but lower than 100 % then only R0010, R0020 and R0030 shall be reported.

**▼ B**

Health direct insurance business pursued on a non-similar technical basis to life insurance shall be segmented into Non-Life line of business 1 to 3.

Undertakings shall take into account all the obligations in different currencies and convert them into the reporting currency.

The information by country shall be reported according to the following:

- a) Information on the home country shall be always reported regardless of the amount of Technical Provisions as a whole and Gross Best Estimate (referred to direct business);
- b) Information reported by country shall at least represent 90 % of the total Technical Provisions as a whole and Gross Best Estimate (referred to direct business) of any line of business;
- c) If a specific country has to be reported for a particular line of business to comply with sub-paragraph b) then that country shall be reported for all lines of business;
- d) The other countries shall be reported aggregated in 'other-EEA' or 'other-non EEA';
- e) For the direct insurance business for the lines of business 'Medical expense', 'Income protection', 'Workers' compensation', 'Fire and other damage to property' and 'Credit and suretyship' information shall be reported by country where the risk is situated as defined in Article 13 (13) of Directive 2009/138/EC;
- f) For direct insurance business for all other lines of business not referred in sub-paragraph e) information shall be reported by country where the contract was entered into;

For the purposes of this template 'country where the contract was entered into' means:

- o) The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- p) The country where the branch is located (host country) when the contract was sold through a branch;
- q) The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- r) If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

The information to be reported shall include the volatility adjustment, the matching adjustment, the transitional adjustment to the relevant risk-free interest rate term structure and the transitional deduction to technical provisions.

**S.18.01 — Projection of future cash flows (Best Estimate — Non Life)****General Comments:**

This section relates to annual submission of information for individual undertakings.

This template applies only to Best Estimate and the following shall be considered:

- All cash flows expressed in different currencies shall be considered and converted in the reporting currency using the exchange rate at the reporting date;
- The cash flows shall be reported gross of reinsurance and undiscounted;
- In case the undertaking uses simplifications for the calculation of technical provisions, for which an estimate of the expected future cash-flows arising from the contracts are not calculated, the information shall be reported only in those cases where more than 10 % of technical provisions have a settlement period longer than 24 months.

| C0090/R0010 to R0310 | Total recoverable from reinsurance (after the adjustment) | Amount of undiscounted cash-flows expected for each year from year 1 to year 30 and from year 31 and after.<br><br>The future cash-flows undiscounted from amounts recoverables from reinsurance and SPVs/Finite Re, including ceded intra group reinsurance, including future reinsurance premiums. Amount shall be reported net of adjustment for counterparty default risk. |

**S.19.01 — Non-life insurance claims****General comments:**

This section relates to annual submission of information for individual entities.

Claims development triangles show the insurer's estimate of the cost of claims (claims paid and claims provisions under Solvency II valuation principle) and how this estimate develops over time.

Three set of triangles are required regarding claims paid, best estimate of claims provisions and RBNS claims.

This template shall be reported for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, and material considering the following specifications:

- i. reporting by line of business: it is required to report lines of business 1–12 (as reported in S.17.01) for both direct and accepted proportional reinsurance (to be reported together) and lines of business 25–28 for accepted non-proportional reinsurance;
- ii. If the total gross best estimate for one non-life line of business represents more than 3 % of the total gross best estimate of the claims provision the information shall be reported with the following split by currencies in addition to the total for the line of business:
  - a) Amounts in the reporting currency;

**▼ M2**

- b) Amounts for any currency that represents more than 25 % of the gross best estimate of the claims provisions from that non-life line of business; or
- c) Amounts for any currency that represents less than 25 % of the gross best estimate of the claims provisions from that non-life line of business but more than 5 % of total gross best estimate of the claims provisions.

**▼ B**

- iii. If the total gross best estimate for one non-life line of business represents less than 3 % of the total gross best estimate of the claims provision no currency split is required, only the total for the line of business shall be reported.
- iv. The information by currency shall be reported in the original currency of the contracts unless otherwise specified.

Undertakings are required to report data on an accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, provided that they use the same year consistently, year on year.

**▼ B**

The default length of run-off triangle is 15 + 1 years for all lines of business but the reporting requirement is based on the undertakings' claims development (if length of the claims settlement cycle is shorter than 15 years, undertakings are required to report according to the internal shorter development).

Historical data, starting from the first time application of Solvency II, are required for claims paid and RBNS claims but not for Best Estimate of Claims Provision. For the compilation of the historical data for claims paid and RBNS claims the same approach concerning the length of triangle for the on-going reporting will be applied (i.e. the shorter between 15 + 1 years and the undertakings' claims settlement cycle).

All or part of an obligation moves from S.19.01 into S.16.01, when both of the conditions below are met:

- iii. All or part of the obligation has been formally settled as an annuity; and
- iv. a best estimate of an obligation formally settled as an annuity can be established using life techniques.

Formally settled as an annuity typically means that a legal process has ordered that the beneficiary is to receive payments as an annuity.

The sum of provisions in templates S.16.01 and S.19.01 for one non-life line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, represents the total claims reserves originating from this line of business.

| C2200/ R0760   | Description of inflation rate used             | In the case of use of run-off techniques that explicitly take into account inflation in order to adjust data report narrative description of inflation rate used.   |

**S.20.01 — Development of the distribution of the claims incurred****General comments:**

This section provides an overview about the run-off/movement of non-life claims portfolios, in terms of both claims paid (split by different type of claims) and RBNS claims (as defined in S.19.01).

This template must be filled for each Line of Business (12 line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, in total) with regards to gross direct business (i.e. undertakings are exempted to report the accepted — proportional and non-proportional — business); in case of RBNS denominated in different currencies, it is required to report only the total in the reporting currency.

**▼ B**

With regard to the number of claims to be reported, undertakings will use their specific definition or, if available, specification existing at national level (for instance requirement laid down by the National Supervisory Authority). However, each claim shall be reported once ► **M2** by Line of Business ◀. If any claim is closed and reopened during the year, it shall not be reported in the column 'Reopen Claims during the year' but it shall be reported in relevant column regarding 'Open Claims at the beginning of the year' or 'Claims reported during the year'.

Undertakings are required to report data on accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.

As per the number of years to be reported, the same reporting requirement introduced in S.19.01 applies.

**S.21.01 — Loss distribution risk profile****General comments:**

This section relates to annual submission of information for individual undertakings.

The information shall be filled in relation to non-life business (including health insurance business other than that pursued on a similar basis to that of life insurance ('Non-SLT Health')) only for the direct business. There shall be a separate template for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35.

**▼ M2**

The loss distribution profile non-life shows the distribution, in (predefined) brackets, of the accumulated claims incurred at the end of the reporting year.

Accumulated claims incurred means the sum of gross claims paid and gross reported but not settled claims (RBNS) on a case by case basis for each and every single claim, open or closed, which belongs to a specific accident year ('AY')/underwriting year ('UWY') (AY/UWY). Claims incurred amounts include all the elements that compose the claim itself but excludes any expenses except those attributable to specific claims. Data regarding claims shall be reported net of salvage and subrogation. Historical data, starting from the first time application of Solvency II, is required.

**▼ B**

Undertakings are required to report data on an accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.

The default brackets to be used are defined in euros. For different reporting currencies each relevant supervisory authority shall define the equivalent options for the amounts to be used in the 20 brackets.

An undertaking may use undertaking specific brackets, in particular when incurred losses are lower than EUR 100 000. The brackets chosen shall be used consistently over the reporting periods, unless the distribution of claims changes significantly. In this case the undertaking shall notify the supervisory authority in advance, unless already specified by the supervisory authority.

**S.21.02 — Underwriting risks non-life****General comments:**

This section relates to annual submission of information for individual undertakings.

Template shall be filled in relation to non-life business (including Non-SLT Health) only for direct business.

In this template the 20 biggest single underwriting risks, based on net retention, across all lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, shall be reported. If the 2 biggest single underwriting risks for any of the lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35 are not covered through the above methodology, then they shall be reported in addition. In case a single underwriting risk of a specific line of business forms part of the top 20, the same risk of the affected line of business must only be filled in once.

Net retention of the single underwriting risk means the maximum possible liability of the undertaking after the recoverables from reinsurers (including SPV and Finite Reinsurance) and the original deductible of the policyholder has been taken into account. In case the net retention is equal for too many risks the policy with the highest Sum insured shall be used as a second criteria. In case the Sum insured is also the same and the most appropriate risk considering the risk profile of the undertaking must be used as the ultimate criteria.

|       | ITEM  | INSTRUCTIONS   |
|-------|---|--|
| C0010 | Risk identification code  | The code is a unique identifying number assigned by the undertaking that identifies the risk and shall remain unchanged for subsequent annual reports.   |
| C0020 | Identification of the company/<br>person to which the risk<br>relates | If the risk relates to a company identify the name of the company to whom the risk relates.<br><br>If the risk relates to a natural person, pseudonymise the original policy number and report pseudonymised information. Pseudonymous data refer to data that cannot be attributed to a specific individual without the use of additional information, as long as such additional information is kept separately. Consistency over time shall be insured. It implies that if a single underwriting risk appears from one year to another, it shall receive the same pseudonymised format. |
| C0030 | Description risk  | The description of the risk. Depending on the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, report the type of company, building or occupation of the specific risk insured.   |

▼ B

|       | ITEM                              | INSTRUCTIONS  |
|-------|-----------------------------------|---|
| C0040 | Line of business                  | <p>Identification of the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35. The following closed list shall be used:</p> <ul style="list-style-type: none"> <li>1 — Medical expense insurance</li> <li>2 — Income protection insurance</li> <li>3 — Workers' compensation insurance</li> <li>4 — Motor vehicle liability insurance</li> <li>5 — Other motor insurance</li> <li>6 — Marine, aviation and transport insurance</li> <li>7 — Fire and other damage to property insurance</li> <li>8 — General liability insurance</li> <li>9 — Credit and suretyship insurance</li> <li>10 — Legal expenses insurance</li> <li>11 — Assistance</li> <li>12 — Miscellaneous financial loss</li> </ul> |
| C0050 | Description risk category covered | The description of the risk category covered is entity specific and is not mandatory. Also the term 'risk category' isn't based on Level 1 and 2 terminologies but can be considered as an extra possibility to give additional information about the underwriting risk(s).   |
| C0060 | Validity period (start date)      | Identify the ISO 8601 (yyyy-mm-dd) code of the date of commencement of the specific cover, i.e., date when the cover took effect.   |
| C0070 | Validity period (expiry date)     | Identify the ISO 8601 (yyyy-mm-dd) code of the final expiry date of the specific cover.   |
| C0080 | Currency                          | ► <b>M1</b> Identify the ISO 4217 alphabetic code of the original currency. ◀   |
| C0090 | Sum insured                       | <p>The highest amount that the insurer can be obliged to pay out under the policy. The insured sum relates to the underwriting risk.</p> <p>Where the policy covers a number of exposures/risks across the country the individual underwriting risk with the highest net retention shall be specified. If the risk has been accepted on a co-insurance basis, the insured sum indicates the maximum liability of the reporting non-life insurer. In case of a joint several liability, the part belonging to a defaulting co-insurer must be included as well.</p>  |
| C0100 | Original deductible policyholder  | Part of the sum insured which is retained by the policyholder.  |
| C0110 | Type of underwriting model        | <p>Type of underwriting model which is used to estimate the exposure of the underwriting risk and the need for reinsurance protection. One of the options in the following closed list shall be used:</p> <ul style="list-style-type: none"> <li>1 — Sum Insured:</li> </ul> <p>the highest amount that the insurer can be obliged to pay out according to the original policy. Sum insured must also be filled when type of underwriting model is not applicable</p>   |

▼ B

|       | ITEM  | INSTRUCTIONS  |
|-------|---|---|
|       |   | <p>2 — Maximum Possible Loss:<br/>loss which may occur when the most unfavourable circumstances being more or less exceptionally combined, the fire is only stopped by impassable obstacles or lack of substance.</p> <p>3 — Probable Maximum Loss:<br/>defined as the estimate of the largest loss from a single fire or peril to be expected, assuming the worst single impairment of primary private fire protection systems but with secondary protection systems or organizations (such as emergency organizations and private and/or public fire department response) functioning as intended. Catastrophic conditions like explosions resulting from massive release of flammable gases, which might involve large areas of the plant, detonation of massive explosives, seismic disturbances, tidal waves or flood, falling aircraft, and arson committed in more than one area are excluded in this estimate. This definition is a hybrid form between Maximum Possible Loss and Estimated Maximum Loss that is generally accepted and frequently used by insurers, reinsurers and reinsurance brokers</p> <p>4 — Estimated Maximum Loss:<br/>loss that could reasonably be sustained from the contingencies under consideration, as a result of a single incident considered to be within the realms of probability taking into account all factors likely to increase or lessen the extent of the loss, but excluding such coincidences and catastrophes which may be possible but remain unlikely.</p> <p>5 — Other:<br/>defined as other possible underwriting models used. The type of 'other' underwriting model applied must be explained in the Regular Supervisory Report</p> <p>Although abovementioned definitions are used for the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, 'Fire and other damage to property insurance', similar definitions might be in place for other lines of business.</p> |
| C0120 | Amount underwriting model   | Maximum loss amount of the single underwriting risk which is the result of the underwriting model applied. In case no specific type of underwriting model is used the amount must be equal to the sum insured reported in C0090 minus the original deductible reported in C0100.  |
| C0130 | Sum reinsured on a facultative basis, with all reinsurers           | Part of the sum insured that the insurer has reinsured on a facultative basis (by treaty and/or by individual cover) with the reinsurers. When the facultative cover is not placed for 100 % but only for 80 % the 20 % not placed shall be considered as retention.  |
| C0140 | Sum reinsured, other than on facultative basis, with all reinsurers | Part of the sum insured that the insurer has reinsured through traditional reinsurance treaties or another basis (including SPV and Finite Reinsurance) other than facultative reinsurance.   |
| C0150 | Net retention of the insurer  | The net amount for which the insurer acts as risk carrier, i.e.: part of the sum insured that exceeds the original deductible of the policyholder and is not reinsured.   |

**▼B****S.21.03 — Non-life distribution of underwriting underwriting risks — by sum insured****General comments:**

This section relates to annual submission of information for individual undertakings.

The template is retrospective and shall be filled in relation to non-life business (including Non-SLT Health) only for the direct business and only for the Non-life Lines of Business (lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35).

The underwriting risk portfolio is the distribution, in (predefined) brackets, of the sum insured of each and every single underwriting risk which have been accepted by the undertaking. The underwriting risk portfolio is per line of business. However, whereas some lines of business are reportable on a compulsory basis for all member states, the individual member states may also require compulsory basis reporting for further lines of business where deemed to be relevant. For certain lines of business, the template would not be applicable. (See also item Line of business).

The default brackets to be used are defined in euros. For different reporting currencies each relevant supervisory authority shall define the equivalent options for the amounts to be used in the 20 brackets.

An undertaking may use undertaking specific brackets, in particular when sum insured is lower than EUR 100 000. The brackets chosen shall be used consistently over the reporting periods, unless the distribution of claims changes significantly. In this case the undertaking shall notify the supervisory authority in advance, unless already specified by the supervisory authority.

By default the reference date shall be the end of the reporting year, however if duly justified, the undertaking may choose the reference date of collecting the information from the policy administration. This means that the underwriting risk portfolio can be based for example on the same reference date that is used to collect similar information for the renewal of reinsurance treaties and facultative cover.

The sum insured relates to each and every individual underwriting risk, only looking at the main coverage of the policy per line of business, and means the highest amount that the insurer can be obliged to pay out. This means:

- If the sum insured of the additional cover for ‘Theft’ is lower than the sum insured of the main cover for ‘Fire and other damage’ (both belonging to the same line of business), the highest sum insured must be taken.
- A policy cover comprising a number of buildings across the country/car fleet etc must be broken down.
- If the risk has been accepted on a co-insurance basis, the insured sum indicates the maximum liability of the reporting non-life insurer.
- In case of joint liability through co-insurance, the part belonging to a defaulting co-insurer must be included in the sum insured as well.

**S.22.01 — Impact of long term guarantees measures and transitionals****General comments:**

This section relates to annual submission of information for individual entities.

This template is relevant when at least one long term guarantee measure or transitional is used by the undertaking.

This template shall reflect the impact on the financial positions when no transitional is used and each LTG measures or transitional is set to zero. ► **M2** For that purpose, a cumulative step-by-step approach shall be followed taking out each transitional and LTG measure one by one and without recalculating the impact of the remaining measures after each step. ◀

The impacts need to be reported positive if they increase the amount of the item being reported and negative if they decrease the amount of the item (e.g. if amount of SCR increases or if amount of Own Funds increases then positive values shall be reported).

|-------|--------------------|---|
| Z0010 | Matching portfolio | Indicate the number which is attributed by the undertaking, corresponding to the unique number assigned to each matching portfolio.<br><br>This number has to be consistent over time and shall be used to identify the matching portfolio number in other templates. |

**Overall calculation of the matching adjustment**

|             |   |  |
|-------------|---|--|
| C0010/R0010 | Annual effective rate applied to the CF of the obligations                        | The annual effective rate, calculated as the single discount rate that, where applied to the cash flows ('CF') of the portfolio of insurance or reinsurance obligations, results in a value that is equal to the value in accordance with Article 75 of Directive 2009/138/EC of the portfolio of assigned assets.   |
| C0010/R0020 | Annual effective rate of the best estimate  | The annual effective rate, calculated as the single discount rate that, where applied to the cash flows of the portfolio of insurance or reinsurance obligations, results in a value that is equal to the value of the best estimate of the portfolio of insurance or reinsurance obligations where the time value of money is taken into account using the basic risk-free interest rate term structure.  |
| C0010/R0030 | Probability of default used to de-risk assets cash flows                          | The probability of default corresponds to the amount expressed as a financial percentage (same format as for rows R0010 and R0020) used to adjust the assets cash flows of the assigned portfolio of assets pursuant to Article 53 of Delegated Regulation (EU) 2015/35.<br><br>'De-risked assets cash flows' means 'expected assets cash-flows' as referred to in Article 53 of Delegated Regulation (EU) 2015/35.<br><br>This amount shall not include the increase reported in row R0050. |
| C0010/R0040 | Portion of the fundamental spread not reflected when de-risking assets cash flows | Portion of the fundamental spread that has not been reflected in the adjustment to the cash-flows of the assigned portfolio of assets as set out in Article 53 of Delegated Regulation (EU) 2015/35.<br><br>This amount shall be expressed as a financial percentage (same format as rows R0010 and R0020). This amount shall not include the increase reported in row R0050.  |
| C0010/R0050 | Increase of fundamental spread for sub investment grade assets                    | Increase of the fundamental spread for sub-investment grade assets expressed as a financial percentage (same format as rows R0010, R0020 and R0120). The increase of the probability of default for sub investment grade assets shall be considered in the de-risking of cash flows.   |
| C0010/R0060 | Matching adjustment to the risk free rate   | Matching adjustment to the risk free rate for the reported portfolio, reported as a decimal.   |

**▼ B**

|  | ITEM   | INSTRUCTIONS  |
|--|--|---|
| <b>Eligibility criteria using SCR mortality stress</b> |  |   |
| C0010/R0070  | Mortality risk stress for the purpose of the matching adjustment | Increase of the gross best estimate calculated with the basic risk free rate following a mortality risk stress compared to the gross best estimate calculated with the basic risk rate, as set out in Article 77b (1-f) of Directive 2009/138/EC and Article 52 of Delegated Regulation (EU) 2015/35. |
| <b>Portfolio</b>                                       |  |   |
| C0010/R0080  | Market value of the assets of the portfolio                      | Solvency II value of the assets of the portfolio.   |
| C0010/R0090  | Market value of assets linked to inflation                       | Solvency II value of the assets with return linked to inflation (Article 77b (1) of Directive 2009/138/EC).   |
| C0010/R0100  | Best estimate linked to inflation                                | Amount of best estimate of cash flows of the insurance or reinsurance obligations that depend on inflation.   |
| C0010/R0110  | Market value assets where third party can change the cash flows  | Value of the assets where third party can change the cash flows (Article 77b (1) of Directive 2009/138/EC).   |
| C0010/R0120  | Return on assets — portfolio assets                              | Identify the de-risked Internal Rate of Return ('IRR') of the assets linked to any matching adjustment portfolio measured as the discount rate at which the present value of the cash outflows of an asset equals the present value of its de-risked cash inflows.                                    |
| C0010/R0130  | Market value of surrendered contracts                            | Value of the best estimate of the insurance and reinsurance obligations stemming from contracts underlying each matching adjustment portfolio which have been surrendered during the reporting period.  |
| C0010/R0140  | Number of surrender options exercised                            | Number of surrender options exercised during the reporting period related to insurance and reinsurance obligations of each matching portfolio.  |
| C0010/R0150  | Market value of assets covering surrendered contracts            | Value of the assets, valued in accordance with Article 75 of the Directive 2009/138/EC, covering the insurance and reinsurance obligations surrendered at the time the surrender options were exercised.  |
| C0010/R0160  | Amount paid to policyholders                                     | Value of the amount paid to policyholders according to their surrender rights.<br><br>This amount differs from row R0130 and R0150 where the surrender clause of the contract does not give the policyholder the right to receive the full amount in those rows.                                      |
| <b>Liabilities</b>                                     |  |   |
| C0010/R0170  | Duration   | Measure equivalent to Macaulay duration for liabilities considering all cash flows of insurance or reinsurance obligations arising from portfolios where the matching adjustment has been used.   |

**▼B****S.22.04 — Information on the transitional on interest rates calculation****General comments:**

This section relates to annual submission of information for individual entities.

