

## SCHEDULE 1

### ACTIVITIES EXEMPT FROM WASTE MANAGEMENT LICENSING

**36.**—(1) The temporary secure storage of waste to which sub-paragraphs (2) and (3) apply, at waste reception facilities provided within a harbour area in accordance with the Merchant Shipping and Fishing Vessels (Port Waste Reception Facilities) Regulations 2003(1) (in this paragraph “the 2003 Regulations”), where such storage is incidental to the collection or transport of the waste.

(2) This paragraph applies to waste other than tank washings (including such special waste as is listed in Table 13), but only if—

- (a) the amount of waste so stored within a harbour area at any time does not exceed 20 cubic metres for each ship from which waste has been landed;
- (b) in the case of any waste batteries, storage takes place in accordance with the treatment conditions; and
- (c) no waste is so stored for more than seven days.

(3) This paragraph applies to waste which consists of tank washings (including such special waste as is listed in Table 14), but only if—

- (a) the amount of tank washings consisting of dirty ballast so stored within a harbour area at any time does not exceed 30% of the total deadweight of the ships from which such washings have been landed; and
- (b) the amount of tank washings consisting of waste mixtures containing oil so stored within a harbour area at any time does not exceed 1% of the total deadweight of the ships from which such washings have been landed.

(4) In this paragraph—

“harbour area” has the same meaning as in the Dangerous Substances in Harbour Areas Regulations 1987(2);

“ship” has the same meaning as in the 2003 Regulations;

“tank washings” means waste residues from the tanks (other than the fuel tanks) or holds of a ship or waste arising from the cleaning of such tanks or holds.
