CHAPTER 6

Supplies

Section 2

Ores, source materials and special fissile materials coming from inside the Community

Article 60

Potential users shall periodically inform the Agency of the supplies they require, specifying the quantities, the physical and chemical nature, the place of origin, the intended use, delivery dates and price terms, which are to form the terms and conditions of the supply contract which they wish to conclude.

Similarly, producers shall inform the Agency of offers which they are able to make, stating all the specifications, and in particular the duration of contracts, required to enable their production programmes to be drawn up. Such contracts shall be of not more than 10 years' duration save with the agreement of the Commission.

The Agency shall inform all potential users of the offers and of the volume of applications which it has received and shall call upon them to place their orders by a specified time limit.

When the Agency has received all such orders, it shall make known the terms on which it can meet them.

If the Agency cannot meet in their entirety all the orders received, it shall, subject to the provisions of Articles 68 and 69, share out the supplies proportionately among the orders relating to each offer.

Agency rules, which shall require approval by the Commission, shall determine the manner in which demand is to be balanced against supply.
