

SCHEDULE 5

QUALIFYING NON-EUROPEAN COUNTRIES AND TERRITORIES AND REQUIREMENTS RELATING TO THESE

Health status

3.—(1) Prior to being brought into Scotland, the animal shall be vaccinated against rabies as specified in paragraph 3(2) of Schedule 1, and a blood sample from the animal shall be taken and tested in accordance with paragraph 3(3) of Schedule 1.

(2) If the animal is brought into Scotland from Canada or the United States of America it shall be treated against *Echinococcus multilocularis* and ticks in the country of export as specified in paragraphs 3(4) and 3(5) of Schedule 1.

(3) If the animal is brought into Scotland from a country or territory listed in paragraph 1 of this Schedule other than Canada or the United States of America, it shall be treated against *Echinococcus multilocularis* and ticks in the country of export, as specified in paragraphs 3(4) and 3(5) of Schedule 1, except that the treatment for ticks must contain fipronil as the active ingredient.

(4) The animal shall not have been outside the countries or territories listed in paragraph 1 of Schedule 1 or paragraph 1 of this Schedule in the period of six months immediately preceding the date on which the animal is brought into Scotland.
