COMMISSION DELEGATED REGULATION (EU) 2017/891

of 13 March 2017

supplementing Regulation (EU) No 1308/2013 of the European Parliament and of the Council with regard to the fruit and vegetables and processed fruit and vegetables sectors and supplementing Regulation (EU) No 1306/2013 of the European Parliament and of the Council with regard to penalties to be applied in those sectors and amending Commission Implementing Regulation (EU) No 543/2011

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007⁽¹⁾, and in particular Article 37(a)(i), (ii), (iii) and (vi), (b), (c), (d)(i), (iii) to (vi), (viii), (x), (xi) and (xii) and (e)(i), Article 173(1)(b), (c), (d) and (f) to (j), Article 181(2), Article 223(2)(a) and Article 231(1) thereof,

Having regard to Regulation (EU) No 1306/2013 of the European Parliament and of the Council of 17 December 2013 on the financing, management and monitoring of the common agricultural policy and repealing Council Regulations (EEC) No 352/78, (EC) No 165/94, (EC) No 2799/98, (EC) No 814/2000, (EC) No 1290/2005 and (EC) No 485/2008⁽²⁾, and in particular Articles 62(1) and 64(6)(a) thereof,

Whereas:

- (1) Regulation (EU) No 1308/2013 has replaced Council Regulation (EC) No 1234/2007⁽³⁾ and lays down new rules concerning the fruit and vegetables and processed fruit and vegetables sectors. It also empowers the Commission to adopt delegated and implementing acts in that respect. Those acts should replace the corresponding provisions of Commission Implementing Regulation (EU) No 543/2011⁽⁴⁾.
- (2) In order to strengthen the bargaining power of fruit and vegetables producers and to foster a fairer distribution of added value along the supply chain, the recognition of producer organisations and their associations should be encouraged. This has to be achieved while respecting national legal and administrative structures.
- (3) Provisions for the recognition of producer organisations in respect of the products they request should be laid down. Where the recognition is requested for products intended

solely for processing, it should be ensured that they are indeed delivered for processing. Producer organisations should have at their disposal the structures necessary to ensure their functioning. Moreover, to implement an operational programme, producer organisations should be required to achieve a minimum value of marketed production, which should be laid down by the Member State in order to ensure efficiency of the support received and thereby help strengthen the bargaining power of the fruit and vegetable producers.

- (4) In order to help achieve the goals of the fruit and vegetables regime and to ensure that producer organisations carry out their work in a sustainable and effective way, there needs to be stability within producer organisations. Membership of producer organisation should therefore be for a minimum period. It should be left to Member States to lay down the notice periods and the dates on which resignation from membership can take effect.
- (5) Where a producer organisation is recognised for a product for which the provision of technical means is required, it should be allowed to provide those means through its members, through subsidiaries, through an association of producer organisations of which it is a member or by outsourcing.
- (6) The main and essential activities of a producer organisation should relate to the concentration of supply and the placing on the market of their products so that the bargaining power of fruit and vegetables producers is strengthened and a fairer distribution of the resulting benefits along the supply chain is achieved. However, producer organisations should be allowed to engage in other activities, whether or not of a commercial nature. Cooperation between producer organisations should be encouraged and in that regard producer organisations should be allowed to market fruit and vegetables bought exclusively from another recognised producer organisation provided the value of this produce is left out of the calculations of value of the marketed production both for the purposes of the main activity and for other activities.
- (7) Although the main activity of a producer organisation is the concentration of supply and the placing on the market of the products of its members for which it is recognised, in some cases the producer members should be allowed to sell a certain percentage of their production outside the producer organisation where the producer organisation so authorises and where this is in compliance with the terms and conditions of the Member State and the producer organisation. The total percentage of sales outside the producer organisation should not exceed a maximum threshold.
- (8) Provisions regarding outsourcing where the activities are outsourced to entities closely related to the producer organisations should be further specified.
- (9) In order to facilitate the concentration of supply, the merger of existing producer organisations to form new ones should be encouraged by providing rules for the merger of the operational programmes of the merged organisations.
- (10) While respecting the principles whereby a producer organisation must be formed on the initiative of producers themselves and scrutinised by the producers, it should be left to Member States to lay down the conditions under which other natural or legal persons

may be accepted as members of a producer organisation or an association of producer organisations.

