(b) conditions requiring the rendering to the grantor of a payment on the grant of the licence, or payments during the currency of the licence, or both, of such amount or amounts as may be determined by or under the licence.

(2) Without prejudice to the generality of paragraph (1)(a), conditions included in a licence by virtue of that sub-paragraph—

(a) may require the licence holder to enter into agreements with other persons for the use of any electric lines and electrical plant of his (wherever situated and whether or not used for the purpose of carrying on the activities authorised by the licence) for such purposes as may be specified in the conditions; and

(b) may include provision for determining the terms on which such agreements are to be entered into.

(3) Conditions included in a licence under paragraph (1)(a) may require the licence holder—

(a) to comply with any direction given by the Director as to such matters as are specified in the licence or are of a description so specified;

(b) except in so far as the Director consents to his doing or not doing them, not to do or to do such things as are specified in the licence or are of a description so specified;

(c) to refer for determination by the Director such questions arising under the licence as are specified in the licence or are of a description so specified; and

(d) to refer for approval by the Director such things falling to be done under the licence, and such contracts or agreements made before the grant of the licence, as are specified in the licence or are of a description so specified.

(4) Conditions included in a licence under paragraph (1)(a) may—
(a) instead of specifying or describing any contracts or agreements to which they apply, refer to contracts or agreements designated (whether before or after the imposition of the conditions) by the Department or the Director; and

(b) instead of containing any provisions which fall to be made, refer to provisions set out in documents so designated and direct that those provisions shall have such effect as may be specified in the conditions.

(5) Conditions included in a licence may contain provision for the conditions to cease to have effect or be modified at such times, in such manner and in such circumstances as may be specified in or determined by or under the conditions.

(6) Any provision included under paragraph (5) in a licence shall have effect in addition to the provision made by this Part with respect to the modification of the conditions of a licence.

(a) to develop and maintain an efficient, co-ordinated and economical system of electricity transmission; and

(b) subject to paragraph (3), to facilitate competition in the supply and generation of electricity.

(3) Paragraph (2)(b) shall apply in relation to a person who is also the holder of a licence authorising him to supply or generate electricity as if the duty to facilitate competition in the supply or, as the case may be, the generation of electricity were a duty to make his transmission system available to his competitors on terms which neither prevent nor restrict such competition.

(4) For the purposes of paragraph (3) a person’s competitors are any other persons authorised (whether by a licence or exemption) to supply or, as the case may be, generate electricity.

Powers, etc., of licence holders

13.—(1) Subject to paragraph (2), Schedule 3 (which makes provision with respect to the compulsory acquisition of land) and Schedule 4 (which confers other powers and makes other provision) shall have effect—

(a) in relation to a public electricity supplier or a person authorised by a licence to transmit electricity; and

(b) to the extent that his licence so provides, in relation to any other licence holder; and references in those Schedules to a licence holder shall be construed accordingly.

(2) Where any provision of either of the Schedules mentioned in paragraph (1) is applied to a licence holder by his licence, it shall have effect subject to such restrictions, exceptions and conditions as may be included in the licence for the purpose of qualifying that provision as so applied or any power or right conferred by or under it.

(3) A licence under Article 10(1)(a) may provide that Schedule 4 shall have effect in relation to the licence holder as if—

(a) any reference to any purpose connected with the carrying on of the activities which he is authorised by his licence to carry on included a reference to any purpose connected with the supply to any premises of heat produced in association with electricity and steam produced from, and air and water heated by, such heat; and
(b) any reference to electric lines or electrical plant included a reference to pipes and associated works used or intended to be used for conveying heat so produced, and steam produced from, and air and water heated by, such heat; and in this paragraph “associated works”, in relation to pipes, means any of the following connected with the pipes, namely, any valve, filter, stopcock, pump, meter, inspection chamber and manhole and such other works as may be prescribed.

(4) A licence under Article 10(1)(b) or (c) may provide that, where any part of the licence holder’s authorised area is designated in a subsequent licence under that sub-paragraph, Schedule 4 shall have effect in relation to the licence holder as if any reference to the activities which he is authorised by his licence to carry on included a reference to the activities which he was previously so authorised to carry on.

(5) The provisions of Schedule 5 (which provides for water rights for hydro-electric stations) shall have effect.

(2) Where, on a reference under Article 15, the Monopolies Commission conclude that the licence holder is a party to an agreement to which the Restrictive Trade Practices Act 1976 applies, the Commission, in making their report on that reference, shall exclude from their consideration the question whether the provisions of that agreement, in so far as they are provisions by virtue of which it is an agreement to which that Act applies, operate, or may be expected to operate, against the public interest; and paragraph (1)(b) shall have effect subject to the provisions of this paragraph.

(3) Section 82 of the 1973 Act (general provisions as to reports) shall apply in relation to reports of the Monopolies Commission on references under Article 15 as it applies to reports of the Commission under that Act.

(4) A report of the Monopolies Commission on a reference under Article 15 shall be made to the Director.

(b) shall, not less than 14 days from the day on which the Department receives that copy, publish the report in such manner as he considers appropriate for bringing the report to the attention of persons likely to be affected by it.

(6) If it appears to the Department that the publication of any matter in such a report would be against the public interest or the commercial interests of any person, the Department may, before
the end of the period of 14 days mentioned in paragraph (5)(b), direct the Director to exclude that matter from every copy of the report to be published under that sub-paragraph.

(b) the circumstances are as mentioned in section 73(1) of that Act (order on report on merger reference) and the two or more enterprises which ceased to be distinct enterprises were both engaged in the generation, transmission or supply of electricity; or

(c) the circumstances are as mentioned in section 10(1) of the 1980 Act (order on report on competition reference) and the anti-competitive practice relates to the generation, transmission or supply of electricity.

(3) In this Article expressions which are also used in the 1973 Act or the 1980 Act have the same meanings as in that Act.

Supply by public electricity suppliers

Duty to supply on request

19.—(1) Subject to the following provisions of this Part and any regulations made under those provisions, a public electricity supplier shall, upon being required to do so by the owner or occupier of any premises—

(a) give a supply of electricity to those premises; and

(b) so far as may be necessary for that purpose, provide electric lines or electrical plant or both.

(2) Where any person requires a supply of electricity under paragraph (1), he shall give to the public electricity supplier a notice specifying—

(a) the premises in respect of which the supply is required;

(b) the day on which the supply is required to commence;

(c) the maximum power which may be required at any time; and

(d) the minimum period for which the supply is required to be given.

(3) Where a public electricity supplier receives from any person a notice under paragraph (2) requiring him to give a supply of electricity to any premises and—

(a) he has not previously given a supply of electricity to those premises; or

(b) the giving of the supply requires the provision of electric lines or electrical plant or both; or

(c) other circumstances exist which make it necessary or expedient for him to do so,

the supplier shall, as soon as practicable after receiving that notice, give to that person a notice under paragraph (4).

(4) A notice under this paragraph shall—

(a) state the extent to which the proposals specified in the other person’s notice under paragraph (2) are acceptable to the supplier and specify any counter proposals made by the supplier;

(b) state whether the prices to be charged by the supplier will be determined by a tariff under Article 21(1), or a special agreement under Article 25(1), and specify the tariff or the proposed terms of the agreement;

(c) specify any payment which that person will be required to make under Article 22(1), or under regulations made under Article 22(2);

(d) specify any security which that person will be required to give under Article 23;

(e) specify any other terms which that person will be required to accept under Article 24; and

(f) state the effect of Article 26.

(5) In this Article and Articles 20 to 26—
(a) any reference to giving a supply of electricity includes a reference to continuing to give such a supply;
(b) any reference to requiring a supply of electricity includes a reference to requiring such a supply to continue to be given; and
(c) any reference to the provision of an electric line or an item of electrical plant is a reference to the provision of such a line or item either by the installation of a new one or by the modification of an existing one.

Exceptions from duty to supply

20.—(1) Nothing in Article 19(1) shall be taken as requiring a public electricity supplier to give a supply of electricity to any premises if—
   (a) such a supply is being given to the premises by a private electricity supplier; and
   (b) that supply is given (wholly or partly) through the public electricity supplier’s electric lines and electrical plant.

(2) Nothing in Article 19(1) shall be taken as requiring a public electricity supplier to give a supply of electricity to any premises if and to the extent that—
   (a) he is prevented from doing so by circumstances not within his control; or
   (b) circumstances exist by reason of which his doing so would or might involve his being in breach of regulations under Article 32, and he has taken all such steps as it was reasonable to take both to prevent the circumstances from occurring and to prevent them from having that effect; or
   (c) it is not reasonable in all the circumstances for him to be required to do so.

(3) Paragraph (2)(c) shall not apply in relation to a supply of electricity which is being given to any premises unless the public electricity supplier gives to the occupier, or to the owner if the premises are not occupied, not less than 7 working days’ notice of his intention to discontinue the supply under that sub-paragraph.

Power to recover charges

21.—(1) Subject to the following provisions of this Article, the prices to be charged by a public electricity supplier for the supply of electricity by him under Article 19(1) shall be in accordance with such tariffs (which, subject to any condition included in his licence, may relate to the supply of electricity in different areas, cases and circumstances) as may be fixed by him.

(2) A tariff fixed by a public electricity supplier under paragraph (1)—
   (a) shall be so framed as to show the methods by which and the principles on which the charges are to be made as well as the prices which are to be charged; and
   (b) shall be published in such manner as in the opinion of the supplier will secure adequate publicity for it.

(3) A tariff fixed by a public electricity supplier under paragraph (1) may include—
   (a) a standing charge in addition to the charge for the actual electricity supplied;
   (b) a charge in respect of the availability of a supply of electricity; and
   (c) a rent or other charge in respect of any electricity meter or electrical plant provided by the supplier;
and such a charge as is mentioned in sub-paragraph (b) may vary according to the extent to which the supply is taken up.
(4) In fixing tariffs under paragraph (1), a public electricity supplier shall not show undue preference to any person or class of persons, and shall not exercise any undue discrimination against any person or class of persons.

Power to recover expenditure

22.—(1) Where any electric line or electrical plant is provided by a public electricity supplier under Article 19(1), the supplier may require any expenses reasonably incurred in providing it to be defrayed by the person requiring the supply of electricity to such extent as is reasonable in all the circumstances.

(2) Regulations made, after consultation with the Director, may make provision for entitling a public electricity supplier to require a person requiring a supply of electricity under Article 19(1) to pay to the supplier, in respect of any expenses reasonably incurred in providing any electric line or electrical plant used for the purpose of giving that supply, such amount as may be reasonable in all the circumstances if—

(a) the supply is required within the prescribed period after the provision of the line or plant; and

(b) a person for the purpose of supplying whom the line or plant was provided (“the initial contributor”) has made a payment to the supplier in respect of those expenses.

(3) Regulations under paragraph (2) may require a public electricity supplier who, under this Article or the regulations, has recovered any amount in respect of expenses reasonably incurred in providing any electric line or electrical plant—

(a) to exercise his rights under the regulations in respect of those expenses; and

(b) to apply any payments received by him in the exercise of those rights in making such payments as may be appropriate towards reimbursing the initial contributor and any persons previously required to make payments under the regulations.

(4) Any reference in this Article to any expenses reasonably incurred in providing an electric line or electrical plant includes a reference to the capitalised value of any expenses likely to be so incurred in maintaining it, in so far as they will not be recoverable by the supplier as part of the charges made by him for the supply.

Power to require security

23.—(1) Subject to the following provisions of this Article, a public electricity supplier may require any person who requires a supply of electricity under Article 19(1) to give him reasonable security for the payment to him of all money which may become due to him—

(a) in respect of the supply; or

(b) where any electric line or electrical plant falls to be provided in pursuance of that paragraph, in respect of the provision of the line or plant;

and if that person fails to give such security, the supplier may if he thinks fit refuse to give the supply, or to provide the line or plant, for so long as the failure continues.

