
STATUTORY RULES OF NORTHERN IRELAND

2012 No. 192

The Building Regulations (Northern Ireland) 2012

PART D

Structure

Stability

30. A building shall be designed and constructed so that the combined dead, imposed and wind loads are sustained and transmitted to the ground, taking into account the nature of the ground—

- (a) safely; and
- (b) without impairing the safety of any part of another building.

Disproportionate collapse

31. A building shall be designed and constructed so that in the event of damage occurring to any part of the building, the extent of any resulting collapse will not be disproportionate to the cause of the damage.

Changes to legislation:

There are currently no known outstanding effects for the The Building Regulations (Northern Ireland) 2012, PART D.
