

Consolidated version of the Treaty establishing the
European Atomic Energy Community 2016/C 203/01

TITLE II

**PROVISIONS FOR THE ENCOURAGEMENT OF
PROGRESS IN THE FIELD OF NUCLEAR ENERGY**

CHAPTER I

Promotion of research

Article 5

For purposes of coordinating and complementing research undertaken in Member States, the Commission shall, either by a specific request addressed to a given recipient and conveyed to the government concerned, or by a general published request, call upon Member States, persons or undertakings to communicate to it their programmes relating to the research which it specifies in the request.

After giving those concerned full opportunity to comment, the Commission may deliver a reasoned opinion on each of the programmes communicated to it. The Commission shall deliver such an opinion if the State, person or undertaking which has communicated the programme so requests.

By such opinions the Commission shall discourage unnecessary duplication and shall direct research towards sectors which are insufficiently explored. The Commission may not publish these programmes without the consent of the State, person or undertaking which has communicated them.

The Commission shall publish at regular intervals a list of those sectors of nuclear research which it considers to be insufficiently explored.

The Commission may bring together representatives of public and private research centres as well as any experts engaged in research in the same or related fields for mutual consultation and exchanges of information.