(2) Where any person has not given such security as is mentioned in paragraph (1), or the security given by any person has become invalid or insufficient—

(a) the public electricity supplier may by notice require that person, within 7 days from the service of the notice, to give him reasonable security for the payment of all money which may become due to him in respect of the supply; and

(b) if that person fails to give such security, the supplier may if he thinks fit discontinue the supply for so long as the failure continues;
and any notice under sub-paragraph (a) shall state the effect of Article 26.

(3) Where any money is deposited with a public electricity supplier by way of security under this Article, the supplier shall pay interest, at such rate as may be fixed by the supplier with the approval of the Director, on every sum of 50p so deposited for every 3 months during which it remains in the hands of the supplier.

(4) A public electricity supplier shall not be entitled to require security under paragraph (1)(a) if—

(a) the person requiring the supply is prepared to take the supply through a pre-payment meter; and

(b) it is reasonably practicable in all the circumstances (including in particular the risk of loss or damage) for the supplier to provide such a meter.

Additional terms of supply

24. A public electricity supplier may require any person who requires a supply of electricity under Article 19(1) to accept in respect of the supply—

(a) any restrictions which must be imposed for the purpose of enabling the supplier to comply with regulations under Article 32; and

(b) any terms restricting any liability of the supplier for economic loss resulting from negligence which it is reasonable in all the circumstances for that person to be required to accept.

Special agreements with respect to supply

25.—(1) Notwithstanding anything in Articles 19 to 24, a person who requires a supply of electricity under Article 19(1)—

(a) may enter into a special agreement with the public electricity supplier for the supply on such terms as may be specified in the agreement; and

(b) shall enter into such an agreement in any case where—

(i) the maximum power to be made available at any time exceeds one megawatt; or

(ii) it is otherwise reasonable in all the circumstances for such an agreement to be entered into.

(2) The Department may by order provide that paragraph (1) shall have effect as if for the wattage mentioned in sub-paragraph (b)(i) there were substituted such other wattage as may be specified in the order; but before making such an order, the Department shall consult with public electricity suppliers and with persons or bodies appearing to be representative of persons likely to be affected.

(3) So long as any such agreement as is mentioned in paragraph (1) is effective, the rights and liabilities of the parties to the agreement shall be those arising under the agreement and not those provided for by Articles 19 to 24; but nothing in this paragraph shall prejudice the giving of a notice under Article 19(2) specifying as the day on which the supply is required to commence the day on which such an agreement ceases to be effective.

Determination of disputes

26.—(1) Any dispute arising under Articles 19 to 25 between a public electricity supplier and a person requiring a supply of electricity—

(a) may be referred to the Director by either party; and

(b) on such a reference, shall be determined by order made either by the Director or, if he thinks fit, by an arbitrator appointed by him;
and the practice and procedure to be followed in connection with any such determination shall be such as the Director may consider appropriate.

(2) Where any dispute arising under Articles 19 to 25 between a public electricity supplier and a person requiring a supply of electricity to continue to be given falls to be determined under this Article, the Director may give directions as to the circumstances in which, and the terms on which, the supplier is to continue to give the supply pending the determination of the dispute.

(3) Where any dispute arising under Article 23(1) falls to be determined under this Article, the Director may give directions as to the security (if any) to be given pending the determination of the dispute.

(4) Directions under paragraph (2) or (3) may apply either in cases of particular descriptions or in particular cases.

(5) An order under this Article—

(a) may include such incidental, supplemental and consequential provision (including provision requiring either party to pay a sum in respect of the costs incurred by the person making the order) as that person considers appropriate; and

(b) shall be final and shall be enforceable, in so far as it includes such provision as to costs, as if it were a judgement of the county court.

(6) In including in an order under this Article any such provision as to costs as is mentioned in paragraph (5), the person making the order shall have regard to the conduct and means of the parties and any other relevant circumstances.

The public electricity supply code

27. The provisions of Schedule 6 (which relate to the supply of electricity by public electricity suppliers) shall have effect.

Enforcement of preceding provisions

Orders for securing compliance

28.—(1) Subject to paragraphs (2) and (5) and Article 29, where the Director is satisfied that a licence holder is contravening, or is likely to contravene, any relevant condition or requirement, he shall by a final order make such provision as is requisite for the purpose of securing compliance with that condition or requirement.

(2) Subject to paragraph (5), where it appears to the Director—

(a) that a licence holder is contravening, or is likely to contravene, any relevant condition or requirement; and

(b) that it is requisite that a provisional order be made,

he shall (instead of taking steps towards the making of a final order) by a provisional order make such provision as appears to him requisite for the purpose of securing compliance with that condition or requirement.

(3) In determining for the purposes of paragraph (2)(b) whether it is requisite that a provisional order be made, the Director shall have regard, in particular—

(a) to the extent to which any person is likely to sustain loss or damage in consequence of anything which, in contravention of the relevant condition or requirement, is likely to be done, or omitted to be done, before a final order may be made; and
(b) to the fact that the effect of the provisions of this Article and Article 30 is to exclude the availability of any remedy (apart from under those provisions or for negligence) in respect of any contravention of a relevant condition or requirement.

(4) Subject to paragraph (5) and Article 29, the Director shall confirm a provisional order, with or without modifications, if—

(a) he is satisfied that the licence holder to whom the order relates is contravening, or is likely to contravene, any relevant condition or requirement; and

(b) the provision made by the order (with any modifications) is requisite for the purpose of securing compliance with that condition or requirement.

(5) The Director shall not make a final order or make or confirm a provisional order in relation to a licence holder if he is satisfied—

(a) that the duties imposed on him by Article 6 preclude the making or, as the case may be, the confirmation of the order;

(b) that the licence holder has agreed to take and is taking all such steps as it appears to the Director for the time being to be appropriate for the licence holder to take for the purpose of securing or facilitating compliance with the condition or requirement in question; or

(c) that the contraventions were, or the apprehended contraventions are, of a trivial nature.

(6) Where the Director is satisfied as mentioned in paragraph (5), he shall—

(a) serve notice that he is so satisfied on the licence holder; and

(b) publish the notice in such manner as he considers appropriate for the purpose of bringing the matters to which the notice relates to the attention of persons likely to be affected by them.

(7) A final or provisional order—

(a) shall require the licence holder to whom it relates (according to the circumstances of the case) to do, or not to do, such things as are specified in the order or are of a description so specified;

(b) shall take effect at such time, being the earliest practicable time, as is determined by or under the order; and

(c) may be revoked at any time by the Director.

Procedural requirements

29.—(1) Before he makes a final order or confirms a provisional order, the Director shall give notice—

(a) stating that he proposes to make or confirm the order and setting out its effect;

(b) setting out—

(i) the relevant condition or requirement for the purpose of securing compliance with which the order is to be made or confirmed;

(ii) the acts or omissions which, in his opinion, constitute or would constitute contraventions of that condition or requirement; and

(iii) the other facts which, in his opinion, justify the making or confirmation of the order; and

(c) specifying the period (not being less than 28 days from the date of publication of the notice) within which representations or objections with respect to the proposed order or proposed confirmation may be made,

and shall consider any representations or objections which are duly made and not withdrawn.
(2) A notice under paragraph (1) shall be given—

(a) by publishing the notice in such manner as the Director considers appropriate for the purpose of bringing the matters to which the notice relates to the attention of persons likely to be affected by them; and

(b) by serving a copy of the notice, and a copy of the proposed order or of the order proposed to be confirmed, on the licence holder to whom the order relates.

(3) The Director shall not make a final order with modifications, or confirm a provisional order with modifications, except—

(a) with the consent to the modifications of the licence holder to whom the order relates; or

(b) after complying with the requirements of paragraph (4).

(4) The requirements mentioned in paragraph (3) are that the Director shall—

(a) serve on the licence holder to whom the order relates such notice as appears to him requisite of his proposal to make or confirm the order with modifications;

(b) in that notice specify the period (not being less than 28 days from the date of the service of the notice) within which representations or objections with respect to the proposed modifications may be made; and

(c) consider any representations or objections which are duly made and not withdrawn.

(5) As soon as practicable after making a final order or making or confirming a provisional order, the Director shall—

(a) serve a copy of the order on the licence holder to whom the order relates; and

(b) publish the order in such manner as he considers appropriate for the purpose of bringing it to the attention of persons likely to be affected by it.

(6) Before revoking a final order or a provisional order which has been confirmed, the Director shall give notice—

(a) stating that he proposes to revoke the order and setting out its effect; and

(b) specifying the period (not being less than 28 days from the date of publication of the notice) within which representations or objections with respect to the proposed revocation may be made,

and shall consider any representations or objections which are duly made and not withdrawn.

(7) If, after giving a notice under paragraph (6), the Director decides not to revoke the order to which the notice relates, he shall give notice of his decision.

(8) A notice under paragraph (6) or (7) shall be given—

(a) by publishing the notice in such manner as the Director considers appropriate for the purpose of bringing the matters to which the notice relates to the attention of persons likely to be affected by them; and

(b) by serving a copy of the notice on the licence holder to whom the order relates.

Validity and effect of orders

30.—(1) If the licence holder to whom a final or provisional order relates is aggrieved by the order and desires to question its validity on the ground—

(a) that its making or confirmation was not within the powers of Article 28; or

(b) that any of the requirements of Article 29 have not been complied with in relation to it, he may, within 42 days from the date of service on him of a copy of the order, make an application to the High Court under this Article.
(2) On any such application the High Court may, if satisfied that the making or confirmation of the order was not within those powers or that the interests of the licence holder have been substantially prejudiced by a failure to comply with those requirements, quash the order or any provision of the order.

(3) Except as provided by this Article, the validity of a final or provisional order shall not be questioned by any legal proceedings whatever.

(4) The obligation to comply with a final or provisional order shall be a duty owed to any person who may be affected by a contravention of the order.

(5) Where a duty is owed under paragraph (4) to any person, any breach of the duty which causes that person to sustain loss or damage shall be actionable at the suit of that person.

(6) In any proceedings brought against a licence holder under paragraph (5), it shall be a defence for him to prove that he took all reasonable steps and exercised all due diligence to avoid contravening the order.

(7) Without prejudice to any right which any person may have under paragraph (5) to bring civil proceedings in respect of any contravention or apprehended contravention of a final or provisional order, compliance with any such order shall be enforceable by civil proceedings by the Director for an injunction or for any other appropriate relief.

Power to require information, etc.

31.—(1) Where it appears to the Director that a licence holder may be contravening, or may have contravened, any relevant condition or requirement, the Director may, for any purpose connected with such of his functions under Article 28 as are exercisable in relation to that matter, serve a notice under paragraph (2) on any person.

(2) A notice under this paragraph is a notice signed by the Director—

(a) requiring the person on whom it is served to produce, at a time and place specified in the notice, to the Director or to any person appointed by the Director for the purpose, any documents which are specified or described in the notice and are in that person’s custody or under his control; or

(b) requiring that person, if he is carrying on a business, to furnish, at a time and place and in the form and manner specified in the notice, to the Director such information as may be specified or described in the notice.

(3) No person shall be required under this Article to produce any documents which he could not be compelled to produce in civil proceedings in the High Court or, in complying with any requirement for the furnishing of information, to give any information which he could not be compelled to give in evidence in any such proceedings.

(4) A person who without reasonable excuse fails to do anything required of him by notice under paragraph (2) shall be guilty of an offence and shall be liable on summary conviction to a fine not exceeding level 5 on the standard scale.

(5) A person who intentionally alters, suppresses or destroys any document which he has been required by any notice under paragraph (2) to produce shall be guilty of an offence and shall be liable—

(a) on summary conviction, to a fine not exceeding the statutory maximum;

(b) on conviction on indictment, to a fine.

