Products (Scotland) Regulations 2012

Made - - - - 29th May 2012
Laid before the Scottish Parliament - - - - 31st May 2012
Coming into force - - 1st July 2012

The Scottish Ministers make the following Regulations in exercise of the powers conferred by section 2(2) of, and paragraph 1A of Schedule 2 to, the European Communities Act 1972(1), section 56(1) and (2) of the Finance Act 1973(2) and all other powers enabling them to do so.

These Regulations make provision for a purpose mentioned in section 2(2) of the European Communities Act 1972 and it appears to the Scottish Ministers that it is expedient for a reference in these Regulations to an EU instrument listed in Schedule 1 to be construed as a reference to that instrument as amended from time to time.

PART 1

Introduction

Citation, commencement and extent

1. These Regulations—

(1) 1972 c.68. Section 2(2) was amended by the Scotland Act 1998 (c.46) (“the 1998 Act”), Schedule 8, paragraph 15(3) (which was amended by section 27(4) of the Legislative and Regulatory Reform Act 2006 (c.51) (“the 2006 Act”)). Section 2(2) was also amended by section 27(1)(a) of the 2006 Act and by the European Union (Amendment) Act 2008 (c.7) (“the 2008 Act”), Schedule, Part 1. The functions conferred upon the Minister of the Crown under section 2(2), insofar as within devolved competence, were transferred to the Scottish Ministers by virtue of section 53 of the 1998 Act. Paragraph 1A of Schedule 2 was inserted by section 28 of the 2006 Act and was amended by Schedule, Part 1 of the 2008 Act.

(2) 1973 c.51. The powers in section 56 are exercised in regard to regulation 32(1) of this instrument. The reference to a Government department in section 56(1) is to be read as a reference to the Scottish Administration by virtue of article 2(2) of the Scotland Act (Consequential Modifications) (No. 2) Order 1999 (S.I. 1999/1820) and the functions of the Minister transferred to the Scottish Ministers by virtue of section 53 of the Scotland Act 1998 (c.46). The requirement to obtain the consent of the Treasury was removed by section 55 of the Scotland Act 1998. Section 56(1) was amended by S.I. 2011/1043.
(a) may be cited as the Trade in Animals and Related Products (Scotland) Regulations 2012;
(b) come into force on 1st July 2012; and
(c) extend to Scotland only.

PART 2
Movement between member States

Movement of animals and genetic material between member States

5.—(1) Subject to paragraphs (4) and (5), no animal or genetic material may be consigned to another member State, or brought into Scotland from another member State, unless—

(a) paragraph (3) has been complied with;

(b) it is accompanied by the completed, signed health certificate required for that animal or genetic material by the relevant instrument in Schedule 1; and

(c) it complies with any additional requirements specified in Part 1 of Schedule 2.

(2) The consignee of an incoming consignment must keep the certificate mentioned in paragraph (1)(b) for at least three years.

(3) This paragraph is complied with where—

(a) in the case of consignment to another member State, the consignor has arranged for the competent authority of the member State of destination to be notified at least 24 hours in advance of the intended arrival of consignment, using the Traces system established under Commission Decision 2004/292/EC on the introduction of the Traces system and amending Decision 92/486/EEC (17);

(b) in the case of a consignment brought into Scotland, the importer or consignee has notified the Scottish Ministers, at least 24 hours in advance of the intended arrival of the consignment.

(5) Paragraph (1)(b) does not apply to registered equidae or equidae for breeding and production covered by a bi-lateral agreement made under Article 6 of Council Directive 2009/156/EC on animal health conditions governing the movement and importation from third countries of equidae (19).

Preparation of a health certificate

6.—(1) In order to prepare a health certificate for the consignment of an animal or genetic material to another member State, the person intending to dispatch the consignment must apply to the Scottish Ministers for a uniquely numbered certificate.

(2) The certificate must then be completed by a person authorised to do so by the Scottish Ministers, in accordance with the instructions sent by the Scottish Ministers with the certificate.

(3) The person completing the certificate must ensure that the conditions specified in the certificate are fulfilled and that all necessary examinations have been carried out.

(4) If everything is in order the person must sign the certificate.

(5) No person may sign a certificate unless authorised by the Scottish Ministers.

(6) No person may sign a certificate knowing it to be false, or not believing it to be true.

