| Parliament | - | - | 30th November 2005 |
|  |  |  | 22nd December |
| Coming into force | - | - | 2005 |

The Scottish Ministers, in exercise of the powers conferred by section 2(2) of the European Communities Act 1972(1) and of all other powers enabling them in that behalf, hereby make the following Regulations:

## Citation, commencement and extent

1.-(1) These Regulations may be cited as the Pesticides (Maximum Residue Levels in Crops, Food and Feeding Stuffs) (Scotland) Regulations 2005 and shall come into force on 22nd December 2005.
(2) These Regulations shall extend to Scotland only.

## Commencement Information

I1 Reg. 1 in force at 22.12 .2005 , see reg. 1(1)

## Interpretation

2.-(1) In these Regulations-
"Directive 76/895" means Council Directive 76/895/EEC relating to the fixing of maximum levels for pesticide residues in and on fruit and vegetables(2);

[^0]"Directive 86/362" means Council Directive 86/362/EEC on the fixing of maximum levels for pesticide residues in and on cereals(3);
"Directive 86/363" means Council Directive 86/363/EEC on the fixing of maximum levels for pesticide residues in and on foodstuffs of animal origin(4);
"Directive 90/642" means Council Directive 90/642/EEC on the fixing of maximum levels for pesticide residues in and on certain products of plant origin, including fruit and vegetables(5);
"EEA State" means a Member State, Norway, Iceland or Liechtenstein;
"fruit or vegetable" means a product referred to in Article 1 of Directive 90/642;
"maximum residue level" means the maximum quantity of pesticide residue (measured in milligrams per kilogram of product) that a product is permitted to contain under regulation 3; "pesticide" means any substance, preparation or organism listed in column 1 of Schedule 1 ;
"pesticide residue" means, in relation to any particular pesticide, the substance specified in column 2 of Schedule 1 in respect of that pesticide;
"product" means any crop, food or feeding stuff specified in Schedules 2 or 3;
"putting into circulation", in relation to any product, means handing it over (post harvest if the product is a fruit or vegetable), whether or not for consideration and any related expression shall be construed accordingly; and
"the Residues Directives" means Directive 76/895, Directive 86/362, Directive 86/363 and Directive $90 / 642$, in each case as amended on the date these Regulations are made.
(2) The words and expressions "composite food", "drying" and "processing" when used in regulation 3 or in paragraph (c) or (d) of regulation 5 have the same meaning as when used in the Residues Directives and any related expressions shall be construed accordingly.
(3) Any reference in these Regulations to a numbered Schedule or regulation shall be construed as a reference to the Schedule or, as the case may be, regulation so numbered in these Regulations.
(4) Any reference in any Schedule to these Regulations to any product, figure or pesticide includes any qualifying words relating to that product, figure or pesticide in that Schedule.

## Commencement Information

I2 Reg. 2 in force at 22.12.2005, see reg. 1(1)

## Prohibition on putting into circulation products with excess residues

3.-(1) No person shall put into circulation a product named in Schedule 2 if it contains a quantity of pesticide residue, per kilogram of the product, greater than that specified in that Schedule in respect of that product and the pesticide in question, during the period (if any) specified.
(2) Subject to paragraph (3), paragraph (1) shall also apply in relation to the putting into circulation of-
(a) any product which after drying or processing is obtained from any of the products named in Schedule 2, and
(b) any composite food which includes any of the products named in that Schedule, as it applies to the products so named.
(3) Where-
(a) paragraph (1) applies in relation to a dried or processed product or a composite food by virtue of paragraph (2), and
(b) in relation to that dried or processed product or composite food no quantity has been specified in Schedule 2 as the maximum residue level in respect of a pesticide residue which may be contained in that dried or processed product or composite food,
paragraph (1) applies as if the maximum residue level in respect of that pesticide residue were the quantity applicable under that Schedule as it has effect by virtue of regulation 5(c) or, as the case may be, (d).
(4) Any person who, without reasonable excuse, contravenes or causes or permits any other person to contravene the prohibition in paragraph (1) shall be guilty of an offence, and shall be liable-
(a) on summary conviction, to a fine not exceeding the statutory maximum; and
(b) on conviction on indictment, to a fine.
(5) In any proceedings for an offence under this regulation in relation to any product, whether or not dried or processed or a composite food, it is a defence for the person charged to prove that when the product was put into circulation-
(a) it was so put with the intention of its being exported to a country which is not an EEA State and the contravention of the prohibition in paragraph (1) was caused by the product being treated in a manner-
(i) required by the country of destination in order to prevent the introduction of harmful organisms into its territory; or
(ii) necessary to protect the product from harmful organisms during transport to the country of destination and storage there, or
(b) it was so put with the intention that-
(i) it be used in the manufacture of things other than foodstuffs and animal feed; or
(ii) it be used for sowing or planting.
(6) Sections 19 (enforcement powers), 21(5) (offences - penalties etc) and 22 (general defence of due diligence) of, and Schedule 2 (officers and their powers) to, the Food and Environment Protection Act 1985(6) shall apply for the purposes of this regulation as they apply for the purposes of that Act, taking references in those sections to that Act or any Part of it to be references to this regulation, and the general purposes of that Act to include the purposes of this regulation.

