

Commission Delegated Regulation (EU) 2015/35 of 10 October 2014
supplementing Directive 2009/138/EC of the European Parliament
and of the Council on the taking-up and pursuit of the business of
Insurance and Reinsurance (Solvency II) (Text with EEA relevance)

TITLE II

INSURANCE GROUPS

CHAPTER I

SOLVENCY CALCULATION AT GROUP LEVEL

SECTION 1

Group solvency: choice of calculation method and general principles

Article 328

Choice of method

1 In assessing whether the exclusive application of method 1 is not appropriate, thus allowing the group solvency to be calculated in accordance with method 2 or a combination of methods 1 and 2 [^{F1}in accordance with rules 11.1 to 13.2 of the Group Supervision part of the PRA Rulebook], the group supervisor shall, in consultation with ^{F2}... the participating insurance or reinsurance undertaking or the insurance holding company or the mixed financial holding company, consider all of the the following elements:

- a whether the amount and quality of information available in relation to a related undertaking would not be sufficient for it to be subject to method 1;
- b whether a related undertaking is not covered by a group internal model, in the cases where a group internal model, approved in accordance with [^{F3}regulations 48 and 49 of the Solvency 2 Regulations 2015], is used for the calculation of the consolidated group Solvency Capital Requirement;
- c whether, for the purposes of paragraph (b), the risks that are not captured in the group internal model are immaterial in relation to the overall risk profile of the group;
- d whether the use of method 1 in relation to a related undertaking or several related undertakings would be overly burdensome and the nature, scale and complexity of the risks of the group are such that the use of method 2 in relation to that related undertaking or those related undertakings does not materially affect the results of the group solvency calculation;
- e whether intra-group transactions are not significant both in terms of volume and value of the transaction;
- f where the group includes third country related insurance or reinsurance undertakings, whether ^{F4}... the solvency regimes of those third countries [^{F5}have been determined to be] equivalent or provisionally equivalent.

Changes to legislation: Commission Delegated Regulation (EU) 2015/35, TITLE II is up to date with all changes known to be in force on or before 11 October 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

2 The method or combination of methods chosen shall be applied in a consistent manner over time. The group supervisor shall require the participating insurance or reinsurance undertaking or the insurance holding company or the mixed financial holding company to revert to method 1 in relation to any related undertaking where the use of method 2 or a combination of methods 1 and 2 is no longer justified considering the elements referred to in paragraph 1.

Article 329

Treatment of specific related undertakings

1 Without prejudice to Article 328 and unless the book value of the relevant related undertaking has been deducted from the own funds eligible for the group solvency pursuant to [^{F6}rule 10.6 of the Group Supervision part of the PRA Rulebook], the calculation of the group solvency shall include all of the following:

- a the capital requirements for related undertakings which are credit institutions, investment firms or financial institutions and the own fund items of those undertakings calculated according to the relevant sectoral rules referred to in Article 2(7) of Directive 2002/87/EC;
- b the capital requirements for related undertakings which are institutions for occupational retirement provision and the own funds items of those undertakings calculated according to Articles 17 to 17c of Directive 2003/41/EC;
- c the capital requirements for related undertakings which are UCITS management companies calculated in accordance with Article 7(1)(a) of Directive 2009/65/EC and the own funds of those undertakings calculated in accordance with point 1 of Article 2(1) of that Directive;
- d the capital requirements for related undertakings which are alternative investment fund managers calculated in accordance with Article 9 of Directive 2011/61/EU and the own funds of those undertakings calculated in accordance with Article 4(1)(ad) of that Directive;
- e the notional capital requirements and the own fund items of related undertakings which are non-regulated undertakings carrying out financial activities, where the notional capital requirement is the capital requirement with which the related undertaking would have to comply under the relevant sector rules if the undertaking were a regulated entity.

2 For the purposes of applying the provisions set out in [F⁷rule 14.1 of the Group Supervision part of the PRA Rulebook], where the parent insurance holding company or mixed financial holding company has issued subordinated debt or has other eligible own funds subject to the limits set out in [F⁸rules 4.1 and 4.2 of the Own Funds part of the PRA Rulebook], [F⁹rule 10.3 of the Group Supervision part of the PRA Rulebook] shall apply.