PART 3
Importation from a third country

Scope of this Part

7. This Part—
   (a) applies in relation to the importation into Scotland from a country outside the European Union of any animal or product and includes situations where the ultimate destination is outside Scotland; and
   (b) does not apply in the cases specified in Schedule 3.

Meaning of “CVED”

8. In this Part, “CVED” means the Common Veterinary Entry Document specified in—
   (a) Commission Regulation (EC) No 136/2004 laying down procedures for veterinary checks at Community border inspection posts on products imported from third countries;
   (b) Commission Regulation (EC) No 282/2004 introducing a document for the declaration of, and veterinary checks on, animals from third countries entering the Community.

Border inspection post

9.—(1) If at any time the Scottish Ministers are of the opinion that a border inspection post no longer complies with the requirements for approval for a border inspection post set out in Annex II to Council Directive laying down the principles governing the organisation of veterinary checks on products entering the Community from third countries or the conditions of the approval, they may serve a notice on the operator—
   (a) specifying the breach;
   (b) providing a time limit within which the requirements for approval or the conditions of approval must be complied with; and
   (c) prohibiting the use of the facilities (or any part of the facilities) until the notice is complied with.

   (2) If the notice is not complied with the Scottish Ministers may suspend the approval of the border inspection post.

   (3) If the Scottish Ministers consider that the operation of a border inspection post creates a risk to human or animal health they must suspend the approval of the border inspection post.

   (4) Where the Scottish Ministers suspend the approval of a border inspection post under paragraph (2) or (3), they must inform the Commission and the other member States of the suspension and the reason for it.

Appointment of official veterinarians and official fish inspectors

10.—(1) The enforcement authority must appoint suitably trained veterinary surgeons for the purpose of carrying out regulatory functions under these Regulations at border inspection posts.

   (2) If the approval for a border inspection post permits the importation of any product for human consumption (other than snails) listed in the Table in Chapter 3 of Annex I to Commission Decision

---

2007/275/EC, the local authority may appoint suitably trained officers to be official fish inspectors for that post in relation to fish and fishery products, and that inspector has all the powers of an official veterinarian in relation to those products.

Place of importation

11.—(1) No animal or product may be brought into Scotland other than at a border inspection post designated for that animal or product.

(2) In paragraph (1), “designated” means designated in the approval as a border inspection post by the European Commission.

Notification of importation

12.—(1) The person responsible for a consignment of animals must notify its arrival to the border inspection post at least one working day before the consignment is due to arrive.

(2) The person responsible for a consignment of products must notify its arrival to the border inspection post before the consignment is unloaded from the means of transport that brought it to Scotland.

(3) The notification must be made by submitting the CVED with Part I completed.

(4) In the case of transhipment of products to another member State, the person responsible for the consignment must notify the official veterinarian at the border inspection post of arrival, at the time of arrival, of—

(a) the estimated time of unloading of the consignment;
(b) the border inspection post at which it will be checked;
(c) the location of the consignment; and
(d) the estimated time of departure.

Procedure on importation

13.—(1) When a consignment has been unloaded, the person responsible for the consignment must without reasonable delay arrange for it, together with the documentation specified for that consignment by the relevant instrument in Schedule 1, to be presented at the border inspection post inspection facilities to enable the carrying out of—

(a) the checks required by Article 4 of Council Directive 97/78/EC;
(b) the checks required by Article 4 of Council Directive 91/496/EEC; or
(c) the official controls referred to in Article 14(1) of Regulation (EC) No 882/2004.

(2) The official veterinarian may serve on the person responsible for the consignment a notice specifying a reasonable time at which the consignment must be presented for inspection, and that person must comply with such a notice.

(3) The official veterinarian must carry out all necessary checks and controls specified in paragraph (1) and must only issue a CVED permitting entry if—

(a) the consignment complies with the requirements relating to it in the relevant instrument in Schedule 1 and any additional requirements relating to it in Part 2 of Schedule 2;
(b) the importation is not prohibited under paragraph (4); and
(c) the correct fee for the checks has been paid or suitable arrangements have been made to secure future payment.

(4) The official veterinarian must not issue a CVED permitting entry if—
(a) the animals are from a territory or part of a territory of a third country not included in the lists drawn up in accordance with EU legislation for the species concerned or from which imports are prohibited under that legislation;

(b) the animals are suffering from or are suspected to be suffering from or infected by a contagious disease or a disease presenting a risk to human or animal health;

(c) the exporting third country has not complied with the requirements provided for in EU legislation;

(d) the animals are not in a fit state to continue their journey;

(e) the veterinary certificate or document accompanying the animals does not meet the requirements of EU legislation relating to importation; or

(f) the import is prohibited for any other reason provided for in EU legislation.

