Taxis Act (Northern Ireland) 2008

EXPLANATORY NOTES

OPTIONS CONSIDERED

11. Policy options were considered in both the discussion document issued to key stakeholders in 2003 and in the 2005 public consultation paper. The way forward on the package of measures to be given effect by the Act has been determined taking into account the extensive evidence gathered by the Taxi Review, the views expressed throughout the Review in meetings with members of the trade and other stakeholders and in written responses to the public consultations, including the 2006 consultation on the draft Order in Council.