This template shall be reported by currency for which the transitional adjustment to the relevant risk-free interest rate term structure is applied. When filling C0020 only the guaranteed Best Estimate of obligations stemming from products providing a guaranteed rate shall be considered. The Future Discretionary Benefits shall not be considered.

The assessment to distinguish between the Solvency I interest rate intervals might be done by Homogeneous Risk Groups (HRG).

|   | ITEM  | INSTRUCTIONS   |
|---|---|--|
| <b>Overall calculation of the transitional adjustment</b> |   |  |
| Z0010   | Currency  | Identify the ISO 4217 alphabetic code of each of the currency for which the transitional adjustment to the relevant risk-free interest rate term structure is applied.   |
| C0010/R0010   | Solvency I interest rate                                | The interest rate (as a decimal) as determined by the insurance or reinsurance undertaking in accordance with the laws, regulations and administrative provisions which are adopted pursuant to Article 20 of Directive 2002/83/EC at the last date of the application of that Directive.  |
| C0010/R0020   | Annual effective rate                                   | The annual effective rate, calculated as the single discount rate that, where applied to the cash flows of the portfolio of admissible insurance and reinsurance obligations, results in a value that is equal to the value of the best estimate of the portfolio of admissible insurance and reinsurance obligations where the time value of money is taken into account using the relevant risk-free interest rate term structure referred to in Article 77(2) of Directive 2009/138/EC. |
| C0010/R0030   | Portion of the difference applied at the reporting date | Percentage (as a decimal) of the difference between the Solvency I interest rate (R0010) and the Annual effective rate (R0020) (e.g. 1,00 at the beginning of the transitional period and 0,00 at the end).  |
| C0010/R0040   | Adjustment to risk free rate                            | Transitional adjustment to the risk free rate expressed as a percentage (as a decimal).  |

**▼ B****S.22.06 — Best estimate subject to volatility adjustment by country and currency****General comments:**

This section relates to annual submission of information for individual entities.

This template shall only be reported by insurance and reinsurance undertakings that apply volatility adjustment in accordance with Article 77d of the Directive 2009/138/EC.

This template shall reflect the gross best estimate of insurance and reinsurance life obligations subject to volatility adjustment split by currency of the obligations and by country in which the contract was entered into. The best estimate reported shall take into account the volatility adjustment. The best estimate subject to any matching adjustment shall not be reported in this template.

Information shall be reported in relation to material obligations in countries and currencies for which a currency volatility adjustment, and a country increase if applicable, is applied until 90 % of the total best estimate subject to volatility adjustment is reported.

|             | ITEM             | INSTRUCTIONS   |

**S.25.01 — Solvency Capital Requirement — for undertakings on Standard Formula****General comments:**

This section relates to opening and annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.25.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of template S.01.03.

Where the entity has MAP or RFF (except those under the scope of Article 304 of Directive 2009/138/EC) when reporting at the level of the whole undertaking, the notional Solvency Capital Requirement ('nSCR') at risk module level and the loss-absorbing capacity (LAC) of technical provisions and deferred taxes to be reported shall be calculated as follows:

- Where the undertaking applies the full adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level the nSCR is calculated as if no loss of diversification exists and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part;
- Where the undertaking applies the Simplification at risk sub-module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR is calculated considering a direct summation at sub-module level method and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part,
- Where the undertaking applies the simplification at risk module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR is calculated considering a direct summation at module level method and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part.

**▼ B**

The adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level shall be allocated (C0050) to the relevant risk modules (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk). The amount to be allocated to each relevant risk module shall be calculated as follows:

**▼ M1**

- Calculation of 'q factor' =  $\frac{adjustment}{BSCR' - nSCR_{int}}$ , where
- *adjustment* = Adjustment calculated according to one of the three methods referred above
  - *BSCR'* = Basic solvency capital requirement calculated according to the information reported in this template (C0040/R0100)
  - *nSCR<sub>int</sub>* = nSCR for intangible assets risk according to the information reported in this template (C0040/R0070)

**▼ B**

- Multiplication of this 'q factor' by the nSCR of each relevant risk module (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk)

**▼ B****S.25.02 — Solvency Capital Requirement — for undertakings using the standard formula and partial internal model****General comments:**

This section relates to opening and annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

The components to be reported shall be agreed between national supervisory authorities and insurance and reinsurance undertakings.

Template SR.25.02 shall be reported by ring-fenced fund, matching adjustment portfolio and the remaining part for every undertaking under a partial internal model. This includes undertakings where a partial internal model is applied to a full ring-fenced fund and/or matching adjustment portfolio while the other ring-fenced funds and/or matching adjustment portfolios are under the standard formula. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

For those undertakings under a partial internal model to which the adjustment due to the aggregation of the nSCR of RFF/MAP is applicable, where the entity has MAP or RFF (except those under the scope of Article 304 of Directive 2009/138/EC) when reporting at the level of the whole undertaking, the nSCR at risk module level and the loss-absorbing capacity (LAC) of technical provisions and deferred taxes to be reported shall be calculated as follows:

- Where the undertaking applies the full adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level: the nSCR is calculated as if no RFF and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part;
- Where the undertaking applies the Simplification at risk sub-module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR and LAC are calculated considering a direct summation at sub-module level method,
- Where the undertaking applies the Simplification at risk module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR and LAC are calculated considering a direct summation at module level method.

The adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level shall be allocated (C0060) to the relevant risk modules (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk) when calculated according to the standard formula. The amount to be allocated to each relevant risk module shall be calculated as follows:

— Calculation of 'q factor' =  $\frac{adjustment}{BSCR' - nSCR_{int}}$ , where

— *adjustment* = Adjustment calculated according to one of the three methods referred above

— *BSCR'* = Basic solvency capital requirement calculated according the information reported in this template

▼ **B**

—  $nSCR_{int}$  = nSCR for intangible assets risk according to the information reported in this template

— Multiplication of this ‘q factor’ by the nSCR of each relevant risk module (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk)

**S.25.03 — Solvency Capital Requirement — for undertakings using full internal model****General comments:**

This section relates to opening and annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

The components to be reported shall be agreed between national supervisory authorities and insurance and reinsurance undertakings.

Template SR.25.03 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part for every undertaking under a full internal model. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

|       | ITEM  | INSTRUCTIONS   |

| R0460/C0100 | Net future discretionary benefits   | Amount of technical provisions without risk margin in relation to future discretionary benefits net of reinsurance.   |

**▼B****S.26.01 — Solvency Capital Requirement — Market risk****General comments:**

This section relates to annual submission of information for individual entities, ring fenced–funds, matching adjustment portfolios and remaining part.

The template SR.26.01.01 has to be filled in for each ring–fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub–funds of a material RFF/MAP as identified in the second table of S.01.03.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

**S.26.02 — Solvency Capital Requirement — Counterparty default risk****General comments**

This section relates to annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.02.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.26.03.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

All values shall be reported net of reinsurance and other risk mitigating techniques.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

**S.26.04 — Solvency Capital Requirement — Health underwriting risk****General Comments:**

This section relates to annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.04.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

All values shall be reported net of reinsurance and other risk mitigating techniques.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

**S.26.05 — Solvency Capital Requirement — Non-Life underwriting risk****General comments:**

This section relates to annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.05.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

All values shall be reported net of reinsurance and other risk mitigating techniques.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

**S.26.06 — Solvency Capital Requirements — Operational risk****General comments:**

This section relates to annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.06.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

**S.27.01 — Solvency Capital Requirement — Non–life and health catastrophe risk****General comments:**

This section relates to annual submission of information for individual entities, ring fenced–funds, matching adjustment portfolios and remaining part.

Template SR.27.01 has to be filled in for each ring–fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub–funds of a material RFF/MAP as identified in the second table of S.01.03.

**▼ B**

This template is designed to allow an understanding of how the catastrophe risk module of the SCR has been calculated and what are the main drivers.

For every type of catastrophe risk the risk mitigating effect of the undertaking's specific reinsurance contracts and special purpose vehicles must be determined. This calculation is prospective and must be based on the reinsurance program of the next reporting year as described in the reinsurance templates for Facultative covers (S.30.01 and S.30.02) and Outgoing reinsurance program in the next reporting year (S.30.03 and S.30.04).

Undertakings need to estimate their recoveries from risk mitigation in line with the Directive 2009/138/EC, Delegated Regulation (EU) 2015/35 and any relevant technical standard. Undertakings shall complete the catastrophe reporting template only to the granularity required to perform this calculation.

Under the non-life and health underwriting risk modules, catastrophe risk is defined as the risk of loss, or of adverse change in the value of insurance liabilities, resulting from significant uncertainty of pricing and provisioning assumptions related to extreme or exceptional events as set out in Article 105(2)(b) and (4)(c) of the Directive 2009/138/EC.

The reported capital requirements reflects the capital requirements before and after risk mitigation which is the risk mitigating effect of the undertaking's specific reinsurance contracts and special purpose vehicles. The reported capital requirement after risk mitigation is before the loss absorbing capacity of technical provisions. The default value of the risk mitigation shall be reported as a positive value in order to be deducted.

In case the diversification effect reduces the capital requirement the default value of the diversification shall be reported as a negative value.

**S.28.01 — Minimum Capital Requirement — Only life or only non-life insurance or reinsurance activity****General comments:**

This section relates to opening, quarterly and annual submission of information for individual entities.

In particular, S.28.01 is to be submitted by insurance and reinsurance undertakings other than insurance undertakings engaged in both life and non-life insurance activity. These undertakings shall submit S.28.02 instead.

This template shall be completed on the basis of Solvency II valuation, i.e. written premiums are defined as the premiums due to be received by the undertaking in the period (as defined in Article 1(11) of Delegated Regulation (EU) 2015/35).

All references to technical provisions address technical provisions after application of Long Term Guarantee measures and transitionals.

The calculation of MCR combines a linear formula with a floor of 25 % and a cap of 45 % of the SCR. The MCR is subject to an absolute floor depending on the nature of the undertaking (as defined in Article 129 (1) (d) of the Directive 2009/138/EC).

**S.29.01 — Excess of Assets over Liabilities****General comments:**

This section relates to annual submission of information for individual entities.

This template, together with S.29.02 to S.29.04, explains the variation of Excess of Assets over Liabilities by reconciling the different sources of movements (please see the five main sources in b) below). In these templates, creation of value needs to be reported (such as income from investments).

The content of this template covers:

- a) A presentation of all variations in Basic Own fund items during the reporting period. It isolates the variation of the Excess of Assets over Liabilities as part of this total variation. This first analysis is entirely performed based on information also reported in template S.23.01 (year N and N-1).
- b) A summary of the 5 main sources affecting the variation of the Excess of Assets over Liabilities between the prior and the last reporting periods (cells C0030/R0190 to C0030/R0250):
  - The variation related to investments and financial liabilities — detailed in template S.29.02,
  - The variation related to technical provisions — detailed in templates S.29.03 and S.29.04,
  - The variation of 'pure' capital items, which is not directly influenced by the business carried on (e.g., variations in ordinary shares numbers and values); these variations are analysed in detail within template S.23.03;
  - Other main variations linked to tax and dividend distribution, namely:
    - Variation in Deferred Tax position
    - Income Tax of the reporting period
    - Dividend distribution
  - Other variations not explained elsewhere.

| C0030/R0250 | Other variations in Excess of Assets over Liabilities | The remaining variations in the excess of assets over liabilities.   |

**S.29.02 — Excess of Assets over Liabilities — explained by investments and financial liabilities****General comments:**

This section relates to annual submission of information for individual entities.

This template focuses on changes in the Excess of Assets over Liabilities due to investments and financial liabilities.

The scope of this template:

- i. Includes liabilities position of derivatives (as investments);
- ii. Includes Own shares;
- iii. Includes Financial liabilities (comprising subordinated liabilities);
- iv. Excludes assets held for unit-linked and index-linked funds;
- v. Excludes property held for own use.

For all these items, the template covers the investments held at closing date of the prior reporting period (N-1) and the investments acquired/issued during the reporting period (N).

With regards to assets held for unit linked and index linked funds, the adjustment on basic own funds related to valuation is taken into account in template S.29.03.

The difference between template S.29.02 (last table) and information in template S.09.01 is the inclusion of the revenue from own shares and the exclusion of unit linked. The purpose of the template is to provide a detailed understanding of the changes in the Excess of Assets over Liabilities related to investments, considering:

- i. Movements in valuation with an impact on the Excess of Assets over Liabilities (e.g. realised gains and losses from sales, but also valuation differences);
- ii. Revenues triggered by investments;
- iii. Expenses related to investments (including interest charges on financial liabilities.).

Applicable to other investment income not considered in cells C0010/R0070, C0010/R0080 and C0010/R0090, such as securities lending fees, commitment fees etc, excluding the ones from assets held for unit-linked & index-linked funds, or property held for own use). |

**S.29.03 — Excess of Assets over Liabilities — explained by technical provisions****General comments:**

This section relates to annual submission of information for individual entities.

This template focuses on changes in the Excess of Assets over Liabilities due to technical provisions (TP). The scope of technical provisions includes risks captured through Best Estimate (BE) and Risk margin, and those captured through TP calculated as a whole.

As regards the order of calculation in the table 'breakdown of Variation in Best Estimate', presentation of the order is not deemed prescriptive as to the order in which the calculation is performed, as long as the content of the different cells indeed reflect the purpose and definition of these cells.

Undertakings are required to report data on accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.

The purpose of the template is to provide a detailed understanding of the changes in the Excess of Assets over Liabilities related to technical provisions, considering:

— Changes in TP captions;

**▼B**

- Changes in technical flows of the period;
- A detailed breakdown of the variation of Best Estimate — gross of reinsurance by sources of changes (such as new business, changes in assumptions, experience, etc.).

|  | ITEM | INSTRUCTIONS |
|--|------|--------------|
|--|------|--------------|

**Of which the following breakdown of Variation in Best Estimate — analysis per UWY if applicable — Gross of reinsurance**

|                       |   |   |
|-----------------------|---|---|
| C0010–C0020/<br>R0010 | Opening Best Estimate   | Amount of Best Estimate — gross of reinsurance — as stated in the Balance Sheet at closing year N–1 related to those lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, for which an underwriting year approach (UWY) is used for Best Estimate calculation.  |
| C0010–C0020/<br>R0020 | Exceptional elements triggering restating of opening Best Estimate                            | Amount of adjustment to opening Best Estimate due to elements, other than changes in perimeter that led to restate the opening BE.<br><br>Shall essentially concern changes in models (in case models are used) for correction of the model and other modifications. It shall not concern changes in assumptions.<br><br>These cells are expected to be mostly applicable for Life business.  |
| C0010–C0020/<br>R0030 | Changes in perimeter  | Amount of adjustment to opening Best Estimate related to changes in perimeter of the portfolio like sales of (part of) portfolio and purchases. This could also concern changes of perimeter due to liabilities evolving to annuities stemming from Non–Life obligations (triggering some changes from Non–Life to Life).   |
| C0010–C0020/<br>R0040 | Foreign exchange variation  | Amount of adjustment to opening Best Estimate related to foreign exchange variation during the period.<br><br>In this case the foreign exchange variation is actually meant to be applied to contracts which are taken out in currencies different from the balance sheet currency. For the calculation, the cash–flows of these contracts contained in the opening Best Estimate are simply converted due to the exchange variation.<br><br>This item does not address the impact on the cash–flows of the insurance portfolio induced by re–valuation of year N–1 assets due to foreign exchange variation during year N. |
| C0010–C0020/<br>R0050 | Best Estimate on risks accepted during the period   | It represents present expected future cash flows (gross of reinsurance) included in Best Estimate and related to risks accepted during the period.<br><br>This shall be considered at the closing date (and not at the actual date of inception of the risks), i.e. this shall form part of the Best Estimate at closing date.<br><br>The scope of cash flows refers to Article 77 of Directive 2009/138/EC.  |
| C0010–C0020/<br>R0060 | Variation of Best Estimate due to unwinding of discount rate — risks accepted prior to period | The variation of Best Estimate captured here shall only relate to the unwinding of discount rates, and does not take into account other parameters such as changes in assumptions or discount rates, experience adjustment, etc.<br><br>The concept of unwinding may be illustrated as follows: Calculate the Best Estimate of year N–1 again but using the shifted interest rate term structure  |

▼ B

|                       | ITEM   | INSTRUCTIONS  |
|-----------------------|--|---|
|                       |  | <p>In order to isolate this strict scope of variation, the calculation may be as follows:</p> <ul style="list-style-type: none"> <li>— Consider Opening Best Estimate including the adjustment to opening Best Estimate (cells C0010/R0010 to R0040);</li> <li>— Based on this figure, run the calculation of the unwinding of discount rates.</li> </ul>   |
| C0010–C0020/<br>R0070 | Variation of Best Estimate due to year N projected in and out flows — risks accepted prior to period   | <p>Premiums, claims, and surrenders that were forecasted on the Opening Best Estimate as to be paid during the year, will not be in the closing Best Estimate anymore as they would have been paid/received during the year. A neutralisation adjustment shall be performed.</p> <p>In order to isolate this adjustment, the calculation may be as follows:</p> <ul style="list-style-type: none"> <li>— Consider Opening Best Estimate (cell C0010/R0010) including the adjustment to opening Best Estimate (cells C0010/R0020 to R0040)</li> <li>— Isolate the amount of cash flows (cash in minus cash out) that were projected within this opening Best Estimate for the period considered</li> <li>— This isolated amount of cash flow shall come in addition to Opening Best Estimate (for neutralisation effect) — and be filled in cell C0010/R0070 and C0020/R0070.</li> </ul>   |
| C0010–C0020/<br>R0080 | Variation of Best Estimate due to experience — risks accepted prior to period                          | <p>The variation of Best Estimate captured here shall strictly relate to the strict realisation of cash flows when compared to the cash flows that were projected.</p> <p>For calculation purposes, and in case of non-availability of information of realised cash flows, the variation due to experience may be calculated as the difference between realised technical flows and projected cash-flow.</p> <p>Realised technical flows refer to those reported under Solvency II principles i.e. premiums effectively written, claims effectively paid and expenses effectively recorded.</p>   |
| C0010–C0020/<br>R0090 | Variation of Best Estimate due to changes in non-economic assumptions — risks accepted prior to period | <p>It mainly refers to changes in RBNS not driven by realised technical flows (e.g. revision on a case by case basis of the amount of IBNR) and changes assumptions directly linked to insurance risks (i.e. lapse rates), which can be referred to as non-economic assumptions.</p> <p>In order to isolate the strict scope of variation due to changes in assumptions, the calculation may be as follows:</p> <p>► <b>MI</b> — Consider the opening Best Estimate (cell C0010/R0010) including the adjustment to opening Best Estimate (cell C0010/R0010 to R0040) and the impact of unwinding of year N projected cash-flows (C0010/R0060 to R0080 and C0020/R0060 to R0080 respectively); ◀</p> <ul style="list-style-type: none"> <li>— Based on this figure, run calculations with new assumptions not related to discount rates — that applied at year end N (if any)</li> </ul> <p>This will provide the variation of Best Estimate strictly related to changes in these assumptions. This may not capture the variation due to case-by-case revision of RBNS, which would thus have to be added.</p> |

