

Commission Implementing Regulation (EU) 2019/2129 of 25 November 2019 establishing rules for the uniform application of frequency rates for identity checks and physical checks on certain consignments of animals and goods entering the Union (Text with EEA relevance)

COMMISSION IMPLEMENTING REGULATION (EU) 2019/2129

of 25 November 2019

establishing rules for the uniform application of frequency rates for identity checks and physical checks on certain consignments of animals and goods entering the Union

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2017/625 of the European Parliament and of the Council of 15 March 2017 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products, amending Regulations (EC) No 999/2001, (EC) No 396/2005, (EC) No 1069/2009, (EC) No 1107/2009, (EU) No 1151/2012, (EU) No 652/2014, (EU) 2016/429 and (EU) 2016/2031 of the European Parliament and of the Council, Council Regulations (EC) No 1/2005 and (EC) No 1099/2009 and Council Directives 98/58/EC, 1999/74/EC, 2007/43/EC, 2008/119/EC and 2008/120/EC, and repealing Regulations (EC) No 854/2004 and (EC) No 882/2004 of the European Parliament and of the Council, Council Directives 89/608/EEC, 89/662/EEC, 90/425/EEC, 91/496/EEC, 96/23/EC, 96/93/EC and 97/78/EC and Council Decision 92/438/EEC (Official Controls Regulation)⁽¹⁾, and in particular points (a) and (c) of the first subparagraph of Article 54(3) thereof,

Whereas:

- (1) Regulation (EU) 2017/625 establishes rules on the performance of official controls by the competent authorities of the Member States on animals and goods entering the Union in order to verify compliance with Union agri-food chain legislation.
- (2) Article 54(3) of Regulation (EU) 2017/625 empowers the Commission to establish rules for the uniform application of the appropriate frequency rate for identity checks and physical checks on consignments of the categories of animals and goods referred to in Article 47(1)(a) and (b) of that Regulation. Therefore the frequency rates on identity checks and physical checks should be established depending on the risk posed by each animal, good or category of animals or goods to human, animal or plant health, animal welfare or, as regards genetically modified organisms and also to the environment.
- (3) To ensure that the frequency rates of physical checks required pursuant to this Regulation are complied with in a uniform manner, provision should be made in this Regulation to make use of the information management system for official controls

Status: Point in time view as at 25/11/2019.

*Changes to legislation: There are currently no known outstanding effects for the
Commission Implementing Regulation (EU) 2019/2129. (See end of Document for details)*

(IMSOC) referred to in Article 131 of Regulation (EU) 2017/625 for the selection of consignments for physical checks.

- (4) The frequency rates established in accordance with this Regulation should be applicable for the animals and goods referred to in Article 47(1)(a) and (b) of Regulation (EU) 2017/625 intended to be placed on the market. However, the frequency of physical checks carried out at border control posts to ascertain compliance with Regulation (EU) 2018/848 of the European Parliament and of the Council⁽²⁾ should be determined in accordance with Article 45(5) of that Regulation.
- (5) Council Directive 91/496/EEC⁽³⁾ lays down rules governing the organisation of veterinary checks on animals entering the Union from third countries. Article 4 of that Directive provides that each consignment of animals should be subject to identity checks and physical checks.
- (6) Directive 91/496/EEC is repealed by Regulation (EU) 2017/625 with effect from 14 December 2019. Taking into account the risk posed by certain categories of animals to human or animal health and animal welfare, the same frequency rates of identity checks and physical checks should continue to apply to animals entering the Union from third countries as those laid down in or in accordance with Directive 91/496/EEC.
- (7) To ensure the effectiveness of the official controls, identity checks and physical checks should be carried out in such a way that it is not possible for the operator responsible for the consignment to predict whether any particular consignment will be subject to physical checks.
- (8) Article 3 of Commission Implementing Regulation (EU) 2019/2130⁽⁴⁾ establishes detailed rules on identity checks for goods referred to in point (b) of Article 47(1) of Regulation (EU) 2017/625, according to whether the consignment is subject to physical checks or not.
- (9) The baseline criteria for determining the baseline frequency rates for the identity checks and physical checks performed on products of animal origin, germinal products, animal by-products, derived products, hay and straw and composite products should be established taking into account information regarding the risks associated with the categories of animals or goods and available scientific assessments.
- (10) Based on information collected by the Commission in accordance with Article 125(1) of Regulation (EU) 2017/625, on the outcome of controls performed by Commission experts in third countries in accordance with Article 120(1) of that Regulation and on information collected through the IMSOC, it should be possible to modify the frequency rates for physical checks resulting from the baseline criteria.
- (11) To ensure the efficiency of official controls, the frequency rates determined in accordance with this Regulation should be made available through the IMSOC.
- (12) For certain third countries with which the Union has concluded veterinary agreements on equivalency, it is appropriate to reduce the frequency of physical checks on certain products, taking into account, inter alia, the application of the regionalisation principle in the case of animal disease, and of other veterinary principles. Therefore, the

Status: Point in time view as at 25/11/2019.