3 Special purpose vehicles, F¹⁰... to which the participating undertaking or one of its subsidiaries has transferred risk shall be excluded from the calculation of group solvency in any of the following situations:

- a the special purpose vehicle complies with the requirements set out in [F¹¹Articles 318 to 327]F¹²...;
- b the special purpose vehicle is regulated by a third country supervisory authority, and complies with requirements equivalent to those set out in [F¹³Articles 318 to 327 of this Regulation].

For the purposes of this paragraph, [F¹⁴Articles 318 to 327 of this Regulation] shall apply at the level of the group.

Article 330

Availability at group level of the eligible own funds of related undertakings

[^{F15}1 In assessing whether certain own funds eligible to cover the Solvency Capital Requirement of a related insurance or reinsurance undertaking, a related third country insurance or reinsurance undertaking, an insurance holding company or a mixed financial holding company cannot effectively be made available to cover the group Solvency Capital Requirement, the [^{F16}PRA] shall consider all of the following elements:

- a whether the own-fund item is subject to legal or regulatory requirements that restrict the ability of that item to absorb all types of losses wherever they arise in the group;
- b whether there are legal or regulatory requirements that restrict the transferability of assets to another insurance or reinsurance undertaking;
- c whether making those own funds available for covering the group Solvency Capital Requirement would not be possible within a maximum of 9 months;
- d whether, where method 2 is used, the own-fund item does not satisfy the requirements set out in Articles 71, 73 and 77; for this purpose, the term ‘ Solvency Capital Requirement ’ in those Articles shall include both the Solvency Capital Requirement of the related undertaking that has issued the own fund item and the group Solvency Capital Requirement.]

2 In the assessment referred to in the first paragraph, the [^{F16}PRA] shall consider the restrictions that would exist on a going-concern basis.

In the assessment referred to in the first paragraph, the [^{F16}PRA] shall also take into account any costs to the participating insurance or reinsurance undertaking or insurance holding company or mixed financial holding company, or to any related undertaking, that making such own funds available for the group is likely to entail.

3 The following items shall be assumed not to be effectively available to cover the group Solvency Capital Requirement:

- a ancillary own funds;
- b preference shares, subordinated mutual members account and subordinated liabilities;
- c an amount equal to the value of net deferred tax assets; for this purpose, the amount of deferred tax asset may be reduced by the amount of the associated deferred tax liability provided that those deferred tax assets and associated deferred tax liabilities both arise from the tax law of [^{F17}the United Kingdom] or third country and the taxation authority of [^{F18}the United Kingdom] or [^{F19}that] third country permits such offsetting.

Where the participating undertaking can demonstrate to the satisfaction of the [^{F16}PRA] that the assumption referred to in the first subparagraph for one of the items is inappropriate in the specific circumstances of the group, the participating undertaking may include that item in the own funds available to cover the group Solvency Capital Requirement.

4 The following items shall in any case not be considered as effectively available to cover the group Solvency Capital Requirement:

- a any minority interest in a subsidiary exceeding the contribution of that subsidiary to the group Solvency Capital Requirement, where the subsidiary is an insurance or reinsurance undertaking, a third country insurance or reinsurance undertaking, an insurance holding company or a mixed financial holding company;

Changes to legislation: Commission Delegated Regulation (EU) 2015/35, TITLE II is up to date with all changes known to be in force on or before 11 October 2023. - b any minority interest in a subsidiary ancillary services undertaking;
- c any restricted own funds item in ring-fenced funds as referred to in ^{F20}... Article 80 of this Regulation.

5 Where an own-fund item of a related insurance or reinsurance undertaking, third-country insurance or reinsurance undertaking, insurance holding company or mixed financial holding company cannot effectively be made available to cover the group Solvency Capital Requirement, this own fund item may only be included in the calculation of group solvency up to the contribution of that related insurance or reinsurance undertaking, third-country insurance or reinsurance undertaking, insurance holding company or mixed financial holding company to the group Solvency Capital Requirement.

