The base prospectus

1 For non-equity securities, including warrants in any form, the prospectus may, at the choice of the issuer, offeror or person asking for the admission to trading on a regulated market, consist of a base prospectus containing the necessary information concerning the issuer and the securities offered to the public or to be admitted to trading on a regulated market.

2 A base prospectus shall include the following information:

- a a template, entitled 'form of the final terms', to be filled out for each individual issue and indicating the available options with regard to the information to be determined in the final terms of the offer;
- b the address of the website where the final terms will be published.

3 Where a base prospectus contains options with regard to the information required by the relevant securities note, the final terms shall determine which of the options is applicable to the individual issue by referring to the relevant sections of the base prospectus or by replicating such information.

4 The final terms shall be presented in the form of a separate document or shall be included in the base prospectus or in any supplement thereto. The final terms shall be prepared in an easily analysable and comprehensible form.

The final terms shall only contain information that relates to the securities note and shall not be used to supplement the base prospectus. Point (b) of Article 17(1) shall apply in such cases.

5 Where the final terms are neither included in the base prospectus, nor in a supplement, the issuer shall make them available to the public in accordance with the arrangements set out in Article 21 and file them with the competent authority of the home Member State, as soon as practicable upon offering securities to the public and, where possible, before the beginning of the offer of securities to the public or admission to trading on a regulated market.

A clear and prominent statement shall be inserted in the final terms indicating:

- a that the final terms have been prepared for the purpose of this Regulation and must be read in conjunction with the base prospectus and any supplement thereto in order to obtain all the relevant information;
- b where the base prospectus and any supplement thereto are published in accordance with the arrangements set out in Article 21;
- c that a summary of the individual issue is annexed to the final terms.

6 A base prospectus may be drawn up as a single document or as separate documents.

Where the issuer, the offeror or the person asking for admission to trading on a regulated market has filed a registration document for non-equity securities, or a universal registration document in accordance with Article 9, and chooses to draw up a base prospectus, the base prospectus shall consist of the following:

- a the information contained in the registration document, or in the universal registration document;
- b the information which would otherwise be contained in the relevant securities note, with the exception of the final terms where the final terms are not included in the base prospectus.

Changes to legislation: There are outstanding changes not yet made to Regulation (EU) 2017/1129 of the European Parliament and of the Council. 7 The specific information on each of the different securities included in a base prospectus shall be clearly segregated.

8 A summary shall only be drawn up once the final terms are included in the base prospectus, or in a supplement, or are filed, and that summary shall be specific to the individual issue.

9 The summary of the individual issue shall be subject to the same requirements as the final terms, as set out in this Article, and shall be annexed to them.

The summary of the individual issue shall comply with Article 7 and shall provide the following:

- a the key information in the base prospectus, including the key information on the issuer;
- b the key information in the appropriate final terms, including the key information which was not included in the base prospectus.

Where the final terms relate to several securities which differ only in some very limited details, such as the issue price or maturity date, a single summary of the individual issue may be attached for all those securities, provided the information referring to the different securities is clearly segregated.

10 The information contained in the base prospectus shall, where necessary, be supplemented in accordance with Article 23.

11 An offer of securities to the public may continue after the expiration of the base prospectus under which it was commenced provided that a succeeding base prospectus is approved and published no later than the last day of validity of the previous base prospectus. The final terms of such an offer shall contain a prominent warning on their first page indicating the last day of validity of the previous base prospectus and where the succeeding base prospectus will be published. The succeeding base prospectus shall include or incorporate by reference the form of the final terms from the initial base prospectus and refer to the final terms that are relevant for the continuing offer.

A right of withdrawal pursuant to Article 23(2) shall also apply to investors who have agreed to purchase or subscribe for the securities during the validity period of the previous base prospectus, unless the securities have already been delivered to them.

Article 9

The universal registration document

1 Any issuer whose securities are admitted to trading on a regulated market or an MTF may draw up every financial year a registration document in the form of a universal registration document describing the company's organisation, business, financial position, earnings and prospects, governance and shareholding structure.

2 Any issuer that chooses to draw up a universal registration document every financial year shall submit it for approval to the competent authority of its home Member State in accordance with the procedure set out in Article 20(2) and (4).

After the issuer has had a universal registration document approved by the competent authority for two consecutive financial years, subsequent universal registration documents may be filed with the competent authority without prior approval.