▼ **B**

|                       | ITEM   | INSTRUCTIONS  |
|-----------------------|--|---|
|                       |  | For Non-Life, cases can be expected where these changes cannot be discerned separately from changes due to experience (C0020/R0080). In such cases, report the total figure under C0020/R0080.  |
| C0010–C0020/<br>R0100 | Variation of Best Estimate due to changes in economic environment — risks accepted prior to period | <p>It mainly refers to assumptions not directly linked to insurance risks, i.e. mainly the impact of the changes in economic environment on the cash flows (taking management actions into account, e.g. reduction of future discretionary benefits ('FDB')) and changes in discount rates.</p> <p>For non-life (C0020/R0100), in case variation due to inflation cannot be discerned from changes due to experience, the whole amount would be reported under C0020/R0080.</p> <p>In order to isolate this strict scope of variation, the calculation may be as follows:</p> <ul style="list-style-type: none"> <li>— Consider the opening Best Estimate including the adjustment to opening Best Estimate (cell C0010/R0010 to R0040) and the impact of unwinding, of year N projected cash-flows and experience (C0010/R0060 to R0080 and C0020/R0060 to R0080 respectively, or alternatively, C0010/R0060 to R0090 and C0020/R0060 to R0090 respectively)</li> <li>— Based on this figure, run calculations with new discount rates that applied during year N, together with related financial assumptions (if any).</li> </ul> <p>This will provide the variation of Best Estimate strictly related to changes in discount rates and related financial assumptions.</p> |
| C0010–C0020/<br>R0110 | Other changes not elsewhere explained  | Corresponds to other variations in Best Estimate, not captured in cells C0010/R0010 to R0100 (for Life) or C0020/R0010 to R0100 (Non-Life).   |
| C0010–C0020/<br>R0120 | Closing Best Estimate — gross of reinsurance   | <p>Amount of Best Estimate as stated in the Balance Sheet at closing year N related to those lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, for which an underwriting year approach (UWY) is used for Best Estimate calculation.</p> <p>These cells might be nil (if no UWY approach is used), or might total the closing Best Estimate figure in the Balance Sheet if no accident Year approach (AY) is used.</p>  |

**Of which the following breakdown of Variation in Best Estimate — analysis per UWY if applicable — Reinsurance recoverables**

|--|--|--|
| <b>Of which the following breakdown of Variation in Best Estimate — analysis per AY if applicable — Gross of reinsurance</b> |  |  |
| C0050–C0060/<br>R0150  | Opening Best Estimate  | Amount of Best Estimate — gross of reinsurance — as stated in the Balance Sheet at closing year N–1 related to those lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, for which an accident year approach (AY) is used for Best Estimate calculation.  |
| C0050–C0060/<br>R0160  | Exceptional elements triggering restating of opening Best Estimate                           | Same as for C0010 and C0020/R0020  |
| C0050–C0060/<br>R0170  | Changes in perimeter   | Same as for C0010 and C0020/R0030  |
| C0050–C0060/<br>R0180  | Foreign exchange variation   | Same as for C0010 and C0020/R0040  |
| C0050–C0060/<br>R0190  | Variation of Best Estimate on risk covered after the period                                  | <p>It is expected that these cells mainly concerns Non–Life and refers to changes in (part of) Premiums Provisions (i.e. in relation to all recognised obligations within the boundary of the contract at the valuation date where the claim has not yet occurred) as follows:</p> <ul style="list-style-type: none"> <li>— Identify the part of premiums provisions at Year end (N–1) related to a coverage period starting after the closing Year end N–1;</li> <li>— Have the same considerations and identifications for Premiums Provisions at year end N;</li> <li>— Derive the variation from the two figures.</li> </ul>   |
| C0050–C0060/<br>R0200  | Variation of Best Estimate on risks covered during the period                                | <p>It is expected that these cells mainly concerns Non–Life, and refers to the following cases:</p> <ol style="list-style-type: none"> <li>a) (part of) Premiums Provisions at Year end N–1 which turned to Claims Provisions at year end N because claim has occurred during the period</li> <li>b) claims provisions related to claims occurred during the period (for which there was no Premiums provisions at year end N–1)</li> </ol> <p>Calculation may be as follows:</p> <ul style="list-style-type: none"> <li>— Identify the part of premiums provisions at Year end (N–1) for which cover had already incepted;</li> <li>— Identify the part of claims provisions at Year end (N) related to risks covered during the period;</li> <li>— Derive the variation from the two figures.</li> </ul> |
| C0050–C0060/<br>R0210  | Variation of Best Estimate due to unwinding of discount rate — risks covered prior to period | <p>The concept of unwinding may be illustrated as follows: Calculate the Best Estimate of year N–1 again but using the shifted interest rate term structure.</p> <p>In order to isolate this strict scope of variation, the calculation may be as follows:</p> <ul style="list-style-type: none"> <li>— Consider part of the Opening Best Estimate related to risks covered prior to period, i.e. Opening Best Estimate excluding Premiums provisions but including opening adjustments if any (see cells C0050/R0160 to R0180 and C0060/R0160 to R0180);</li> <li>— Based on this figure, run the calculation of the unwinding of discount rates that applied during year N.</li> </ul>   |

▼ **B**

|                       | ITEM  | INSTRUCTIONS  |
|-----------------------|---|---|
| C0050–C0060/<br>R0220 | Variation of Best Estimate due to year N projected in and out flows — risks covered prior to period   | <p>Premiums, claims, and surrenders that were forecasted on the Opening Best Estimate (related to risks covered prior to period) as to be paid during the year, will not be in the closing Best Estimate anymore as they would have been paid/received during the year.</p> <p>A neutralization adjustment has thus to be performed.</p> <p>In order to isolate this adjustment, the calculation may be as follows:</p> <ul style="list-style-type: none"> <li>— Consider part of the Opening Best Estimate related to risks covered prior to period, i.e. Opening Best Estimate excluding Premiums provisions;</li> <li>— Isolate the amount of cash flows (cash in minus cash out) that were projected within this opening Best Estimate for the period considered;</li> <li>— This isolated amount of cash flow shall come in addition to Opening Best Estimate (for neutralisation effect) — and be filled in cell C0050 and C0060/R0220.</li> </ul>  |
| C0050–C0060/<br>R0230 | Variation of Best Estimate due to experience risks — covered prior to period                          | <p>The variation of Best Estimate captured here shall strictly relate to the strict realisation of cash flows when compared to the cash flows that were projected.</p> <p>For calculation purposes, and in case on non-availability of information of realised cash flows, the variation due to experience may be calculated as the difference between realised technical flows and projected cash-flow.</p>  |
| C0050–C0060/<br>R0240 | Variation of Best Estimate due to changes in non-economic assumptions — risks covered prior to period | <p>It mainly refers to changes in RBNS not driven by realised technical flows (e.g. revision on a case by case basis of the amount of IBNR) and changes assumptions directly linked to insurance risks (i.e. lapse rates), which can be referred to as non-economic assumptions.</p> <p>In order to isolate the strict scope of variation due to changes in assumptions, the calculation may be as follows:</p> <p>► <b>M1</b> — Consider the opening Best Estimate (cell C0010/R0010) including the adjustment to opening Best Estimate (cell C0010/R0010 to R0040) and the impact of unwinding of year N projected cash-flows (C0010/R0060 to R0080 and C0020/R0060 to R0080 respectively); ◀</p> <p>— Based on this figure, run calculations with new assumptions not related to discount rates — that applied at year end N (if any);</p> <p>This will provide the variation of Best Estimate strictly related to changes in these assumptions. This may not capture the variation due to case-by-case revision of RBNS, which would thus have to be added.</p> <p>For Non-Life, in cases where these changes cannot be discerned separately from changes due to experience, report the total figure under C0060/R0230.</p> |
| C0050–C0060/<br>R0250 | Variation of Best Estimate due to changes in economic environment — risks covered prior to period     | <p>It mainly refers to assumptions not directly linked to insurance risks, i.e. mainly the impact of the changes in economic environment on the cash flows (taking management actions into account, e. g. reduction of FDB) and changes in discount rates.</p>  |

**▼B**

|                       | ITEM                                  | INSTRUCTIONS   |
|-----------------------|---------------------------------------|--|
|                       |                                       | <p>For non-life (C0060/R0250), in case variation due to inflation cannot be discerned from changes due to experience, the whole amount would be reported under C0060/R0230.</p> <p>In order to isolate this strict scope of variation, the calculation may be as follows:</p> <ul style="list-style-type: none"> <li>— Consider the opening Best Estimate including the adjustment to opening Best Estimate (cells C0050/R0160 to R0180) and the impact of unwinding, of year N projected cash-flows and experience (C0050/R0210 to R0230 and C0060/R0210 to R0230 respectively, or alternatively, C0050/R0210 to R0240 and C0060/R0210 to R0240, respectively);</li> <li>— Based on this figure, run calculations with new discount rates that applied during year N, together with related financial assumptions (if any).</li> </ul> <p>This will provide the variation of Best Estimate strictly related to changes in discount rates and related financial assumptions.</p> |
| C0050–C0060/<br>R0260 | Other changes not elsewhere explained | Corresponds to other variations in Best Estimate, not captured in cells C0010/R0010 to R0100 (for Life) or C0020/R0010 to R0100 (Non-Life).  |
| C0050–C0060/<br>R0270 | Closing Best Estimate                 | Amount of Best Estimate as stated in the Balance Sheet at closing year N related to those lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, for which an accident year approach (AY) is used for Best Estimate calculation.   |

**Of which the following breakdown of Variation in Best Estimate — analysis per AY if applicable — reinsurance recoverables**

|                       |                       |   |
|-----------------------|-----------------------|---|
| C0070–C0080/<br>R0280 | Opening Best Estimate | Amount of Best Estimate of reinsurance recoverable as stated in the Balance Sheet at closing year N–1 related to those lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, for which an accident year approach (AY) is used for Best Estimate calculation. |
| C0070–C0080/<br>R0290 | Closing Best Estimate | Amount of Best Estimate of reinsurance recoverable as stated in the Balance Sheet at closing year N related to those lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35 for which an accident year approach (AY) is used for Best Estimate calculation.    |

**Of which adjustments in Technical Provisions related to valuation of Unit linked contracts, with theoretically a neutralising impact on Assets over Liabilities**

|             |   |   |
|-------------|---|---|
| C0090/R0300 | Variation in Investments in unit-linked | <p>Amount shall represent the variation, in Balance Sheet, of the Assets held for index-linked and unit-linked funds.</p> <p>It discloses the neutralisation of the assets and liabilities movements due to unit linked products.</p> |
|-------------|---|---|

**Technical flows affecting Technical provisions**

|                       |                                    |   |
|-----------------------|------------------------------------|---|
| C0100–C0110/<br>R0310 | Premiums written during the period | Amount of written premiums under Solvency II principles and not included in BE, respectively for Life and Non-life. |
|-----------------------|------------------------------------|---|

**▼ B**

|                       | ITEM  | INSTRUCTIONS   |
|-----------------------|---|--|
| C0100–C0110/<br>R0320 | Claims and benefits during the period, net of salvages and subrogations                               | Amount of claims and benefits during the period, net of salvages and subrogations, respectively for Life and Non–life.<br><br>If amounts are already captured in the ► <b>M2</b> closing best estimate ◀, they shall not be part of this item.     |
| C0100–C0110/<br>R0330 | Expenses (excluding Investment expenses)  | Amount of expenses (excluding investment expenses — which are reported under S.29.02), respectively for Life and Non–life.<br><br>If amounts are already captured in the ► <b>M2</b> closing best estimate ◀, they shall not be part of this item. |
| C0100–C0110/<br>R0340 | Total technical flows on gross Technical Provisions   | Total amount of technical flows affecting gross TP.  |
| C0100–C0110/<br>R0350 | Technical flows related to reinsurance during the period (recoverables received net of premiums paid) | Total amount of technical flows related to reinsurance recoverable during the period, i.e. recoverable received net of premiums, respectively for Life and Non–life.   |

**Variation in Excess of Assets over Liabilities explained by Technical provisions**

|                       |  |   |
|-----------------------|--|---|
| C0120–C0130/<br>R0360 | Variation in Excess of Assets over Liabilities explained by Technical provisions management — Gross Technical Provisions | This calculation corresponds to the following principle:<br>— consider the variation in BE, RM and TP calculated as a whole;<br>— deduct the variation in unit–linked (C0090/R0300);<br>— add total amount of net technical flows, i.e.: inflows minus outflows (C0100/R0340 for Life and C0110/R0340 for Non–Life).<br><br>If the amount has a negative impact on Excess of Assets over Liabilities, this shall a negative amount. |
| C0120–C0130/<br>R0370 | Variation in Excess of Assets over Liabilities explained by Technical provisions management — Reinsurance recoverables   | This calculation corresponds to the following principle:<br>— consider the variation in Reinsurance recoverables;<br>— add total amount of net technical flows, i.e.: inflows minus outflows, related to reinsurance during the period.<br><br>If the amount has a positive impact on Excess of Assets over Liabilities, this shall be a positive amount.   |

**S.29.04 — Detailed analysis per period — Technical flows versus Technical provisions****General comments:**

This section relates to annual submission of information for individual entities.

This template shall ► **M2** ————— ◀ be completed on the basis of Solvency II valuation, i.e. written premiums are defined as the premiums due to be received by the undertaking in the period. Applying this definition means that written premiums in the given year are the premiums actually due to be received in that year, regardless of the coverage period. The definition of written premiums is consistent with the definition of ‘premium receivables’.

**▼ M2**

Undertakings are required to report data on an accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, provided that they use the same year consistently, year on year.

**▼ B**

As regards the split per Lines of business for the analysis per period, line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, shall refer to both direct business and accepted proportional reinsurance.

**S.30.01 — Facultative covers for non-life and life business basic data****General comments:**

This section relates to annual submission of information for individual entities.

This template is relevant to insurance and reinsurance undertakings which reinsure and/or retrocede business on a facultative basis.

It shall be filled by the non-life and life insurance and reinsurance undertakings with information on facultative covers in the next reporting year, covering information on the 10 most important risks in terms of reinsured exposure for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35 (e.g. in cases where the risks accepted do not fit in the regular policy acceptance and could only be accepted in case part of the risk is reinsured on a facultative basis). Each facultative risk is submitted to the reinsurer and terms and conditions of the facultative reinsurance are negotiated individually for each policy. Treaties that automatically cover risks are out of scope of this template and must be reported in S.30.03.

There shall be one separate template for each line of business. For each line of business, a selection must be made of the 10 most important risks in terms of reinsured exposure (part of sum insured transferred to all reinsurers) on a facultative basis. Furthermore, each underwriting risk shall have a unique code specified by the 'risk identification code'.

This template is prospective (to be in line with S.30.03) for the selected largest 10 facultative covers that have not yet expired at the start of the next reporting year whose period of validity includes or overlaps the next reporting year and are known when filling the template. If reinsurance strategy changes materially after that date or if the renovation of the reinsurance contracts are performed later than the reporting date and before next 1 January, the information on this template shall be re-submitted when adequate.

Facultative placements covering different lines of business shall also appear in the various relevant line of business if they are ranked within the 10 biggest risks of the same line of business.

|       | ITEM   | INSTRUCTIONS  |
|-------|--|---|
| C0040 | Facultative reinsurance placement identification code          | Each facultative reinsurance placement must be assigned a sequence number which is unique for the risk. The facultative reinsurance placement identification code is entity specific.   |
| C0050 | Finite reinsurance or similar arrangements                     | <p>Identification of the reinsurance contract. The following closed list shall be used:</p> <p>1 — Non-traditional or Finite RE</p> <p>(if any reinsurance contract or financial instrument which is not directly based on the principle of indemnity or is based on a contract wording which has limited or no demonstrable risk transfer mechanism)</p> <p>2 — Other than non-traditional or Finite RE</p> <p>In case of Finite reinsurance or a similar arrangement only the items which are feasible must be filled.</p>  |
| C0060 | Proportional   | <p>Indicate whether the reinsurance program is proportional reinsurance, i.e., involves a reinsurer taking a stated percent share of each policy that an insurer underwrites. One of the options in the following closed list shall be used:</p> <p>1 — Proportional reinsurance</p> <p>2 — Non-proportional reinsurance</p>  |
| C0070 | Identification of the company/person to which the risk relates | <p>If the risk relates to a company identify the name of the company to whom the risk relates.</p> <p>If the risk relates to a natural person, pseudonymise the original policy number and report pseudonymised information. Pseudonymous data refer to data that cannot be attributed to a specific individual without the use of additional information, as long as such additional information is kept separately. Consistency over time shall be insured. It implies that if a single underwriting risk appears from one year to another, it shall receive the same pseudonymised format.</p> |
| C0080 | Description risk   | The description of the risk. Depending on the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, report the type of company, building or occupation of the specific risk insured.  |
| C0090 | Description risk category covered                              | <p>Description of the main scope of the cover of the facultative risk. It is normally part of the description used to identify the placement.</p> <p>The description of the risk category covered is entity specific and is not mandatory. Also the term 'risk category' is not based on Directive 2008/138/EC or Delegated Regulation (EU) 2015/35/EC terminologies but can be considered as an extra possibility to give additional information about the underwriting risk(s).</p>   |
| C0100 | Validity period (start date)                                   | Identify the ISO 8601 (yyyy-mm-dd) code of the date of commencement of the specific cover, i.e., date when the cover took effect.   |
| C0110 | Validity period (expiry date)                                  | <p>Identify the ISO 8601 (yyyy-mm-dd) code of the final expiry date of the specific cover.</p> <p>In case the cover conditions remain unchanged when filling in the template and the undertaking is not making use of the termination clause, the expiry date will be the next possible expiry date.</p>  |

▼ B

|       | ITEM                       | INSTRUCTIONS   |
|-------|----------------------------|--|
| C0120 | Currency                   | Identify the ISO 4217 alphabetic code of the currency used while placing the facultative cover. All the amounts must be expressed in this currency for the specific facultative cover, unless otherwise required by the national supervisory authority. In case the facultative cover is placed in two different currencies, then the main currency must be filled.  |
| C0130 | Sum insured                | <p>The highest amount that the insurer can be obliged to pay out under the policy. The insured sum relates to the underwriting risk. Where the facultative cover provides for a number of exposures/risks across the country the aggregate policy limits shall be specified. If the risk has been accepted on a co-insurance basis, the insured sum indicates the maximum liability of the reporting non-life insurer.</p> <p>► <b>M2</b> In the case of unlimited sum insured, the 'Sum insured' shall be an estimation of the expected possible loss (calculated using the same methods as used for the calculation of the premium, which shall reflect the actual risk exposure). ◀</p>   |
| C0140 | Type of underwriting model | <p>Type of underwriting model which is used to estimate the exposure of the underwriting risk and the need for reinsurance protection. One of the options in the following closed list shall be used:</p> <p>1 — Sum Insured</p> <p>the highest amount that the insurer can be obliged to pay out according to the original policy. SI must also be filled when type of underwriting model is not applicable</p> <p>2 — Maximum Possible Loss</p> <p>loss which may occur when the most unfavourable circumstances being more or less exceptionally combined, the fire is only stopped by impassable obstacles or lack of substance.</p> <p>3 — Probable Maximum Loss</p> <p>defined as the estimate of the largest loss from a single fire or peril to be expected, assuming the worst single impairment of primary private fire protection systems but with secondary protection systems or organizations (such as emergency organizations and private and/or public fire department response) functioning as intended. Catastrophic conditions like explosions resulting from massive release of flammable gases, which might involve large areas of the plant, detonation of massive explosives, seismic disturbances, tidal waves or flood, falling aircraft, and arson committed in more than one area are excluded in this estimate. This definition is a hybrid form between Maximum Possible Loss and Estimated Maximum Loss that is generally accepted and frequently used by insurers, reinsurers and reinsurance brokers</p> <p>4 — Estimated Maximum Loss</p> <p>loss that could reasonably be sustained from the contingencies under consideration, as a result of a single incident considered to be within the realms of probability taking into account all factors likely to increase or lessen the extent of the loss, but excluding such coincidences and catastrophes which may be possible but remain unlikely.</p> <p>5 — Other</p> <p>other possible underwriting models used. The type of 'other' underwriting model applied must be explained in the Regular Supervisory Report</p> <p>Although abovementioned definitions are used for the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35 'Fire and other damage to property insurance', similar definitions might be in place for other lines of business.</p> |

▼ **B**

|       | ITEM   | INSTRUCTIONS  |
|-------|--|---|
| C0150 | Amount underwriting model  | Maximum loss amount of the underwriting risk which is the result of the underwriting model used.  |
| C0160 | Sum reinsured on a facultative basis, with all reinsurers                                      | The sum reinsured on a facultative basis is part of the sum insured which is reinsured on a facultative basis. The amount shall be consistent with the Sum insured as specified in C0130 and reflects the maximum liability (100 %) for the facultative reinsurers. |
| C0170 | Facultative reinsurance premium ceded to all reinsurers for 100 % of the reinsurance placement | Expected gross annual or written reinsurance premium, gross of ceding commissions, ceded to reinsurers for their share.   |
| C0180 | Facultative reinsurance commission   | Expected commission with the gross annual or written reinsurance premium. This shall include all ceding, overriding and profit commissions that represent cash-flows into the reporting insurer due from the reinsurer.   |

**S.30.02 — Facultative covers for non-life and life business shares data****General comments:**

This section relates to annual submission of information for individual entities.