6 Where a related insurance or reinsurance undertaking, third-country insurance or reinsurance undertaking, insurance holding company or mixed financial holding company is included in the consolidated data pursuant to points (a) or (c) of Article 335(1), its contribution to the consolidated group Solvency Capital Requirement shall reflect diversification benefits and be calculated as follows:

- a where the consolidated group Solvency Capital Requirement is calculated, in relation to that related undertaking, on the basis of the standard formula, the proportional share of the Solvency Capital Requirement of that related undertaking multiplied by a percentage corresponding to the proportion that the diversified component of the consolidated group Solvency Capital Requirement, as laid down in Article 336 (a), bears to the sum of the Solvency Capital Requirements of each of the undertakings included in the calculation of that diversified component of the consolidated group Solvency Capital Requirement;
- b where the consolidated group Solvency Capital Requirement is calculated, in relation to that related undertaking, on the basis of an internal model, the Solvency Capital Requirement of that related undertaking multiplied by a percentage corresponding to the proportion of the diversification effects at group level that are attributed to that related undertaking, determined by that internal model, provided that the sum of such percentages for all the related insurance and reinsurance undertakings, insurance holding companies or mixed financial holding companies included in the consolidated calculation based on the internal model equals 100 %.

SECTION 2

Group solvency: calculation methods

Article 331

Classification of own-fund items of related insurance and reinsurance undertakings at group level

1 Where an own-fund item has been classified into one of the three tiers based on the criteria set out in Title I, Chapter IV, Section 2 by a related insurance or reinsurance undertaking that is included in the calculation of the group solvency, the own-fund item shall be classified in the same tier at group level provided that all of the following additional requirements are met:

- a undertakings comply with the requirements set out in Articles 71, 73 and 77 of this Regulation;
- b the own-fund item is free from encumbrances and is not connected with any other transaction, which when considered with the own-fund item, could result in that own-fund item not satisfying the requirements set out in [^{F21}rules 3.1 – 3.3 of the Own Funds part of the PRA Rulebook] at group level.

2 For the purposes of point (a) of paragraph 1:

- a the term ‘Solvency Capital Requirement’ in Articles 71, 73 and 77 of this Regulation shall mean both the Solvency Capital Requirement of the related undertaking that has issued the own-fund item and the group Solvency Capital Requirement;
- b the term ‘Minimum Capital Requirement’ in Articles 71, 73 and 77 of this Regulation shall mean both the Minimum Capital Requirement of the undertaking that has issued the own-fund item and one of the following minimums:
 - (i) where method 1 is used, the minimum for the group Solvency Capital Requirement as calculated in accordance with the second subparagraph of [^{F22}rule 11.3 of the Group Supervision part of the PRA Rulebook],
 - (ii) where a combination of methods 1 and 2 is used, the minimum determined in accordance with Article 341 of this Regulation.

3 For the purposes of this Article, the term ‘insurance or reinsurance undertaking’ in Title I, Chapter IV, Section 2 shall mean both the participating insurance or reinsurance undertaking and the insurance or reinsurance undertaking belonging to the group that has issued the own-fund item.

4 Notwithstanding paragraph 1, where a related insurance or reinsurance undertaking has included in Tier 2 an own-fund item which would qualify for inclusion in Tier 1 in accordance with Article 73(1)(j), that classification shall not prohibit the classification of the same own-fund item in Tier 1 at group level, provided that the limit set out in Article 82(3) are complied with at group level.

the group is exposed; the application shall demonstrate that the consolidated group Solvency Capital Requirement calculated using a combination of the internal model and the standard formula will adequately reflect the overall risk profile of the group;

- (iv) for each related undertaking included in the scope of the internal model for the calculation of the consolidated group Solvency Capital Requirement, a justification of the reasons why the internal model covers a related undertaking for the calculation of the consolidated group Solvency Capital Requirement but it is not used to calculate the Solvency Capital Requirement of that related undertaking; for this purpose and in order to justify that an application is not submitted [^{F51}under regulation 49 of the Solvency 2 Regulations 2015], the application shall include an explanation of how the internal model used to calculate the consolidated group Solvency Capital Requirement differs from and interacts with an internal model used for the calculation of the Solvency Capital Requirement of any of the related insurance or reinsurance undertakings previously approved by its supervisory authority; the participating undertaking shall provide information on any future plans to extend the use of the internal model to calculate the Solvency Capital Requirement of any related insurance or reinsurance undertaking;
- b regarding the group's capital requirements:
- (i) an estimation of the consolidated group Solvency Capital Requirement calculated with the internal model and with the standard formula for the last time prior to the application when the consolidated group Solvency Capital Requirement was calculated with the standard formula;
 - (ii) for each related undertaking, the Solvency Capital Requirement calculated with the standard formula for the last point in time prior to the application;
 - (iii) where applicable, the regulatory capital requirement for related undertakings that are also regulated undertakings, other than insurance and reinsurance undertakings, included in the scope of the internal model for the last time prior to the application when the consolidated group Solvency Capital Requirement was calculated with the standard formula;
 - (iv) an explanation of the difference between the sum of the Solvency Capital Requirements of all the related insurance and reinsurance undertakings of the group and the consolidated group Solvency Capital Requirement calculated with the internal model.