(6) If a person makes default in complying with a notice under paragraph (2), the High Court may, on the application of the Director, make such order as the Court thinks fit for requiring the default to be made good; and any such order may provide that all the costs of and incidental to the
application shall be borne by the person in default or by any officers of a company or other body or association who are responsible for its default.

Provisions with respect to supply generally

Regulations relating to supply and safety

32.—(1) Regulations may make such provision as the Department thinks fit for the purpose of—

(a) who contravenes any specified provision of the regulations; or
(b) who does so in specified circumstances,

shall be guilty of an offence and liable on summary conviction to a fine not exceeding level 5 on the standard scale; but nothing in this paragraph shall affect any liability of any such person to pay compensation in respect of any damage or injury which may have been caused by the contravention.
(4) No proceedings shall be instituted in respect of an offence under the regulations except by or on behalf of the Department or the Director of Public Prosecutions for Northern Ireland.

**Electrical inspectors**

33.—(1) The Department may appoint competent and impartial persons to be electrical inspectors under this Part.

(2) The duties of an electrical inspector under this Part shall be as follows—

(a) to inspect and test, periodically and in special cases, electric lines and electrical plant belonging to persons authorised by a licence or exemption to generate, transmit or supply electricity;

(b) to examine, periodically and in special cases, the generation, transmission or supply of electricity by such persons;

(c) to inspect and test, if and when required by any consumer, any such lines and plant on the consumer’s premises, for the purpose of determining whether any requirement imposed by or under this Part in respect of the lines or plant or the supply of electricity through or by them has been complied with; and

(i) to furnish electrical inspectors with records or other information; and

(ii) to allow such inspectors access to premises and the use of electrical plant and other facilities;

(c) make provision for relieving persons authorised by a licence to supply electricity from any obligation to supply in such cases as may be prescribed; and

(d) prescribe the amount of the fees which are to be payable to such inspectors.

(4) Any fees received by electrical inspectors shall be paid to the Department.

**Use, etc., of meters**

34. The provisions of Schedule 7 (which relate to the use, certification, testing and maintenance of electricity meters) shall have effect.

**Protection of public interest**

**Electricity from non-fossil fuel sources**

35.—(1) The Department may, after consultation with the Director and with the licence holders concerned, by order require each holder of a licence under Article 10(1)(b) or (c), before a day specified in the order, to make (in so far as he has not already done so) and produce evidence to the Director showing that he has made—

(a) such arrangements; or

(b) where a previous order under this paragraph has had effect in relation to him, such additional arrangements,
as will secure the result mentioned in paragraph (2).

(2) The result referred to in paragraph (1) is that, for a period specified in the order, there will be available to the licence holder—

(a) from non-fossil fuel generating stations; or

(b) if the order so provides, from non-fossil fuel generating stations of any particular description,

an aggregate amount of generating capacity which is not less than that specified in relation to him in the order.

(3) A holder of a licence under Article 10(1)(b) or (c) who—

(a) fails to comply with an order under paragraph (1); or

(b) having complied with such an order, by any act of his prevents the arrangements made by him from securing the result mentioned in paragraph (2),

shall be guilty of an offence and shall be liable on conviction on indictment to a fine.

(4) No proceedings shall be instituted in respect of an offence under this Article except by or on behalf of the Department.

(5) Regulations may—

(a) make provision as to the method of calculating the capacity of generating stations, and the manner in which such capacity shall be treated as available for the purposes of this Article;

(b) provide that this Article shall have effect in relation to any non-fossil fuel generating station which is driven by water, wind or solar power with such modifications as may be prescribed; and

(c) provide that electricity generated outside Northern Ireland shall be treated for the purposes of this Article as generated by a non-fossil fuel generating station in such circumstances and to such extent as may be prescribed.

(6) In this Article—

“coal products” means any substances produced directly or indirectly from coal;

“fossil fuel” means coal, coal products, peat, lignite, crude liquid petroleum or petroleum products;

“non-fossil fuel generating station” means a generating station which is (or may be) fuelled or driven otherwise than by a fossil fuel;

“petroleum products” has the same meaning as in the Energy Act 1976.

(7) In relation to any time before Article 8 comes into operation, any requirement imposed by paragraph (1) to consult with holders of a licence under Article 10(1)(b) or (c) shall be construed as a requirement to consult with Northern Ireland Electricity.

Fossil fuel levy

36. Where the Department has made one or more orders under Article 35 in relation to holders of a licence under Article 10(1)(b) or (c), regulations may provide—

(a) for the imposition on such licence holders, and on persons authorised by a licence under Article 10(2) to supply electricity within the authorised area of a public electricity supplier, of a levy;

(b) for the collection of payments in respect of that levy by a prescribed person; and

(c) for the making by that person of payments out of that levy.
Fuel stocks, etc., at generating stations

37.—(1) This Article applies to any generating station which—
(a) is of a capacity not less than 10 megawatts; and
(b) is fuelled otherwise than by waste or manufactured gases;
and in this paragraph “waste” has the same meaning as in Article 36(1) of the Pollution Control and Local Government (Northern Ireland) Order 1978.

(2) The Department may by order provide that paragraph (1) shall have effect as if for the capacity mentioned in that paragraph there were substituted such other capacity (not exceeding 100 megawatts) as may be specified in the order.

(3) In respect of any generating station to which this Article applies, the Department may give a direction requiring the person who operates it—
(a) to make such arrangements with respect to stocks of fuel and other materials held at or near that generating station for the purposes of its operation as will—
(i) enable those stocks to be brought within a specified time to, and thereafter maintained at, a specified level; and
(ii) ensure that they do not fall below that level, except as may be permitted by the terms of the direction or by a direction under paragraph (4);
(b) to create such stocks and make such arrangements with respect to them;
and the amount of any stocks may be specified by reference to the period for which it would enable the generating station to be maintained in operation.

(4) In respect of any generating station to which this Article applies, the Department may give a direction—
(a) authorising or requiring the person who operates it to make such use as may be specified of any stocks held at or near that generating station; and
(b) requiring that person to operate, or not to operate, that generating station for specified periods, at specified levels of capacity or using specified fuels.

(5) In paragraphs (3) and (4) “specified” means specified by or under the Department’s direction; and a direction may—
(a) specify the cases and circumstances in which any stocks are to be treated as held at or near any generating station;
(b) specify the extent to which the direction may be treated as complied with where, under arrangements made or approved by the Department, access can be had to stocks held for the use of a number of consumers;
(c) specify the manner in which any period mentioned in paragraph (3) or (4) is to be determined;
(d) require anything falling to be specified under the direction to be specified by such persons and by reference to such matters as may be specified.

(6) A direction under paragraph (3) or (4) which confers on any person the function of specifying anything falling to be specified under the direction may require that person to exercise that function and to do so in such manner as may be specified by the direction.

Provisions supplementary to Article 37

38.—(1) The Department may give a direction requiring any person authorised by a licence to transmit electricity to give to the Department, after consultation with specified persons, any
information or advice which the Department may reasonably require for purposes connected with the exercise of its functions under Article 37.

(2) The Department may give a direction requiring any person authorised by a licence to transmit electricity to operate his transmission system, at any time when a direction under Article 37(4) is in force, either in a specified manner or with a view to achieving specified objectives.

(3) On such day as the Department may by order appoint for the purposes of paragraph (4) (the “transfer date”) each successor company must be a company limited by shares which is wholly owned by the Crown.

(4) Subject to the provisions of Article 72, on the transfer date all assets and liabilities to which immediately before that date Northern Ireland Electricity was entitled or subject (other than excepted rights and liabilities) shall become by virtue of this paragraph, assets and liabilities of the successor company to which they are allocated by a scheme under paragraph (1).

(3) A transaction of any description which is effected under such a provision as is mentioned in paragraph (2)—
(a) shall have effect subject to the provisions of any statutory provision which provides for transactions of that description to be registered in any statutory register; but
(b) subject to that, shall be binding on all other persons, notwithstanding that it would, apart from this paragraph, have required the consent or concurrence of any other person.

(a) shall not become exercisable or enforceable by reason of the grant of the lease; but

(a) Northern Ireland Electricity fails, before the date specified in the Department’s direction under Article 69(1), to submit the scheme for the approval of the Department; or
(b) the Department decides not to approve the scheme that has been submitted to the Department by Northern Ireland Electricity (either with or without modifications), the Department may make the scheme.

(3) It shall be the duty of Northern Ireland Electricity to provide the Department with all such information and other assistance as the Department may require for the purposes of or in connection with the exercise, in relation to a transfer scheme, of any power conferred on the Department by paragraph (1) or (2).

(4) Shares in a company which are issued under this Article—
(a) shall be of such nominal value as the Department may direct; and

(5) The Department shall not exercise any power conferred by this Article, or dispose of any securities issued or of any rights to securities initially allotted to the Department under this Article, without the consent of the Department of Finance and Personnel.

(6) For the purposes of the Companies (Northern Ireland) Order 1986, Part II of the Companies (Northern Ireland) Order 1989 and the Insolvency (Northern Ireland) Order 1989 the Crown is not to be treated as a shadow director of any successor company by reason that the company is wholly owned by the Crown or that the directors of that company are accustomed to act in accordance with the Crown’s directions or instructions.
Government investment in securities of the companies

(a) securities of a successor company may be issued under Article 73 to any nominee of the Department or the Department of Finance and Personnel appointed for the purposes of that Article or to any person entitled to require the issue of the securities following their initial allotment to any such nominee; and

(b) any such nominee appointed for the purposes of Article 74 may acquire securities or rights under that Article,

in accordance with directions given by the Department of Finance and Personnel or, with the consent of the Department of Finance and Personnel, by the Department.

(2) Any person holding any securities or rights as a nominee of the Department or the Department of Finance and Personnel under paragraph (1) shall hold and deal with them (or any of them) on such terms and in such manner as the Department of Finance and Personnel or, with the consent of the Department of Finance and Personnel, the Department may direct.

Target investment limit for Government shareholding

76.—(1) As soon as the Department considers expedient and, in any case, not later than 6 months after any successor company ceases to be wholly owned by the Crown, the Department shall by order fix a target investment limit in relation to the shares for the time being held in that company by virtue of any provision of this Part by the Department, the Department of Finance and Personnel and their respective nominees (“the Government shareholding”).

(2) The target investment limit for the Government shareholding in a successor company shall be expressed as a proportion of the voting rights which are exercisable in all circumstances at general meetings of the company (“the ordinary voting rights”).

(3) The first target investment limit fixed under this Article for the Government shareholding in a particular company shall not exceed, by more than 0.5 per cent. of the ordinary voting rights, the proportion of those rights which is in fact carried by the Government shareholding in that company at the time when the order fixing the limit is made.

(4) The Department may by order fix a new target investment limit for the Government shareholding in a successor company in place of the one previously in force under this Article; but—

(b) an order under this Article may, notwithstanding section 17(2) of the Interpretation Act (Northern Ireland) 1954, only be revoked by an order fixing a new limit.

(5) It shall be the duty of the Department and of the Department of Finance and Personnel so to exercise—
(a) their powers under Article 74 and any power to dispose of any shares held under any provision of this Part; and

(b) their power to give directions to their respective nominees,
as to secure in relation to each successor company that the Government shareholding in that company
does not carry a proportion of the ordinary voting rights exceeding any target investment limit for
the time being in force under this Article in relation to that company.

(6) Notwithstanding paragraph (5) but subject to paragraph (7), the Department or the Department
of Finance and Personnel may take up, or direct any nominee of the Department or of the Department
of Finance and Personnel to take up, any rights which are for the time being available to them, or
to the nominee, either—

(a) as an existing holder of shares or other securities of a successor company; or

(b) by reason of the rescission of any contracts for the sale of such shares or securities.

(7) If, as a result of anything done under paragraph (6), the proportion of the ordinary voting
rights carried by the Government shareholding in a successor company at any time exceeds the target
investment limit for the time being in force under this Article in relation to that company, it shall
be the duty of the Department or, as the case may be, the Department of Finance and Personnel to
comply with paragraph (5) as soon after that time as is reasonably practicable.