Where the issuer thereafter fails to file a universal registration document for one financial year, the benefit of filing without prior approval shall be lost and all subsequent

universal registration documents shall be submitted to the competent authority for approval until the condition set out in the second subparagraph is met again.

The issuer shall indicate in its application to the competent authority whether the universal registration document is submitted for approval or filed without prior approval.

Where the issuer referred to in the second subparagraph of this paragraph requests the notification of its universal registration document pursuant to Article 26, it shall submit its universal registration document for approval, including any amendments thereto which were previously filed.

3 Issuers which, prior to 21 July 2019, have had a registration document, drawn up in accordance with Annex I to Commission Regulation (EC) No 809/2004⁽¹⁾, approved by a competent authority for at least two consecutive financial years and have thereafter filed, in accordance with Article 12(3) of Directive 2003/71/EC, or got approved such a registration document every year, shall be allowed to file a universal registration document without prior approval in accordance with the second subparagraph of paragraph 2 of this Article from 21 July 2019.

4 Once approved or filed without prior approval, the universal registration document, as well as the amendments thereto referred to in paragraphs 7 and 9 of this Article, shall be made available to the public without undue delay, in accordance with the arrangements set out in Article 21.

5 The universal registration document shall comply with the language requirements laid down in Article 27.

6 Information may be incorporated by reference into a universal registration document under the conditions set out in Article 19.

7 Following the filing or approval of a universal registration document, the issuer may at any time update the information it contains by filing an amendment thereto with the competent authority. Subject to the first and second subparagraphs of Article 10(3), the filing of the amendment with the competent authority shall not require approval.

8 The competent authority may at any time review the content of any universal registration document which has been filed without prior approval, as well as the content of any amendments thereto.

The review by the competent authority shall consist in scrutinising the completeness, the consistency and the comprehensibility of the information given in the universal registration document and any amendments thereto.

9 Where the competent authority, in the course of the review, finds that the universal registration document does not meet the standards of completeness, comprehensibility and consistency, or that amendments or supplementary information are needed, it shall notify it to the issuer.

A request for amendment or supplementary information addressed by the competent authority to the issuer needs only be taken into account by the issuer in the next universal registration document filed for the following financial year, except where the issuer wishes to use the universal registration document as a constituent part of a prospectus submitted for approval. In that case, the issuer shall file an amendment to the universal registration document at the latest upon submission of the application referred to in Article 20(6).

Changes to legislation: There are outstanding changes not yet made to Regulation (EU) 2017/1129 of the European Parliament and of the Council. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

By way of derogation from the second subparagraph, where the competent authority notifies the issuer that its request for amendment or supplementary information concerns a material omission or a material mistake or material inaccuracy, which is likely to mislead the public with regard to facts and circumstances essential for an informed assessment of the issuer, the issuer shall file an amendment to the universal registration document without undue delay.

The competent authority may request that the issuer produces a consolidated version of the amended universal registration document, where such a consolidated version is necessary to ensure comprehensibility of the information provided in that document. An issuer may voluntarily include a consolidated version of its amended universal registration document in an annex to the amendment.

10 Paragraphs 7 and 9 shall only apply where the universal registration document is not in use as a constituent part of a prospectus. Whenever a universal registration document is in use as a constituent part of a prospectus, only Article 23 on supplementing the prospectus shall apply between the time when the prospectus is approved and the final closing of the offer of securities to the public or, as the case may be, the time when trading on a regulated market begins, whichever occurs later.

11 An issuer fulfilling the conditions set out in the first or second subparagraph of paragraph 2 or in paragraph 3 of this Article shall have the status of frequent issuer and shall benefit from the faster approval process in accordance with Article 20(6), provided that:

- a upon the filing or submission for approval of each universal registration document, the issuer provides written confirmation to the competent authority that, to the best of its knowledge, all regulated information which it was required to disclose under Directive 2004/109/EC, if applicable, and under Regulation (EU) No 596/2014 has been filed and published in accordance with those acts over the last 18 months or over the period since the obligation to disclose regulated information commenced, whichever is the shorter; and
- b where the competent authority has undertaken a review as referred to in paragraph 8, the issuer has amended its universal registration document in accordance with paragraph 9.

Where any of the above conditions is not fulfilled by the issuer, the status of frequent issuer shall be lost.