- (11) In order to ensure that producer organisations genuinely represent a minimum number of producers, Member States should take measures to ensure that a minority of members who may account for the bulk of production or the shares or capital in the producer organisation do not unduly dominate its management and operation. Democratic accountability is already ensured where entities have a legal form requiring it under national legislation before they are recognised as a producer organisation. In other cases, Member States should set a maximum percentage of voting rights or shareholdings and carry out relevant checks.
- (12) Rules should be laid down on the recognition and functioning of associations of producer organisations, transnational producer organisations and transnational associations of producer organisations. For the sake of consistency, they should, as far as possible, reflect the rules laid down for producer organisations.
- (13) To facilitate the use of the scheme of support to operational programmes, the value of marketed production of producer organisations should be clearly defined, including rules on which products may be taken into account and the marketing stage at which the value of production is to be calculated. For control purposes and for the sake of simplification, it is appropriate to use a flat rate for the purpose of calculating the value of fruit and vegetables intended for processing. This flat rate should be calculated on the basis of the value of the basic product, namely the fruit and vegetables intended for processing, to which is added the value of only those activities which are not genuine processing activities. Since the volumes of fruit and vegetables needed for the production of processed fruit and vegetables differ largely between groups of products, those differences should be reflected in the applicable flat rates. In the case of fruit and vegetables intended for processing that are transformed into processed aromatic herbs and paprika powder, it is also appropriate to introduce a flat rate for the purpose of calculating the value of fruit and vegetables intended for processing, which represents the value of the basic product only. The method of calculation of the value of marketed production should attenuate yearly fluctuations or insufficient data and avoid double counting, in particular in the case of transnational producer organisations and their associations. To prevent misuse of the scheme, producer organisations should not be permitted in general to change the methodology for fixing the reference period within the duration of a programme.
- (14) Producer organisations may hold shares or capital in subsidiaries which help to increase the added value of the production of their members. Rules should be fixed for calculating the value of such marketed production. The main activities of such subsidiaries should be the same as those of the producer organisation.
- (15) To ensure the correct use of aid, rules should be laid down for the management and bookkeeping of operational funds and members' financial contributions, allowing for as much flexibility as possible on condition that all producers may take advantage of the operational fund and may democratically participate in decisions on its use.

*Changes to legislation: There are currently no known outstanding effects for the
Commission Delegated Regulation (EU) 2017/891. (See end of Document for details)*

- (16) Provisions should be laid down establishing the scope and structure of the national strategy for sustainable operational programmes and the national framework for environmental actions. The aim should be to optimise the allocation of financial resources and to improve the quality of the strategy. Provisions should also be laid down to avoid double funding of the same action by other support schemes such as rural development or promotion programmes.
- (17) For reasons of financial security and legal certainty, a list of operations and expenditure which may not be covered and a non-exhaustive list of operations which may be covered by operational programmes should be drawn up. Provisions regarding eligible expenditure, the use of flat-rates and scales of unit costs as well as investments should be laid down. Article 33 of Regulation (EU) No 1308/2013 establishes a number of objectives for operational programmes including objectives concerning the products produced both in fresh and in processed form. With a view to ensuring that those objectives are achieved, it is appropriate that the conditions under which actions related to the transformation of fruit and vegetables into processed fruit and vegetables may be eligible for support should be laid down. In respect of investments implemented on individual holdings, provisions for the recovery of the residual value should be laid down for cases where a member resigns from the producer organisation.
- (18) Although operational programmes of associations of producer organisations are to be subject to the same rules as operational programmes of producer organisations, some requirements should be applied at the level of the member producer organisations.
- (19) In order to allow appropriate evaluation of the information by the competent authorities and measures and actions to be included in, or excluded from, the programmes, procedures for the presentation and approval of operational programmes, including deadlines, should be laid down. Since the programmes are managed on an annual basis, it should be provided that programmes not approved before a given date are postponed for a year.
- (20) There should be a procedure for the amendment of operational programmes for subsequent years, so that they can be adjusted to take account of any new conditions which could not have been foreseen when they were initially presented. In addition, it should be possible for measures and amounts of the operational fund to be changed during the year of execution of a programme. To ensure that the approved programmes maintain their overall objectives, all such changes should be subject to certain limits and conditions to be defined by Member States and to obligatory notification of changes to the competent authorities.
- (21) To prevent cash-flow difficulties, a system of advance payments accompanied by appropriate securities should be available to producer organisations. In case of a cessation of an operational programme or of withdrawal of recognition, be it voluntary or compulsory, or of dissolution of a producer organisation, it has to be ensured that the aims for which aid has been paid have been attained, otherwise the aid paid should be reimbursed to the European Agricultural Guarantee Fund.