(5) If there is no EU legislation relating to the consignment, the official veterinarian must not issue a CVED unless importation has been authorised in writing under this paragraph by the Scottish Ministers, who may only grant an authorisation if satisfied that the consignment does not pose a risk to human or animal health, or to the animal health status of the United Kingdom.

(6) The official veterinarian must keep the original certificate accompanying the consignment for three years (except that, if the consignment is refused the official veterinarian must stamp it accordingly, return the original to the importer and keep a copy of it for three years).

**Removal from a border inspection post**

14.—(1) No person may remove a consignment from a border inspection post unless the consignment is—

(a) accompanied by a CVED issued by the official veterinarian and the movement is in accordance with the CVED; or

(b) removed from the border inspection post under the authority of the official veterinarian.

(2) Where a consignment is removed from a border inspection post in accordance with paragraph (1)(a) the person transporting it from the border inspection post must ensure that it is transported to the destination specified in the CVED accompanied by its CVED.

**Channelling**

15. In the case of a product, if box 30, 31, 33 or 34 of the CVED requires the consignment to be taken to a specific destination in the European Union—

(a) the movement must be under customs supervision if this is specified in the CVED; and

(b) on arrival, the occupier of the premises of consignment must immediately notify the Scottish Ministers of its arrival.

**Destination outside the United Kingdom**

16.—(1) This regulation applies to a consignment brought into a border inspection post in Scotland but which is intended for an ultimate destination outside the United Kingdom.

(2) In the case of an animal consigned to a destination outside the European Union, the person notifying its importation under regulation 12 must provide documentary evidence that the country of destination will accept the animal, and the official veterinarian at the border inspection post may reject the animal if this is not provided.

(3) A consignment of products may be taken directly from the border inspection post (in the case of an airport this must be by air, and in the case of a port this must be by sea) to a destination
outside the United Kingdom without a CVED, provided it does not remain at the border inspection post more than 12 hours (in the case of an airport) or seven days (in the case of a port).

(4) If a consignment is intended to be sent to a destination in the European Union, and the importation of the product into the European Union is not permitted, the official veterinarian must reject the consignment.

Unchecked consignments

17. An enforcement authority must seize any consignment—

(a) brought into Scotland other than through a border inspection post approved for that animal or product;

(b) removed from a border inspection post without a CVED or the authority of the official veterinarian at the border inspection post; or

(c) transported from the border inspection post to a destination other than that specified in the CVED.

Action following non-compliance – products

18.—(1) In the case of a product, if the checks at a border inspection post show that the consignment does not satisfy the conditions in the relevant instrument in Schedule 1 and any additional requirements relating to it in Part 2 of Schedule 2, or where such checks reveal an irregularity, the official veterinarian, after consultation with the person responsible for the consignment, must—

(a) provided there is no risk to human or animal health, permit the use of the consignment as animal by-products in accordance with Regulation (EC) No 1069/2009;

(b) where health conditions permit, require the person in charge of the consignment to redispach the product outside the European Union from the same border inspection post to a destination agreed with the person responsible for the consignment, using the same means of transport, within a maximum time limit of 60 days; or

(c) if the person responsible for the consignment gives immediate agreement, redispach is impossible or the 60-day time limit has elapsed, destroy the products.

(2) Pending redispach or confirmation of the reasons for rejection, the person responsible for the consignment must store the consignment under the supervision of the enforcement authority at the expense of the person responsible for the consignment.

(3) If a consignment of products is seized outside a border inspection post under regulation 17, the enforcement authority must—

(a) dispose of the consignment as Category 1 material in accordance with Regulation (EC) No 1069/2009; or

(b) act in accordance with paragraph (1)(b) or (c) of this regulation.

Consignments of products likely to constitute a risk to animal or human health

19. If veterinary checks at a border inspection post indicate that a consignment of products is likely to constitute a danger to animal or human health, the official veterinarian must immediately seize and destroy it at the expense of the person responsible for it.

Serious or repeated infringements and breach of maximum residue limits

20.—(1) If veterinary checks in any member State reveal that products entering the European Union from a particular third country, part of a third country or establishment in a third country, are
implicated in serious or repeated infringements of any import requirement, or where those checks reveal that maximum residue levels have been exceeded, this regulation applies to the next ten consignments brought into Scotland from that third country, part of a third country or establishment.

