DRAFT SCOTTISH STATUTORY INSTRUMENTS

---

**2010 No.**

**The Climate Change (Annual Targets) (Scotland) Order 2010**

**Annual targets for the period 2010-2022**

2. The annual targets expressed in tonnes of carbon dioxide equivalent<sup>(1)</sup> for the period 2010-2022 are as follows:—

- (a) the annual target for 2010 is 55,913,000;
- (b) the annual target for 2011 is 55,633,000;
- (c) the annual target for 2012 is 55,355,000;
- (d) the annual target for 2013 is 50,301,000;
- (e) the annual target for 2014 is 48,903,000;
- (f) the annual target for 2015 is 47,495,000;
- (g) the annual target for 2016 is 46,117,000;
- (h) the annual target for 2017 is 44,747,000;
- (i) the annual target for 2018 is 43,384,000;
- (j) the annual target for 2019 is 42,012,000;
- (k) the annual target for 2020 is 40,607,000;
- (l) the annual target for 2021 is 39,388,000; and
- (m) the annual target for 2022 is 38,206,000.

---

(1) A “tonne of carbon dioxide equivalent” is defined in section 18(2) of the 2009 Act.
