CORRIGENDUM

(Official Journal of the European Union L 294 of 28 October 2016)

for: ‘The term “diluted colour C” means the colour of a product, as determined by the ISO 2049 method (equivalent to the ASTM D 1500 method), after one part of such product has been mixed with 100 parts by volume of xylene, toluene or another suitable solvent. The colour must be determined immediately after dilution.’,

read: ‘The term “diluted colour C” means the colour of a product, as determined by the ISO 2049 method (equivalent to the ASTM D 1500 method), after one part of the product has been made up to 100 parts by volume with xylene, toluene or another suitable solvent. The colour must be determined immediately after dilution.’.