In case an application is submitted before any Solvency Capital Requirement must be calculated, the Solvency Capital Requirements referred to in points (i), (ii) and (iii) shall be calculated for a point in time before the date of the submission of the application.

Use of a group internal model

Article 347

Application to use a group internal model

1 For the purposes of this Section, ‘group internal model’ shall mean an internal model used to calculate the consolidated group Solvency Capital Requirement as well as the Solvency Capital Requirement of an insurance or reinsurance undertaking in the group, as referred to in Article 231(1) of Directive 2009/138/EC.

2 An application to use a group internal model shall be provided in writing ^{F60}....

^{F61}3

^{F61}4

^{F61}5

6 An application to use a group internal model shall include the following documents and information, where applicable:

- a the documents and information required in accordance with Article 343(5) in relation to the use of an internal model for the calculation of the consolidated group Solvency Capital Requirement; in relation to Article 343(5)(a)(i), the documentation shall also include a list of all the insurance and reinsurance undertakings applying for the use of the group internal model to calculate their Solvency Capital Requirement.
- b the documents required in accordance with Title I, Chapter VI, Section 4, Sub-section 3 of Directive 2009/138/EC in relation to the use of an internal model for the calculation of the Solvency Capital Requirement of each insurance and reinsurance undertaking in the group applying for the use of the group internal model to calculate their Solvency Capital Requirement; for this purpose, the insurance or reinsurance undertaking may restrict these documents to those whose content is not already covered in the documents submitted by the participating insurance or reinsurance undertaking in accordance with point (a).

SECTION 2

Reporting on risk concentrations and intragroup transactions

Article 376

Significant risk concentrations (definition, identification and thresholds)

1 Participating insurance and reinsurance undertakings, insurance holding companies or mixed financial holding companies shall consider risk concentrations that could threaten the group solvency or liquidity position as significant risk concentrations.

2 For the purposes of identifying significant risk concentrations, participating insurance and reinsurance undertakings, insurance holding companies or mixed financial holding companies shall consider, at least, direct and indirect exposures of undertakings in the group to all of the following:

- a individual counterparties;
- b groups of individual but interconnected counterparties, for example undertakings within the same corporate group;
- c specific geographical areas or industry sectors;
- d natural disasters or catastrophes.

3 When determining appropriate thresholds in a particular group for significant risk concentrations to be reported, the group supervisor shall consider the following elements:

- a the solvency and liquidity position of the group;
- b the complexity of the structure of the group;
- c the importance of regulated entities from other financial sectors or non-regulated entities carrying out financial activities;
- d the diversification of the group's investments portfolio;
- e the diversification of the group's insurance activities, in terms of geographical areas and lines of business.

Article 377

Significant intragroup transactions (definition, identification)

1 Participating insurance and reinsurance undertakings, insurance holding companies or mixed financial holding companies shall consider as significant intragroup transactions the intragroup transactions that materially influence the solvency or liquidity position of the group or of one of the undertakings involved in these transactions.

2 For the purposes of identifying significant intragroup transactions, participating insurance and reinsurance undertakings, insurance holding companies or mixed financial holding companies shall consider at least all of the following:

- a investments;
- b intercompany balances, including loans, receivables and arrangements to centralise the management of assets or cash;
- c guarantees and commitments such as letters of credit;
- d derivative transactions;
- e dividends, coupons, and other interest payments;
- f reinsurance operations;
- g provision of services or agreements to share costs;
- h purchase, sale or lease of assets.