- (22) The production of fruit and vegetables is unpredictable and the products are perishable. Surplus on the market, even if it is not too large, can significantly disturb the market. Rules on the scope and application of crisis management and prevention measures in respect of the products referred to in Article 1(2)(i) of Regulation (EU) No 1308/2013 should therefore be laid down. As far as possible, those rules should provide for flexibility and for rapid application in crises and therefore should allow decisions to be taken by Member States and producer organisations themselves. Nevertheless, those rules should guard against abuse of Union financial assistance and should therefore provide for limits on the use of certain measures, including in financial terms. They should also ensure that phytosanitary and environmental requirements are duly respected.
- (23) As regards withdrawals from the market, rules should be adopted taking into account the potential importance of that measure. In particular, rules should be laid down providing for a system of increased support for fruit and vegetables withdrawn from the market which are distributed free of charge as humanitarian aid by charitable organisations and certain other establishments and institutions. In order to facilitate free distribution, it is appropriate to provide for the possibility which allows charitable organisations and institutions to request a symbolic contribution from the final recipients of the withdrawn products. In addition, maximum levels of support for market withdrawals should be fixed in order to ensure that withdrawals do not become a permanent alternative outlet for products compared to placing them on the market. In this context, it is appropriate to continue using common levels of support for the main products. For other products, where experience has not yet shown any risk of excessive withdrawals, it is appropriate to fix maximum levels of support as a percentage of the average of recorded prices in each Member State. In all cases, however, for similar reasons, it is appropriate to set a quantitative limit of withdrawals per product per producer organisation.
- (24) On the basis of past experience, the provisions on green harvesting and non-harvesting should be further elaborated. Similarly, the provisions on support for the administrative costs of setting up mutual funds and replanting of orchards following mandatory grubbing-up should be simplified.
- (25) Rules should be adopted concerning the national financial assistance that Member States may grant in regions of the Union where the degree of organisation of producers is particularly low, including rules on how the degree of organisation is calculated and a low degree of organisation is confirmed. Those rules should reflect those currently applicable.
- (26) Support to producer groups has become part of the rural development policy under Regulation (EU) No 1305/2013 of the European Parliament and of the Council⁽⁶⁾, but rules on notifications regarding producer groups formed pursuant to Article 125e of Regulation (EC) No 1234/2007 that are necessary to implement the provisions of the aid scheme should be maintained in this Regulation.
- (27) Provisions concerning the type, format and means of notifications necessary to implement this Regulation should be laid down. Those provisions should include notifications from producers and producer organisations to the Member States and from

Changes to legislation: There are currently no known outstanding effects for the Commission Delegated Regulation (EU) 2017/891. (See end of Document for details)

the Member States to the Commission. Past experience regarding the data recorded allows for some simplification on the number and frequency of the data requested.

- (28) Provision should be made for appropriate monitoring and evaluation of ongoing programmes and schemes in order to assess their effectiveness and efficiency by both producer organisations and Member States. It is possible to reduce the number and detail of the current requirements without affecting the quality of the assessment.
- (29) Measures should be laid down as regards the appropriate administrative penalties applicable where irregularities are found. Those measures should involve both specific checks and administrative penalties laid down at Union level as well as additional national checks and administrative penalties.
- (30) Procedural provisions should be adopted concerning the conditions under which the rules issued by producer organisations, associations of producer organisations and interbranch organisations in the fruit and vegetables sector may be extended to all operators established in a specific economic area. In respect of produce sold on the tree it should be made clear which rules are to be extended to the producers and the buyers, respectively.
- (31) Rules concerning the entry price system for fruit and vegetables should be adopted. The fact that most of the perishable fruit and vegetables concerned are supplied on consignment creates special difficulties for determining their value. The possible methods for the calculation of the entry price on the basis of which imported products are classified in the common customs tariff should be set. There should also be rules for the provision of a guarantee in certain circumstances to ensure that the system is correctly applied.
- (32) Provisions concerning notification of prices and quantities of products imported need to be laid down to ensure that the necessary information reaches the Commission in a timely and coherent manner. Rules on the notification of cases of *force majeure* need to be provided for to address the consequences of such situations.
- (33) For reasons of clarity and legal certainty, the provisions of Implementing Regulation (EU) No 543/2011 that are replaced by this Delegated Regulation and Commission Implementing Regulation (EU) 2017/892⁽⁶⁾ should be deleted. The provisions of Implementing Regulation (EU) No 543/2011 on marketing standards should be maintained until they are replaced. Provisions concerning producer groups formed pursuant to Article 125e of Regulation (EC) No 1234/2007 directly should be maintained, while some other Articles concerning them indirectly should continue to apply until the end of the implementation of their recognition plan and their recognition as producer organisation.
- (34) Transitional provisions should be laid down in order to ensure a smooth transition from the former requirements to the new ones. Producer organisations should have the possibility to finalise the ongoing operational programmes under the previous rules.
- (35) This Regulation should enter into force on and apply from the seventh day following that of its publication in the *Official Journal of the European Union*,

For the purposes of Article 154(1)(c) of Regulation (EU) No 1308/2013 and Article 7(b) of this Regulation, a producer organisation which is recognised for a product for which the provision of technical means is necessary, shall be considered to fulfil its obligation in that regard, where it provides an adequate level of technical means itself or through its members, or through subsidiaries, or through an association of producer organisations of which it is a member or by outsourcing.