This template is relevant to insurance and reinsurance undertakings which reinsure and/or retrocede business on a facultative basis.

It shall be filled by the non-life and life insurance and reinsurance undertakings with information on shares of reinsurers of facultative covers in the next reporting year covering information on the 10 most important risks in terms of reinsured exposure, for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, (e.g. in cases where the risks accepted do not fit in the regular policy acceptance and could only be accepted in case part of the risk is reinsured on a facultative basis). Each facultative risk is submitted to the reinsurer and terms and conditions of the facultative reinsurance are negotiated individually for each policy. Treaties that automatically cover risks are out of scope of this template and must be reported in S.30.03.

There shall be one separate template for each line of business. For each line of business, a selection must be made of the 10 most important risks in terms of reinsured exposure (part of sum insured transferred to all reinsurers) on a facultative basis. Furthermore, each underwriting risk shall have a unique code specified by the 'risk identification code'. Each chosen risk shall be separated to get unique conditions for a contract in a single line. ► **M2** Where a facultative cover as reported in template S.30.01 is related to more than one reinsurance undertaking, this template shall be filled in with as many rows as the number of reinsurance undertakings involved for the specific facultative cover. ◀

This template is prospective (to be in line with S.30.03) for the selected largest 10 facultative covers whose period of validity includes or overlaps the next reporting year and are known when filling the template. If reinsurance strategy changes materially after that date or if the renovation of the reinsurance contracts are performed later than the reporting date and before next 1 January, the information on this template shall be re-submitted when adequate.

Facultative placements covering different lines of business shall also appear in the various relevant lines of business if they are ranked within the 10 biggest risks of the same line of business.

This template shall be filled in for each reinsurer that accepted the facultative cover.

**S.30.03 — Outgoing Reinsurance Program basic data****General comments:**

This section relates to annual submission of information for individual entities.

This template is relevant to insurance and reinsurance undertakings with an outgoing reinsurance and/or retrocession program including any coverage provided by State backed reinsurance pool arrangements, excluding facultative covers.

This template shall be filled by the insurance and reinsurance undertaking which is transferring underwriting risk to the reinsurers through a reinsurance treaty whose period of validity includes or overlaps the next reporting year and are known when filling the template. If reinsurance strategy changes materially after that date or if the renovation of the reinsurance contracts are performed later than the reporting date and before next 1 January, the information on this template shall be re-submitted when adequate.

|       | ITEM                                 | INSTRUCTIONS  |
|-------|--------------------------------------|---|
| C0010 | Reinsurance program code             | Unique code (undertaking specific) covering all the individual reinsurance placements and/or treaties which belong to the same reinsurance program.   |
| C0020 | Treaty identification code           | Treaty identification code that identifies the treaty exclusively and must be maintained in subsequent reports, usually the original treaty number registered in the company's books.   |
| C0030 | Progressive section number in treaty | The progressive section number assigned by the undertaking to the various sections of the treaty, in those cases where the treaty, for example, covers more than one line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, or covers different lines of activity with different limits. Treaties with different conditions are considered different treaties for the submission of information and shall be reported in different sections. For different lines of business covered under the same treaty, the conditions referring to each line of business will be detailed separately under each section number. Treaties covering |

| C0130 | Currency                                     | Identify the ISO 4217 alphabetic code of the currency used while placing the reinsurance treaty. All the amounts must be expressed in this currency for the specific cover, unless otherwise required by the national supervisory authority. In case the treaty is placed in two different currencies, then the main currency must be filled..   |
| C0140 | Type of underwriting model                   | <p>Type of underwriting model which is used to estimate the exposure of the underwriting risk and the need for reinsurance protection. One of the options in the following closed list shall be used:</p> <p>1 — Sum Insured</p> <p>the highest amount that the insurer can be obliged to pay out according to the original policy. SI must also be filled when type of underwriting model is not applicable</p> <p>2 — Maximum Possible Loss</p> <p>loss which may occur when the most unfavourable circumstances being more or less exceptionally combined, the fire is only stopped by impassable obstacles or lack of substance.</p> <p>3 — Probable Maximum Loss</p> <p>defined as the estimate of the largest loss from a single fire or peril to be expected, assuming the worst single impairment of primary private fire protection systems but with secondary protection systems or organizations (such as emergency organizations and private and/or public fire department response) functioning as intended. Catastrophic conditions like explosions resulting from massive release of flammable gases, which might involve large areas of the plant, detonation of massive explosives, seismic disturbances, tidal waves or flood, falling aircraft, and arson committed in more than one area are excluded in this estimate. This definition is a hybrid form between Maximum Possible Loss and Estimated Maximum Loss that is generally accepted and frequently used by insurers, reinsurers and reinsurance brokers</p> <p>4 — Estimated Maximum Loss</p> <p>loss that could reasonably be sustained from the contingencies under consideration, as a result of a single incident considered to be within the realms of probability taking into account all factors likely to increase or lessen the extent of the loss, but excluding such coincidences and catastrophes which may be possible but remain unlikely.</p> <p>5 — Other</p> <p>other possible underwriting models used. The type of ‘other’ underwriting model applied must be explained in the Regular Supervisory Report.</p> <p>Although abovementioned definitions are used for the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, ‘Fire and other damage to property insurance and reinsurance’, similar definitions might be in place for other lines of business.</p> |
| C0150 | Estimated Subject Premium Income (XL — ESPI) | The amount of the estimated subject premiums income (‘ESPI’) relating to the contract period. It is normally the amount of premium referring to the portfolio protected under Excess of Loss treaties; in any case it is the amount on which the reinsurance premium is calculated by applying the rate. This item is only reported for XL treaties.   |

▼ **B**

|       | ITEM  | INSTRUCTIONS  |
|-------|---|---|
| C0160 | Gross Estimated Treaty Premium Income (proportional and non-proportional) | The amount of premium for 100 % of the treaty relating to the contract period. This amount is the equivalent of the 100 % reinsurance premium to be paid to all reinsurers for the treaty period, including the premium corresponding to unplaced shares.   |
| C0170 | Aggregate deductibles   | The amount of franchise, meaning an additional retention when losses are covered by the reinsurer only when a certain amount of cumulative losses have taken place. This item is reported ► <b>M2</b> , when applicable, ◀ only if item C0180 is not reported.  |
| C0180 | Aggregate deductibles (%)   | The percentage of franchise, meaning an additional retention percentage when losses are covered by the reinsurer only when a certain amount of cumulative losses have taken place. This item is reported ► <b>M2</b> , when applicable, ◀ only if item C0170 is not reported.<br>The percentage shall be reported as a decimal.   |
| C0190 | Retention or priority   | The amount, for Surplus, Working XL and Catastrophe XL treaties, that is stated as retention or priority in the reinsurance treaty. Separate indication shall be given for the various lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35.   |
| C0200 | Retention or priority (%)   | The percentage, for Quota Share and Stop Loss treaties, that is stated as retention or priority in the reinsurance treaty. Separate indication shall be given for the various lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35.<br>The percentage shall be reported as a decimal.  |
| C0210 | Limit   | The amount that is stated as Limit in the reinsurance treaty. Separate indication shall be given for the various lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35.<br>In the case of unlimited cover '– 1' is to be reported.  |
| C0220 | Limit (%)   | The percentage, for Stop Loss treaties, that is stated as Limit in the reinsurance treaty. Separate indication shall be given for the various lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35.<br>In the case of unlimited cover '– 1' is to be reported.<br>The percentage shall be reported as a decimal.   |
| C0230 | Maximum cover per risk or event   | The amount of maximum cover per risk or event. If for a Quota Share or a Surplus a maximum amount has been agreed for an event (for example — windstorm), the 100 % amount is to be reported. In all other cases, the amount is equal to the Limit minus Priority.<br>In the case of unlimited cover '– 1' is to be reported.   |
| C0240 | Maximum cover per treaty  | The amount of maximum cover per treaty. If for a Quota Share or a Surplus a maximum amount has been set for the entire contract, the 100 % amount is to be reported. In the case of unlimited cover '– 1' is to be reported. For XL or SL treaties the initial capacity has to be indicated (e.g. annual aggregate limits); total cover might also be the result of the information provided under C0250. |
| C0250 | Number of reinstatements  | Number of possibilities to recover the reinsurance coverage.  |

**S.30.04 — Outgoing Reinsurance Program shares data****General comments:**

This section relates to annual submission of information for individual entities.

This template is relevant to insurance and reinsurance undertakings with an outgoing; reinsurance and/or retrocession program including any coverage provided by State backed reinsurance pool arrangements, excluding facultative covers.

This template shall be filled by the insurance and reinsurance undertaking which is transferring underwriting risk to the reinsurers through a reinsurance treaty whose period of validity includes or overlaps the next reporting year and are known when filling the template. If reinsurance strategy changes materially after that date or if the renovation of the reinsurance contracts are performed later than the reporting date and before next 1 January, the information on this template shall be re-submitted when adequate.

|       | ITEM                                 | INSTRUCTIONS  |
|-------|--------------------------------------|---|
| C0010 | Reinsurance program code             | Unique code (undertaking specific) covering all the individual reinsurance placements and/or treaties which belong to the same reinsurance program.   |
| C0020 | Treaty identification code           | Treaty identification code that identifies it exclusively and must be maintained in subsequent reports, usually the original treaty number registered in the company's books.   |
| C0030 | Progressive section number in treaty | The progressive section number assigned by the undertaking to the various sections of the treaty, in those cases where the treaty, for example, covers more than one line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, or covers different lines of activity with different limits. Treaties with different conditions are considered different treaties for the submission of information and shall be reported in different sections. For different lines of business covered under the same treaty, the conditions referring to each line of business will be detailed separately under each section number. Treaties covering different type of reinsurance (e.g. one section on a Quota Share basis and another one on XL) in the same treaty shall be reported in different sections. Treaties covering different layers of the same program shall be reported in different sections. |

▼ **B**

|       | ITEM   | INSTRUCTIONS   |
|-------|--|--|
| C0040 | Progressive number of surplus/layer in program | The progressive surplus/layer number, when the treaty is part of a wider program.  |
| C0050 | Code reinsurer                                 | <p>Identification code of the reinsurer by this order of priority:</p> <ul style="list-style-type: none"> <li>— Legal Entity Identifier (LEI);</li> <li>— Specific code attributed by the undertaking</li> </ul> <p>In case a specific code is attributed by the undertaking, the code shall be unique for the specific reinsurer and shall not overlap with any other code, attributed by the undertaking or LEI code.</p>  |

**S.31.01 — Share of reinsurers (including Finite Reinsurance and SPV's)****General comments:**

This section relates to annual submission of information for individual entities.

This template shall be filled by the insurance and reinsurance undertakings where a recoverable is recognised in relation to the reinsurer (even if all contracts with that reinsurer have terminated) and whose reinsurer is reducing the gross technical provisions as per end of the reporting year.

The template collects information on reinsurers and not on separate treaties. All ceded technical provisions, including those ceded under Finite reinsurance (as defined in S.30.03 Column C0060), must be completed. This also means that if an SPV or a syndicate of Lloyd's acts as a reinsurer the SPV or the syndicate must be listed.

|       | ITEM  | INSTRUCTIONS  |

**▼ B****S.31.02 — Special Purpose Vehicles****General comments:**

This section relates to annual submission of information for individual entities.

This template is relevant for each insurance or reinsurance undertaking transferring risk(s) to a Special Purpose Vehicle (SPV), to ensure sufficient disclosure has been made where SPVs are used as alternative risk transfer methods to traditional reinsurance treaties.

The template applies to the use of:

- a) SPVs defined under Article 13(26) and authorised under Article 211(1) of Directive 2009/138/EC;
- b) SPVs meeting conditions of Article 211(3) of Directive 2009/138/EC;
- c) SPVs regulated by third country supervisors where these meet equivalent measures to the conditions set out in Article 211(2) of Directive 2009/138/EC;
- d) Other SPVs, not meeting the definitions above, where risks are transferred under arrangements with the economic substance of a reinsurance contract.

The template covers risk mitigation techniques (recognised or not) carried out by the (re)insurance undertaking whereby a SPV assumes risks from the reporting undertaking through a reinsurance contract; or assume insurance risks from the reporting undertaking transferred through a similar arrangement that is 'reinsurance like'.

**S.36.01 — IGT — Equity-type transactions, debt and asset transfer****General comments:**

This section relates to annual submission of information for individual entities.

The purpose of this template is to collect information according to Article 265 of Directive 2009/138/EC on all (significant, very significant and transactions required to be reported in all circumstances) IGTs related to equity, debt, reciprocal financing and asset transfers related transactions within a group according to Article 213 (2)(d) of Directive 2009/138/EC. These include, but are not limited to:

- equity and other capital items including participations in related entities and transfer shares of related entities of the group;
- debt including bonds, loans, collateralised debt, and other transactions of similar nature e.g. with periodic pre-determined interest or coupon or premium payments for a pre-determined period of time.
- other asset transfer such as transfer of properties and transfer of shares of other companies unrelated (i.e. outside) to the group.

The insurance undertaking is expected to complete this template for all significant, very significant and transactions required to be reported in all circumstances for IGTs between the individual undertaking and the mixed-activity insurance holding company and its related undertakings.

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- incepted during the reporting period and outstanding at the reporting date.
- incepted and expired/matured during the reporting period.

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be individually reported where collectively they are at or above the corresponding threshold values for significant or very significant IGTs.

**▼ B**

Each transaction shall be reported separately.

Any additions/top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan should be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5 m has been expensed) the template shall record the maximum amount as the transaction amount, in this case EUR 10 m.

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

|       | ITEM  | INSTRUCTIONS   |
|-------|---|--|
| C0010 | ID of intragroup transaction                | Unique internal identification code for each intragroup transaction. Should be consistent over time.   |
| C0020 | Investor/lender name                        | Name of the entity that is buying the equity or lending to a related undertaking within the group. I.e. the entity that recognises the transaction as an asset on their balance sheet (debit — balance sheet).   |
| C0030 | Identification code for investor/lender     | The unique identification code attached to the investor/buyer/transferee by this order of priority: <ul style="list-style-type: none"> <li>— Legal Entity Identifier (LEI);</li> <li>— Specific code</li> </ul> Specific code: <ul style="list-style-type: none"> <li>— For EEA insurance and reinsurance undertakings and other EEA regulated undertakings within the group: identification code used in the local market, attributed by the undertaking's competent supervisory authority;</li> <li>— For non-EEA undertakings and non-regulated undertakings within the group, identification code will be provided by the group. When allocating an identification code to each non-EEA or non-regulated undertaking, the group should comply with the following format in a consistent manner: <p style="margin-left: 20px;">identification code of the parent undertaking + ISO 3166-1 alpha-2 code of the country of the undertaking + 5 digits</p> </li> </ul> |

|       | ITEM   | INSTRUCTIONS   |
|-------|--|--|
|       |  | <p>— Any other payments made in relation to the IGTs that are reported in this template, e.g. charges on asset transfers.</p> <p>Amount of total tops-ups if applicable, i.e. total additional money invested during the reporting period such as a additional payments on partly paid shares or increasing loan amount during the period,</p> |
| C0180 | Balance of contractual amount of transaction at reporting date | Outstanding amount of the transaction at the reporting date if applicable e.g. for debt issue. If there has been a full early settlement/prepayment, the balance of contractual amount will be zero.   |
| C0190 | Coupon/Interest rate   | The interest or coupon rate as a percentage, if applicable. For variable interest rate, this shall include the reference rate and the interest rate above it.  |

**S.36.02 — IGT — Derivatives****General comments:**

This section relates to annual submission of information for individual entities.

This template shall report all IGTs between entities in scope of group supervision according to Article 213 (2)(d) of Directive 2009/138/EC.

The insurance undertaking is expected to complete this template for all significant, very significant and transactions required to be reported in all circumstances for IGTs between the individual undertaking and the mixed-activity insurance holding company and its related undertakings:

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- inception during the reporting period and outstanding at the reporting date.
- inception and expired/matured during the reporting period.

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be reported individually where collectively, they are at or above the corresponding threshold values for significant or very significant IGTs.

Each transaction shall be reported separately.

Any additions/top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan should be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5 m has been expensed) the template should record the maximum amount as the transaction amount, in this case EUR 10 m.

## ▼B

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

The following close list shall be used:</p> <ul style="list-style-type: none"> <li>1 — Derivatives — futures</li> <li>2 — Derivatives — forwards</li> <li>3 — Derivatives — options</li> <li>4 — Derivatives — others</li> <li>5 — Guarantees — credit protection</li> <li>6 — Guarantees — others</li> <li>7 — Swaps — credit default</li> <li>8 — Swaps — interest rate</li> <li>9 — Swaps — currency</li> <li>10 — Swaps — others</li> </ul> <p>A repurchase agreement should be considered as cash transaction plus forward contract.</p>  |

▼ **B**

|       | ITEM   | INSTRUCTIONS   |
|-------|--|--|
| C0110 | Transaction Trade date   | Identify the ISO 8601 (yyyy-mm-dd) code of the date of the transaction/trade of the derivative contract. For rolled contracts use the initial trade date.  |
| C0120 | Maturity date  | Identify the ISO 8601 (yyyy-mm-dd) code of the contractually defined date of close of the derivative contract, whether at maturity date, expiring date for options (European or American), etc.  |
| C0130 | Currency   | Where applicable, identify the ISO 4217 alphabetic code of the currency of the derivative, i.e. currency of the notional amount of the derivative (e.g.: option having as underlying an amount in USD). This item is not applicable for currency swap.   |
| C0140 | Notional amount at transaction date  | The amount covered or exposed to the derivative at the transaction date. For futures and options, corresponds to contract size multiplied by the number of contracts. For swaps and forwards, corresponds to the contract amount.  |
| C0150 | Notional amount at reporting date  | The amount covered or exposed to the derivative at the reporting date, i.e. the closing balance. For futures and options, corresponds to contract size multiplied by the number of contracts. For swaps and forwards, corresponds to the contract amount. Where a transaction has matured/expired during the reporting period before the reporting date, the notional amount at the reporting date will be zero.   |
| C0160 | Value of collateral  | Value of the collateral pledged on reporting date (zero if derivative has been closed) if applicable.  |
| C0170 | Options, futures, forwards and other derivatives — Use of derivatives (by buyer)             | Describe use of derivative (micro/macro hedge, efficient portfolio management). Micro hedge refers to derivatives covering a single financial instrument, forecasted transaction or liability. Macro hedge refers to derivatives covering a set of financial instruments, forecasted transactions or liabilities. The following closed list shall be used:<br>1 — Micro hedge<br>2 — Macro hedge<br>3 — Matching assets and liabilities cash-flows<br>4 — Efficient portfolio management, other than 'Matching assets and liabilities cash-flows'. |
| C0180 | Options, futures, forwards and other derivatives — Asset/liability underlying the derivative | ID Code of the asset or liability underlying the derivative contract. This item is to be provided for derivatives that have a single underlying instrument or index in the undertaking's portfolio.<br>An index is considered a single instrument and shall be reported.<br>Identification code of the instrument underlying the derivative using the following priority:<br>— ISO 6166 code of ISIN when available  |

**S.36.03 — IGT — Internal reinsurance****General comments:**

This section relates to annual submission of information for individual entities.