12 Where the universal registration document filed with or approved by the competent authority is made public at the latest four months after the end of the financial year, and contains the information required to be disclosed in the annual financial report referred to in Article 4 of Directive 2004/109/EC, the issuer shall be deemed to have fulfilled its obligation to publish the annual financial report required under that Article.

Where the universal registration document, or an amendment thereto, is filed or approved by the competent authority and made public at the latest three months after the end of the first six months of the financial year, and contains the information required to be disclosed in the half-yearly financial report referred to in Article 5 of Directive 2004/109/EC, the issuer shall be deemed to have fulfilled its obligation to publish the half-yearly financial report required under that Article.

In the cases referred to in the first and second subparagraph, the issuer:

- a shall include in the universal registration document a cross reference list identifying where each item required in the annual and half-yearly financial reports can be found in the universal registration document;
- b shall file the universal registration document in accordance with Article 19(1) of Directive 2004/109/EC and make it available to the officially appointed mechanism referred to in Article 21(2) of that Directive;

Changes to legislation: There are outstanding changes not yet made to Regulation (EU) 2017/1129 of the European Parliament and of the Council. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

- c shall include in the universal registration document a responsibility statement using the terms required under point (c) of Article 4(2) and point (c) of Article 5(2) of Directive 2004/109/EC.

13 Paragraph 12 shall only apply where the home Member State of the issuer for the purposes of this Regulation is also the home Member State for the purposes of Directive 2004/109/EC, and where the language of the universal registration document fulfils the conditions set out in Article 20 of that Directive.

14 The Commission shall, by 21 January 2019, adopt delegated acts in accordance with Article 44 to supplement this Regulation by specifying the criteria for the scrutiny and review of the universal registration document and any amendments thereto, and the procedures for the approval and filing of those documents as well as the conditions under which the status of frequent issuer is lost.

Article 10

Prospectuses consisting of separate documents

1 An issuer that has already had a registration document approved by a competent authority shall be required to draw up only the securities note and the summary, where applicable, when securities are offered to the public or admitted to trading on a regulated market. In that case, the securities note and the summary shall be subject to a separate approval.

Where, since the approval of the registration document, there has been a significant new factor, material mistake or material inaccuracy relating to the information included in the registration document which is capable of affecting the assessment of the securities, a supplement to the registration document shall be submitted for approval, at the latest at the same time as the securities note and the summary. The right to withdraw acceptances in accordance with Article 23(2) shall not apply in that case.

The registration document and its supplement, where applicable, accompanied by the securities note and the summary shall constitute a prospectus, once approved by the competent authority.

2 Once approved, the registration document shall be made available to the public without undue delay and in accordance with the arrangements set out in Article 21.

3 An issuer that has already had a universal registration document approved by the competent authority, or that has filed a universal registration document without prior approval pursuant to the second subparagraph of Article 9(2), shall be required to draw up only the securities note and the summary when securities are offered to the public or admitted to trading on a regulated market.

Where the universal registration document has already been approved, the securities note, the summary and all amendments to the universal registration document filed since the approval of the universal registration document shall be subject to a separate approval.

Where an issuer has filed a universal registration document without prior approval, the entire documentation, including amendments to the universal registration document, shall be subject to approval, notwithstanding the fact that those documents remain separate.

Changes to legislation: There are outstanding changes not yet made to Regulation (EU) 2017/1129 of the European Parliament and of the Council. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

However, Member States shall ensure that no civil liability shall attach to any person solely on the basis of the summary pursuant to Article 7 or the specific summary of an EU Growth prospectus pursuant to the second subparagraph of Article 15(1), including any translation thereof, unless:

- a it is misleading, inaccurate or inconsistent, when read together with the other parts of the prospectus; or
- b it does not provide, when read together with the other parts of the prospectus, key information in order to aid investors when considering whether to invest in the securities.

3 The responsibility for the information given in a registration document or in a universal registration document shall attach to the persons referred to in paragraph 1 only in cases where the registration document or the universal registration document is in use as a constituent part of an approved prospectus.

The first subparagraph shall apply without prejudice to Articles 4 and 5 of Directive 2004/109/EC where the information under those Articles is included in a universal registration document.

Article 12

Where a prospectus consists of separate documents, the period of validity shall begin upon approval of the securities note.

2 A registration document which has been previously approved shall be valid for use as a constituent part of a prospectus for 12 months after its approval.