(8) For the purposes of this Article the temporary suspension of any of the ordinary voting rights
shall be disregarded.

(9) The Department shall not exercise any power conferred on it by this Article except with the
consent of the Department of Finance and Personnel.

77.—(1) If the Department with the approval of the Department of Finance and Personnel so
directs at any time before a successor company ceases to be wholly owned by the Crown, such sum
as may be specified in the direction but not exceeding such proportion of the accumulated realised
profits of Northern Ireland Electricity as is determined by or under the transfer scheme shall be
carried by the company to a reserve (“the statutory reserve”).

(2) A company having a statutory reserve shall not apply it except in paying up unissued shares
of the company to be allotted to members of the company as fully paid bonus shares.

(3) Notwithstanding paragraph (2), the statutory reserve of a company shall not count as an
undistributable reserve of the company for the purposes of Article 272(3)(d) of the Companies
(Northern Ireland) Order 1986; but for the purpose of determining under that Article whether a
company with a statutory reserve may make a distribution at any time any amount for the time being
standing to the credit of the reserve shall be treated for the purposes of Article 272(3)(c) of that
Order as if it were unrealised profits of the company.

Statutory accounts

78.—(1) The following provisions of this Article shall have effect for the purposes of any
statutory accounts of a successor company, that is to say, any accounts prepared by such a company
for the purpose of any provision of the Companies (Northern Ireland) Order 1986 (including group
accounts).

(2) The vesting in the company effected under this Part shall be taken to have been effected
immediately after the end of the last complete accounting year of Northern Ireland Electricity to end
on or before the transfer date and to have been a vesting of such of the assets and liabilities to which
Northern Ireland Electricity was entitled or subject immediately before the end of the year as are determined by or under the transfer scheme.

(3) The value of any asset and the amount of any liability which is taken under paragraph (2) to have been vested in the company shall be taken to have been—

(a) the value or amount assigned to the asset or liability for the purposes of the corresponding statement of accounts prepared by Northern Ireland Electricity in respect of the last complete accounting year of Northern Ireland Electricity to end before the transfer date; or

(b) if the asset or liability is part only of an asset or liability to which a value or amount is so assigned, so much of that value or amount as may be determined by or under the transfer scheme.

(4) The amount to be included in respect of any item shall be determined as if—

(a) anything done by Northern Ireland Electricity (whether by way of acquiring, revaluing or disposing of any asset or incurring, revaluing or discharging any liability, or by carrying any amount to any provision or reserve, or otherwise); or

(b) so much of anything so done as may be determined by or under the transfer scheme,

had been done by the company.

(5) Without prejudice to the generality of the preceding provisions, the amount to be included in any reserves of the company as representing the company’s accumulated realised profits or, as the case may be, losses shall be determined as if such proportion of—

(a) any profits realised and retained; or

(b) any losses realised; or

(c) any other provision made,

by Northern Ireland Electricity as is determined by or under the transfer scheme, had been realised and retained, realised or made, as the case may require, by the company.

(6) In this Article “complete accounting year”, in relation to Northern Ireland Electricity, means an accounting year of Northern Ireland Electricity ending on 31st March.

Temporary restrictions on borrowings, etc.

79.—(1) If articles of association of a successor company confer on the Department powers exercisable with the consent of the Department of Finance and Personnel for, or in connection with, restricting the sums of money which may be borrowed or raised by the group during any period, those powers shall be exercisable in the public interest notwithstanding any rule of law and any statutory provision.

(2) For the purposes of this Article an alteration of the articles of association of a successor company shall be disregarded if the alteration—

(a) has the effect of conferring or extending any such power as is mentioned in paragraph (1); and

(b) is made at a time when that company has ceased to be wholly owned by the Crown.

(3) In this Article—

“group”, in relation to a company, means that company and all of its subsidiaries taken together;

“subsidiary” has the meaning given by Article 4 of the Companies (Northern Ireland) Order 1986.
Government lending to the companies

80.—(1) Subject to Article 83, the Department may, with the approval of the Department of Finance and Personnel, make loans of such amounts and on such terms and conditions, including terms and conditions as to security, as the Department thinks fit to any successor company which is for the time being wholly owned by the Crown.

(2) Subject to Article 82, any loans which the Department makes under this Article shall be repaid to the Department at such times and by such methods, and interest thereon shall be paid to the Department at such rates and at such times, as the Department may, with the approval of the Department of Finance and Personnel, direct.

(3) Expenditure incurred or to be incurred by the Department in making loans under this Article shall be defrayed by means of sums charged on and issued out of the Consolidated Fund.

81.—(1) Subject to Article 83, the Department may guarantee, in such manner and on such terms as the Department, with the approval of the Department of Finance and Personnel, may think fit, the repayment of the principal of, the payment of interest on, and the discharge of any other financial obligation in connection with, any sums which are borrowed from a person other than the Department by any successor company which is for the time being wholly owned by the Crown.

(2) Immediately after a guarantee is given under this Article, the Department shall lay a statement of the guarantee before the Assembly; and immediately after any sum is issued for fulfilling a guarantee so given, the Department shall so lay a statement relating to that sum.

(3) Any sums required by the Department for fulfilling a guarantee under this Article shall be charged on and issued out of the Consolidated Fund.

(4) The Department of Finance and Personnel may borrow money for the purpose of providing for issues out of the Consolidated Fund under paragraph (3).

(5) If any sums are issued in fulfilment of a guarantee given under this Article the company whose obligations are so fulfilled shall make to the Department, at such times and in such manner as the Department may direct,—

(a) payments of such amounts as the Department may so direct in or towards repayment of the sums so issued; and

(b) payments of interest on what is outstanding for the time being in respect of sums so issued at such rate as the Department may so direct.

Conversion or discharge of certain loans or advances, etc.

82.—(1) The Department may by order extinguish all or any of the liabilities of Northern Ireland Electricity or, as the case may be, a successor company in respect of the principal of such relevant loans as may be specified in the order.

(2) Where the Department has made an order under paragraph (1) and the Department considers it appropriate to do so, the Department may give a direction under this paragraph to Northern Ireland Electricity or, as the case may be, the successor company whose liabilities are extinguished by the order; and Northern Ireland Electricity or that company as the case may require shall, as a consequence of the making of the order, issue such securities as may be specified or described in the direction—

(a) to the Department or to the Department of Finance and Personnel; or

(b) to any person entitled to require the issue of the securities following their initial allotment to the Department or the Department of Finance and Personnel.
(3) For the purposes of any statutory accounts of a successor company, the value at the time of its issue of any such security shall be taken—

      (i) with consent given by or on behalf of the occupier of the land; or
      (ii) where the occupier has refused his consent, with the consent of the Department.

(4) The power to survey land conferred by this paragraph includes power to search and bore for the purpose of ascertaining the nature of the subsoil; but works may not be carried out on the land for this purpose unless—
   (a) notice of the proposed works is included in the notice given under sub-paragraph (2); and
   (b) where land is held by statutory undertakers who object to the works on the ground that the carrying out of the works would be seriously detrimental to the carrying on of their undertaking, with the consent of the Department.

Without prejudice to Schedule 6 to the Drainage (Northern Ireland) Order 1973, a person who holds a licence under Article 10(1)(a) shall not abstract or divert from any waterway and use such water as may be necessary for the purposes of operating a generating station wholly or mainly driven by water unless he has obtained from the Department of the Environment an authorisation to do so.

2. On the application of such a licence holder the Department of the Environment may authorise him to abstract and divert and use the water as mentioned in paragraph 1; but he shall do as little damage as possible in the exercise of the powers conferred by the authorisation and shall make compensation for any damage done in the exercise of those powers.

3. Where the abstraction, diversion and use will, in the opinion of the Department of the Environment—

   (a) substantially reduce the flow of water in any waterway, that Department shall in the authorisation specify the extent to which and the circumstances in which water may be taken;

   (b) substantially reduce the level of water in any waterway, that Department shall in the authorisation either—

      (i) specify the extent to which and the circumstances in which water may be taken; or

   (a) the interest of public health;

   (b) the character of the waterway, and the flow, or as the case may be the level, of water in it;

   (c) the extent to which the waterway is, or may in future be, used for industrial purposes or for the purposes of any public undertaking or for fisheries, water supply, agriculture, transport and navigation; and

   (d) the effect on land drainage or on any canal or inland navigation of any alteration in the flow or level of water in the waterway,

and shall secure, so far as practicable, the protection of the rights of riparian owners and of other owners of land or fishings.

6. Any question of disputed compensation under paragraph 2 shall be referred to and determined by the Lands Tribunal; and Articles 4 and 5 of the Land Compensation (Northern Ireland) Order 1982 shall apply to any such determination.

(a) stating that he is about to apply for authorisation under paragraph 2;
(b) indicating the Irish Grid reference of the proposed points of abstraction and discharge;
(c) specifying a place where any relevant map or plan may be inspected; and
(d) giving the name and date of issue of a newspaper in which the notice explaining the effect of the authorisation applied for will be found.

10. If before the expiration of 28 days from the date of the first publication of the notice under paragraph 7 or of 25 days from the publication of the said notice in the Belfast Gazette an objection is received by the Department of the Environment from any person on whom a notice is required to be served under paragraph 8, or from any other person appearing to that Department to be affected by the application, and the objection is not withdrawn, that Department before giving that authorisation, may cause an inquiry to be held by the Water Appeals Commission for Northern Ireland and where that Department causes such an inquiry to be held, the power under Article 8(4) of the Water and Sewerage Services (Northern Ireland) Order 1973 to substitute a new decision or vary the decision of the Water Appeals Commission may be exercised by that Department.

11. The expenses incurred by the Department of the Environment in connection with an authorisation under paragraph 2 shall be paid by the applicant; and that Department may, in a case where there are 2 or more applicants, apportion such expenses between them.

Recovery of electricity charges, etc.

1.—(1) Subject to sub-paragraph (2), a public electricity supplier may recover from a tariff customer any charges due to him in respect of the supply of electricity, or in respect of the provision of any electricity meter, electric line or electrical plant.

(2) A public electricity supplier who, for the purpose of meeting the needs of a disabled person—
(a) alters the position of any electricity meter which has been provided by him; or
(b) replaces such a meter with one which has been specially adapted,
shall not make any charge for the alteration or replacement; and Article 26 shall apply in relation to any dispute arising under this sub-paragraph as if it were a dispute arising under Articles 19 to 25.

(3) If a tariff customer quits any premises at which electricity has been supplied to him by a public electricity supplier without giving notice thereof to the supplier so that it is received by the supplier at least 2 working days before he quits the premises, he shall be liable to pay the supplier all charges in respect of the supply of electricity to the premises accruing due up to whichever of the following first occurs, namely—
(a) the second working day after he gives such notice to the supplier;
(b) the next day on which the register of any meter falls to be ascertained; or
(c) the day from which any subsequent occupier of the premises requires the supplier to supply electricity to the premises.

(4) Sub-paragraph (3), or a statement of the effect thereof, shall be endorsed upon every demand note for electricity charges payable to a public electricity supplier by a tariff customer.

(5) If a tariff customer quits any premises at which electricity has been supplied to him by a public electricity supplier without paying all charges due from him in respect of the supply, or the provision of any electricity meter, electric line or electrical plant for the purposes of the supply, the supplier—
(a) may refuse to furnish him with a supply of electricity at any other premises until he pays the amount due; but
(b) shall not be entitled to require payment of that amount from the next occupier of the premises.

(6) If a tariff customer has not, within the requisite period, paid all charges due from him to a public electricity supplier in respect of the supply of electricity to any premises, or the provision of any electricity meter, electric line or electrical plant for the purposes of the supply, the supplier, after the expiration of not less than 2 working days' notice of his intention, may—
(a) cut off the supply to the premises, or to any other premises occupied by the customer, by such means as he thinks fit; and
(b) recover any expenses incurred in so doing from the customer.