**▼ M1**

The purpose of this template is to collect information on all IGTs (significant, very significant and transactions required to be reported in all circumstances) related to internal reinsurance within a group identified according to Article 213(2)(d) of Directive 2009/138/EC. These include, but are not limited to:

**▼ B**

- reinsurance treaties between related undertakings;
- facultative reinsurance between related undertakings; and
- any other transaction that results in transferring underwriting risk (insurance risk) between related undertakings.

The insurance undertaking is expected to complete this template for all significant, very significant and transactions required to be reported in all circumstances for IGTs between the individual undertaking and the mixed-activity insurance holding company and its related undertakings.

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- inception during the reporting period and outstanding at the reporting date.
- inception and expired/matured during the reporting period.

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be individually reported where collectively they are at or above the corresponding threshold values for significant or very significant IGTs.

Each transaction shall be reported separately. Undertakings shall report as many rows as needed to properly identify the transaction, including if different types of reinsurance contracts/treaties are used.

Any additions/top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan shall be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5 m has been expensed) the template shall record the maximum amount as the transaction amount, in this case EUR 10 m.

**▼ B**

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

|       | ITEM                               | INSTRUCTIONS   |
|-------|------------------------------------|--|
| C0010 | ID of intragroup transaction       | Unique internal identification code for each intragroup transaction. Must be consistent over time.   |
| C0020 | Name of cedent                     | Legal name of the entity that has transferred the underwriting risk to another insurer or reinsurer within the group.  |
| C0030 | Identification code of cedent      | <p>The unique identification code attached to the investor/buyer/transferee by this order of priority:</p> <ul style="list-style-type: none"> <li>— Legal Entity Identifier (LEI);</li> <li>— Specific code</li> </ul> <p>Specific code:</p> <ul style="list-style-type: none"> <li>— For EEA insurance and reinsurance undertakings and other EEA regulated undertakings within the group: identification code used in the local market, attributed by the undertaking's competent supervisory authority;</li> <li>— For non-EEA undertakings and non-regulated undertakings within the group, identification code will be provided by the group. When allocating an identification code to each non-EEA or non-regulated undertaking, the group should comply with the following format in a consistent manner:<br/>           identification code of the parent undertaking + ISO 3166-1 alpha-2 code of the country of the undertaking + 5 digits</li> </ul> |

**S.36.04 — IGT — Cost Sharing, contingent liabilities, off balance sheet and other items****General comments:**

This section relates to annual submission of information for individual entities.

The purpose of this template is to collect information on all other IGTs (significant, very significant and transactions required to be reported in all circumstances) which have not been captured in 36.01 to 36.03 templates within the group according to Article 213 (2) (d) of Directive 2009/138/EC. These include, but not limited to:

- Internal cost sharing;
- Contingent liabilities (other than derivatives);
- Off balance sheet guarantees;

**▼ B**

- Any other transactions between related undertakings or natural persons in scope of the group supervision.

The insurance undertaking is expected to complete this template for all significant, very significant and transactions required to be reported in all circumstances for IGTs between the individual undertaking and the mixed-activity insurance holding company and its related undertakings.

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- inception during the reporting period and outstanding at the reporting date.
- inception and expired/matured during the reporting period.

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be individually reported where collectively they are at or above the corresponding threshold values for significant or very significant IGTs.

Each transaction shall be reported separately.

Any additions/top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan should be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5 m has been expensed) the template should record the maximum amount as the transaction amount, in this case EUR 10 m.

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

|       | ITEM  | INSTRUCTIONS  |
|-------|---|---|
| C0010 | ID of intragroup transaction                          | Unique internal identification code for each intragroup transaction. Must be consistent over time.  |
| C0020 | Investor/Buyer/Beneficiary name                       | Legal name of the entity that is purchasing/investing in the asset/investment or receiving the service/guarantee.   |
| C0030 | Identification code of the Investor/Buyer/Beneficiary | The unique identification code attached to the investor/buyer/transferee by this order of priority: <ul style="list-style-type: none"> <li>— Legal Entity Identifier (LEI);</li> <li>— Specific code</li> </ul> Specific code: <ul style="list-style-type: none"> <li>— For EEA insurance and reinsurance undertakings and other EEA regulated undertakings within the group: identification code used in the local market, attributed by the undertaking's competent supervisory authority;</li> </ul> |

## ▼ B

|       | ITEM  | INSTRUCTIONS   |
|-------|---|--|
|       |   | <p>— For non-EEA undertakings and non-regulated undertakings within the group, identification code will be provided by the group. When allocating an identification code to each non-EEA or non-regulated undertaking, the group should comply with the following format in a consistent manner:</p> <p>identification code of the parent undertaking + ISO 3166-1 alpha-2 code of the country of the undertaking + 5 digits</p>   |
| C0040 | ID code type of code of the Investor/Buyer/Beneficiary      | <p>Identification of the code used in item 'Identification code for the Investor/Buyer/Beneficiary':</p> <p>1 — LEI</p> <p>2 — Specific code</p>   |
| C0050 | Issuer/Seller/Provider name                                 | Legal name of the entity that is selling/transferring the asset/investment or providing the service/guarantee.   |
| C0060 | Identification code of the Issuer/Seller/Provider           | <p>The unique identification code attached to the investor/buyer/transferee by this order of priority:</p> <p>— Legal Entity Identifier (LEI);</p> <p>— Specific code</p> <p>Specific code:</p> <p>— For EEA insurance and reinsurance undertakings and other EEA regulated undertakings within the group: identification code used in the local market, attributed by the undertaking's competent supervisory authority;</p> <p>— For non-EEA undertakings and non-regulated undertakings within the group, identification code will be provided by the group. When allocating an identification code to each non-EEA or non-regulated undertaking, the group should comply with the following format in a consistent manner:</p> <p>identification code of the parent undertaking + ISO 3166-1 alpha-2 code of the country of the undertaking + 5 digits</p> |
| C0070 | ID code type of code of the Issuer/Seller/Provider          | <p>Identification of the code used in item 'Identification code for the Issuer/Seller/Provider':</p> <p>1 — LEI</p> <p>2 — Specific code</p>   |
| C0080 | Transaction type  | <p>Identify the type of transaction. The following close list shall be used:</p> <p>1 — Contingent liabilities</p> <p>2 — Off balance sheet items</p> <p>3 — Internal cost sharing</p> <p>4 — Others</p>   |
| C0090 | Transaction Issue date                                      | Identify the ISO 8601 (yyyy-mm-dd) code of the date when the transaction/issue takes effect.   |
| C0100 | Effective date of agreement/contract underlying transaction | Where applicable, Identify the ISO 8601 (yyyy-mm-dd) code of the date when the transaction or contract underlying the transactions takes effect if different from the transaction date. If same as the transaction date, the transaction date is to be reported.   |

▼ **B**

|       | ITEM   | INSTRUCTIONS  |
|-------|--|---|
| C0110 | Expiry date of agreement/contract underlying transaction                                   | Where applicable, identify the ISO 8601 (yyyy-mm-dd) code of the date when the agreement/contract ceases. If the expiry date is perpetual use '9999-12-31'.   |
| C0120 | Currency of transaction  | Identify the ISO 4217 alphabetic code of the currency in which the transaction took place.  |
| C0130 | Trigger event  | Where applicable, brief description of event that would trigger the transaction/payment/liability/none e.g. event that would result in a contingent liability occurring.  |
| C0140 | Value of transaction/collateral/Guarantee  | Value of the transaction, collateral pledged or contingent liability recognised on the Solvency II balance sheet.<br><br>All items shall be reported on Solvency II value. However where Solvency II value is not available (e.g. non-EEA operations under method 2 in equivalent regimes or banks and credit institutions) then the local or sectoral valuation rules should be used.                    |
| C0150 | Maximum possible value of contingent liabilities   | Maximum possible value, if possible, regardless of their probability (i.e. future cash flows required to settle the contingent liability over the lifetime of that contingent liability, discounted at the relevant risk-free interest rate term structure) of contingent liabilities included in Solvency II Balance Sheet.  |
| C0160 | Maximum possible value of contingent liabilities not included in Solvency II Balance Sheet | Enter the maximum amount of the contingent liability, for those not included in the Solvency II Balance Sheet, that could be due from the Provider.   |
| C0170 | Maximum value of letters of credit/guarantees  | Sum of all possible cash flows if events triggering guarantees were all to happen in relation to guarantees provided by the 'provider' (cell C0050) to the 'beneficiary' (Cell C0020) to guarantee the payment of the liabilities due by the undertaking (includes letter of credit, undrawn committed borrowing facilities). This item shall not include amounts already reported under C0150 and C0160. |
| C0180 | Value of guaranteed assets   | Value of the guaranteed asset for which the guarantees are received.<br><br>Other local/sectoral valuation principles than Solvency II ones may be relevant in this case.   |

## ANNEX III

**Instructions regarding reporting templates for groups**

This Annex contains additional instructions in relation to the templates included in Annex I of this Regulation. The first column of the tables identifies the items to be reported by identifying the columns and rows as showed in the template in Annex I.

Templates which shall be filled in in accordance with the instructions of the different sections of this Annex are referred to as 'this template' throughout the text of the Annex.

**S.01.01 — Content of the submission****General comments:**

This section relates to opening, quarterly and annual submission of information for groups, ring fenced funds, matching portfolios and remaining part at group level.

When a special justification is needed the explanation is not to be submitted within the reporting template but shall be part of the dialogue with the national competent authorities.

|             | ITEM  | INSTRUCTIONS   |
|-------------|---|--|
| Z0010       | Ring-fenced fund/<br>matching portfolio/<br>remaining part                    | Identifies whether the reported figures are with regard to a ring-fenced fund ('RFF'), matching adjustment portfolio ('MAP') or to the remaining part. **S.01.03 — Basic information — RFF and matching adjustment portfolios****General comments:**

This section relates to opening and annual submission of information for groups.

All ring-fenced funds and matching portfolios should be identified regardless if they are material for the purposes of submission of information.

In the first table all ring-fenced funds and matching adjustments portfolios shall be reported. In case a ring-fenced fund has a matching portfolio not covering the full RFF three funds have to be identified, one for the RFF, other for the MAP inside the RFF and other for the remaining part of the fund (vice-versa for the situations where a MAP has a RFF).

In the second table the relations between the funds as explained in previous paragraph are explained. Only the funds with such relations shall be reported in the second table.

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Solvency II Directive is used, either exclusively or in combination with method 2 as defined in Article 233 of Solvency II Directive;
- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Solvency II Directive, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Solvency II Directive is being used exclusively.

**S.02.01 — Balance sheet****General comments:**

This section relates to opening, quarterly and annual submission of information for groups, ring fenced-funds and remaining part.

This template is relevant when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method). Holdings in related undertakings that are not consolidated row by row in accordance with Article 335, paragraph 1, (a), (b) or (c) of the Delegated Regulation (EU) 2015/35, including the holdings in related undertakings included with method 2 when combination of methods is used, shall be included in the item ‘Holdings in related undertakings, including participations’.

Template SR.02.01 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

The ‘Solvency II value’ column (C0010) shall be completed using the valuation principles set out in the Directive2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency 2 Technical Standards and Guidelines.

**▼ B**

With regards to the ‘Statutory accounts value’ column (C0020), recognition and valuation methods are the ones used by groups in their statutory accounts in accordance with the local GAAP or IFRS if accepted as local GAAP. This column is by default mandatory. In the specific cases where the group does not produce official financial statements according to local GAAP or IFRS the specific situation should be discussed with the group supervisor. In template SR.02.01 this column is only applicable if the development of financial statements by RFF is required by national law.

The default instruction is that each item shall be reported in the ‘Statutory accounts value’ column, separately.

However, in the ‘Statutory accounts value’ column the dotted rows were introduced in order to enable the reporting of aggregated figures if the split figures are not available.

**S.02.02 — Assets and liabilities by currency****General comment:**

This section relates to annual submission of information for groups.

This template is to be filled in accordance to the Balance sheet (S.02.01). Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

This template is not required to be submitted if one single currency represents more than 90 % of assets and also of liabilities.

If submitted, information on the reporting currency shall always be reported regardless of the amount of assets and liabilities. Information reported by currency shall at least represent 90 % of the total assets and of the total liabilities. The remaining 10 % shall be aggregated. If a specific currency has to be reported for either assets or liabilities to comply with the 90 % rule then that currency shall be reported for both assets and liabilities.

**S.03.01 — Off-balance sheet items — General****General comments:**

This section relates to annual submission of information for groups.

This template shall include the information referring to off-balance sheet items and the maximum and solvency II value of contingent liabilities in Solvency II balance sheet also. As regards the Solvency II value, the instructions define the items from a recognition perspective. Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

**▼ B**

Guarantees require the issuer to make specified payments to reimburse the holder for a loss it incurs if a specified debtor fails to make payment when due under the original or modified terms of a debt instrument. These guarantees can have various legal forms, such as financial guarantees, letters of credit, credit default contracts. These items shall not include guarantees stemming from insurance contracts, which are recognised in technical provisions.

A contingent liability is defined as:

- a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- c) a present obligation that arises from past events even if:
  - iii. it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
  - iv. the amount of the obligation cannot be measured with sufficient reliability.

Collateral is an asset with a monetary value or a commitment that secures the lender against the defaults of the borrower.

The guarantees listed in this template are not reported in S.03.02 and S.03.03. This means that only limited guarantees are to be reported in this template.

At group level, the template is applicable for all entities within the scope of group supervision — including other financial sectors and non-controlled participations — for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

For non-controlled participations guarantees provided and guarantees received are included on a proportional basis when method 1 is applied. When method 2 is applied these guarantees are reported with the total amount.

**S.03.02 — Off-balance-sheet items — list of unlimited guarantees received by the group****General comments:**

This section relates to annual submission of information for groups.

**▼ B**

As regards the Solvency II value, the instructions define the items from a recognition perspective. Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

Unlimited guarantees refer to guarantees with unlimited amount, regardless of the date being limited or unlimited.

The guarantees listed in this template are not reported in S.03.01.

**S.03.03 — Off-balance-sheet items — List of unlimited guarantees provided by the group****General comments:**

This section relates to annual submission of information for groups.

As regards the Solvency II value, the instructions define the items from a recognition perspective. Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

Unlimited guarantees refer to guarantees with unlimited amount, regardless of the date being limited or unlimited.

The guarantees listed in this template are not reported in S.03.01. At group level, the template is applicable for all entities within the scope of group supervision — including other financial sectors and non-controlled participations — for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Internal guarantees within the scope of group supervision are not reported in this template but reported in the relevant Intra-group transactions (S.36) template.

**S.05.01 — Premiums, claims and expenses by line of business****General comments:**

This section relates to quarterly and annual submission of information for groups.

This template shall be reported from a consolidated accounting perspective, i.e.: Local GAAP or IFRS if accepted as local GAAP but using Solvency II lines of business. Groups shall use the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required ► **M2**, except for the classification between investment contracts and insurance contracts when this is applicable in the financial statements. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements. ◀

The template is based on a year-to-date basis.

This template covers only insurance and reinsurance business within the scope of the consolidated financial statements.

For quarterly reporting administrative expenses, investment management expenses, acquisition expenses, overhead expenses shall be presented aggregated.

**S.05.02 — Premiums, claims and expenses by country****General comments:**

This section relates to annual submission of information for groups. ► **M2** The template is not due when the thresholds for reporting by country described below are not applicable, i.e. the home country represents 90 % or more of the total gross written premiums. ◀

This template shall be reported from an accounting perspective, i.e.: Local GAAP or IFRS (if accepted as local GAAP. Groups shall use the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required ► **M2** , except for the classification between investment contracts and insurance contracts when this is applicable in the financial statements. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements. ◀

**▼ M2****▼ B**

This template covers only insurance and reinsurance business within the scope of the consolidated accounting perspective.

**▼B**

The following criteria for the classification by country shall be used:

- The information, provided by country, shall be completed for the five countries with the biggest amount of gross written premiums in addition to the home country or until reaching 90 % of the total gross written premiums;
- For the direct insurance business for the lines of business ‘Medical expense’, ‘Income protection’, ‘Workers’ compensation’, ‘Fire and other damage to property’ and ‘Credit and suretyship’ information shall be reported by country where the risk is situated as defined in Article 13 (13) of Directive 2009/138/EC;
- For direct insurance business for all other lines of business, information shall be reported by country where the contract was entered into;
- For proportional and non-proportional reinsurance information shall be reported by country of localisation of the ceding undertaking.

For the purposes of this template ‘country where the contract was entered into’ means:

- s) The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- t) The country where the branch is located (host country) when the contract was sold through a branch;
- u) The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- v) If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

**S.06.01 — Summary of assets****General comments:**

This section relates to annual submission of information for groups. This template is relevant at the level of the group where all insurance or reinsurance undertakings within the scope of group supervision benefit from the exemption in accordance with Article 35 (7) of Directive 2009/138/EC.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation.

This template contains a summary of information on assets and derivatives regarding the participating insurance or reinsurance undertaking, the insurance holding company or the mixed financial holding company (at a group level), including assets and derivatives held in unit linked and index linked contracts.

Items shall be reported with positive values unless its Solvency II value is negative (e.g. the case of derivatives that are a liability of the undertaking).

**▼ B**

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the assets and derivatives net of intra-group transactions held within the scope of group supervision.

Where method 2 is used exclusively, the reporting shall include the assets and derivatives held by the participating insurance and reinsurance undertakings, the insurance holding companies, mixed-financial holding companies, subsidiaries and non-controlled participations regardless of the proportional share used. The assets held by undertakings from the other financial sectors shall not be included.

Where a combination of methods 1 and 2 is used, the reporting shall reflect the consolidated position of the assets and derivatives, net of intra-group transactions, held within the scope of group supervision and the assets and derivatives held by the participating insurance or reinsurance undertakings, the insurance holding companies, the mixed financial holding companies, subsidiaries and non-controlled participations regardless of the proportional share used.

**S.06.02 — List of assets****General comments:**

This section relates to quarterly and annual submission of information for groups.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to Complementary Identification Code ('CIC') refer to Annex VI — CIC table of this Regulation.

This template shall reflect the list of all assets included in the Balance-sheet classifiable as asset categories 0 to 9 of Annex IV — Assets Categories of this Regulation. In particular in case of securities lending and repurchase agreements the underlying securities that are kept in the Balance-sheet shall be reported in this template.

**▼ B**

This template contains an item-by-item list of assets held directly by the group (i.e. not on a look-through basis), classifiable as asset categories 0 to 9 (in case of unit-linked and index-linked product managed by the (re)insurance undertaking, the assets to be reported are also only the ones covered by asset categories 0 to 9, e.g. recoverables and liabilities related to this products shall not be reported), with the following exceptions:

- f) Cash shall be reported in one row per currency, for each combination of items C0060, C0070, C0080, and C0090;
- g) Transferable deposits (cash equivalents) and other deposits with maturity of less than one year shall be reported in one row per pair of bank and currency, for each combination of items C0060, C0070, C0080, C0090 and C0290;
- h) Mortgages and loans to individuals, including loans on policies, shall be reported in two rows, one row regarding loans to administrative, management and supervisory body, for each combination of items C0060, C0070, C0080, C0090 and C0290 and another regarding loans to other natural persons, for each combination of items C0060, C0070, C0080, C0090 and C0290;
- i) Deposits to cedants shall be reported in one single line, for each combination of items C0060, C0070, C0080 and C0090;
- j) Plant and equipment for the own use of the undertaking shall be reported in one single line, for each combination of items C0060, C0070, C0080 and C0090.

This template comprises two tables: Information on positions held and Information on assets.