(2) The official veterinarian must carry out a physical check on the product, and take samples and have them analysed.

(3) The person responsible for the consignment must lodge with the official veterinarian a deposit or guarantee sufficient to assure payment of all charges, including the taking of samples, tests and analysis.

(4) The official veterinarian may refuse to issue a CVED in respect of a consignment to which this regulation applies if the person responsible for the consignment has failed to comply with paragraph (3).

Action following non-compliance – animals

21.---(1) If the checks at a border inspection post show that an animal does not satisfy the conditions in the relevant instrument in Schedule 1 and any additional requirements relating to it in Part 2 of Schedule 2, or where such checks reveal an irregularity, the official veterinarian, after consultation with the importer or the importer’s representative, must—

(a) shelter, feed and water and, if necessary, treat the animal;

(b) if necessary, place it in quarantine or isolate it for so long as is necessary to ensure that there is no risk to human or animal health; or

(c) where animal health or welfare requirements so allow, redispacth it, within a time limit to be set by the official veterinarian, outside the European Union.

(2) If redispacth is impossible, in particular for welfare reasons, the official veterinarian may arrange for the slaughter of the animal.

(3) If an animal is seized under regulation 17, the enforcement authority must isolate it and, following examination of the animal, either—

(a) release the animal from restriction; or

(b) require the animal to be slaughtered or re-exported outside the European Union.

(4) The importer or the importer’s representative is liable for the costs incurred in these measures but is entitled to the slaughter value of the animal after deduction of these costs.

(5) When a horse is imported from a third country under Commission Decision 92/260/EEC, the importer or the importer’s representative must re-export the horse within 90 days of import.

Appeals

22.---(1) Any person who is aggrieved by a decision referred to in regulation 18 or 21 may appeal to the sheriff against that decision.

(2) An appeal under this regulation—

(a) is to be made by way of summary application; and

(b) must be lodged with the sheriff clerk within the period of 28 days from the day on which the decision was made.

(3) On good cause being shown, the sheriff may hear an appeal under this regulation notwithstanding that it was not lodged within the time mentioned in paragraph (2)(b).

(4) When an application is made, the sheriff may make an order—

(a) suspending the decision until the application is determined; and
(b) making such provision as seems appropriate in relation to the keeping of an animal or the storage of a product until then.

(5) For the purposes of an appeal under this regulation, the sheriff may require the official veterinarian or the enforcement authority, as the case may be, to give reasons for that decision.

(6) The sheriff may uphold an appeal under this regulation only if the sheriff considers that the official veterinarian or the enforcement authority in arriving at the decision—
  (a) erred in law;
  (b) based the decision on any incorrect material fact;
  (c) acted contrary to natural justice; or
  (d) exercised discretion in an unreasonable manner.

(7) In considering an appeal under this regulation, the sheriff may hear evidence by or on behalf of any party to the appeal.

(8) On allowing an appeal under this regulation, the sheriff may—
  (a) remit the matter to the official veterinarian or the enforcement authority for reconsideration; or
  (b) substitute for the decision of the official veterinarian or the enforcement authority another decision which could have been made under the regulation concerned (or where a substituted decision would have no practical effect, make such other order, including an order as to compensation, as seems appropriate in the circumstances).

(9) On remitting a matter under paragraph (8)(a) above, the sheriff may—
  (a) specify a date by which the official veterinarian or the enforcement authority must, having reconsidered the matter, make another decision; and
  (b) modify any procedural steps which otherwise would be required in relation to the matter by or under these Regulations.

(10) The sheriff may include in the decision on an appeal under this regulation such order as to the expenses of the appeal as the sheriff thinks proper.

(11) The decision of the sheriff is final.

Re-importation of products

23.—(1) An official veterinarian at a border inspection post must authorise the re-importation of a consignment of products that originated in the European Union and was refused by a third country, if the consignment is accompanied—
  (a) by the original certificate or a copy authenticated by the competent authority which issued the certificate accompanying the consignment, together with details of the reasons for refusal and a guarantee that the conditions governing the storage and transport of the consignment have been observed, stating that the products in the consignment have not undergone any handling; or
  (b) in the case of sealed containers, by a certificate from the carrier stating that the content has not been handled or unloaded.

(2) The official veterinarian must carry out a documentary and identity check and if necessary a physical check.