## Commencement Information

I3 Reg. 3 in force at 22.12.2005, see reg. 1(1)

## Seizure or disposal of crops, food or feeding stuffs

4.-(1) If any product contains a quantity of pesticide residue greater than that permitted under regulation 3(1), the Scottish Ministers may-
(a) seize or dispose of the consignment containing that product, or any part of it, or require the owner or any person appearing to be in charge of it to dispose of it, or
(b) direct the owner or any person appearing to be in charge of it to take such remedial action as appears to the Scottish Ministers to be necessary.
(2) Paragraph (1) applies to any product put into circulation in circumstances referred to in regulation $3(5)(a)$ or (b) as it applies to other products.

## Commencement Information

I4 Reg. 4 in force at 22.12 .2005 , see reg. 1(1)

## Sampling and analysis

5. In determining for the purposes of regulation 3(1) whether the quantity of pesticide residue contained in any product exceeds the maximum residue level-
(a) in relation to any product specified in column 2 of Schedule 3 (and falling within a group of products specified in column 1 of that Schedule) the whole or part only of that product shall, so far as is practicable, be taken into account as specified in column 3 of that Schedule;
(b) the procedure to be followed for sampling for the determination of pesticide residues shall be that set out in the Annex to Commission Directive 2002/63/EC(7);
(c) in the case of any product which has been dried or processed, Schedule 2 shall have effect where, in relation to a pesticide residue, no such maximum residue level is specified therein for the product in its dried or processed form, as if the maximum residue level specified in that Schedule in respect of that pesticide residue and in relation to the product in question were subject to an adjustment to take account of the concentration of the product caused by the drying process or, as the case may be, the dilution or concentration of the product caused by the processing; and
(d) in a case where a product listed in Schedule 2 has been mixed with other products or ingredients to form a composite food, that Schedule shall have effect, in relation to that composite food, as if the products which have been mixed to form the composite food had not been mixed and accordingly the maximum residue levels specified for each of the pesticide residues specified applied in relation to each of those products separately taking into account-
(i) the relative concentrations of each of the products in the composite food; and
(ii) the provisions of paragraph (c).

## Commencement Information

I5 Reg. 5 in force at 22.12.2005, see reg. 1(1)

## Revocations

6. The Regulations specified in Schedule 4 are revoked.

## Commencement Information

## UNITS:

Maximum residue levels (MRLs) are expressed in milligrammes of residue per kilogramme of food.
KEY:

* Level at or about the limit of determination.

## FOOTNOTES:

(1) Paddy or rough rice, husked rice and semi-milled or wholly milled rice.
(2) Levels are measured on fat, except in the case of foods with a fat content of $10 \%$ or less by weight. In these cases the residue is related to the total weight of the boned foodstuff and the MRL is one tenth of the value given in the table, but must be no less than $0.01 \mathrm{mg} / \mathrm{kg}$.
(3) These levels are for fresh raw cow's milk and fresh whole cream cow's milk expressed on the whole milk.
(4) For preserved, concentrated or sweetened cow's milk; for raw milk and whole cream milk of another animal origin; and for butter, cheese or curd. Whether made from cow's milk or other milk of a combination, the following levels apply:

- if the fat content is less than $2 \%$ by weight, the MRL is taken as half that set for raw milk and whole cream milk;
- if the fat content is $2 \%$ or more by weight, the MRL is expressed in $\mathrm{mg} / \mathrm{kg}$ of fat and is set at 25 times that set for raw milk and whole cream milk.
(5) Birds' eggs in shell (other than eggs for hatching) and whole egg products and egg yolk products (whether fresh, dried or otherwise prepared).
(6) Scarole includes broad-leaf endive.
(7) For eggs and egg products with a fat content higher than $10 \%$, the maximum level is expressed in $\mathrm{mg} / \mathrm{kg}$ fat. In this case, the maximum level is 10 times higher than the maximum level for fresh eggs.
(8) Kidney except of poultry.
(9) All other meat, edible offal, fat and preparations of meat and edible offal.
(10) All meat.
(11) All liver and kidney.
(12) Liver of bovine animals.
(13) Broccoli includes calabrese.
(14) Meat of poultry.
(15) Meat of bovine animals.
(16) Fat of bovine animals.
(17) Except poultry
(18) Liver of chicken
(19) Kidney of bovine animals.
(20) Liver of bovine animals, sheep and goats
(21) Except foodstuffs of ovine origin.
(22) Meat of bovine animals, sheep and goats.
(23) Except meet and liver of bovine animals, sheep and poultry or meat of poultry.
(24) This MRL also applies to spelt
(25) Except spelt.
(26) Liver of bovine animals, sheep, goats, and swine.
(27) Kidney of bovine animals, sheep, goats, and swine.
(28) Meat of poultry, fat and edible offal.
(29) Meat of bovine animals, sheep, goats, and swine.
(30) All kidney.
(31) Kidney of swine
(32) Kidney of bovine animals sheep and goats.
(33) This figure is the sum of the alpha and beta isomers.