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/2129. (See end of Document for details)

frequency rates for physical checks specified in these veterinary agreements should apply for the purpose of this Regulation.

- (13) Commission Decision 94/360/EC⁽⁶⁾ establishes reduced frequency rates of physical checks for certain categories of goods subject to veterinary checks. Since this Regulation lays down provisions in the areas covered by Decision 94/360/EC, that Decision should be repealed with effect from the date specified in this Regulation.
- (14) Regulation (EU) 2017/625 applies from 14 December 2019. Accordingly, the rules laid down in this Regulation should also apply from that date.
- (15) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Subject matter and scope

This Regulation lays down rules for the uniform application of the appropriate frequency rate of identity checks and physical checks on consignments of animals and goods referred to in Article 47(1)(a) and (b) of Regulation (EU) 2017/625 intended to be placed on the market.

Article 2

Definitions

For the purpose of this Regulation,

1. 'frequency rate' means the minimum percentage of consignments of animals and goods referred to in Article 1, determined in accordance with this Regulation, of the number of consignments arrived at the border control post during an identified period, for which identity checks and physical checks are to be carried out by the competent authorities;
2. 'IMSOC' means the information management system for official controls referred to in Article 131 of Regulation (EU) 2017/625.

Article 3

Selection of consignments for physical checks

1 The competent authorities shall select consignments for physical checks in accordance with the following procedure:

- a a random selection of a consignment is automatically generated by the IMSOC;
- b the competent authorities may decide to select the consignment in accordance with point (a) or to select a different consignment of the same category of goods and the same origin of goods.

Status: Point in time view as at 25/11/2019.

*Changes to legislation: There are currently no known outstanding effects for the
Commission Implementing Regulation (EU) 2019/2129. (See end of Document for details)*

2 For each consignment selected for physical checks in accordance with paragraph 1 of this Article, the competent authorities shall perform identity checks as referred to in Article 3(1) of Implementing Regulation (EU) 2019/2130.

Article 4

Frequency rates for identity checks and physical checks

1 The competent authorities shall perform identity checks and physical checks on consignments of animals, products of animal origin, germinal products, animal by-products, derived products, hay and straw and composite products at the frequency rates determined in accordance with Article 5.

2 For the third countries listed in Annex II with which the Union has concluded agreements of equivalence, physical checks shall be carried out according to the frequency rates established by these agreements.

Article 5

Determination and modification of frequency rates for identity checks and physical checks performed on animals, products of animal origin, germinal products, animal by-products, derived products, hay and straw and composite products

1 The baseline frequency rates for identity checks and for physical checks on consignments of animals and goods referred to in Article 1 are set out in Annex I to this Regulation, based on the scientific assessments and information referred to in points (a)(v) and (vi) of the first subparagraph of Article 54(3) of Regulation (EU) 2017/625.

2 The frequency rate for physical checks on specific goods from a specific third country may be increased where serious deficiencies are identified based on:

- a information collected by the Commission in accordance with Article 125(1) of Regulation (EU) 2017/625; or
- b the outcome of controls performed by Commission experts in accordance with Article 120(1) of Regulation (EU) 2017/625.

In this case, the frequency rate determined in accordance with paragraph 1 is increased to the next higher baseline frequency rate set out in Annex I or to a frequency rate of 50 % where the frequency rate applicable to the specific category of goods is at 30 %,

3 The frequency rate of physical checks shall be increased from the baseline frequency rate determined in accordance with paragraph 1 to the next higher baseline frequency rate set out in Annex I, or to a frequency rate of 50 % if the frequency rate applicable to the specific category of goods is at 30 %, where data and information collected via the IMSOC indicate for specific goods from a specific third country a level of non-compliance with respect to physical checks in the last 12 months, for the same category of goods, which exceeds by 30 % the average rate of non-compliance for the same category of goods from all third countries.

4 Where the criteria referred to in paragraph 2 or in paragraph 3 are no longer met, the frequency rate shall be reduced to the respective baseline frequency rate set out in Annex I.

5 The Commission shall make frequency rates determined in accordance with this Article available to competent authorities and to operators through the IMSOC.

Status: Point in time view as at 25/11/2019.

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/2129. (See end of Document for details)

Article 6

Repeals

Decision 94/360/EC is repealed with effect from 14 December 2019.

Article 7

Entry into force and date of application

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 14 December 2019.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 25 November 2019.

For the Commission

The President

Jean-Claude JUNCKER

ANNEX I

Baseline criteria for determining the baseline frequency rates for the identity checks and physical checks of the consignments of animals, products of animal origin, germinal products, animal by-products, derived products, hay and straw and composite products

Baseline criteria for determining baseline frequency rates for identity checks and physical checks		Baseline frequency rates that apply to	
Risk category	Category of animals or goods ^a	identity checks	physical checks
I	Animals	100 %	100 %
II	<ul style="list-style-type: none"> — Minced meat, mechanically separated meat and meat preparations for human consumption (HC) — Poultry meat for HC — Rabbit meat, game meat, and their meat products for HC — Eggs for HC — Egg products for HC which are preserved at frozen or chilled temperatures — Milk for HC — Dairy products and colostrum-based products for HC, which are preserved 	100 %	30 %

^a The frequency rates for physical checks of consignments of trade samples shall be in accordance with the description of the categories of goods provided in this Annex.