**▼ M1**

On the table Information on positions held, each asset shall be reported separately in as many lines as needed in order to properly fill in all non-monetary variables with the exception of item 'Quantity', requested in that table. If for the same asset two values can be attributed to one variable, then this asset needs to be reported in more than one line.

**▼ B**

On the table Information on assets, each asset shall be reported separately, with one row for each asset, filling in all applicable variables requested in that table.

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the assets net of intra-group transactions held. The reporting shall be made as follows:

- Item 'Legal name of the undertaking — C0010' and 'Identification code of the undertaking — C0020' shall not be reported;
- The assets held by the participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;

**▼ B**

- The assets held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- Participations in undertakings consolidated in accordance with Article 335, paragraph 1, (d), (e) and (f) of Delegated Regulation (EU) 2015/35 shall be reported in one row and identify it by using the available options in cell C0310.

Where method 2 is used exclusively, the reporting shall include the detailed list of the assets held by the participating undertakings, the insurance holding companies and subsidiaries and one row for each non-controlled participation. The assets reported shall not take into account the proportional share used for group solvency calculation. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The assets held by the participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The assets held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- Participations in insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are not subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported in one row for each participation;
- The assets held by undertakings from the other financial sectors shall not be included.

Where a combination of methods 1 and 2 is used, one part of the reporting reflects the consolidated position of the assets, net of intra-group transactions, which must be reported and the other part of the reporting shall include the detailed list of the assets held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries and one row for each non-controlled participation, net of intra-group transactions and regardless of the proportional share used.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The assets held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The assets held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;

**▼B**

- Participations in undertakings consolidated in accordance with Article 335, paragraph 1, (d), (e) and (f) of Delegated Regulation (EU) 2015/35 shall be reported in one row and identify it by using the available options in cell C0310;
- Participations in undertakings under method 2 shall be reported one row for each subsidiary and non-controlled participation held and identify it by using the available options in cell C0310.

The second part of the reporting shall include the detailed list of the assets held by the participating undertakings, the insurance holding companies and subsidiaries and one row for each non-controlled participation, regardless of the proportional share used. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The assets held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies under method 2 shall be reported item by item;
- The assets held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries under method 2 (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- Participations in insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are not subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported in one row for each participation;
- The assets held by the undertakings from the other financial sectors shall not be included.

The information regarding the external rating (C0320) and nominated External Credit Assessment Institutions (‘ECAI’) (C0330) may be limited (not reported) in the following circumstances:

- e) through a decision of the national supervisory authority (‘NSA’) under Article 254(2) of the Directive 2009/138/EC; or
- f) through a decision of the national supervisory authority in the cases where the insurance and reinsurance undertakings have in place outsourcing arrangements in the area of investments that lead to this specific information not being available directly to the undertaking.

**S.06.03 — Collective investment undertakings — look-through approach****General comments:**

This section relates to quarterly and annual submission of information for groups.

This template contains information on the look through of collective investment undertakings, or investments packaged as funds and similar undertakings, including when they are participations by underlying asset category, country of issue and currency. ► **M2** Considering proportionality and specific instructions of the template, the look through shall be performed until the asset categories, countries and currencies are identified. In case of funds of funds the look-through shall follow the same approach. ◀

**▼ M2**

For the identification of countries the look-through shall be implemented in order to identify the country exposition of 90 % of the value of the funds. Groups shall have a reasonable confidence that the 10 % not identified by country is diversified across geographical areas, for example that not more than 5 % is in one single country. The look-through shall be applicable considering the amount invested, starting from the major to the lowest single fund and the approach shall be kept consistent over time.

**▼ B**

Quarterly information shall only be reported when the ratio of collective investments undertakings held by the group to total investments, measured as the ratio between item C0010/R0180 of template S.02.01 plus collective investments undertakings included in item C0010/R0220 of template S.02.01 plus collective investments undertakings included in item C0010/R0090 and the sum of item C0010/R0070 and C0010/RC0220 of template S.02.01, is

**▼ B**

higher than 30 % when method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively. When method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC or method 2 is used exclusively the ratio needs to be adjusted in order to capture the items of all entities included in the scope of template S.06.02.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

This template shall include the look-through of all collective investment undertakings, or investments packaged as funds and similar undertakings, including when they are participations by underlying asset category, reported item-by-item in S.06.02. If one collective investment undertaking, or investment packaged as fund and similar undertaking is held by many undertakings, in this template it shall be reported only once.

**▼B****S.07.01 — Structured products****General comments:**

This section relates to annual submission of information for groups.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

Structured products are defined as assets falling into the asset categories 5 (Structured notes) and 6 (Collateralised securities).

This template shall only be reported when the amount of structured products, measured as the ratio between assets classified as asset categories 5 (Structured notes) and 6 (Collateralised securities) as defined in Annex IV — Asset Categories of this Regulation and the sum of item C0010/R0070 and C0010/R0220 of template S.02.01, is higher than 5 % when method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively. When method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC or method 2 is used exclusively the ratio needs to be adjusted in order to capture the items of all entities included in the scope of template S.06.02.

In some cases the types of structured products (C0070) identify the derivative embedded in the structured product. In this case this classification shall be used when the structured product has the referred derivative embedded.

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the structured notes and collateralised securities net of intra-group transactions held within the scope of group supervision in its portfolio. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The structured products held directly by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The structured products held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The structured products held by other related undertakings shall not be included.

**▼B**

Where method 2 is used exclusively, the reporting shall include the detailed list of the structured notes and collateralised securities held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, and regardless of the proportional share used. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The structured products held directly by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item
- The structured products held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- The structured products held by other related undertakings shall not be included.

Where a combination of methods 1 and 2 is used, one part of the reporting reflects the consolidated position of the structured notes and collateralised securities, net of intra-group transactions, held within the scope of group supervision which must be reported and the other part of the reporting shall include the detailed list of the structured notes and collateralised securities held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The structured products held directly by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The structured products held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The structured products held by other related undertakings shall not be included

The second part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The structured products held directly by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies under method 2 shall be reported item by item;

**▼B**

- The structured products held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries under method 2 (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- The structured products held by other related undertakings under method 2 shall not be included.

|       | ITEM                                      | INSTRUCTIONS  |
|-------|---|---|
| C0010 | Legal name of the undertaking             | <p>Identify the legal name of the undertaking within the scope of group supervision that holds the structured product.</p> <p>This item shall be filled in only when it relates to structured products held by participating undertakings, insurance holding companies or mixed-financial holding companies and subsidiaries under deduction and aggregation method.</p>  |
| C0020 | Identification code of the undertaking    | <p>Identification code by this order of priority if existent:</p> <ul style="list-style-type: none"> <li>— Legal Entity Identifier (LEI);</li> <li>— Specific code</li> </ul> <p>Specific code:</p> <ul style="list-style-type: none"> <li>— For EEA insurance and reinsurance undertakings and other EEA regulated undertakings within the scope of group supervision: identification code used in the local market, attributed by the undertaking's competent supervisory authority;</li> <li>— For non-EEA undertakings and non-regulated undertakings within the scope of group supervision, identification code will be provided by the group. When allocating an identification code to each non-EEA or non-regulated undertaking, the group should comply with the following format in a consistent manner:<br/><br/>identification code of the parent undertaking + ISO 3166-1 alpha-2 code of the country of the undertaking + 5 digits</li> </ul> |

|                | ITEM                          | INSTRUCTIONS  |
|----------------|-------------------------------|---|
|                |                               | <p>4 — Commodities (a selected, basic good or group of goods)</p> <p>5 — Index (performance of a selected index)</p> <p>6 — Multi (allowing for a combination of the possible types listed above)</p> <p>9 — Others not covered by the previous options (e.g. other economic indicators)</p>  |
| C0100          | Callable or Puttable          | <p>Identify whether the product has call and/or put features, or both, if applicable. One of the options in the following closed list shall be used:</p> <p>1 — Call by the buyer</p> <p>2 — Call by the seller</p> <p>3 — Put by the buyer</p> <p>4 — Put by the seller</p> <p>5 — Any combination of the previous options</p>   |
| C0110<br>(A15) | Synthetic structured product  | <p>Identify if it is a structured products without any transfer of assets (e.g. products that will not give rise to any delivery of assets, except cash, if an adverse / favourable event occurs). One of the options in the following closed list shall be used:</p> <p>1 — Structured product without any transfer of asset</p> <p>2 — Structured product with transfer of asset</p>  |
| C0120          | Prepayment structured product | <p>Identify if it is a structured products which have the possibility of prepayment, considered as an early unscheduled return of principal. One of the options in the following closed list shall be used:</p> <p>1 — Prepayment structured product</p> <p>2 — Not a prepayment structured product</p>   |
| C0130          | Collateral value              | <p>Total amount of collateral attached to the structured product despite the nature of the collateral.</p> <p>In case of collateralisation on a portfolio basis, only the value referred to the single contract must be reported and not the total.</p>   |
| C0140          | Collateral portfolio          | <p>This item informs if the collateral to the structured product covers only one structured product or more than one structured product that is held by the undertaking. Net positions refer to the positions held on structured products. One of the options in the following closed list shall be used:</p> <p>1 — Collateral calculated on the basis of net positions resulting from a set of contracts</p> <p>2 — Collateral calculated on the basis of a single contract</p> <p>10 — No collateral</p> |
| C0150          | Fixed annual return           | <p>Identify the coupon (reported as a decimal), if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities).</p>   |

**▼ B**

|       | ITEM                   | INSTRUCTIONS   |
|-------|------------------------|--|
| C0160 | Variable annual return | Identify variable rate of return if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities). It is most commonly identified as a benchmark market rate plus a spread, or as dependent on the performance of a portfolio or index (underlying dependent) or more complex returns set by the path of the underlying asset's price (path dependent), among others. ► <b>M2</b> When needed this item may be reported as a string to reflect how the return is calculated. ◀ |
| C0170 | Loss given default     | The percentage (reported as a decimal, ► <b>M2</b> ◀) of the invested amount that will not be recovered following default, if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities).<br><br>If information is not defined in the contract this item shall not be reported. This item is not applicable for non-credit structured product.  |
| C0180 | Attachment point       | The contractually defined loss percentage (reported as a decimal) above which the losses affect the structured product, if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities). This item is not applicable for non-credit structured product.   |
| C0190 | Detachment point       | The contractually defined loss percentage (reported as a decimal) above which the losses cease to affect the structured product, if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities). This item is not applicable for non-credit structured product.  |

**S.08.01 — Open derivatives****General comments:**

This section relates to quarterly and annual submission of information for groups.

The derivatives categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation. This template contains an item-by-item list of derivatives held directly by the group (i.e. not on a look-through basis), classifiable as asset categories A to F.

**▼ M1**

Derivatives are considered assets if their Solvency II value is positive or zero. They are considered liabilities if their Solvency II value is negative. Both derivatives considered as assets or considered as liabilities shall be included.

**▼ B**

Information shall include all derivatives contracts that existed during the reporting period and were not closed prior to the reporting reference date.

If there are frequent trades on the same derivative, resulting in multiple open positions, the derivative can be reported on an aggregated or net basis, as long as all the relevant characteristics are common and following the specific instruction for each relevant item.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

**▼B**

A derivative is a financial instrument or other contract with all three of the following characteristics:

- g) Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the ‘underlying’).
- h) It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- i) It is settled at a future date.

This template comprises two tables: Information on positions held and Information on derivatives.

On the table Information on positions held, each derivative shall be reported separately in as many rows as needed in order to properly fill in all items requested in that table. If for the same derivative two values can be attributed to one variable, then this derivative needs to be reported in more than one line.

In particular, for derivatives that have more than a pair of currencies, it shall be split into the pair components and reported in different rows.

On the table Information on derivative, each derivative shall be reported separately, with one row for each derivative, filling in all variables requested in that table.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the derivatives net of intra-group transactions held within the scope of group supervision. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The derivatives held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The derivatives held by other related undertakings shall not be included

Where method 2 is used exclusively, the reporting shall include the detailed list of the derivatives held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;

**▼B**

- The derivatives held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- The derivatives held by other related undertakings shall not be included.

Where a combination of methods 1 and 2 is used, one part of the reporting shall reflect the consolidated position of the derivatives, net of intra-group transactions held within the scope of group supervision which must be reported and the other part of the reporting shall include the detailed list of the derivatives held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The derivatives held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The derivatives held by other related undertakings shall not be included.

The second part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies under method 2 shall be reported item by item;
- The derivatives held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries under method 2 (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- The derivatives held by other related undertakings under method 2 shall not be included.

The information regarding the External rating (C0290) and Nominated ECAI (C0300) may be limited (not reported) in the following circumstances:

- g) through a decision of the national supervisory authority under Article 254(2) of the Directive 2009/138/EC; or
- h) through a decision of the national supervisory authority in the cases where the insurance and reinsurance undertakings have in place outsourcing arrangements in the area of investments that lead to this specific information not being available directly to the undertaking.

| C0400 | Unwind trigger of contract | <p>Identify the event that causes the unwinding of the contract, out of the regular expiration or term conditions. One of the options in the following closed list shall be used:</p> <p>1 — Bankruptcy of the underlying or reference entity</p> <p>2 — Adverse fall in value of the underlying reference asset</p> <p>3 — Adverse change in credit rating of the underlying assets or entity</p> <p>4 — Novation, i.e. the act of replacing an obligation under the derivative with a new obligation, or replacing a party of the derivative with a new party</p> <p>5 — Multiple events or a combination of events</p> <p>6 — Other events not covered by the previous options</p> <p>9 — No unwind trigger</p> |
| C0410 | Swap delivered currency    | Identify the ISO 4217 alphabetic code of the currency of the swap price (only for currency swaps and currency and interest rate swaps).  |
| C0420 | Swap received currency     | Identify the ISO 4217 alphabetic code of the currency of the swap notional amount (only for currency swaps and currency and interest rate swaps).  |
| C0430 | Maturity date              | Identify the contractually defined ISO 8601 (yyyy-mm-dd) code of the date of close of the derivative contract, whether at maturity date, expiring date for options (European or American), etc.  |

**S.08.02 — Derivatives Transactions****General comments:**

This section relates to quarterly and annual submission of information for groups.

The derivatives categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

This template contains an item-by-item list of closed derivatives held directly by the group (i.e. not on a look-through basis), classifiable as asset categories A to F. When a contract is still open but has been reduced in size the closed portion shall be reported.

**▼ B**

Derivatives are considered assets if their Solvency II value is positive or zero. ► **M2** They are considered liabilities if their Solvency II value is negative. ◀ Both derivatives considered as assets or considered as liabilities shall be included.

Closed derivatives are the ones that were open at some point of the reference period (i.e. last quarter if template is submitted quarterly or last year if template is only submitted annually) but were closed before the end of the reporting period.

If there are frequent trades on the same derivative, the derivative can be reported on an aggregated or net basis (indicating only the first and the last trade dates), as long as all the relevant characteristics are common, and following the specific instruction for each relevant item.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

A derivative is a financial instrument or other contract with all three of the following characteristics:

- j) Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the 'underlying').
- k) It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- l) It is settled at a future date.

This template comprises two tables: Information on positions held and Information on derivatives.

On the table Information on positions held, each derivative shall be reported separately in as many rows as needed in order to properly fill in all items requested in that table. If for the same derivative two values can be attributed to one variable, then this derivative needs to be reported in more than one line.

In particular, for derivatives that have more than a pair of currencies, it shall be split into the pair components and reported in different rows.

On the table Information on derivative, each derivative shall be reported separately, with one row for each derivative, filling in all variables requested in that table.

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the closed derivatives net of intra-group transactions held within the scope of group supervision. The reporting shall be made as follows:

— Item 'Legal name of the undertaking — C0010' and 'Identification code of the undertaking — C0020' shall not be reported;

**▼B**

- The closed derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The closed derivatives held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The closed derivatives held by other related undertakings shall not be included.

Where method 2 is used exclusively, the reporting shall include the detailed list of the closed derivatives held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The closed derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The closed derivatives held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- The closed derivatives held by other related undertakings shall not be included.

Where a combination of methods 1 and 2 is used, one part of the reporting shall reflect the consolidated position of the closed derivatives, net of intra-group transactions held within the scope of group supervision which must be reported and the other part of the reporting shall include the closed detailed list of the derivatives held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The closed derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The closed derivatives held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;

**▼B**

- The closed derivatives held by other related undertakings shall not be included.

The second part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The closed derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies under method 2 shall be reported item by item of the closed derivatives held;
- The closed derivatives held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries under method 2 (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item of the closed derivatives held by undertaking;
- The closed derivatives held by other related undertakings under method 2 shall not be included.

**S.09.01 — Information on gains / income and losses in the period****General comments:**

This section relates to annual submission of information for groups.

This template contains information on gains / income and losses by asset category (including derivatives). i.e., no item-by-item reporting is required. The asset categories considered in this template are the ones defined in Annex IV — Assets Categories.

**▼ B**

At group level, the template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the portfolios (i.e. net of IGT) within the scope of group supervision. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- Gains/ income and losses of portfolios held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported portfolio by portfolio, each by asset category;
- Gains / income and losses of portfolios held undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported portfolio by portfolio, each by asset category;
- Gains / income and losses of portfolios held by other related undertakings shall not be included;

Where method 2 is used exclusively, the reporting shall include the detailed list of the portfolios held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies and its subsidiaries and their profitability by asset category. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- Gains / income and losses of portfolios held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported portfolio by portfolio, each by asset category;
- Gains / income and losses of portfolios held by subsidiaries (EEA, equivalent non-EEA, non-equivalent non-EEA) shall be reported portfolio by portfolio, each by asset category;
- Gains / income and losses of portfolios held by other related undertakings shall not be included;

Where a combination of methods 1 and 2 is used, one part of the reporting shall reflect the consolidated position of the portfolios (i.e. net of IGT) within the scope of group supervision which must be reported and the other part of the reporting shall include the detailed list of the portfolios held by subsidiaries and their profitability by asset category.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- Gains/ income and losses of portfolios held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported portfolio by portfolio, each by asset category;

**▼B**

- Gains / income and losses of portfolios held undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported portfolio by portfolio, each by asset category;
- Gains / income and losses of portfolios held by other related undertakings shall not be included;

The second part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- Gains / income and losses of portfolios held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported portfolio by portfolio, each by asset category;
- Gains / income and losses of portfolios held by subsidiaries (EEA, equivalent non-EEA, non-equivalent non-EEA) shall be reported portfolio by portfolio, each by asset category;
- Gains / income and losses of portfolios held by other related undertakings shall not be included.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

|       | ITEM                                   | INSTRUCTIONS  |
|-------|--|---|
| C0010 | Legal name of the undertaking          | <p>Identify the legal name of the undertaking within the scope of group supervision for which the return on investment relates to.</p> <p>This item shall be filled in only when it relates to the return on investment by asset category for assets held by subsidiaries consolidated under deduction and aggregation method.</p> <p>The cell shall be filled in only when it relates to the list portfolio by portfolio of assets, each reported by asset category, held by subsidiaries under method 2.</p> <p>When the cell is filled in, the portfolios held by subsidiaries under method 2 cannot be reconciled with template S.06.02.</p> <p>When the cell is blank, the portfolios held by the group can be reconciled with template S.06.02.</p>   |

**S.10.01 — Securities lending and repos****General comments:**

This section relates to annual submission of information for groups.

This template contains an item-by-item list of securities lending transactions and repurchase agreements (buyer and seller) contracts, which include also the liquidity swaps referred to in Article 309 (2)(f) of the Delegated Regulation (EU) 2015/35.

It shall be reported only when the value of the underlying securities on and off balance sheet involved in lending or repurchase agreements, with maturity date falling after the reporting reference date represent more than 5 % of the total investments as reported in C0010/R0070 and C0010/R0220 of template S.02.01. when method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively. When method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC or method 2 is used exclusively the ratio needs to be adjusted in order to capture the items of all entities included in the scope of template S.06.02.

All contracts that are on the balance sheet or off balance sheet shall be reported. The information shall include all contracts in the reporting period regardless of whether they were open or closed at the reporting date. For contracts which are part of a roll-over strategy, where they substantially are the same transaction, only open positions shall be reported.

A repurchase agreement (repo) is defined as the sale of securities together with an agreement for the seller to buy back the securities at a later date. Securities lending is defined as the lending of securities by one party to another, which requires that the borrower provides the lender with collateral.