For meat, fat \& preparations of meat MRL for aplha isomer is $0.2 \mathrm{mg} / \mathrm{kg}$ and MRL for beta isomer is $0.1 \mathrm{mg} / \mathrm{kg}$. For milk and dairy produce MRL for alpha isomer is $0.004 \mathrm{mg} / \mathrm{kg}$ and MRL for beta isomer is $0.003 \mathrm{mg} / \mathrm{kg}$. For eggs MRL for alpha isomer is $0.02 \mathrm{mg} / \mathrm{kg}$ and MRL for beta isomer is $0.01 \mathrm{mg} / \mathrm{kg}$.
(34) All meat, liver and fat.
(358) $1 \mathrm{mg} / \mathrm{kg}$ applies to whole seeds; $0.05 \mathrm{mg} / \mathrm{kg}$ applies to seed without shell.
(36) Ruminant liver.
(37) Fat liver and kidney.
(38) With the exception of meat and other ovine, bovine and caprine products.

## EXPLANATORY NOTE

## (This note is not part of the Regulations)

These Regulations, which extend to Scotland only, are made under section 2(2) of the European Communities Act 1972 and consolidate and replace the provisions of the Pesticides (Maximum Residue Levels in Crops, Food and Feeding Stuffs) (Scotland) Regulations 2000 (S.S.I. 2000/22) as amended by S.S.I. 2001/84, S.S.I. 2001/221, S.S.I. 2001/435, S.S.I. 2002/271, S.S.I. 2002/489, S.S.I. 2003/118, S.S.I. 2003/445, S.S.I. 2004/104, S.S.I. 2004/220, S.S.I. 2004/399, S.S.I. 2005/109 and S.S.I. 2005/281 - see regulation 6 and Schedule 4 for revocations.
The Regulations specify maximum levels of pesticide residues which crops, food and feeding stuffs may contain in implementation of: Council Directive 76/895/EEC (O.J. No. L 340, 9.12.1976, p.26) relating to fruit and vegetables; Council Directive 86/362/EEC (OJ No. L 221, 7.8.86, p.37) and Council Directive 86/363/EEC (O.J. No. L 221, 7.8.86, p.43) as regards cereals and products of animal origin; and Council Directive 90/642/EEC (O.J. No. L 350, 14.12.90, p.71) as regards certain products of plant origin (including fruit and vegetables), as amended (these Directives as so amended being referred to in these Regulations as "the Residues Directives").
In particular, these Regulations specify new maximum residue levels on products of plant origin including cereals for the pesticides Carfentrazone-ethyl, Fenamidone, Isoxaflutole, Maleic Hydrazide, Mecoprop, Propyzamide, Trifloxystrobin in implementation of Commission Directive 2005/37/EC (O.J. No. L 141, 4.6.2005, p.10); on products of plant origin, cereals and foodstuffs of animal origin for Amitraz in implementation of Commission Directive 2005/46/EC (O.J. No. L 177, 9.7.2005, p.35); and on products of plant origin, cereals and foodstuffs of animal
origin for Flufenacet, Fosthiazate, Iodosulfuron-methyl sodium, Iprodione, Mesotrione, Molinate, Picoxystrobin, Propiconazole, Silthiofam in implementation of Commission Directive 2005/48/EC (O.J. No. L 219, 24.8.2005, p.29).

Regulation 3 also creates offences, specifies penalties, provides defences and confers enforcement powers where maximum residue levels have been exceeded in respect of products put into circulation.

The Regulations also confer powers to seize and dispose of products where maximum residue levels have been exceeded (regulation 4) and prescribe how much of a particular product is to be taken into account in determining whether a maximum residue level has been exceeded in accordance with Council Directive 90/642/EEC (regulation 5(a) and Schedule 3). Provision is also made with regard to the manner for determining whether maximum residue levels have been exceeded when found in dried or processed products or composite foods, so far as these are the subject of the Residues Directives (regulation 5(c) and (d)).
A regulatory impact assessment and transposition note have been prepared in respect of these Regulations and placed in the Scottish Parliament Information Centre. Copies of the assessment and note can be obtained from the Scottish Executive Environment and Rural Affairs Department, EPHAS2, Area 1-B, Pentland House, 47 Robb’s Loan, Edinburgh, EH14 1TY.