Status: Point in time view as at 25/11/2019.

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/2129. (See end of Document for details)

	—	at frozen or chilled temperatures Fishery products from aquaculture and bivalve molluscs for HC, which are not in hermetically sealed containers intended to render them stable at ambient temperature		
	—	Animal by-products and derived products, for feeding of farmed animals		
III	—	Meat other than meat mentioned in Category II, and meat products derived from such meat, for HC	100 %	15 %
	—	Rendered animal fat and greaves for HC		
	—	Poultry meat products for HC		
	—	Egg products for HC, other than those mentioned		

a The frequency rates for physical checks of consignments of trade samples shall be in accordance with the description of the categories of goods provided in this Annex.

Status: Point in time view as at 25/11/2019.

*Changes to legislation: There are currently no known outstanding effects for the
Commission Implementing Regulation (EU) 2019/2129. (See end of Document for details)*

	—	in Category II Dairy products and colostrum-based products for HC other than those mentioned in Category II		
	—	Fishery products other than those mentioned in Category II		
	—	Honey and other apiculture products for HC		
	—	Composite products		
	—	Hatching eggs		
	—	Organic fertilisers and soil improvers, derived from animal by-products		
	—	Frog legs and snails for HC		
	—	Insects for HC		
IV	—	Gelatine and collagen for HC	100 %	5 %
	—	Casings		
	—	Semen and embryos		
	—	Animal by-products		

a The frequency rates for physical checks of consignments of trade samples shall be in accordance with the description of the categories of goods provided in this Annex.

Status: Point in time view as at 25/11/2019.

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/2129. (See end of Document for details)

		and derived products, other than those mentioned in Category II and Category III		
V	—	Highly refined products for HC	100 %	1 %
	—	Hay and straw		
	—	Other goods than those mentioned in Category II, Category III and Category IV		

a The frequency rates for physical checks of consignments of trade samples shall be in accordance with the description of the categories of goods provided in this Annex.

ANNEX II

List of certain third countries referred to in Article 4(2) and frequencies of physical checks

1. New Zealand

In the case of New Zealand, the frequencies shall be those provided for in the Agreement which was approved by Council Decision 97/132/EC⁽⁶⁾ in the form of an Exchange of Letters concerning the provisional application of the Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products.

2. Canada

In the case of Canada, the frequencies shall be those provided for in Annex VIII to the Agreement which was approved by Council Decision 1999/201/EC⁽⁷⁾.

3. Chile

In the case of Chile, the frequencies shall be those provided for in the Agreement on Sanitary and Phytosanitary Measures applicable to Trade in Animals and Animal Products, Plants, Plant Products and other Goods and Animal Welfare set out in Annex IV to the Association Agreement which was approved by Council Decision 2002/979/EC⁽⁸⁾.

Status: Point in time view as at 25/11/2019.

*Changes to legislation: There are currently no known outstanding effects for the
Commission Implementing Regulation (EU) 2019/2129. (See end of Document for details)*

- (1) [OJ L 95, 7.4.2017, p. 1.](#)
- (2) Regulation (EU) 2018/848 of the European Parliament and of the Council of 30 May 2018 on organic production and labelling of organic products and repealing Council Regulation (EC) No 834/2007 ([OJ L 150, 14.6.2018, p. 1.](#)).
- (3) Council Directive 91/496/EEC of 15 July 1991 laying down the principles governing the organisation of veterinary checks on animals entering the Community from third countries and amending Directives 89/662/EEC, 90/425/EEC and 90/675/EEC ([OJ L 268, 24.9.1991, p. 56.](#)).
- (4) Commission Implementing Regulation (EU) 2019/2130 of 25 November 2019 establishing detailed rules on the operations to be carried out during and after documentary checks, identity checks and physical checks on animals and goods subject to official controls at border control posts (see page 128 of this Official Journal).
- (5) Commission Decision 94/360/EC of 20 May 1994 on the reduced frequency of physical checks of consignments of certain products to be implemented from third countries, under Council Directive 90/675/EEC ([OJ L 158, 25.6.1994, p. 41.](#)).
- (6) Council Decision 97/132/EC of 17 December 1996 on the conclusion of the Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products ([OJ L 57, 26.2.1997, p. 4.](#)).
- (7) Council Decision 1999/201/EC of 14 December 1998 on the conclusion of the Agreement between the European Community and the Government of Canada on sanitary measures to protect public and animal health in respect of trade in live animals and animal products ([OJ L 71, 18.3.1999, p. 1.](#)).
- (8) Council Decision 2002/979/EC of 18 November 2002 on the signature and provisional application of certain provisions of an Agreement establishing an association between the European Community and its Member States, of the one part, and the Republic of Chile, of the other part ([OJ L 352, 30.12.2002, p. 1.](#)).