Article 11

Producer organisations' main activities

1 The main activity of a producer organisation shall relate to the concentration of supply and the placing on the market of the products of its members for which it is recognised.

The placing on the market referred to in the first subparagraph shall be carried out by the producer organisation, or under the control of the producer organisation in the case of outsourcing as set out in Article 13. Placing on the market shall include among others the decision on the product to be sold, the way of selling and unless the sale is by means of auction, the negotiation of its quantity and price.

However, [^{F25}nothing in this Regulation prevents the Secretary of State from setting] a lower percentage of the production that the producer members may market outside the producer organisation than the one set out in the first subparagraph. [^{F26}Nothing in this Regulation prevents the Secretary of State from increasing] that percentage up to 40 % in case of products covered by Council Regulation (EC) No 834/2007⁽⁷⁾ or where producer members market their production through another producer organisation designated by their own producer organisation.]

CHAPTER II

Operational funds and operational programmes

Section 1

Value of marketed production

Article 22

Basis for calculation

1 [F56] Except to the extent that this Article and Article 23 provide otherwise, the] value of marketed production for a producer organisation shall be calculated on the basis of the production of the producer organisation itself and its producer members, and shall only include the production of those fruit and vegetables for which the producer organisation is recognised. The value of marketed production may include fruit and vegetables that are not required to conform to the marketing standards, where those standards do not apply.

Changes to legislation: There are currently no known outstanding effects for the Commission Delegated Regulation (EU) 2017/891. (See end of Document for details)

[^{F57}Except to the extent that this Article and Article 23 provide otherwise, the] value of marketed production for an association of producer organisations shall be calculated on the basis of the production marketed by the association of producer organisations itself and by its member producer organisations, and shall only include the production of those fruit and vegetables for which the association of producer organisations is recognised. In making this calculation duplicate counting shall be avoided.

2 The value of the marketed production shall not include the value of processed fruit and vegetables or any other product that is not a product of the fruit and vegetables sector.

However, the value of the marketed production of fruit and vegetables intended for processing, which have been transformed into one of the processed fruit and vegetable products listed in Part X of Annex I to Regulation (EU) No 1308/2013 or any other processed product referred to in this Article and described further in Annex I to this Regulation, by either a producer organisation, an association of producer organisations or their producer members or subsidiaries complying with the 90 % requirement referred to in paragraph 8 of this Article, either by themselves or through outsourcing, shall be calculated as a flat rate in percentage applied to the invoiced value of those processed products. That flat rate shall be:

- a 53 % for fruit juices;
- b 73 % for concentrated juices;
- c 77 % for tomato concentrate;
- d 62 % for frozen fruit and vegetables;
- e 48 % for canned fruit and vegetables;
- f 70 % for canned mushrooms of the genus *Agaricus*;
- g 81 % for fruits provisionally preserved in brine;
- h 81 % for dried fruits;
- i 27 % for processed fruit and vegetables other than those referred to in points (a) to (h);
- j 12 % for processed aromatic herbs;
- k 41 % for paprika powder.

3 [^{F58}The Secretary of State] may allow producer organisations to include the value of the by-products in the value of marketed production.

^{F59}4

5 [^{F60}Except to the extent that this Article and Article 23 provide otherwise, only] the production of the producer organisation and its producer members which is marketed by that producer organisation shall be counted in the value of marketed production. The production of the producer members of the producer organisation marketed by another producer organisation designated by their own organisation shall be counted in the value of marketed production of the second producer organisation. Duplicate counting shall be avoided.

6 Except where paragraph 8 applies, the marketed production of fruit and vegetables shall be invoiced at the 'ex-producer organisation' stage as a product listed in Part IX of Annex I to Regulation (EU) No 1308/2013 that is prepared and packaged, excluding:

- a VAT;
- b costs of transport internal to the producer organisation, for the distance between the centralised collection or packing points of the producer organisation and the point of distribution of the producer organisation which exceeds 300 km.

7 The value of marketed production may also be calculated at the 'ex-association of producer organisation' stage and on the same basis as set out in paragraph 6.

Changes to legislation: There are currently no known outstanding effects for the Commission Delegated Regulation (EU) 2017/891. (See end of Document for details)

8 The value of marketed production may also be calculated at the ‘ex-subsi-dary’ stage, on the same basis as set out in paragraph 6, provided that at least 90 % of the shares or capital of the subsidiary is owned:

- a by one or more producer organisations or associations of producer organisations; or
- b subject to ^{F61}[approval by the Secretary of State], by producer members of the producer organisations or associations of producer organisations, if doing so contributes to the objectives listed in Article 152(1)(c) of Regulation (EU) No 1308/2013.