(7) In sub-paragraph (6) “the requisite period” means—
(a) in the case of premises which are used wholly or mainly for domestic purposes, the period of 20 working days from the making by the supplier of a demand in writing for payment of the charges due; and
(b) in the case of any other premises, the period of 15 working days from the making of such a demand.
(8) The powers conferred by sub-paragraph (6) shall also be exercisable at any time which, in relation to a tariff customer, is after the effective date for the purposes of Article 343 of the Insolvency (Northern Ireland) Order 1989 (supplies of gas, water, electricity etc. to insolvent companies).

(9) The powers conferred by sub-paragraph (6) shall not be exercisable as respects any amount which is genuinely in dispute; but there shall be disregarded for this purpose any dispute arising under Article 42 or regulations made under it.

(10) In this paragraph a reference to the provision of any electric line or item of electrical plant is a reference to the provision of such a line or item by the installation of a new one or by the modification of an existing one.

Restoration of supply by supplier

2.—(1) Where a public electricity supplier has cut off the supply of electricity to any premises in consequence of any default on the part of a tariff customer, the supplier shall be under an obligation to resume the supply of electricity before the end of the period of 2 working days from the day on which the requirements of sub-paragraph (2) are satisfied.

(2) The requirements of this sub-paragraph are that the customer in default—
(a) has made good the default;
(b) has paid the reasonable expenses of disconnecting and re-connecting the supply; and
(c) has given such security as is mentioned in Article 23(1).

(3) The obligation imposed by sub-paragraph (1) shall be a duty owed to any person who may be affected by a failure to comply with the obligation.

(4) Where a duty is owed under sub-paragraph (3) to any person any breach of the duty which causes that person to sustain loss or damage shall be actionable at the suit of that person.

(5) In any proceedings brought against a public electricity supplier under sub-paragraph (4), it shall be a defence for the supplier to prove that he took all reasonable steps and exercised all due diligence to avoid failing to comply with the obligation imposed by sub-paragraph (1).

(6) Without prejudice to any right which any person may have under sub-paragraph (4) to bring civil proceedings in respect of any failure to comply with the obligation imposed by sub-paragraph (1), compliance with that obligation shall be enforceable by civil proceedings by the Director for an injunction or for any other appropriate relief.

Restoration of supply without consent

3.—(1) Where a supply of electricity to any premises has been cut off by a public electricity supplier otherwise than in the exercise of a power conferred by regulations under Article 32, no person shall, without the consent of the supplier, restore the supply.

(2) If any person acts in contravention of sub-paragraph (1), he shall be guilty of an offence and shall be liable on summary conviction to a fine not exceeding level 3 on the standard scale and the supplier may again cut off the supply.

Damage to electrical plant, etc.

4.—(1) If any person intentionally or by culpable negligence damages or allows to be damaged—
(a) any electrical plant or electric line belonging to a public electricity supplier; or
(b) any electricity meter so belonging,
he shall be guilty of an offence and shall be liable on summary conviction to a fine not exceeding level 3 on the standard scale.

(2) Where an offence has been committed under sub-paragraph (1)(a), the supplier may discontinue the supply of electricity to the person so offending until the matter has been remedied.

(3) Where an offence has been committed under sub-paragraph (1)(b), the supplier—

(a) may discontinue the supply of electricity to that person so offending until the matter has been remedied; and

(b) remove the meter as respects which the offence was committed.

(4) Where a public electricity supplier removes a meter under sub-paragraph (3), he shall keep it safely until the Director authorises him to destroy or otherwise dispose of it.

Entry during continuance of supply

5.—(1) Any person authorised by a public electricity supplier may at all reasonable times, on the production of some duly authenticated document showing his authority, enter any premises to which a supply of electricity is being given by the public electricity supplier, or by a private electricity supplier (wholly or partly) through the public electricity supplier’s electric lines and electrical plant, for any of the following purposes, namely—

(a) inspecting any electric line or electrical plant belonging to the supplier;

(b) ascertaining the register of any electricity meter and, in the case of a pre-payment meter, removing any money or tokens belonging to the supplier;

(c) removing, inspecting or re-installing any electricity meter or installing any substitute meter.

(2) Except where a supply of electricity is being given to the premises by a private electricity supplier (wholly or partly) through the public electricity supplier’s electric lines and electrical plant, sub-paragraph (1)(a) and (b) does not apply if—

(a) the customer has applied in writing to the supplier for the supplier to cease to supply electricity to the premises; and

(b) the supplier has failed to do so within a reasonable time.

(3) Sub-paragraph (1)(c) does not apply in relation to the removal of a meter unless 2 working days' notice is given to the occupier, or the owner of the premises if they are unoccupied.

Entry on discontinuance of supply

6.—(1) Where a public electricity supplier is authorised by paragraph 4(3) of this Schedule or 12(3) of Schedule 7—

(a) to discontinue the supply of electricity to any premises; and

(b) to remove the electricity meter as respects which the offence under that paragraph was committed,

any person authorised by the supplier may at all reasonable times, on production of some duly authenticated document showing his authority, enter the premises for the purpose of disconnecting the supply and removing the meter.

(2) Where—

(a) a public electricity supplier is authorised by any other provision of this Order or of regulations made under it (including any such provision as applied by such an agreement
as is mentioned in Article 25(1)) to cut off or discontinue the supply of electricity to any
premises;
(b) a person occupying premises supplied with electricity by a public electricity supplier, or
by a private electricity supplier (wholly or partly) through a public electricity supplier’s
electric lines and electrical plant, ceases to require such a supply;
(c) a person entering into occupation of any premises previously supplied with electricity by
a public electricity supplier, or by a private electricity supplier (wholly or partly) through
a public electricity supplier’s electric lines and electrical plant, does not require such a
supply; or
(d) a person entering into occupation of any premises previously supplied with electricity
through a meter belonging to a public electricity supplier does not hire or borrow that
meter,
any person authorised by the supplier, after one working day’s notice to the occupier, or to the owner
of the premises if they are unoccupied, may at all reasonable times, on production of some duly
authenticated document showing his authority, enter the premises for the purpose of disconnecting
the supply or removing any electrical plant, electric line or electricity meter.

Entry for replacing, repairing or altering lines or plant

7.—(1) Any person authorised by a public electricity supplier, after 5 working days' notice to
the occupier of any premises, or to the owner of any premises which are unoccupied, may at all
reasonable times, on production of some duly authenticated document showing his authority, enter
the premises for the purpose of—
(a) placing a new electric line or new electrical plant in the place of or in addition to any
existing line or plant which has already been lawfully placed; or
(b) repairing or altering any such existing line or plant.
(2) In the case of emergency arising from faults in any electric line or electrical plant entry may
be made under sub-paragraph (1) without the notice required to be given by that sub-paragraph, but
the notice shall then be given as soon as possible after the occurrence of the emergency.

Exercise of powers of entry

8.—(1) A power of entry conferred by this Schedule shall not be exercisable except—
(a) with consent given by or on behalf of the occupier of the premises; or
(b) under the authority of a warrant granted under paragraph 9;
so, however, that this sub-paragraph shall not apply where entry is sought in the case of emergency.
(2) Any person exercising powers of entry conferred by this Schedule may be accompanied by
such persons as may be necessary or expedient for the purpose for which the entry is made, or for
the purposes of paragraph 10(1).

Warrant to authorise entry

9.—(1) Where a justice of the peace is satisfied by complaint on oath—
(a) that admission to premises is reasonably required for the purpose specified in the
complaint; and
(b) that a person authorised by a public electricity supplier would, apart from paragraph 8, be entitled for that purpose to exercise in respect of the premises a power of entry conferred by this Schedule; and
(c) that—
   (i) in the case of a right of entry under paragraph 6 an application for admission, or the serving of a notice under paragraph 6(2), would defeat the object of the entry, or
   (ii) the premises are unoccupied;

he may issue a warrant under his hand authorising any authorised person to enter the premises.

(2) A warrant granted under this paragraph shall continue in force until—
   (a) the time when the purpose for which the entry is required is satisfied; or
   (b) the end of the period of 28 days from the day on which the warrant is granted, whichever is the earlier.

Premises to be left secure and damage to be made good

10.—(1) Where, under any powers conferred by this Schedule, entry is made on any premises by a person authorised by a public electricity supplier—
   (a) he shall ensure that the premises are left no less secure by reason of the entry, and
   (b) the supplier shall make good or pay compensation for any damage to property caused by that person, or by any person accompanying him in entering the premises, in taking any action in the premises authorised by this Schedule or in making the premises secure.

(2) Any question of disputed compensation under this paragraph shall be referred to and determined by the Lands Tribunal.

Penalty for obstruction

11. Any person who intentionally obstructs a person authorised by a public electricity supplier in exercising a power of entry conferred by this Schedule shall be guilty of an offence and shall be liable on summary conviction to a fine not exceeding level 3 on the standard scale.

Exemption of electrical plant, etc., for certain processes

12. Any electrical plant, electric line or electricity meter owned by or let for hire or lent to a customer by a public electricity supplier and marked or impressed with a sufficient mark or brand indicating the supplier as the owner thereof—
   (a) shall continue to be the property of the supplier notwithstanding that they may be fixed or fastened to any part of the premises in which they may be situated; and
   (b) shall be exempt from seizure under the Judgments Enforcement (Northern Ireland) Order 1981; and
   (c) shall not be taken in execution under proceedings in bankruptcy against the person in whose possession they may be.
SCHEDULE 7

USE, ETC., OF ELECTRICITY METERS

Interpretation

1. In this Schedule—
   “agreed margins of error” means any margins of error agreed between the electricity supplier and the customer;
   “approved” means approved by or under regulations made under paragraph 3;
   “electricity supplier” means a person authorised by a licence or exemption to supply electricity;
   “exempt supply” means a supply of electricity to any premises where—
   (a) the premises are not premises used wholly or mainly for domestic purposes; or
   (b) the electricity supplier or the customer is a person authorised by an exemption to supply electricity to those premises;
   “prescribed margins of error” means margins of error by reference to which standards may be prescribed as mentioned in paragraph 6(2).

Consumption to be ascertained by appropriate meter

2.—(1) Where a customer of an electricity supplier is to be charged for his supply wholly or partly by reference to the quantity of electricity supplied, the supply shall be given through, and the quantity of electricity shall be ascertained by, an appropriate meter.
(2) The meter shall be provided—
   (a) by the electricity supplier, whether by way of sale, hire or loan; or
   (b) if agreed by the parties in the case of a meter used or intended to be used in connection with an exempt supply, by the customer.
(3) The meter shall be installed on the customer’s premises in a position determined by the electricity supplier, unless in all the circumstances it is more reasonable to place it outside those premises or in some other position.
(4) The electricity supplier may require the replacement of any meter provided and installed in accordance with sub-paragraphs (2) and (3) where its replacement—
   (a) is necessary to secure compliance with this Schedule or any regulations made under it; or
   (b) is otherwise reasonable in all the circumstances;
and any replacement meter shall be provided and installed in accordance with those sub-paragraphs.
(5) If the customer refuses or fails to take his supply through an appropriate meter provided and installed in accordance with sub-paragraphs (2) and (3), the supplier may refuse to give or may discontinue the supply.
(6) For the purposes of this paragraph a meter is an appropriate meter for use in connection with any particular supply if it is of a pattern or construction which, having regard to the terms on which the supply is to be charged for, is particularly suitable for such use.
(7) Article 26 shall apply in relation to any dispute arising under this paragraph between a public electricity supplier and a customer as if it were a dispute arising under Articles 19 to 25.
(8) Pending the determination under Article 26 of any dispute arising under this paragraph, the meter and its provision and installation shall be such as the Director may direct; and directions under this sub-paragraph may apply either in cases of particular descriptions or in particular cases.
(9) Part II shall apply as if any duty or other requirement imposed on a public electricity supplier by directions under sub-paragraph (8) were imposed by directions under Article 26.

