supplementing Directive 2009/138/EC of the European Parliament
and of the Council on the taking-up and pursuit of the business of

TITLE II

INSURANCE GROUPS

CHAPTER I

SOLVENCY CALCULATION AT GROUP LEVEL

SECTION 1

Group solvency: choice of calculation method and general principles

Article 328

Choice of method

1 In assessing whether the exclusive application of method 1 is not appropriate, thus allowing the group solvency to be calculated in accordance with method 2 or a combination of methods 1 and 2 [^{F1}in accordance with rules 11.1 to 13.2 of the Group Supervision part of the PRA Rulebook], the group supervisor shall, in consultation with ^{F2}... the participating insurance or reinsurance undertaking or the insurance holding company or the mixed financial holding company, consider all of the the following elements:

- a whether the amount and quality of information available in relation to a related undertaking would not be sufficient for it to be subject to method 1;
- b whether a related undertaking is not covered by a group internal model, in the cases where a group internal model, approved in accordance with [^{F3}regulations 48 and 49 of the Solvency 2 Regulations 2015], is used for the calculation of the consolidated group Solvency Capital Requirement;
- c whether, for the purposes of paragraph (b), the risks that are not captured in the group internal model are immaterial in relation to the overall risk profile of the group;
- d whether the use of method 1 in relation to a related undertaking or several related undertakings would be overly burdensome and the nature, scale and complexity of the risks of the group are such that the use of method 2 in relation to that related undertaking or those related undertakings does not materially affect the results of the group solvency calculation;
- e whether intra-group transactions are not significant both in terms of volume and value of the transaction;
- f where the group includes third country related insurance or reinsurance undertakings, whether ^{F4}... the solvency regimes of those third countries [^{F5}have been determined to be] equivalent or provisionally equivalent.

Changes to legislation: Commission Delegated Regulation (EU) 2015/35, Article 328 is up to date with all changes known to be in force on or before 11 October 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. 2 The method or combination of methods chosen shall be applied in a consistent manner over time. The group supervisor shall require the participating insurance or reinsurance undertaking or the insurance holding company or the mixed financial holding company to revert to method 1 in relation to any related undertaking where the use of method 2 or a combination of methods 1 and 2 is no longer justified considering the elements referred to in paragraph 1.