9 In case of outsourcing, the value of marketed production shall be calculated at the ‘ex-producer organisation’ stage and shall include the added economic value of the activity that has been outsourced by the producer organisation to its members, third parties or to another subsidiary than the one referred to in paragraph 8.

^{F23}10 Where a reduction in production occurs due to a natural disaster, climatic event, animal or plant diseases or pest infestations, any insurance indemnification received in respect of harvest insurance actions covered by Section 7 of Chapter III, or equivalent actions managed by the producer organisation or its producer members, due to those causes may be included in the value of marketed production.]

Article 31

Eligibility of actions under operational programmes

1 Operational programmes shall not include actions or expenditure listed in Annex II. A non-exhaustive list of eligible actions is set out in Annex III.

2 Expenditure under operational programmes eligible for aid shall be restricted to the actual costs incurred. ^{F97} ...

^{F98}3

4 In order for an action to be eligible, products for which the producer organisation is recognised shall account for more than 50 % of the value of the products covered by that action. In addition, the products concerned shall come from the producer organisation's members or producer members of another producer organisation or association of producer organisations. Articles 22 and 23 shall apply *mutatis mutandis* to the calculation of the value.

5 Investments in physical assets shall entail the following commitments:

- a without prejudice to paragraph 4, the physical assets acquired shall be used in accordance with their intended use, as described in the approved operational programme concerned;
- b without prejudice to the third and fourth subparagraphs of paragraph 6, the physical assets acquired shall remain both in the property and possession of the beneficiary until either the end of the fiscal depreciation period of the physical asset or for 10 years, whichever period is shorter. The beneficiary shall also ensure the maintenance of the physical asset during that period. However, where the investment is made on ground rented under particular ^{F99}property rules as they apply in the relevant constituent nation], the requirement of being in the property of the beneficiary may not apply provided that the investments have been in the possession of the beneficiary at least for the period required in the first sentence of this point;
- c where the producer organisation is the owner and the member of the producer organisation is the holder of the physical asset to which the investment relates, the producer organisation shall have access rights to that asset for the duration of the fiscal depreciation period.

However, for the purposes of point (b) of the first subparagraph, [F100the appropriate authority] may provide that a period different to that of the fiscal depreciation period shall apply. Such period shall be indicated and duly justified in [F101the strategy referred to in Article 36(2) of Regulation (EU) No 1308/2013] and cover at least the period referred to in Article 71(1) of Regulation (EU) No 1303/2013 of the European Parliament and of the Council⁽¹⁰⁾.

6 [F23]Investments, including those under leasing contracts, may be financed through the operational fund in one amount or in instalments that were approved in the operational programme.][F102The appropriate authority] may approve amendments to the operational programme providing for a new distribution of the instalments in duly justified cases.

If the fiscal depreciation period of an investment exceeds the length of the operational programme, it may be carried over to a subsequent operational programme.

Where investments are replaced, the residual value of the investments replaced shall be:

- a added to the operational fund of the producer organisation; or
- b subtracted from the cost of the replacement.

If the investment is sold before the end of the period referred to in paragraph 5 but it is not replaced, [F103any European Union] aid paid to finance the investment shall be recovered and reimbursed to the European Agricultural Guarantee Fund (EAGF) [F104and any aid paid to finance the investment from public funds shall be recovered by or on behalf of the relevant authority or authorities that provided the aid, in both cases] in proportion to the number of full years that remain until the end of the depreciation period referred to in point (b) of the first subparagraph of paragraph 5.

[F105]The obligations to recover any aid paid from public funds under the fourth subparagraph do not apply to investments that are financed under an operational programme implemented by an ex-transnational producer organisation, provided that:

- a the investment was financed under an operational programme that was being implemented by the ex-transnational producer organisation immediately before IP completion day; and
- b the investment was carried over to a subsequent operational programme because the fiscal depreciation period of the investment exceeded the length of the operational programme being implemented immediately before IP completion day.]

7 Actions, including investments, may be implemented on individual holdings or premises of producer members of the producer organisation, association of producer organisations or their subsidiaries complying with the 90 % requirement as referred to in Article 22(8), including where the actions are outsourced to members of the producer organisation or association of producer organisations, provided that they contribute to the objectives of the operational programme.

If the ^{F106}... member leaves the producer organisation, [F107the appropriate authority] shall ensure that the investment or its residual value is recovered by the producer organisation and in the latter case, added to the operational fund.

However, in duly justified circumstances, [F107the appropriate authority] may provide that the producer organisation shall not be required to recover the investment or its residual value.