Restrictions on use of meters

3.—(1) No meter shall be used for ascertaining the quantity of electricity supplied by an electricity supplier to a customer unless the meter—
   (a) is of an approved pattern or construction and is installed in an approved manner; and
   (b) subject to sub-paragraph (2), is certified under paragraph 6.

   (2) Sub-paragraph (1)(b) shall not apply to a meter used in connection with an exempt supply if the electricity supplier and the customer have agreed in writing to dispense with the requirements of that paragraph.

   (3) Regulations under this paragraph may provide—
      (a) for determining the fees to be paid in connection with applications for approvals under the regulations;
      (b) for revoking such an approval to any particular pattern or construction of meter and requiring meters of that pattern or construction which have been installed to be replaced with meters of an approved pattern or construction within a prescribed period;
      (c) for revoking such an approval to any particular manner of installation and requiring meters which have been installed in that manner to be installed in an approved manner within such a period.

4.—(1) If an electricity supplier supplies electricity through a meter which is used for ascertaining the quantity of electricity supplied and—
   (a) is not of an approved pattern or construction or is not installed in an approved manner; or
   (b) in the case of a meter to which paragraph 3(1)(b) applies, is not certified under paragraph 6,
   he shall be guilty of an offence and shall be liable on summary conviction to a fine not exceeding level 3 on the standard scale.

   (2) Where the commission by any person of an offence under this paragraph is due to the act of some other person, that other person shall be guilty of the offence; and a person may be charged with and convicted of the offence under this sub-paragraph whether or not proceedings are taken against the first-mentioned person.

   (3) In any proceedings in respect of an offence under this paragraph it shall be a defence for the person charged to prove that he took all reasonable steps and exercised all due diligence to avoid committing the offence.

   (4) No proceedings shall be instituted in respect of an offence under this paragraph except by or on behalf of the Director.

Meter examiners

5.—(1) The Director shall appoint competent and impartial persons as meter examiners for the purposes of this Schedule.

   (2) There shall be paid to meter examiners such remuneration and such allowances as may be determined by the Director with the approval of the Department of Finance and Personnel.

   (3) Such pensions as may be so determined may be paid to or in respect of such examiners.
(4) All fees payable in respect of the examination, testing and certification of meters by meter examiners shall be paid to the Director and any sums received by him under this sub-paragraph shall be paid into the Consolidated Fund.

Certification of meters

6.—(1) Subject to sub-paragraph (2), a meter may be certified—
   (a) by a meter examiner appointed under paragraph 5; or
   (b) by a person who is authorised to certify meters of that description by or under regulations made under this paragraph;
and in this paragraph “examiner” means a meter examiner or a person so authorised.

(2) No meter shall be certified unless the examiner is satisfied—
   (a) that the meter is of an approved pattern or construction; and
   (b) that the meter conforms to such standards (including standards framed by reference to margins of error) as may be prescribed.

(3) An examiner may certify any meter submitted to him, notwithstanding that he has not himself examined or tested it, if—
   (a) the meter is submitted to him by a public electricity supplier or by a person authorised by the Director for the purposes of this sub-paragraph;
   (b) the meter is accompanied by a report stating that the meter has been examined and tested by the person submitting it and containing such other information as may be prescribed;
   (c) the examiner considers that the report indicates that the meter is entitled to be certified;
   (d) the meter is one of a number submitted at the same time by the same person,
and the examiner has himself examined and tested as many of those meters as he may consider sufficient to provide a reasonable test of all of them.

(4) Regulations under this paragraph may include provision—
   (a) for the termination of certification in the case of meters which no longer conform to the prescribed standards and in such other cases as may be prescribed;
   (b) for determining the fees to be paid for examining, testing and certifying meters, and the persons by whom they are to be paid;
   (c) as to the procedure to be followed in examining, testing and certifying meters;
   (d) for determining the fee to be paid in respect of any authorisation under sub-paragraph (1) or (3);
   (e) for imposing conditions on any such authorisation; and
   (f) for withdrawing any such authorisation before the end of any period for which it is given if any of those conditions is not satisfied.

Apparatus for testing, etc., of meters

7.—(1) It shall be the duty of a person to whom this paragraph applies, that is to say, a public electricity supplier or a person authorised by the Director for the purposes of paragraph 6(3)—
   (a) to provide and maintain such apparatus for the examination, testing and regulation of meters, and such apparatus for the sealing and unsealing of meters, as may be specified by a direction of the Director;
(b) to use apparatus so provided and maintained to carry out such examination, testing and regulation of meters, or to seal or unseal meters in such circumstances, as may be so specified; and

(c) to keep such records and make such reports of things done under head (b) as may be so specified.

(2) It shall also be the duty of a person to whom this paragraph applies to afford to meter examiners, acting in the exercise of their functions under this Schedule, all necessary facilities for the use of apparatus provided and maintained under sub-paragraph (1).

(3) If the Director considers that any person to whom this paragraph applies has made satisfactory arrangements whereby apparatus provided by some other person is available for the examination, testing or regulation of the first mentioned person’s meters, the Director may direct that this paragraph shall not apply to that person to such extent as may be specified in the direction.

(4) Any 2 or more persons to whom this paragraph applies may with the approval of the Director enter and carry into effect arrangements whereby apparatus provided by one or more of the parties is to be available to all or any of them for the purposes of fulfilling their obligations under this paragraph.

(5) Any public electricity supplier who provides apparatus under such arrangements as are mentioned in sub-paragraph (4) shall be under the same obligation under this paragraph, in relation to the meters of any public electricity supplier for whose benefit the apparatus is so made available, as he is or would be under in relation to meters measuring electricity supplied by him.

Testing, etc., of meters

8.—(1) It shall be the duty of a meter examiner, on being required to do so by any person and after giving notice to such persons as may be prescribed—

(a) to examine and test any meter used or intended to be used for ascertaining the quantity of electricity supplied to any premises;

(b) to determine whether it is of an approved pattern or construction and, if it is installed for use, whether it is installed in an approved manner;

(c) to determine whether it is in proper order for ascertaining the quantity of electricity supplied within the prescribed margins of error and, if it has been in use and there is a dispute as to whether it registered correctly at any time, to determine if possible whether it registered within those margins at that time; and

(d) to make a written report of his conclusions as to the matters mentioned in heads (b) and (c).

(2) If a meter examiner determines that a meter is, or was at any time, operating outside the prescribed margins of error, he shall if possible give an opinion as to—

(a) any period for which the meter has or may have been so operating; and

(b) the accuracy (if any) with which it was or may have been operating for any such period.

(3) Regulations under this paragraph may make provision for determining the fees to be paid for examining and testing meters, and the persons by whom and the circumstances in which they are to be paid.

(4) In relation to a meter used or intended to be used in connection with an exempt supply, this paragraph shall have effect as if any reference to the prescribed margins of error included a reference to any margins of error agreed between the electricity supplier and the customer.

9.—(1) This paragraph applies where there is a genuine dispute as to the accuracy of a meter used for ascertaining the quantity of electricity supplied to any premises and notice of the dispute—
(a) is given to the electricity supplier by the customer, or to the customer by the electricity supplier; or
(b) is given to the electricity supplier and to the customer by any other person interested.

(2) Except with the approval of a meter examiner and, if he so requires, under his supervision, the meter shall not be removed or altered by the supplier or the customer until after the dispute is resolved by agreement or the meter is examined and tested under paragraph 8, whichever first occurs.

(3) If the supplier or the customer removes or alters the meter in contravention of subparagraph (2), he shall be guilty of an offence and shall be liable on summary conviction to a fine not exceeding level 2 on the standard scale.

Presumptions and evidence

10.—(1) This paragraph applies to meters used for ascertaining the quantity of electricity supplied to any premises.

(2) The register of a meter to which this paragraph applies shall be admissible in any proceedings as evidence of the quantity of electricity supplied through it.

(3) Where electricity has been supplied for any period through such a meter which is of an approved pattern or construction and is installed in an approved manner, the register of the meter shall be presumed to have been registering for that period—
(a) within the prescribed margins of error; and
(b) in the case of a meter used in connection with an exempt supply, within any agreed margins of error,

unless the contrary is proved.

(4) Where a meter to which this paragraph applies has been operating for any period—
(a) within the prescribed margins of error; and
(b) in the case of a meter used in connection with an exempt supply, within any agreed margins of error,

the meter shall be conclusively presumed to have been correctly registering for that period the quantity of electricity supplied through it.

(5) The report of a meter examiner on any question relating to such a meter shall be admissible in evidence in any proceedings in which that question is raised; and any conclusions in the report as to the accuracy of the meter when it was tested shall be presumed to be correct unless the contrary is proved.

Meters to be kept in proper order

11.—(1) A customer of an electricity supplier shall at all times, at his own expense, keep any meter belonging to him in proper order for correctly registering the quantity of electricity supplied to him; and in default of his doing so the supplier may discontinue the supply of electricity through that meter.

(2) An electricity supplier shall at all times, at his own expense, keep any meter let for hire or lent by him to any customer in proper order for correctly registering the quantity of electricity supplied and, in the case of pre-payment meters, for operating properly on receipt of the necessary payment.

(3) An electricity supplier may remove, inspect and re-instal any meter by which the quantity of electricity supplied by him to a customer is registered, and shall, while any such meter is removed, fix a substituted meter on the premises; and the cost of removing, inspecting and re-installing a meter and of fixing a substituted meter shall be defrayed by the supplier.
(4) Sub-paragraphs (2) and (3) are without prejudice to any remedy the supplier may have against the customer for failure to take proper care of the meter.

Interference with meters

12.—(1) If any person intentionally or by culpable negligence—
   (a) alters the register of any meter used for measuring the quantity of electricity supplied to any premises by an electricity supplier; or
   (b) prevents any such meter from duly registering the quantity of electricity supplied, he shall be guilty of an offence and shall be liable on summary conviction to a fine not exceeding level 3 on the standard scale.

(2) Where any person is prosecuted for an offence under sub-paragraph (1), the possession by him of artificial means for causing an alteration of the register of the meter or, as the case may be, the prevention of the meter from duly registering shall, if the meter was in his custody or under his control, be prima facie evidence that the alteration or prevention was intentionally caused by him.

(3) Where an offence under sub-paragraph (1) has been committed, the supplier may discontinue the supply of electricity to the premises until the matter has been remedied and remove the meter in respect of which the offence was committed.

(4) Where an electricity supplier removes a meter under sub-paragraph (3), he shall keep it safely until the Director authorises him to destroy or otherwise dispose of it.

Special provision for pre-payment meters

13.—(1) A customer of an electricity supplier who takes his supply through a pre-payment meter or other device shall be under a duty to take all reasonable precautions for the safekeeping of any money or tokens which are inserted into that meter or device.

(2) A pre-payment meter or other device shall not be used to recover any sum owing to an electricity supplier otherwise than in respect of the supply of electricity, the provision of an electric line or electrical plant or the provision of the meter or device.

SCHEDULE 8

CONSENTS UNDER ARTICLES 39 AND 40

Applications for consent

1.—(1) An application for a consent under Article 39 or 40 shall be in writing and shall describe by reference to a map the land to which the application relates, that is, the land—
   (a) on which the generating station is proposed to be constructed, extended or operated; or
   (b) across which the electric line is proposed to be installed or kept installed.

(2) An application for a consent under Article 40 shall also state—
   (a) the length of the proposed line and its nominal voltage; and
   (b) whether all wayleaves have been agreed with owners and occupiers of land proposed to be crossed by the line,
and shall be supplemented, if the Department so directs, by such additional information as may be specified in the direction.

