

## SCHEDULE 2

### Certification requirements

## PART 2

### Cereals

#### **Meaning of “certified seed, second generation”**

12. Certified seed, second generation is seed—
  - (a) of oats, barley, triticale, wheat, durum wheat or spelt wheat other than hybrids in each case;
  - (b) produced directly from basic seed, from certified seed, first generation or, if the breeder so requests, from pre-basic seed that satisfies the conditions for basic seed;
  - (c) intended for purposes other than the production of cereal seed.