8 Actions, including investments, related to the transformation of fruit and vegetables into processed fruit and vegetables may be eligible for support where such actions and investments pursue the objectives set out in Article 33(1) of Regulation (EU) No 1308/2013,

Changes to legislation: There are currently no known outstanding effects for the Commission Delegated Regulation (EU) 2017/891. (See end of Document for details)

including those referred to in Article 160 of that Regulation, and provided that they are identified in the ^{F108}... strategy referred to in Article 36 of Regulation (EU) No 1308/2013.

9 Investments in intangible assets may be eligible for support where such investments pursue the objectives set out in Article 33(1) of Regulation (EU) No 1308/2013, including those referred to in Article 160 of that Regulation, and provided that they are identified in the ^{F109}... strategy referred to in Article 36 of Regulation (EU) No 1308/2013.

Administrative penalties

Article 59

Non-respect of recognition criteria

1 If [^{F171}the Secretary of State] has established that a producer organisation fails to respect one of the recognition criteria linked to the requirements of Articles 5 and 7, Article 11(1) and (2) and Article 17, [^{F172}the Secretary of State] shall send to the producer organisation in question no later than two months after the failure has been identified, by registered delivery, a warning letter stating the failure identified, the corrective measures required and the time periods within which these measures have to be taken, which shall not exceed four months. As from the moment a failure is established, [^{F173}the appropriate authority] shall suspend payments of aid until the corrective measures are taken to [^{F174}the Secretary of State's] satisfaction.

2 A failure to take the corrective measures referred to in paragraph 1 within the time period fixed by the [^{F175}Secretary of State] shall lead to the suspension of the recognition of the producer organisation. The [^{F175}Secretary of State] shall notify the producer organisation of the period of suspension, which shall start immediately after the expiry of the time period fixed for taking those corrective measures and shall not exceed 12 months from the date of the receipt of the warning letter by the producer organisation. This is without prejudice to the application of ^{F176}... legislation which may provide for the suspension of such an action following the commencement of connected legal proceedings.

Changes to legislation: There are currently no known outstanding effects for the Commission Delegated Regulation (EU) 2017/891. (See end of Document for details)

During the suspension of the recognition, the producer organisation may continue its activity, but aid payments shall be withheld until the suspension of the recognition is lifted. The yearly aid amount shall be reduced by 2 % for each calendar month or part thereof during which recognition is suspended.

The suspension shall end on the day of the check which confirms that the recognition criteria in question have been fulfilled.

3 If the criteria are not fulfilled by the end of the period of suspension set by the [^{F177}Secretary of State], the [^{F178}Secretary of State] shall withdraw the recognition with effect from the date from which the conditions for recognition were not fulfilled, or, if it is not possible to identify that date, from the date when the failure was established. This is without prejudice to the application of ^{F179}... legislation which may provide for the suspension of recognition following the commencement of connected legal proceedings. Outstanding aid concerning the period during which the failure has been identified shall not be paid and unduly paid aid shall be recovered.

4 If [^{F180}the Secretary of State] has established that a producer organisation fails to respect any of the recognition criteria laid down in Article 154 of Regulation (EU) No 1308/2013 other than those mentioned in paragraph 1, [^{F181}the Secretary of State] shall send to the producer organisation in question, no later than two months after the failure has been established, by registered delivery, a warning letter stating the failure identified, the corrective measures required and the time periods within which these measures have to be taken, which shall not exceed four months.

5 A failure to take the corrective measures referred to in paragraph 4 within the time period fixed by the [^{F182}Secretary of State] shall lead to a suspension of payments and a reduction of the yearly aid amount by 1 % for each calendar month, or part thereof, following the expiry of that time period. This is without prejudice to the application of ^{F183}... legislation which may provide for the suspension of such an action following the commencement of connected legal proceedings.

6 [^{F184}The Secretary of State] shall withdraw recognition if the producer organisation does not prove compliance with the minimum volume or value of marketed production criteria as required by Article 154(1)(b) of Regulation (EU) No 1308/2013 by 15 October of the second year following the year in which those criteria were not complied with. Withdrawal shall take effect from the date from which the conditions for recognition were not fulfilled, or, if it is not possible to identify that date, from the date when the failure was established. Outstanding aid concerning the period during which the failure has been identified shall not be paid and unduly paid aid shall be recovered.

However, when a producer organisation delivers to the [^{F185}Secretary of State] proof that due to natural disasters, adverse climatic events, diseases or pest infestations, despite having undertaken the risk prevention measures it is not able to respect the recognition criteria laid down in Article 154(1)(b) of Regulation (EU) No 1308/2013 in respect of the minimum volume or value of marketable production laid down by [^{F186}the Secretary of State], the [^{F185}Secretary of State] may, for the year in question, derogate from the minimum volume or value of marketable production for this producer organisation.