(3) Regulations may make provision for determining the fees to be paid on applications for consent under Article 39 or 40, and the circumstances in which they are to be paid.

Special provisions as to consents under Article 40

2.—(1) Where an application for consent under Article 40 states that all wayleaves have not been agreed with owners and occupiers of land proposed to be crossed by the electric line, the Department may—

(a) give notice to the applicant that the Department does not intend to proceed with the application until the Department is satisfied, with respect to all the land over which wayleaves have not been agreed, that the applicant has applied to the Department for consent under paragraph 10 (acquisition of wayleaves) of Schedule 4; or

(b) grant consent subject to the condition (either in respect of the whole of the line or in respect of any part of it specified in the consent) that the work is not to proceed until the Department has given permission.

(2) In determining at any time whether to give permission for any work to proceed, either generally or in respect of any part of the line, the Department—

(a) shall have regard to the extent to which the wayleaves have been agreed by that time; and

(b) in so far as any such wayleaves have not then been agreed in respect of any part of the line, shall take into account any prejudicial effect which, in the opinion of the Department, the giving of permission (whether in respect of that part or of any adjacent part of the line) might have on any subsequent proceedings relating to the outstanding wayleaves.

SCHEDULE 9

PRESERVATION OF AMENITY AND FISHERIES

1.—(1) In formulating any relevant proposals, a licence holder or a person authorised by exemption to generate or supply electricity—

(a) shall have regard to the need to conserve the natural beauty and amenity of the countryside and the need to protect (so far as reasonably practicable) flora, fauna and geological and physiographical features of the countryside and the need to protect sites, buildings and objects of architectural, historic or archaeological interest from any harmful effects which might result from such proposals; and

(b) shall do what he reasonably can to mitigate any effect which the proposals would have on the natural beauty of the countryside or on any such flora, fauna, features, sites, buildings or objects.

(2) In considering any relevant proposals for which its consent is required under Article 39 or 40, the Department shall have regard to—

(a) the matters mentioned in sub-paragraph (1)(a); and

(b) the extent to which the person by whom the proposals were formulated has complied with his duty under sub-paragraph (1)(b).

(3) Without prejudice to sub-paragraphs (1) and (2), in exercising any functions under this Order each of the following, namely, a licence holder, a person authorised by an exemption to generate or
supply electricity and the Department shall avoid, so far as possible, causing injury to fisheries or to the stock of fish in any waters.

(4) In this paragraph—

“building” includes structure;

“relevant proposals” means any proposals—

(a) for the construction or extension of a generating station of a capacity not less than 10 megawatts, or for the operation of such a station in a different manner;

(b) for the installation (whether above or below ground) of an electric line; or

(c) for the execution of any other works for or in connection with the transmission or supply of electricity.

(5) The Department may by order provide that sub-paragraph (4) shall have effect as if for the capacity mentioned in head (a) there were substituted such other capacity as may be specified in the order.

SCHEDULE 10

TRANSACTIONS ARISING UNDER ARTICLE 69

Interpretation

1. Any reference in this Schedule to a transfer effected under a transfer scheme is a reference to a transfer effected by this Order under such a scheme.

Allocation of assets and liabilities: general

2.—(1) The provisions of this paragraph shall apply where the transfers effected under a transfer scheme include a transfer of all assets and liabilities comprised in a specified part of Northern Ireland Electricity’s undertaking, but shall not apply to any such assets, being rights, or to any such liabilities under a contract of employment.

(2) Any asset or liability comprised partly in the specified part of Northern Ireland Electricity’s undertaking and partly in some other part or parts of that undertaking shall, where the nature of the asset or liability permits, be divided or apportioned between the transferee of the specified part (“transferee A”) and the transferee of the other part or each of the other parts (“transferee B”) in such proportions as may be appropriate.

(3) Where any estate in land falls to be so divided—

(a) any rent payable under a lease in respect of that estate; and

86
(b) any rent charged on that estate,
shall be correspondingly apportioned or divided so that the one part is payable in respect of, or
charged on, only one part of the estate and the other part is payable in respect of, or charged on,
only the other part of the estate.

(4) For the purposes of sub-paragraph (3), any fee farm grant creating the relation of landlord
and tenant shall be treated as a lease.

(5) Any asset or liability comprised as mentioned in sub-paragraph (2) the nature of which does
not permit its division or apportionment as so mentioned shall be transferred to transferee A or
transferee B according to—

(a) in the case of an estate in land, whether on the transfer date transferee A or transferee
B appears to be in greater need of the security afforded by that estate or, where neither
appears to be in greater need of that security, whether on that date transferee A or transferee
B appears likely to make use of the land to the greater extent;

(b) in the case of any other asset or liability, whether on the transfer date transferee A or
transferee B appears likely to make use of, or as the case may be, to be affected by, the
asset or liability, to the greater extent,

subject (in either case) to such arrangements for the protection of the other of them as may be agreed
between them.

3. (1) The provisions of this paragraph shall apply where the transfers effected under a transfer
scheme include a transfer of all assets and liabilities comprised in a specified part of Northern Ireland
Electricity’s undertaking, but shall not apply to any such assets, being rights, or to any such liabilities
under a contract of employment.

(2) It shall be the duty of the transferee of the specified part of Northern Ireland Electricity’s
undertaking (“transferee A”) and each of the other transferees (“transferee B”), whether before or
after the transfer date, so far as practicable to arrive at such written agreements and to execute
such other instruments as are necessary or expedient to identify or define the assets and liabilities
transferred to transferee A or transferee B and as will—

(a) afford to transferee A and transferee B as against one another such rights and safeguards
as they may require for the carrying on of their respective undertakings; and

(b) make as from such date, not being earlier than the transfer date, as may be specified in the
agreement or instrument such clarification and modifications of the division of Northern
Ireland Electricity’s undertaking as will best serve the carrying on of the respective
undertakings of transferee A and transferee B.

(3) Any such agreement shall provide so far as it is expedient—

(a) for the granting of leases and for the creation of other liabilities and rights over land
whether amounting in law to an estate in land or not, and whether involving the surrender
of any existing estate or the creation of a new estate or not;

(b) for the granting of indemnities in connection with the severance of leases and other
matters; and

(c) for responsibility for registration of any matter in any statutory register.

(4) If transferee A or transferee B represents to the Department, or if it appears to the Department
without such a representation, that it is unlikely in the case of any matter on which agreement is
required under sub-paragraph (2) that such agreement will be reached, the Department, whether
before or after the transfer date, may—

(a) give a direction determining that matter; and
(b) include in the direction any provision which might have been included in an agreement under sub-paragraph (2).

(5) Any assets or liabilities required by a direction under sub-paragraph (4) to be transferred to transferee A or transferee B shall be regarded as having been transferred by this Order to, and by virtue thereof vested in, that transferee accordingly.

Allocation of assets and liabilities: contracts of employment

4.—(1) The provisions of this paragraph shall apply where—

(a) the transfers effected under a transfer scheme include a transfer of all assets and liabilities comprised in a specified part of Northern Ireland Electricity’s undertaking; and

(b) it falls to be determined whether the assets and liabilities transferred to the transferee of that part (“transferee A”) include rights and liabilities under a particular contract of employment.

(2) Rights and liabilities under the contract of employment shall be transferred to transferee A only if immediately before the transfer date the employee is employed wholly or mainly for the purposes of the specified part of Northern Ireland Electricity’s undertaking.

(3) The employee, transferee A or any of the other transferees may apply to the Department to determine whether or not rights and liabilities in respect of the employee’s services under the contract of employment are transferred to transferee A, and the decision of the Department on the application shall be final.

Variation of transfers by agreement

5.—(1) The provisions of this paragraph shall apply where the transfers effected under a transfer scheme include a transfer of all assets and liabilities comprised in a specified part of Northern Ireland Electricity’s undertaking.

(2) At any time before the end of the period of 12 months from the transfer date the transferee of the specified part and the transferee of any assets and liabilities comprised in some other part of Northern Ireland Electricity’s undertaking may, with the approval of the Department, agree in writing that—

(a) as from such date as may be specified in or determined under the agreement; and

(b) in such circumstances (if any) as may be so specified,

there shall be transferred from the one transferee to, and vested in, the other transferee any assets and liabilities specified in the agreement; but no such agreement shall have effect in relation to rights and liabilities under a contract of employment unless the employee concerned is a party to the agreement.

(3) Subject to sub-paragraph (4), in the case of an agreement under sub-paragraph (2), the assets and liabilities in question shall on the date of the coming into force of the agreement be transferred, and by virtue of the agreement vest, in accordance with the agreement.

(4) The following provisions of this Schedule shall have effect as if—

(a) any reference to a transfer effected under a transfer scheme included a reference to a transfer effected under an agreement under sub-paragraph (2);

(b) any reference to a transaction effected under paragraph 3(2) or of a direction under paragraph 3(4) included a reference to such an agreement; and

(c) any reference to a vesting by virtue of this Order included a reference to a vesting by virtue of such an agreement.
Right to production of documents of title

6. Where the transferee under a transfer effected under a transfer scheme (“transferee A”) is entitled to possession of any document relating in part to the title to, or to the management of, any land or other property transferred to the transferee under some other transfer effected under that scheme (“transferee B”)—

(a) transferee A shall be deemed to have given to transferee B an acknowledgement in writing of the right of transferee B to production of the document and to delivery of copies thereof; and

(b) section 9 of the Conveyancing Act 1881 shall have effect accordingly, and on the basis that the acknowledgement did not contain any such expression of contrary intention as is mentioned in that section.

Proof of title by certificate

7.—(1) Where 2 or more transfers are effected under a transfer scheme, a certificate issued by either or any of the transferees (“transferee A”) with the concurrence of the other or others of them that—

(a) any asset specified in the certificate;
(b) any such interest in or right over any such asset as may be so specified; or
(c) any liability so specified,
is by virtue of this Order for the time being vested in transferee A shall be conclusive evidence for all purposes of that fact.

(2) If, on the expiration of one month from a request from either or any of the transferees (“transferee A”) for the other or one of the others of them (“transferee B”) to concur in the issue of such a certificate, transferee B has failed so to concur—

(a) transferee A may refer the matter to the Department; and
(b) the Department may direct transferee B to concur in the issue of a certificate prepared in such terms as are specified in the direction.

Restrictions on dealing with certain land

8.—(1) Where 2 or more transfers are effected under a transfer scheme and the Department is satisfied, on the representation of either or any of the transferees (“transferee A”), that—

(a) in consequence of those transfers, different estates in land, whether the same or different land, are held by transferee A and by the other or one of the other transferees (“transferee B”); and

(b) the circumstances are such that the provisions of this paragraph should have effect, the Department may direct that those provisions shall apply to such of that land as may be specified in the direction; and while the direction remains in force, those provisions shall have effect accordingly.

(2) Neither transferee A nor transferee B shall dispose of any estate to which they may respectively be entitled in any of the specified land except with the consent of the Department.

(3) If, in connection with any proposal to dispose of any estate of either transferee A or transferee B in any of the specified land, it appears to the Department to be necessary or expedient for the protection of either of them, the Department may—
require either transferee A or transferee B to dispose of any estate to which it may be entitled in any of the specified land to such person and in such manner as may be specified in the requirement;

(b) require either transferee A or transferee B to acquire from the other any estate in any of the specified land to which that other is entitled; or

(c) consent to the proposed disposal subject to compliance with such conditions as the Department may see fit to impose.

4. A person other than transferee A and transferee B dealing with, or with a person claiming under, either transferee A or transferee B shall not be concerned to see or enquire—

(a) whether this paragraph applies or has applied in relation to any land to which the dealing relates; or

(b) whether the provisions of this paragraph have been complied with in connection with that or any other dealing with that land,

and no transaction between persons other than transferee A and transferee B shall be invalid by reason of any failure to comply with those provisions.

