

Commission Implementing Regulation (EU) 2020/1991 of 27
November 2020 granting a Union authorisation for the biocidal
product family ‘perform-IPA’ (Text with EEA relevance)

COMMISSION IMPLEMENTING REGULATION (EU) 2020/1991

of 27 November 2020

granting a Union authorisation for the biocidal product family ‘perform-IPA’

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 528/2012 of the European Parliament and of the Council of 22 May 2012 concerning the making available on the market and use of biocidal products⁽¹⁾, and in particular Article 44(5) thereof,

Whereas:

- (1) On 19 April 2016, Schuelke & Mayr GmbH submitted an application in accordance with Article 43(1) of Regulation (EU) No 528/2012 for authorisation of a biocidal product family named ‘perform-IPA’ of product-types 2 and 4, as described in Annex V to that Regulation, providing written confirmation that the competent authority of Germany had agreed to evaluate the application. The application was recorded under case number BC-AB023095-72 in the Register for Biocidal Products.
- (2) ‘perform-IPA’ contains propan-2-ol, as the active substance, which is included in the Union list of approved active substances referred to in Article 9(2) of Regulation (EU) No 528/2012.
- (3) On 27 August 2019, the evaluating competent authority submitted, in accordance with Article 44(1) of Regulation (EU) No 528/2012, the assessment report and the conclusions of its evaluation to the European Chemicals Agency (‘the Agency’).
- (4) On 7 April 2020, the Agency submitted to the Commission an opinion⁽²⁾, the draft summary of the biocidal product characteristics (‘SPC’) of ‘perform-IPA’ and the final assessment report on the biocidal product family in accordance with Article 44(3) of Regulation (EU) No 528/2012.
- (5) The opinion concludes that ‘perform-IPA’ is a biocidal product family within the meaning of Article 3(1)(s) of Regulation (EU) No 528/2012, that it is eligible for Union authorisation in accordance with Article 42(1) of that Regulation and that subject to compliance with the draft SPC, it meets the conditions laid down in Article 19(1) and (6) of that Regulation.

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2020/1991. (See end of Document for details)

- (6) On 27 April 2020, the Agency transmitted to the Commission the draft SPC in all the official languages of the Union in accordance with Article 44(4) of Regulation (EU) No 528/2012.
- (7) The Commission concurs with the opinion of the Agency and considers it therefore appropriate to grant a Union authorisation for ‘perform-IPA’.
- (8) According to the opinion of the Agency, as regards the non-active substance diethyl phthalate contained in ‘perform-IPA’, it was not possible to conclude whether it meets the scientific criteria for the determination of endocrine-disrupting properties set out in Commission Delegated Regulation (EU) 2017/2100⁽³⁾ within the period for the evaluation of the application. Further examination of diethyl phthalate should therefore take place. If it is concluded that diethyl phthalate is considered as having endocrine-disrupting properties, the Commission will consider whether to cancel or amend the Union authorisation for ‘perform-IPA’ in accordance with Article 48 of Regulation (EU) No 528/2012.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Biocidal Products,

HAS ADOPTED THIS REGULATION:

Article 1

A Union authorisation with authorisation number EU-0023656-0000 is granted to Schuelke & Mayr GmbH for the making available on the market and use of the biocidal product family ‘perform-IPA’ in accordance with the summary of the biocidal product characteristics set out in the Annex.

The Union authorisation is valid from 27 December 2020 until 30 November 2030.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 27 November 2020.

Ursula VON DER LEYEN