**▼ B**

Items shall be reported with positive values unless otherwise stated in the respective instructions.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

Each repo and securities lending contract shall be reported in as many rows as needed to provide the information requested. If for one item one option fits one part of the instrument being reported and a different option fits the other part then the contract needs to be unbundled unless is stated otherwise in the instructions.

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the repos and securities lending contracts net of intra-group transactions held within the scope of group supervision. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The repurchase agreements and securities lending contracts held by other related undertakings shall not be included.

Where method 2 is used exclusively, the reporting shall include the detailed list of the repos and securities lending contracts held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and its subsidiaries, regardless of the proportional share used. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item;
- The repurchase agreements and securities lending contracts held by other related undertakings shall not be included.

**▼B**

Where a combination of methods 1 and 2 is used, one part of the reporting shall reflect the consolidated position of the repos and securities lending contracts, net of intra-group transactions, held within the scope of group supervision which must be reported and the other part of the reporting shall include the detailed list of the repos and securities lending contracts held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and its subsidiaries, regardless of the proportional share used.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The repurchase agreements and securities lending contracts held by other related undertakings shall not be included.

The second part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies under method 2 shall be reported item by item;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries under method 2 (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item;
- The repurchase agreements and securities lending contracts held by other related undertakings under method 2 shall not be included.

**S.11.01 — Assets held as collateral****General comments:**

This section relates to annual submission of information for groups.

This template contains an item-by-item list of off-balance sheet assets held as collateral for covering balance sheet.

It consists of detailed information from the perspective of the assets held as collateral and not from the perspective of the collateral arrangement.

If there is a pool of collaterals or a collateral arrangement comprising multiple assets, as many rows as the assets in the pool or arrangement shall be reported.

This template comprises two tables: Information on positions held and Information on assets.

On the table Information on positions held, each asset held as collateral shall be reported separately in as many rows as needed in order to properly fill in all variables requested in that table. If for the same asset two values can be attributed to one variable, then this asset needs to be reported in more than one line.

On the table Information on assets, each asset held as collateral shall be reported separately, with one row for each asset, filling in all variables requested in that table.

**▼ B**

All items except items ‘Type of asset for which the collateral is held’ (C0140), ‘Name of the counterparty pledging the collateral’ (C0060) and ‘Name of the group of the counterparty pledging the collateral’ (C0070) relate to information on the assets held as collateral. Item C0140 relates to the asset on the balance sheet for which the collateral is held while items C0060 and C0070 relate to the counterparty pledging the collateral.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the assets held as collateral within the scope of group supervision net of intra-group transactions. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;

**▼ M1**

- The assets held directly (i.e. not on a look-through basis) as collateral by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;

- The assets held directly (i.e. not on a look-through basis) as collateral by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) in of Delegated Regulation (EU) 2015/35 shall be reported item by item;

**▼ B**

- The assets held as collateral by other related undertakings shall not be included.

Where method 2 is used exclusively, the reporting shall include the detailed list of the assets held as collateral by the participating undertakings, the insurance holding companies and subsidiaries, regardless of the proportional share used. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;

**▼ M1**

- The assets held directly (i.e. not on a look-through basis) as collateral by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies under method 2 shall be reported item by item;

- The assets held directly (i.e. not on a look-through basis) as collateral by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;

**▼ B**

- The assets held as collateral by other related undertakings shall not be included.

Where a combination of methods 1 and 2 is used, one part of the reporting shall reflect the consolidated position of the assets held as collateral within the scope of group supervision, net of intra-group transactions, which must be reported and the other part of the reporting shall include the detailed list of the assets held as collateral by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;

**▼ M1**

- The assets held directly (i.e. not on a look-through basis) as collateral by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The assets held directly (i.e. not on a look-through basis) as collateral by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) in of Delegated Regulation (EU) 2015/35 shall be reported item by item;

**▼ B**

- The assets held as collateral by other related undertakings shall not be included.

The second part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;

**▼ M1**

- The assets held directly (i.e. not on a look-through basis) as collateral by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The assets held directly (i.e. not on a look-through basis) as collateral by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries under method 2 (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;

**▼ B**

- The assets held as collateral by other related undertakings under method 2 shall not be included.

**S.15.01 — Description of the guarantees of variable annuities****General comments:**

This section relates to annual submission of information for groups.

This template shall only be reported by groups in relation to the direct business and only for those entities outside the EEA that have variable annuities portfolios.

Variable annuities are unit-linked life insurance contracts with investment guarantees which, in exchange for single or regular premiums, allow the policyholder to benefit from the upside of the unit but be partially or totally protected when the unit loses value.

If Variable Annuities policies are split between two insurance undertakings, for instance a life company and a non-life company for the variable annuities guarantee, the company with the guarantee shall report this template. Only one row per product shall be reported.

| C0140 | Economic result with hedging    | The ‘economic result’ that the guarantee of the policies has generated during the reporting year considering the result of the hedging strategy. Where hedging is performed for a portfolio of products, for instance in cases where hedge instruments may not be allocated to specific products, the undertaking shall allocate the effect of hedging to the different products using the weight of each product in the ‘Economic result without hedging’ (C0110). |

**S.22.01 — Impact of long term guarantees measures and transitionals****General comments:**

This section relates to annual submission of information for groups.

This template is relevant when at least one long term guarantee measure or transitional is used by any undertaking within the scope of group supervision.

This template shall reflect the impact on the financial positions when no transitional is used and each LTG measures or transitional is set to zero. For that purpose, a step-by-step approach should be followed taking out each transitional and LTG measure one by one and without recalculating the impact of the remaining measures after each step. ► **M2** As it is possible within a group for both types of transitional measure to be applied the template follows a cumulative step by step approach. ◀

**▼ B**

The impacts need to be reported positive if they increase the amount of the item being reported and negative if they decrease the amount of the item (e.g. if amount of SCR increases or if amount of Own Funds increases then positive values shall be reported).

The amounts reported in this template shall be net of Intra Group Transactions.

| C0100/R0090 | Impact of all LTG measures and transitionals — SCR | Amount of the adjustment to the SCR due to the application of the LTG measures and transitionals. |

**S.23.01 — Own Funds****General comments:**

This section relates to opening, quarterly and annual submission for groups.

The template is applicable under all three calculation methods for group solvency capital requirement. Since most of the items are applicable to the part of the group that is covered by method 1, the items applicable when Deduction and Aggregation is used, exclusively or in combination with method 1, are clearly identified in the instructions.

**Basic own funds before deduction for participations in other financial sector**

|             |  |  |
|-------------|--|--|
| R0010/C0010 | Ordinary share capital (gross of own shares) — total   | This is the total ordinary share capital, both held directly and indirectly (before deduction of own shares). This is the total ordinary share capital of the group that fully satisfies the criteria for Tier 1 or Tier 2 items. Any ordinary share capital that does not fully satisfy the criteria shall be treated as preference shares capital and classified accordingly notwithstanding their description or designation. |
| R0010/C0020 | Ordinary share capital (gross of own shares) — tier 1 unrestricted                               | This is the amount of paid up ordinary share capital that meets unrestricted Tier 1– criteria.   |
| R0010/C0040 | Ordinary share capital (gross of own shares) — tier 2  | This is the amount of called up ordinary share capital that meets the criteria for Tier 2.   |
| R0020/C0010 | Non–available called but not paid in ordinary share capital at group level — total               | This is the total amount of called but not paid in ordinary share capital which is deemed non–available as defined in Article 222(2)–(5) of the Directive 2009/138/EC.   |
| R0020/C0020 | Non–available called but not paid in ordinary share capital at group level — tier 1 unrestricted | This is the total amount of called but not paid in ordinary share capital which is deemed non–available as defined in Article 222(2)–(5) of the Directive 2009/138/EC that meets tier 1 unrestricted criteria.   |
| R0020/C0040 | Non–available called but not paid in ordinary share capital at group level –tier 2               | This is the amount of called but not paid in ordinary share capital which is deemed non–available as defined in Article 222(2)–(5) of the Directive 2009/138/EC which meets the criteria for Tier 2.   |
| R0030/C0010 | Share premium account related to ordinary share capital — total                                  | The total share premium account related to ordinary share capital that fully satisfies the criteria for Tier 1 or Tier 2 items.  |

**▼ B**

|             | ITEM  | INSTRUCTIONS  |
|-------------|---|---|
| R0030/C0020 | Share premium account related to ordinary share capital — tier 1 unrestricted   | This is the amount of the share premium account related to ordinary shares that meets the criteria for Tier 1 unrestricted because it relates to ordinary share capital treated as unrestricted Tier 1. |
| R0030/C0040 | Share premium account related to ordinary share capital — tier 2  | This is the amount of the share premium account related to ordinary shares that meets the criteria for Tier 2 because it relates to ordinary share capital treated as Tier 2.                           |
| R0040/C0010 | Initial funds, members' contributions or the equivalent basic own fund item for mutual and mutual-type undertakings — total               | The initial funds, members' contributions or the equivalent basic own fund item for mutual and mutual-type undertakings that fully satisfies the criteria for Tier 1 or Tier 2 items.                   |
| R0040/C0020 | Initial funds, members' contributions or the equivalent basic own fund item for mutual and mutual-type undertakings — tier 1 unrestricted | This is the amount of the initial funds, members' contributions or the equivalent basic own fund item for mutual and mutual-type undertakings that meets the criteria for Tier 1 unrestricted.          |
| R0040/C0040 | Initial funds, members' contributions or the equivalent basic own fund item for mutual and mutual-type undertakings — tier 2              | This is the amount of the initial funds, members' contributions or the equivalent basic own fund item for mutual and mutual-type undertakings that meets Tier 2 criteria.                               |
| R0050/C0010 | Subordinated mutual member accounts — total   | This is the total amount of subordinated mutual member accounts that fully satisfy the criteria for Tier 1 restricted, Tier 2 or Tier 3 items.  |
| R0050/C0030 | Subordinated mutual member accounts — tier 1 restricted   | This is the amount of subordinated mutual member accounts that meet the criteria for Tier 1 restricted.   |
| R0050/C0040 | Subordinated mutual member accounts — tier 2  | This is the amount of subordinated mutual member accounts that meet the criteria for Tier 2.  |
| R0050/C0050 | Subordinated mutual member accounts — tier 3  | This is the amount of subordinated mutual member accounts that meet the criteria for Tier 3.  |
| R0060/C0010 | Non-available subordinated mutual member accounts at group level — total  | This is the total amount of subordinated mutual member accounts which are deemed non-available as defined in Article 222(2)–(5) of the Directive 2009/138/EC.   |

|  | ITEM | INSTRUCTIONS   |
|--|------|--|
|  |      | <p>According to Article 222(4) of the Directive 2009/138/EC, the total non available own funds is calculated, undertaking by undertaking, by adding up own funds indicated in Article 222(2) of the directive (i.e. surplus funds and any subscribed but not paid-up capital) and in Article 330 of Delegated Regulation (EU) 2015/35 (i.e. ancillary own funds, preference shares, subordinated mutual member account, subordinated liabilities and the value of net deferred tax assets). The part of such own funds that exceeds the contribution of the related undertaking to the group SCR cannot be considered as available for covering the group SCR.</p> <p>If the total amount of such own funds does not exceed the contribution of the related undertaking to the group SCR, such limitation doesn't apply.</p> |

**S.25.01 — Solvency Capital Requirement — for groups on Standard Formula****General comments:**

This section relates to opening and annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.25.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of template S.01.03.

Template SR.25.01 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

Where the entity has MAP or RFF (except those under the scope of Article 304 of Directive 2009/138/EC) when reporting at the level of the whole undertaking, the notional Solvency Capital Requirement ("nSCR") at risk module level and the loss-absorbing capacity (LAC) of technical provisions and deferred taxes to be reported shall be calculated as follows:

- Where the undertaking applies the full adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level the nSCR is calculated as if no loss of diversification exists and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part;
- Where the undertaking applies the Simplification at risk sub-module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR is calculated considering a direct summation at sub-module level method and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part,

**▼ B**

- Where the undertaking applies the simplification at risk module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR is calculated considering a direct summation at module level method and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part.

The adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level shall be allocated (C0050) to the relevant risk modules (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk). The amount to be allocated to each relevant risk module shall be calculated as follows:

**▼ M1**

- Calculation of 'q factor' =  $\frac{adjustment}{BSCR' - nSCR_{int}}$ , where
  - *adjustment* = Adjustment calculated according to one of the three methods referred above
  - *BSCR'* = Basic solvency capital requirement calculated according to the information reported in this template (C0040/R0100)
  - *nSCR<sub>int</sub>* = nSCR for intangible assets risk according to the information reported in this template (C0040/R0070)

**▼ B**

- Multiplication of this 'q factor' by the nSCR of each relevant risk module (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk)

For group reporting the following specific requirements shall be met:

- a) The information until R0460 is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- b) When combination method is being used, the information until R0460 is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC.

### S.25.02 — Solvency Capital Requirement — for groups using the standard formula and partial internal model

#### General comments:

This section relates to opening and annual submission of information for groups, ring fenced–funds, matching adjustment portfolios and remaining part.

The components to be reported shall be agreed between national supervisory authorities and groups.

Template SR.25.02 shall be reported by ring–fenced fund, matching adjustment portfolio and the remaining part for every group under a partial internal model. This includes undertakings where a partial internal model is applied to a full ring–fenced fund and/or matching adjustment portfolio while the other ring–fenced funds and/or matching adjustment portfolios are under the standard formula. This template shall be reported for all sub–funds of a material RFF/MAP as identified in the second table of S.01.03

Template SR.25.02 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation–based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

**▼ B**

For those undertakings under a partial internal model to which the adjustment due to the aggregation of the nSCR of RFF/MAP is applicable, where the entity has MAP or RFF (except those under the scope of Article 304 of Directive 2009/138/EC) when reporting at the level of the whole undertaking, the nSCR at risk module level and the loss-absorbing capacity (LAC) of technical provisions and deferred taxes to be reported shall be calculated as follows:

- Where the undertaking applies the full adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level: the nSCR is calculated as if no RFF and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part;
- Where the undertaking applies the Simplification at risk sub-module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR and LAC are calculated considering a direct summation at sub-module level method,
- Where the undertaking applies the Simplification at risk module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR and LAC are calculated considering a direct summation at module level method.

The adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level shall be allocated (C0060) to the relevant risk modules (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk) when calculated according to the standard formula. The amount to be allocated to each relevant risk module shall be calculated as follows:

- Calculation of 'q factor' =  $\frac{adjustment}{BSCR' - nSCR_{int}}$ , where
  - *adjustment* = Adjustment calculated according to one of the three methods referred above
  - *BSCR'* = Basic solvency capital requirement calculated according the information reported in this template
  - *nSCR<sub>int</sub>* = nSCR for intangible assets risk according to the information reported in this template
- Multiplication of this 'q factor' by the nSCR of each relevant risk module (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk)

For group reporting the following specific requirements shall be met:

- c) The information until R0470 is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- d) When combination method is being used, the information until R0470 is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC.

**S.25.03 — Solvency Capital Requirement — for groups using full internal model****General comments:**

This section relates to opening and annual submission of information for groups, ring fenced–funds, matching adjustment portfolios and remaining part.

The components to be reported shall be agreed between national supervisory authorities and groups.

Template SR.25.03 has to be filled in for each ring–fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part for every group under a full internal model. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub–funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.25.03 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation–based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

For group reporting the following specific requirements shall be met:

- e) The information until R0470 is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- f) When combination method is being used, the information until R0470 is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC.

**S.26.01 — Solvency Capital Requirement — Market risk****General comments:**

This section relates to annual submission of information for groups, ring fenced-funds, matching adjustment portfolios and remaining part.

The template SR.26.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.26.01 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.26.02 — Solvency Capital Requirement — Counterparty default risk****General comments**

This section relates to annual submission of information for groups, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.02 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.26.02 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Solvency II Directive is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.26.03 — Solvency Capital Requirements — Life underwriting risk****General comments:**

This section relates to annual submission of information for groups, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.03 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

**▼B**

Template SR.26.03 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

All values shall be reported net of reinsurance and other risk mitigating techniques.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.26.04 — Solvency Capital Requirement — Health underwriting risk****General Comments:**

This section relates to annual submission of information for groups, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.04 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.26.04 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

All values shall be reported net of reinsurance and other risk mitigating techniques.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

**▼ B**

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.26.05 — Solvency Capital Requirement — Non-Life underwriting risk****General comments:**

This section relates to annual submission of information for groups, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.05 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.26.05 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

All values shall be reported net of reinsurance and other risk mitigating techniques.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;

**▼ B**

- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.26.06 — Solvency Capital Requirements — Operational risk****General comments:**

This section relates to annual submission of information for groups, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.06 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.26.06 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

**▼ B**

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.26.07 — Solvency Capital Requirement — Simplifications****General comments:**

This section relates to annual submission of information for groups, ring fenced-funds, matching adjustment portfolios and remaining part.

**▼ B**

Template SR.26.07 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.26.07 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.27.01 — Solvency Capital Requirement — Non-life and health catastrophe risk****General comments:**

This section relates to annual submission of information for groups, ring fenced-funds, matching adjustment portfolios and remaining part.

Template S.27.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.27.01 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

This template is designed to allow an understanding of how the catastrophe risk module of the SCR has been calculated and what are the main drivers.

For every type of catastrophe risk the risk mitigating effect of the undertaking's specific reinsurance contracts and special purpose vehicles must be determined. This calculation is prospective and must be based on the reinsurance program of the next reporting year as described in the reinsurance templates for Facultative covers (S.30.01 and S.30.02 of Annex II) and Outgoing reinsurance program in the next reporting year (S.30.03 and S.30.04 of Annex II).

Undertakings need to estimate their recoveries from risk mitigation in line with the Directive 2009/138/EC, Delegated Regulation (EU) 2015/35 and any relevant technical standard. Undertakings shall complete the catastrophe reporting template only to the granularity required to perform this calculation.

Under the non-life and health underwriting risk modules, catastrophe risk is defined as the risk of loss, or of adverse change in the value of insurance liabilities, resulting from significant uncertainty of pricing and provisioning assumptions related to extreme or exceptional events as set out in Article 105(2)(b) and (4)(c) of the Directive 2009/138/EC.

The reported capital requirements reflects the capital requirements before and after risk mitigation which is the risk mitigating effect of the undertaking's specific reinsurance contracts and special purpose vehicles. The reported capital requirement after risk mitigation is before the loss absorbing capacity of technical provisions. The default value of the risk mitigation shall be reported as a positive value in order to be deducted.

**▼ B**

In case the diversification effect reduces the capital requirement the default value of the diversification shall be reported as a negative value.

For group reporting the following specific requirements shall be met:

- d) This information is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- e) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- f) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.31.01 — Share of reinsurers (including Finite Reinsurance and SPV's)****General comments:**

This section relates to annual submission of information for groups.

**▼ B**

This template shall be filled by the insurance and reinsurance groups where a recoverable is recognised by related insurance undertakings in relation to the EEA or Non-EEA-reinsurer which is not in the scope of the group (even if all contracts with that reinsurer have terminated) and whose reinsurer is reducing the gross technical provisions as per end of the reporting year.

The template collects information on reinsurers and not on separate treaties. All ceded technical provisions, including those ceded under Finite reinsurance (as defined in S.30.03 Column C0060 of Annex II), shall be completed. This also means that if an SPV or a syndicate of Lloyd's acts as a reinsurer the SPV or the syndicate must be listed.

**S.31.02 — Special Purpose Vehicles****General comments:**

This section relates to annual submission of information for groups.

This template is relevant for each group transferring risk(s) to a Special Purpose Vehicle (SPV), to ensure sufficient disclosure has been made where SPVs are used as alternative risk transfer methods to traditional reinsurance treaties.

The template applies to the use of:

- e) SPVs defined under Article 13 (26) and authorised under Article 211 (1) of Directive 2009/138/EC;
- f) SPVs meeting conditions of Article 211 (3) of Directive 2009/138/EC;
- g) SPVs regulated by third country supervisors where these meet equivalent measures to the conditions set out in Article 211 (2) of Directive 2009/138/EC;
- h) Other SPVs, not meeting the definitions above, where risks are transferred under arrangements with the economic substance of a reinsurance contract.