Third parties affected by vesting provisions

9.—(1) A transaction of any description which, under paragraph 3(2) or a direction under paragraph 3(4), is effected between transferee A and transferee B—

(a) shall have effect subject to the provisions of any statutory provision which provides for transactions of that description to be registered in any statutory register; but

(b) subject to that, shall be binding on all persons notwithstanding that it would, apart from this sub-paragraph, have required the consent or concurrence of any other person.

(2) If any transaction is effected under paragraph 3(2) or a direction under paragraph 3(4), transferee A and transferee B shall notify any person who has rights or liabilities which thereby become enforceable as to part by or against transferee A and as to part by or against transferee B.

(3) If, within 28 days from being notified, such a person as is mentioned in sub-paragraph (2) applies to, and satisfies, the Department that the transaction operated unfairly against him, the Department may give such directions to transferee A and transferee B as appear to the Department appropriate for varying the transaction.

10.—(1) If in consequence of 2 or more transfers effected under a transfer scheme or anything done under the provisions of this Schedule—

(a) the rights or liabilities of any person other than Northern Ireland Electricity and the transferees which were enforceable against or by Northern Ireland Electricity become enforceable as to part against or by one transferee and as to part against or by another transferee; and

(b) the value of any property or interest of that person is thereby diminished,

such compensation as may be just shall be paid to that person by one or more of the transferees.

(2) Any dispute as to whether, and if so how much, compensation is payable under sub-paragraph (1), or as to the person to or by whom it shall be paid, shall be referred to and determined by an arbitrator appointed by the Department.

(2) Regulations under this paragraph may impose duties (whether as to the amendment of the scheme, the provision or amendment of other schemes, the purchase of annuities, the making of payments or otherwise) on persons who are or have been employers of persons to whom paragraph 5(1) or (2) applies; and duties so imposed on any person may include duties owed to persons of whom he is not and has not been an employer.

(2) References in this paragraph to an agreement include references to a deed, bond or other instrument.

PART II

PROVISIONS AND SAVINGS FOR PART III OF ORDER

19. Any consent given under Article 40 to Northern Ireland Electricity which is effective on the transfer date shall have effect as if given to the appropriate successor company.

20. Any maximum price fixed, or having effect as if fixed, under Article 47 for the resale of electricity supplied by Northern Ireland Electricity which is effective on the transfer date shall have effect as if fixed for the resale of electricity by the appropriate successor company.

21. A direction given under Article 58 to Northern Ireland Electricity which is effective on the transfer date shall have effect as if given to the appropriate successor company.

22. Any land compulsorily acquired by Northern Ireland Electricity before the transfer date which was so acquired under Part I of Schedule 3, or is treated as so acquired for the purposes of that Part, shall be treated for those purposes as so acquired by a successor company.

23.—(1) Where immediately before the transfer date there is in force an agreement which—

(a) confers or imposes on Northern Ireland Electricity any rights or liabilities which vest in the appropriate successor company under this Order; and

(b) refers (in whatever terms and whether expressly or by implication) to a member or officer of Northern Ireland Electricity,

the agreement shall have effect, in relation to anything falling to be done on or after that date, as if for that reference there were substituted a reference to such person as that company may appoint or, in default of appointment, to the officer of that company who corresponds as nearly as may be to the member or officer of Northern Ireland Electricity.

(2) References in this paragraph to an agreement include references to a deed, bond or other instrument.

24.—(1) Any agreement made, transaction effected or other thing done by, to or in relation to Northern Ireland Electricity which is in force or effective immediately before the transfer date shall have effect as if made, effected or done by, to or in relation to the appropriate successor company, in all respects as if that company were the same person in law as Northern Ireland Electricity; and accordingly references to Northern Ireland Electricity—

(a) in any agreement (whether or not in writing) and in any deed, bond or instrument;

(b) in any process or other document issued, prepared or employed for the purposes of any proceeding before any court or other tribunal or authority; and

(c) in any other document whatsoever (other than a statutory provision) relating to or affecting any assets or liability of Northern Ireland Electricity which is transferred by this Order, shall be taken as referring to the appropriate successor company.

(2) Nothing in sub-paragraph (1) shall be taken as applying in relation to any agreement made, transaction effected or other thing done with respect to, or any document relating to or affecting, any rights and liabilities which are excepted rights and liabilities within the meaning of Article 69.

25. It is hereby declared for the avoidance of doubt that—
(a) the effect of Part III of this Order in relation to any contract of employment with Northern Ireland Electricity which is in force immediately before the transfer date is merely to modify the contract by substituting the appropriate successor company as the employer (and not to terminate the contract or vary it in any other way); and

(b) that Part is effective to vest the rights and liabilities of Northern Ireland Electricity under any agreement or arrangement for the payment of pensions, allowances or gratuities in the appropriate successor company along with all other rights and liabilities of Northern Ireland Electricity;

and accordingly any period of employment with Northern Ireland Electricity or a wholly owned subsidiary of Northern Ireland Electricity, shall count for all purposes as a period of employment with the appropriate successor company or (as the case may be), a wholly owned subsidiary of the appropriate successor company.

26. Any agreement made under paragraph 12 of Schedule 1 to the Electricity Supply (Northern Ireland) Order 1972 (machinery for settling terms and conditions of employment) which is effective on the transfer date shall have effect as if—

(a) the parties to the agreement on the employers' side were the successor companies and not Northern Ireland Electricity; and

(b) each of the parties to the agreement were entitled to withdraw from it on giving the other parties 12 months' notice in writing.

27.—(1) It shall be the duty of Northern Ireland Electricity and the appropriate successor company to take, as and when during the transitional period that company considers appropriate, all such steps as may be requisite to secure that the vesting in that company by virtue of Part III of this Order or this paragraph of any foreign asset or liability is effective under the relevant foreign law.

(2) During the transitional period, until the vesting in a successor company by virtue of Part III of this Order or this paragraph of any foreign asset or liability is effective under the relevant foreign law, it shall be the duty of Northern Ireland Electricity to hold that asset for the benefit of, or to discharge that liability on behalf of, the successor company.

(3) Nothing in sub-paragraphs (1) and (2) shall be taken as prejudicing the effect under the law of Northern Ireland of the vesting in a successor company by virtue of Part III of this Order or this paragraph of any foreign asset or liability.

(4) Northern Ireland Electricity shall have all such powers as may be requisite for the performance of its duty under this paragraph, but—

(a) it shall be the duty of the appropriate successor company during the transitional period to act on behalf of Northern Ireland Electricity (so far as possible) in performing the duty imposed on Northern Ireland Electricity by this paragraph; and

(b) any foreign assets and liabilities acquired or incurred by Northern Ireland Electricity during that period shall immediately become assets and liabilities of the appropriate successor company.

(5) References in this paragraph to any foreign asset or liability are references to any asset or liability as respects which any issue arising in any proceedings would have been determined (in accordance with the rules of private international law) by reference to the law of a country or territory outside the United Kingdom.

(6) Any expenses incurred by Northern Ireland Electricity under this paragraph shall be met by the appropriate successor company.

28.—(1) Notwithstanding the repeal of Articles 23 and 24 of the Electricity Supply (Northern Ireland) Order 1972 by Article 95(4) and Schedule 14, it shall be the duty of Northern Ireland
Electricity to prepare statements of accounts in accordance with the said Articles 23 and 24 in respect of each financial year ending before the transfer date, and the said Articles 23 and 24 shall continue to apply during the transitional period in relation to those statements and the auditing of those statements.

(2) Notwithstanding the repeal of Article 12 of the Electricity Supply (Northern Ireland) Order 1972 by Article 95(4) and Schedule 14, it shall be the duty of Northern Ireland Electricity to make a report to the Department in accordance with the said Article 12 in respect of each financial year ending before the transfer date.

(3) Any expenses incurred by Northern Ireland Electricity under this paragraph shall be met by the appropriate successor company.

29.—(1) Where by virtue of anything done before the transfer date, any statutory provision amended by Schedule 12 has effect in relation to Northern Ireland Electricity that statutory provision shall have effect in relation to the appropriate successor company as if that company were the same person, in law, as Northern Ireland Electricity.

(2) Until the Department of Finance and Personnel makes an order under Article 39C of the Rates (Northern Ireland) Order 1977 the provisions of that Order which, immediately before the transfer date, have effect in relation to Northern Ireland Electricity shall, after that date, have effect in relation to the appropriate successor company as if that company were the same person, in law, as Northern Ireland Electricity.

30. Without prejudice to the powers conferred by Article 95(2), every provision contained in subordinate legislation, which is in operation immediately before the transfer date and then applicable to Northern Ireland Electricity shall have effect as if—

(a) for references to Northern Ireland Electricity there were substituted references to the appropriate successor company; and

(b) for any reference (however worded and whether expressly or by implication) to the undertaking or business, or any part of the undertaking or business, of Northern Ireland Electricity there were substituted a reference to the undertaking or business, or the corresponding part of the undertaking or business, of the appropriate successor company.

31.—(1) Anything which, immediately before the transfer date, is in process of being done under the provisions relating to street works in Schedule 3 to the Electricity Supply (Northern Ireland) Order 1972 by or in relation to Northern Ireland Electricity (including, in particular, any legal proceedings to which it is a party) may be continued by, or in relation to, the appropriate successor company.

(2) Any notice or direction given or other thing whatsoever done under the said provisions of that Schedule by Northern Ireland Electricity shall, if effective at the transfer date, continue in force and have effect as if similarly given or done by the appropriate successor company.

32.—(1) An application or claim by Northern Ireland Electricity for hazardous substances consent which is effective on the transfer date shall have effect as if made by the appropriate successor company.

(2) A hazardous substances consent granted or deemed to be granted to Northern Ireland Electricity which is effective on the transfer date shall have effect as if it had been granted to the appropriate successor company.

33.—(1) Where a distribution is proposed to be declared during the accounting reference period of a successor company which includes the transfer date or before any accounts are laid or filed in respect of that period, Articles 278 to 284 of the Companies (Northern Ireland) Order 1986 (accounts relevant for determining whether a distribution may be made by a company) shall have effect as if—
(a) references in Article 278 to the company’s accounts or to accounts relevant under that Article; and
(b) references in Article 281 to initial accounts,

included references to such accounts as, on the assumptions stated in sub-paragraph (2), would have been prepared under Article 234 of that Order of 1986 in respect of the relevant year.

(2) The said assumptions are—
(a) that the relevant year had been a financial year of the successor company;
(b) that the vesting effected by Part III of this Order had been a vesting of all the assets and liabilities to which Northern Ireland Electricity was entitled or subject immediately before the beginning of the relevant year and had been effected immediately after the beginning of that year;
(c) that the value of any asset and the amount of any liabilities of Northern Ireland Electricity vested in the successor company by virtue of the said Article 234 had been the value or (as the case may be) the amount assigned to that asset or liability for the purposes of the statement of accounts prepared by Northern Ireland Electricity in respect of the financial year immediately preceding the relevant year;
(d) that any securities of the successor company issued or allotted before the declaration of the distribution had been issued or allotted before the end of the relevant year; and
(e) such other assumptions (if any) as may appear to the directors of the successor company to be necessary or expedient for the purposes of this paragraph.

(3) For the purposes of the said accounts the amount to be included in respect of any item shall be determined as if anything done by Northern Ireland Electricity (whether by way of acquiring, revaluing or disposing of any asset or incurring, revaluing or discharging any liability, or by carrying any amount to any provision or reserve, or otherwise) had been done by the successor company.

Accordingly (but without prejudice to the generality of the preceding provision) the amount to be included in any reserves of the successor company as representing its accumulated realised profits shall be determined as if any profits realised and retained by Northern Ireland Electricity had been realised and retained by the successor company.

(4) The said accounts shall not be regarded as statutory accounts for the purposes of Article 78 of this Order.

(5) In this paragraph “the relevant year” means the last complete financial year ending before the transfer date.