7 In cases where paragraphs 1, 2, 4 and 5 apply, [^{F187}the appropriate authorities] may make payments after the deadline set out in Article 10 of Implementing Regulation (EU) 2017/892. However, these payments shall not be made later than 15 October of the second year following the year of implementation of the programme.

8 Paragraphs 1 to 5 shall apply *mutatis mutandis* in cases of failure by a producer organisation to provide the [^{F188}appropriate authority] with the information required under Article 21 of Implementing Regulation (EU) 2017/892.

TRADE WITH THIRD COUNTRIES ENTRY PRICE SYSTEM

Article 73

Definitions

For the purposes of this Chapter:

- (a) ‘lot’ means the goods presented under a declaration of release for free circulation, covering only goods of the same origin falling within one single CN code; and
- (b) ‘importer’ means the declarant within the meaning of Article 5(15) of Regulation (EU) No 952/2013 of the European Parliament and of the Council⁽¹⁾.

Article 74

Notification of prices and quantities of products imported

1 For each product and for the periods set out in Part A of Annex VII, for each market day and origin, Member States shall notify the Commission, by 12.00 noon (Brussels time) the following working day, of:

- a the average representative prices of the products imported from third countries sold on Member States' import markets; and
- b the total quantities relating to the prices referred to in point (a).

For the purposes of point (a) of the first subparagraph, Member States shall notify the Commission of the import markets they consider representative and which shall include London, Milan, Perpignan and Rungis.

Where the total quantities referred to in point (b) of the first subparagraph are less than 10 tonnes, the corresponding prices shall not be notified to the Commission.

2 The prices referred to in point (a) of the first subparagraph of paragraph 1 shall be recorded:

- a for each of the products listed in Part A of Annex VII;
- b for all of the available varieties and sizes; and
- c at the importer/wholesaler stage or the wholesaler/retailer stage where no prices at the importer/wholesaler stage are available.

They shall be reduced by the following amounts:

- a a marketing margin of 15 % for the marketing centres of London, Milan and Rungis and of 8 % for other marketing centres; and
- b costs of transport and insurance within the customs territory of the Union.

For the costs of transport and insurance to be deducted pursuant to the second subparagraph, Member States may fix standard amounts for deduction. Such standard amounts and the methods for calculating them shall be notified to the Commission immediately.

3 The prices recorded in accordance with paragraph 2 shall, where they are established at the wholesale/retail stage, be reduced by:

- a an amount equal to 9 % to take in respect of the wholesaler's trade margin, and
 - b an amount equal to EUR 0,7245 per 100 kilograms in respect of the costs of handling and market taxes and charges.
- 4 For products listed in Part A of Annex VII covered by a specific marketing standard, the following prices shall be deemed to be representative:
- a prices of Class I products where the quantities in that class account for at least 50 % of the total quantities marketed;
 - b prices of Class I and Class II products where the quantities in those classes account for at least 50 % of the total quantities marketed;
 - c prices of Class II products, where Class I products are not available, unless it is decided to apply an adjustment coefficient to them if, as a result of their quality characteristics, those products are not normally marketed in Class I.

The adjustment coefficient referred to in point (c) of the first subparagraph shall be applied after deduction of the amounts referred to in paragraph 2.

For products listed in Part A of Annex VII that are not covered by a specific marketing standard, prices of products complying with the general marketing standard shall be deemed to be representative.

Article 75

Entry price basis

1 For the purposes of Article 181(1) of Regulation (EU) No 1308/2013, the products of the fruit and vegetables and processed fruit and vegetables sectors referred to in that Article shall be those listed in Annex VII to this Regulation.

2 When the customs value of the products listed in Part A of Annex VII is determined in accordance with the transaction value referred to in Article 70 of Regulation (EU) No 952/2013 and that customs value is higher by more than 8 % than the flat-rate calculated by the Commission as a standard import value at the time the declaration of release of the products for free circulation is made, the importer must provide a guarantee as referred to in Article 148 of Commission Implementing Regulation (EU) 2015/2447⁽¹²⁾. For this purpose, the amount of import duty for which the products listed in Part A of Annex VII to this Regulation may be liable, shall be the amount of the duty due if the product in question had been classified on the basis of the standard import value concerned.

The first subparagraph shall not apply when the standard import value is higher than the entry prices listed in Annex 2 of Section I of Part Three of Annex I to Council Regulation (EEC) No 2658/87⁽¹³⁾, or where the declarant requests the immediate entry in the accounts of the amount of duties to which the goods may ultimately be liable instead of providing a guarantee.

3 When the customs value of the products listed in Part A of Annex VII is calculated in accordance with Article 74(2)(c) of Regulation (EU) No 952/2013, the duty shall be deducted as provided for in Article 38(1) of Implementing Regulation (EU) 2017/892. In that case, the importer shall provide a guarantee equal to the amount of duty which he would have paid if the classification of the products had been made on the basis of the standard import value applicable.

