

Commission Regulation (EU) 2020/770 of 8 June 2020 amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for myclobutanil, napropamide and sintofen in or on certain products (Text with EEA relevance)

COMMISSION REGULATION (EU) 2020/770

of 8 June 2020

amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for myclobutanil, napropamide and sintofen in or on certain products

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC⁽¹⁾, and in particular Article 14(1) (a) and Article 49(2) thereof,

Whereas:

- (1) For myclobutanil maximum residue levels (MRLs) were set in Annex II and Part B of Annex III to Regulation (EC) No 396/2005. For napropamide MRLs were set in Part A of Annex III to Regulation (EC) No 396/2005. For sintofen no MRLs were set in Regulation (EC) No 396/2005, and as this active substance is not included in Annex IV to that Regulation, the default value of 0,01 mg/kg laid down in Article 18(1)(b) of Regulation (EC) No 396/2005 applies.
- (2) For myclobutanil the European Food Safety Authority ('the Authority'), submitted a reasoned opinion on the review of the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005⁽²⁾. It proposed to change the residue definition. It recommended raising or keeping the existing MRLs for apples, pears, quinces, medlars, loquats/Japanese medlars, apricots, cherries (sweet), peaches, plums, table grapes and wines grapes. The Authority concluded that concerning the MRLs for strawberries, blackberries, gooseberries (green, red and yellow), bananas, tomatoes, aubergines/eggplants, melons, pumpkins, watermelons, lamb's lettuces/corn salads, beans (with pods), globe artichokes, hops, sugar beet roots, swine (muscle, fat, liver, kidney), bovine (muscle, fat, liver, kidney), sheep (muscle, fat, liver, kidney), goat (muscle, fat, liver, kidney) equine (muscle, fat, liver, kidney), poultry (muscle, fat, liver), milk (cattle, sheep, goat, horse) and birds' eggs some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. These MRLs will be reviewed; the review will

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EU) 2020/770. (See end of Document for details)

take into account the information available within two years from the publication of this Regulation.

- (3) For napropamide the Authority submitted a reasoned opinion on the review of the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005⁽³⁾. It proposed to change the residue definition. It recommended lowering the MRLs for almonds, chestnuts, hazelnuts/cobnuts, pecans, pine nut kernels, pistachios, walnuts, apples, pears, quinces, medlars, loquats/Japanese medlars, apricots, cherries (sweet), peaches, plums, potatoes, celeriacs/turnip rooted celeries, horseradishes, radishes, swedes/rutabagas, turnips, tomatoes, aubergines/eggplants, broccoli, cauliflowers, Brussels sprouts, head cabbages, lamb's lettuces/corn salads, Roman rocket/rucola, beans (with pods), linseeds, poppy seeds, sesame seeds, sunflower seeds, rapeseeds/canola seeds, soyabeans, mustard seeds, cotton seeds, pumpkin seeds, safflower seeds, borage seeds, gold of pleasure seeds, hemp seeds and castor beans. The Authority concluded that concerning the MRLs for grapefruits, oranges, lemons, limes, mandarins, strawberries, blackberries, dewberries, raspberries (red and yellow), blueberries, cranberries, currants (black, red and white), gooseberries (green, red and yellow), rose hips, elderberries, herbs and edible flowers, herbal infusions (from flowers, leaves and herbs, roots and any other part of the plant) and fruit spices some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (4) For sintofen the European Food Safety Authority ('the Authority'), submitted a reasoned opinion on the review of the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005⁽⁴⁾. It concluded that concerning the MRL for wheat some information was not available and that further consideration by risk managers was required. No other authorisations exist for this substance. As there is no risk for consumers, this MRL should be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. This MRL will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (5) As regards products on which the use of the plant protection product concerned is not authorised, and for which no import tolerances or Codex maximum residue limits (CXLs) exist, MRLs should be set at the specific limit of determination (LOD) or the default MRL should apply, as provided for in Article 18(1)(b) of Regulation (EC) No 396/2005.
- (6) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain limits of determination. As regards several substances, those laboratories concluded that for certain commodities technical development requires the setting of specific limits of determination.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EU) 2020/770. (See end of Document for details)

- (7) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (8) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (9) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (10) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.
- (11) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.
- (12) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed.