The template covers risk mitigation techniques (recognised or not) carried out by the (re)insurance undertaking within the scope of group supervision whereby a SPV assumes risks from the undertaking within the scope of group supervision through a reinsurance contract; or assume insurance risks from the undertaking within the scope of group supervision transferred through a similar arrangement that is 'reinsurance like'.

This template shall include data of special purpose vehicles to which the participating insurance or reinsurance undertaking or one of its insurance or reinsurance subsidiaries has transferred risk.

|       | ITEM                          | INSTRUCTIONS  |
|-------|-------------------------------|---|
| C0010 | Name of reinsured undertaking | Identify the legal name of the reinsured undertaking, identifying the cedent (re)insurance undertaking within the scope of group supervision. |

**S.32.01 — Undertakings in the scope of the group****General comments:**

This section relates to opening and annual submission of information for groups.

This template is relevant under method 1 as defined in Article 230 of Directive 2009/138/EC, method 2 as defined in Article 233 of the Directive 2009/138/EC and a combination of methods. It is a list of all undertakings in the scope of the group in the meaning of Article 212(1)(c) of Directive 2009/138/EC, including the participating insurance and reinsurance undertakings, insurance holding companies, mixed financial holding companies or mixed activity insurance holding company.

— Cells C0010 to C0080 are related to the identification of the undertaking;

— Cells C0090 to C0170 are related to ranking criteria (in the group reporting currency);

— Cells C0180 to C0230 are related to criteria of influence;

— Cells C0240 and C0250 are related to the inclusion in the scope of group supervision;

— Cell C0260 is related to group solvency calculation.

|       | ITEM    | INSTRUCTIONS  |
|-------|---------|---|
| C0010 | Country | Identify the ISO 3166-1 alpha-2 code of the country in which the registered head office of each undertaking within the scope of the group, in the meaning of Article 212(1)(c) of Directive 2009/138/EC, is located |

**▼B****S.35.01 — Contribution to group Technical Provisions****General comments:**

This section relates to annual submission of information for groups.

The information to be reported between C0050 to C0210 shall be after the volatility adjustment, the matching adjustment and interest rate transitional is applied. The transitional deduction to technical provisions is reported separately in C0220 and C0230.

This template is relevant under method 1 as defined in Article 230 of Directive 2009/138/EC, method 2 as defined in Article 233 of the Directive 2009/138/EC and a combination of methods.

Related insurance and reinsurance undertakings which are not subsidiaries are excluded from the scope of this template since they are assessed through the adjusted equity method.

**S.36.01 — IGT — Equity-type transactions, debt and asset transfer****General comments:**

This section relates to annual submission of information for groups.

The purpose of this template is to collect information on all (significant, very significant and transactions required to be reported in all circumstances) IGTs related to equity, debt, reciprocal financing and asset transfers related transactions within a group identified according to Article 213(2)(a) to (c) of Directive 2009/138/EC. These include, but are not limited to:

- equity and other capital items including participations in related entities and transfer shares of related entities of the group;
- debt including bonds, loans, collateralised debt, and other transactions of similar nature e.g. with periodic pre-determined interest or coupon or premium payments for a pre-determined period of time.
- other asset transfer such as transfer of properties and transfer of shares of other companies unrelated (i.e. outside) to the group.

**▼M1**

\_\_\_\_\_

**▼B**

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- inception during the reporting period and outstanding at the reporting date.
- inception and expired/matured during the reporting period.

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be individually reported where collectively they are at or above the corresponding threshold values for significant or very significant IGTs.

**▼ B**

Each transaction shall be reported separately.

Any additions / top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan should be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5 m has been expensed) the template shall record the maximum amount as the transaction amount, in this case EUR 10 m.

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

|       | ITEM  | INSTRUCTIONS  |
|-------|---|---|
| C0010 | ID of intragroup transaction                | Unique internal identification code for each intragroup transaction. Shall be consistent over time.   |
| C0020 | Investor/ lender name                       | Name of the entity that is buying the equity or lending to a related undertaking within the scope of the group, in the meaning of Article 212(1)(c) of Directive 2009/138/EC, i.e. the entity that recognises the transaction as an asset on their balance sheet (debit — balance sheet).   |

| C0160 | Amount of redemption/prepayments/ paybacks during reporting period                    | Amount of total redemptions/prepayments/paybacks during the reporting period if applicable, reported in the reporting currency of the group.  |
| C0170 | Amount of dividends/ interest/ coupon and other payments made during reporting period | <p>This cell shall capture any payments made in relation to the IGTs recorded in this template for the reporting period (12 months up to the reporting date).</p> <p>This includes, but not limited to:</p> <ul style="list-style-type: none"> <li>— Dividends for the current year including paid or declared but unpaid dividends.</li> <li>— Any deferred dividends from previous years paid during the reporting period (i.e. any deferred dividends paid that impacted the P&amp;L for the reporting period).</li> <li>— Interest payments made in relation to debt instruments.</li> <li>— Any other payments made in relation to the IGTs that are reported in this template, e.g. charges on asset transfers.</li> <li>— Amount of total tops-ups if applicable, i.e. total additional money invested during the reporting period such as a additional payments on partly paid shares or increasing loan amount during the period (when reporting tops-ups as a separate item).</li> </ul> <p>This amount shall be reported in the reporting currency of the group.</p> |
| C0180 | Balance of contractual amount of transaction at reporting date                        | Outstanding amount of the transaction at the reporting date if applicable e.g. for debt issue, reported in the reporting currency of the group. If there has been a full early settlement/prepayment, the balance of contractual amount will be zero.   |
| C0190 | Coupon/ Interest rate   | The interest or coupon rate as a percentage, if applicable. For variable interest rate, this shall include the reference rate and the interest rate above it.   |

**S.36.02 — IGT — Derivatives****General comments:**

This section relates to annual submission of information for groups.

**▼B**

This template shall report all IGTs between entities in scope of group supervision according to Article 213 (2) (a) to (c) of Directive 2009/138/EC, irrespective of the choice of calculation method or whether sectoral solvency rules have been used for the purposes of the group solvency calculation.

**▼M1**

\_\_\_\_\_

**▼B**

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- incepted during the reporting period and outstanding at the reporting date.
- incepted and expired/matured during the reporting period.

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be reported individually where collectively, they are at or above the corresponding threshold values for significant or very significant IGTs.

Each transaction shall be reported separately.

Any additions / top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan should be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5m has been expensed) the template should record the maximum amount as the transaction amount, in this case EUR 10 m.

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

|       | ITEM  | INSTRUCTIONS  |
|-------|---|---|
| C0010 | ID of intragroup transaction                | Unique internal identification code for each intragroup transaction. Must be consistent over time.  |
| C0020 | Investor/ Buyer name                        | Name of the entity that is investing/buying the derivative, or the counterparty with the long position. For swaps the payer is the payer of the fixed rate that receives the floating rate.                     |
| C0030 | Identification code of the investor / buyer | The unique identification code attached to the investor/buyer/transferee by this order of priority: <ul style="list-style-type: none"> <li>— Legal Entity Identifier (LEI);</li> <li>— Specific code</li> </ul> |

**S.36.03 — IGT — Internal reinsurance****General comments:**

This section relates to annual submission of information for groups.

The purpose of this template is to collect information on all IGTs (significant, very significant and transactions required to be reported in all circumstances) related to internal reinsurance within a group identified according to Article 213(2)(a) to (c) of Directive 2009/138/EC. These include, but not limited to:

- reinsurance treaties between related undertakings of a group;
- facultative reinsurance between related undertakings of a group; and
- any other transaction that results in transferring underwriting risk (insurance risk) between related undertakings of a group..

**▼ M1**

\_\_\_\_\_

**▼ B**

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- incepted during the reporting period and outstanding at the reporting date.
- incepted and expired/matured during the reporting period.

**▼B**

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be individually reported where collectively they are at or above the corresponding threshold values for significant or very significant IGTs.

Each transaction shall be reported separately. Undertakings shall report as many rows as needed to properly identify the transaction, including if different types of reinsurance contracts/ treaties are used.

Any additions / top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan should be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5 m has been expensed) the template should record the maximum amount as the transaction amount, in this case EUR 10 m.

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

|       | ITEM                          | INSTRUCTIONS  |

**S.36.04 — IGT — Cost Sharing, contingent liabilities, off BS and other items****General comments:**

This section relates to annual submission of information for groups.

The purpose of this template is to collect information on all other IGTs (significant, very significant and transactions required to be reported in all circumstances) which have not been captured in 36.01 to 36.03 templates within a group identified according to Article 213(2)(a) to (c) of Directive 2009/138/EC. These include, but not limited to:

- Internal cost sharing;
- Contingent liabilities (other than derivatives);
- Off balance sheet guarantees;
- Any other transactions between related undertakings or natural persons in scope of the group supervision.

**▼ MI**

\_\_\_\_\_

**▼ B**

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- incepted during the reporting period and outstanding at the reporting date.
- incepted and expired/matured during the reporting period.

**▼ B**

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be individually reported where collectively they are at or above the corresponding threshold values for significant or very significant IGTs.

Each transaction shall be reported separately.

Any additions / top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan should be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5 m has been expensed) the template should record the maximum amount as the transaction amount, in this case EUR 10 m.

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

|       | ITEM  | INSTRUCTIONS   |
|-------|---|--|
| C0010 | ID of intragroup transaction                            | Unique internal identification code for each intragroup transaction. Must be consistent over time.   |
| C0020 | Investor/ Buyer/ Beneficiary name                       | Legal name of the entity that is purchasing/investing in the asset/ investment or receiving the service/guarantee.   |
| C0030 | Identification code of the Investor/ Buyer/ Beneficiary | <p>The unique identification code attached to the investor/buyer/transferee by this order of priority:</p> <ul style="list-style-type: none"> <li>— Legal Entity Identifier (LEI);</li> <li>— Specific code</li> </ul> <p>Specific code:</p> <ul style="list-style-type: none"> <li>— For EEA insurance and reinsurance undertakings and other EEA regulated undertakings within the scope of the group, in the meaning of Article 212(1)(c) of Directive 2009/138/EC: identification code used in the local market, attributed by the undertaking's competent supervisory authority;</li> <li>— For non-EEA undertakings and non-regulated undertakings within the scope of the group, in the meaning of Article 212(1)(c) of Directive 2009/138/EC, identification code will be provided by the group. When allocating an identification code to each non-EEA or non-regulated undertaking, the group should comply with the following format in a consistent manner:</li> </ul> <p>identification code of the parent undertaking + ISO 3166-1 alpha-2 code of the country of the undertaking + 5 digits</p> |

| C0050 | Issuer/ Seller/ Provider name                                | Legal name of the entity that is selling/transferring the asset/investment or providing the service/guarantee.   |
| C0060 | Identification code of the Issuer/ Seller/ Provider          | <p>The unique identification code attached to the investor/buyer/transferee by this order of priority:</p> <p>— Legal Entity Identifier (LEI);</p> <p>— Specific code</p> <p>Specific code:</p> <p>— For EEA insurance and reinsurance undertakings and other EEA regulated undertakings within the scope of the group, in the meaning of Article 212(1)(c) of Directive 2009/138/EC: identification code used in the local market, attributed by the undertaking's competent supervisory authority;</p> <p>— For non-EEA undertakings and non-regulated undertakings within the scope of the group, in the meaning of Article 212(1)(c) of Directive 2009/138/EC, identification code will be provided by the group. When allocating an identification code to each non-EEA or non-regulated undertaking, the group should comply with the following format in a consistent manner:</p> <p>identification code of the parent undertaking + ISO 3166-1 alpha-2 code of the country of the undertaking + 5 digits</p> |
| C0070 | ID code type of code of the Issuer/ Seller/ Provider         | <p>Identification of the code used in item 'Identification code for the Issuer/ Seller/ Provider':</p> <p>1 — LEI</p> <p>2 — Specific code</p>   |
| C0080 | Transaction type   | <p>Identify the type of transaction. The following close list shall be used:</p> <p>1 — Contingent liabilities</p> <p>2 — Off balance sheet items</p> <p>3 — Internal cost sharing</p> <p>4 — Others</p>   |
| C0090 | Transaction Issue date                                       | Identify the ISO 8601 (yyyy-mm-dd) code of the date when the transaction/issue takes effect.   |
| C0100 | Effective date of agreement/ contract underlying transaction | Where applicable, Identify the ISO 8601 (yyyy-mm-dd) code of the date when the transaction or contract underlying the transactions takes effect if different from the transaction date. If same as the transaction date, the transaction date is to be reported.   |
| C0110 | Expiry date of agreement / contract underlying transaction   | Where applicable, identify the ISO 8601 (yyyy-mm-dd) code of the date when the agreement/contract ceases. If the expiry date is perpetual use '9999-12-31'.  |

**▼ B**

|       | ITEM   | INSTRUCTIONS  |
|-------|--|---|
| C0120 | Currency of transaction  | Identify the ISO 4217 alphabetic code of the currency in which the transaction took place.  |
| C0130 | Trigger event  | Where applicable, brief description of event that would trigger the transaction/payment/liability/none e.g. event that would result in a contingent liability occurring.  |
| C0140 | Value of transaction/collateral /Guarantee   | Value of the transaction, collateral pledged or contingent liability recognised on the Solvency II balance sheet.<br><br>This item is to be reported in the reporting currency of the group.<br><br>All items shall be reported on Solvency II value. However where Solvency II value is not available (e.g. non-EEA operations under method 2 in equivalent regimes or banks and credit institutions) then the local or sectoral valuation rules should be used. |
| C0150 | Maximum possible value of contingent liabilities   | Maximum possible value, if possible, regardless of their probability (i.e. future cash flows required to settle the contingent liability over the lifetime of that contingent liability, discounted at the relevant risk-free interest rate term structure) of contingent liabilities included in Solvency II Balance Sheet.  |
| C0160 | Maximum possible value of contingent liabilities not included in Solvency II Balance Sheet | Enter the maximum amount of the contingent liability, for those not included in the Solvency II Balance Sheet, that could be due from the Provider.<br><br>This item is to be reported in the reporting currency of the group.  |
| C0170 | Maximum value of letters of credit/guarantees  | Sum of all possible cash flows if events triggering guarantees were all to happen in relation to guarantees provided by the 'provider' (cell C0050) to the 'beneficiary' (Cell C0020) to guarantee the payment of the liabilities due by the undertaking (includes letter of credit, undrawn committed borrowing facilities). This item shall not include amounts already reported under C0150 and C0160.   |
| C0180 | Value of guaranteed assets   | Value of the guaranteed asset for which the guarantees are received.<br><br>Other local/sectoral valuation principles than Solvency II ones may be relevant in this case.   |

**S.37.01 — Risk concentration****General comments:**

This section relates to annual submission of information for groups.

This template shall include all significant risk concentrations between entities in scope of group supervision and third parties, irrespective of the choice of calculation method or whether sectoral solvency rules have been used for the purposes of the group solvency calculation.

The aim is to list the most important exposure (value of the exposure) by counterparty and by type of exposure (group or/and entity) outside the scope of the re/insurance group (maximum exposure per contract and if a reinsurer fails; off balance sheet risk concentration). It can be understood as the maximum possible exposure on a contractual basis and not necessarily be reflected on the balance sheet, but not taking into account any risk mitigation instruments or techniques. Thresholds can be fixed by the group supervisor after consulting the group itself and the college.

| C0170 | Maximum amount to be paid by the reinsurer        | Only applicable if the exposure is 'Assets — Reinsurance': In the case the reinsurer has to pay resulting from a reinsurance contract, this is the maximum amount to be payable to the contract party by the reinsurer taking into account the specificities of the reinsurance contract.   |

## ANNEX IV

## Asset categories

| Category |                                    | Definition  |
|----------|------------------------------------|---|
| 1        | Government bonds                   | Bonds issued by public authorities, whether by central governments supra-national government institutions, regional governments or local authorities and bonds that are fully, unconditionally and irrevocably guaranteed by the European Central Bank, Member States' central government and central banks denominated and funded in the domestic currency of that central government and the central bank, multilateral development banks referred to in paragraph 2 of Article 117 of Regulation (EU) No 575/2013 or international organisations referred to in Article 118 of Regulation (EU) No 575/2013, where the guarantee meets the requirements set out in Article 215 of Delegated Regulation 2015/35. |
| 2        | Corporate bonds                    | Bonds issued by corporations  |
| 3        | Equity                             | Shares and other securities equivalent to shares representing corporations' capital, i.e., representing ownership in a corporation  |
| 4        | Collective Investment Undertakings | Collective investment undertaking' means an undertaking for collective investment in transferable securities (UCITS) as defined in Article 1(2) of Directive 2009/65/EC of the European Parliament and of the Council or an alternative investment fund (AIF) as defined in Article 4(1)(a) of Directive 2011/61/EU of the European Parliament and of the Council.  |
| 5        | Structured notes                   | Hybrid securities, combining a fixed income (return in the form of fixed payments) instrument with a series of derivative components. Excluded from this category are fixed income securities that are issued by sovereign governments. Concerns securities that have embedded one or a combination of categories of derivatives, including Credit Default Swaps (CDS), Constant Maturity Swaps (CMS), Credit Default Options (CDOp). Assets under this category are not subject to unbundling  |
| 6        | Collateralised securities          | Securities whose value and payments are derived from a portfolio of underlying assets. Includes Asset Backed Securities (ABS), Mortgage Backed securities (MBS), Commercial Mortgage Backed securities (CMBS), Collateralised Debt Obligations (CDO), Collateralised Loan Obligations (CLO), Collateralised Mortgage Obligations (CMO). Assets under this category are not subject to unbundling  |
| 7        | Cash and deposits                  | ► <b>MI</b> Money in the physical form, cash-equivalents, bank deposits and other money deposits ◀  |

▼ **B**

| Category |                     | Definition  |
|----------|---------------------|---|
| 8        | Mortgages and loans | Financial assets created when creditors lend funds to debtors, with collateral or not, including cash pools.  |
| 9        | Property            | Buildings, land, other constructions that are immovable and equipment   |
| 0        | Other investments   | ► <b>M1</b> Other assets reported in 'Other investments' ◀  |
| A        | Futures             | Standardised contract between two parties to buy or sell a specified asset of standardised quantity and quality at a specified future date at a price agreed today  |
| B        | Call Options        | Contract between two parties concerning the buying of an asset at a reference price during a specified time frame, where the buyer of the call option gains the right, but not the obligation, to buy the underlying asset            |
| C        | Put Options         | Contract between two parties concerning the selling of an asset at a reference price during a specified time frame, where the buyer of the put option gains the right, but not the obligation, to sell the underlying asset           |
| D        | Swaps               | Contract in which counterparties exchange certain benefits of one party's financial instrument for those of the other party's financial instrument, and the benefits in question depend on the type of financial instruments involved |
| E        | Forwards            | Non-standardised contract between two parties to buy or sell an asset at a specified future time at a price agreed today  |
| F        | Credit derivatives  | Derivative whose value is derived from the credit risk on an underlying bond, loan or any other financial asset   |

| First 2 positions — Assets listed in |  | Definition   |
|--------------------------------------|--|--|
| Country                              | ISO 3166-1-alpha-2 country code                | Identify the ISO 3166-1-alpha-2 country code where the asset is listed in. An asset is considered as being listed if it is negotiated on a regulated market or on a multilateral trading facility, as defined by Directive 2014/65/EU. If the asset is listed in more than one country or the undertaking uses for valuation purposes a price provider which is one of the regulated markets or multilateral trading facility where the asset is listed in, the country shall be the one of that regulated market or multilateral trading facility used as the reference for valuation purposes. |
| XV                                   | Assets listed in one or more than one country  | Identify assets that are listed in one or more countries but when the undertaking uses for valuation purposes a price provider which is not one of the regulated markets or multilateral trading facility where the asset is listed in.  |
| XL                                   | Assets that are not listed in a stock exchange | Identify assets that are not negotiated on a regulated market or on a multilateral trading facility, as defined by Directive 2014/65/EU.   |
| XT                                   | Assets that are not exchange tradable          | Identify assets that by their nature are not subject to negotiation on a regulated market or on a multilateral trading facility, as defined by Directive 2014/65/EU.   |