4 The customs value of the goods imported on consignment shall be directly determined in accordance with Article 74(2)(c) of Regulation (EU) No 952/2013, and for this purpose, the

standard import value calculated in accordance with Article 38 of Implementing Regulation (EU) 2017/892 shall apply during the periods in force.

5 The importer shall have one month from the sale of the products in question, subject to a limit of four months from the date of acceptance of the declaration of release for free circulation, to prove that the lot was disposed of under the conditions confirming the correctness of the prices referred to in Article 70 of Regulation (EU) No 952/2013, or to determine the customs value referred to in Article 74(2)(c) of that Regulation.

Failure to meet one of these deadlines shall entail the loss of the guarantee provided, without prejudice to the application of paragraph 6.

The guarantee provided shall be released to the extent that proof of the conditions of disposal is provided to the satisfaction of the customs authorities. Otherwise the guarantee shall be forfeit by way of payment of the import duties.

In order to prove that the lot was disposed of under the conditions set out in the first subparagraph, the importer shall make available, in addition to the invoice, all documents needed for the carrying out of the relevant customs controls in relation to the sale and disposal of each product of the lot in question, including documents relating to the transport, insurance, handling and storage of the lot.

Where the marketing standards referred to in Article 3 of Implementing Regulation (EU) No 543/2011 require the product variety or the type of the fruit and vegetables to be indicated on the packaging, the product variety or the type of the fruit and vegetables that form part of the lot shall be indicated on documents related to transport, invoices and the delivery order.

6 The time limit of four months referred to in the first subparagraph of paragraph 5 may be extended by the competent authorities of the Member State by a maximum of three months at the request of the importer, which must be duly justified.

If on verification, the competent authorities of the Member States establish that the requirements of this Article have not been met, they shall recover the duty due in accordance with Article 105 of Regulation (EU) No 952/2013. The amount of the duty to be recovered or remaining to be recovered shall include interest from the date the goods were released for free circulation up to the date of recovery. The interest rate applied shall be that in force for recovery operations under national law.

[^{F250}Annex 8

Restrictions on shareholding and voting rights in producer organisations and associations of producer organisations

Textual Amendments

F250 Annex 8 inserted (31.12.2020) by The Common Organisation of the Markets in Agricultural Products (Producer Organisations and Wine) (Amendment etc.) (EU Exit) Regulations 2020 (S.I. 2020/1446), regs. 1(3), **5(31)**

1. In this Annex:
 - (a) ‘voting right’ means a right to vote in relation to a relevant decision;
 - (b) ‘relevant decision’ means any decision affecting the producer organisation or association of producer organisations (as the case may be) and its members (in their capacity as such), including the election of the producer organisation's or association of producer organisations' (as the case may be) directors or board members.
2. A producer organisation must provide in its members' agreements and statutes for each producer member to have one voting right.
3. By way of derogation from point 1, a producer organisation that has more than ten members may, with the agreement of the Secretary of State, provide for individual producer members to exercise up to 10% each of the voting rights. The remaining voting rights (other than voting rights held by non-producer members, insofar as permitted by the Secretary of State and the producer organisation) must be shared between the remaining producer members. A producer organisation that implements this option must adopt measures to prevent abuses of power by its members.
4. A producer organisation may provide in its members' agreements and statutes for non-producer members to have voting rights, provided that:
 - (a) a non-producer member must not be permitted to hold more than one voting right;
 - (b) [^{F251}the total share of the voting rights exercisable by non-producer members must be no more than 20%.]
5. A natural or legal person must not hold more than:
 - (a) 20% of the total number of shares or amount of capital in a producer organisation directly; or
 - (b) 49% of the total number of shares or amount of capital in a producer organisation in total, directly or indirectly.

Changes to legislation: There are currently no known outstanding effects for the Commission Delegated Regulation (EU) 2017/891. (See end of Document for details)

6. For the purpose of point 5, a person holds a share or capital “indirectly” if the person has a majority stake in another person and that other person:
 - (a) holds the share or capital in question; or
 - (b) is part of a chain of persons:
 - (i) each of whom (other than the last) has a majority stake in the person immediately below it in the chain; and
 - (ii) the last of whom holds the share or capital.
7. An association of producer organisations must provide in its members' agreements and statutes for each member that is a producer organisation to have one voting right.
8. An association of producer organisations may provide in its members' agreements and statutes for producer members that are not producer organisations to have voting rights, provided that:
 - (a) such members must not be permitted to hold more than one voting right each;
 - (b) the total share of the voting rights exercisable by such members must be less than a majority of the total number of voting rights exercisable in respect of each relevant decision.]