HAS ADOPTED THIS REGULATION:

Article 1

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

Article 2

Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were produced in the Union or imported into the Union before 2 January 2021.

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 2 January 2021.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 8 June 2020.

For the Commission

The President

Ursula VON DER LEYEN

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EU) 2020/770. (See end of Document for details)

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EU) 2020/770. (See end of Document for details)

ANNEX

Annexes II and III to Regulation (EC) No 396/2005 are amended as follows:

- (1) In Annex II the column for myclobutanil is replaced and the columns for napropamide and sintofen are added as follows:

‘Pesticide residues and maximum residue levels (mg/kg)

Code number	Groups and examples of individual products to which the MRLs apply (a)	Myclobutanil (sum of constituent isomers) (R)	Napropamide (sum of isomers)	Sintofen

(*) Limit of analytical determination

(a) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I,

Myclobutanil (sum of constituent isomers) (R)

(R) = The residue definition differs for the following combinations pesticide-code number:

Myclobutanil - code 1000000 except 1040000: free and conjugated forms of alpha-(3-hydroxybutyl) - alpha - (4-chlorophenyl) - 1H - 1,2,4 - triazole -1-propanenitrile (RH9090), expressed as myclobutanil

(+) The European Food Safety Authority identified some information relating to triazole derivative metabolites (TDMs) as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

0130000 Pome fruits

0130010 Apples

0130020 Pear

0130030 Quinces

0130040 Medlars

0130050 Loquats/Japanese medlars

0130990 Others (2)

0151000 (a) grapes

0151010 Table grapes

0151020 Wine grapes

(+) The European Food Safety Authority identified some information on rotational crop field studies and relating to triazole derivative metabolites (TDMs) as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

0152000 (b) strawberries

0153010 Blackberries

0154040 Gooseberries (green, red and yellow)

(+) The European Food Safety Authority identified some information relating to triazole derivative metabolites (TDMs) as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

0154070 Azaroles/Mediterranean medlars

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EU) 2020/770. (See end of Document for details)

0161060 Kaki/Japanese persimmons

(+) The European Food Safety Authority identified some information on crop metabolism with post-harvest treatment as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

0163020 Bananas

(+) The European Food Safety Authority identified some information on rotational crop field studies and relating to triazole derivative metabolites (TDMs) as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

0231010 Tomatoes

0231030 Aubergines/eggplants

0233010 Melon

0233020 Pumpkins

0233030 Watermelons

0233990 Others (2)

(+) The European Food Safety Authority identified some information on crop metabolism with leafy vegetables and relating to triazole derivative metabolites (TDMs) as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

0251010 Lamb's lettuces/corn salads

(+) The European Food Safety Authority identified some information on crop metabolism with pulses and oilseeds as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

0260010 Beans (with pods)

(+) The European Food Safety Authority identified some information on crop metabolism with leafy vegetables as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

0270050 Globe artichokes

(+) The European Food Safety Authority identified some information on residue trials, analytical methods and crop metabolism with leafy vegetables as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

0700000 HOPS

(+) The European Food Safety Authority identified some information on rotational crop field studies and relating to triazole derivative metabolites (TDMs) as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

0900010 Sugar beet roots

(+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

1011000 (a) swine

1011010 Muscle

(+) The European Food Safety Authority identified some information on analytical methods and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

1011020 Fat

(+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

1011030 Liver

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EU) 2020/770. (See end of Document for details)

(+) The European Food Safety Authority identified some information on analytical methods and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

1011040 Kidney

(+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

1011050 Edible offals (other than liver and kidney)

1011990 Others (2)

1012000 (b) bovine

1012010 Muscle

(+) The European Food Safety Authority identified some information on analytical methods and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

1012020 Fat

(+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

1012030 Liver

(+) The European Food Safety Authority identified some information on analytical methods and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

1012040 Kidney

(+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 12 June 2022, or, if that information is not submitted by that date, the lack of it.

1012050 Edible offals (other than liver and kidney)

1012990 Others (2)

1013000 (c) sheep