(3) The importer must either—
  (a) transport the consignment directly to the establishment of origin in the member State where the certificate was issued, in leak-proof means of transport, identified and sealed by the
official veterinarian at the border inspection post so that the seals will be broken whenever the container is opened; or

(b) destroy the consignment as animal by-products.

**Admission of products into warehouses**

24. No person may bring a consignment of products that does not comply with the import requirements of these Regulations into a warehouse in a free zone, a free warehouse (which have the same meaning as in Title IV, Chapter 3, section 1 of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code(23)) or a customs warehouse.

**PART 4**

Safeguard measures

25.—(1) This regulation applies where the Scottish Ministers have, or the Food Standards Agency has, reasonable grounds for suspecting the existence of a disease, zoonosis, phenomenon or circumstance outside the United Kingdom liable to present a serious threat to human or animal health.

(2) The Scottish Ministers or the Food Standards Agency may by declaration suspend, or impose conditions upon, the entry into Scotland of any animal, product or genetic material from the whole or any part of the country concerned.

(3) The declaration must—

(a) be in writing;

(b) be published in such manner as the Scottish Ministers or the Food Standards Agency thinks fit;

(c) specify the animal, product or genetic material and the third country or part of a third country concerned; and

(d) if it imposes conditions on bringing any animal, product or genetic material from a third country or part of a third country, specify those conditions.

(4) No person may bring anything into Scotland in breach of such declaration.

(5) A declaration may be amended, suspended or revoked by further declaration in writing published, so far as is practicable, in the same manner as the original declaration.

**PART 5**

Administration

**Notifications and authorisations**

26. Any notification or authorisation under these Regulations—

(a) must be in writing;

(b) may be subject to conditions; and

---

may be amended, suspended or revoked by further notification or authorisation in writing at any time.

**Enforcement**

27.—(1) At a border inspection post these Regulations are enforced—
   (a) in relation to animals by the Scottish Ministers; and
   (b) in relation to products by the local authority.

(2) Outside a border inspection post, these Regulations are enforced—
   (a) in relation to animals by the local authority;
   (b) in relation to products—
       (i) except where head (ii) applies, by the local authority; or
       (ii) by the Food Standards Agency at any cutting plant, game-handling establishment or slaughterhouse, or premises at which the Agency enforces the Food Hygiene (Scotland) Regulations 2006(24).

(3) In addition, in relation to products, these Regulations are enforced by a general customs official in any place (other than the inspection facilities in a border inspection post) where goods are subject to customs supervision by that official under Articles 37 and 38 of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code.

(4) The Scottish Ministers may direct, in relation to cases of a particular description or a particular case, that the Scottish Ministers will discharge any duty imposed on a local authority under this regulation.

(5) The Scottish Ministers may recover from the local authority concerned any expenses reasonably incurred by them under paragraph (4).

(6) An officer of an enforcement authority who, when exercising any statutory function, discovers at any place under customs supervision a consignment or product which the officer reasonably suspects has been brought into Scotland—
   (a) in breach of these Regulations; or
   (b) from a third country and presents a risk to animal or public health,
   must notify a general customs official and detain the consignment or product until such officer takes charge of it.

**Powers of entry**

28.—(1) An authorised officer may, on producing a duly authenticated authorisation if required, enter any premises (excluding any premises used only as a dwelling house) at any reasonable hour for the purpose of enforcing these Regulations.

(2) In this regulation “premises” includes any place, vehicle, trailer, container, stall, moveable structure, ship or aircraft.

(3) The officer may be accompanied by such other persons as the officer considers necessary, including any representative of the European Commission.

(4) Admission to any premises used only as a dwellinghouse may not be demanded as of right unless the entry is in accordance with a warrant granted under this regulation.

(24) S.S.I. 2006/3, to which there are amendments not relevant to these Regulations.
(5) If a sheriff, stipendiary magistrate or justice of the peace, on sworn information in writing, is satisfied that there are reasonable grounds for entry into any premises for the purpose of enforcing these Regulations and that either—

(a) admission to the premises has been refused, or a refusal is anticipated, and that notice of the intention to apply for a warrant has been given to the occupier; or

(b) an application for admission, or the giving of such notice, would defeat the object of the entry, or that the case is one of urgency, or that the premises are unoccupied or the occupier temporarily absent,

the sheriff, stipendiary magistrate or justice may by signed warrant authorise an authorised officer, together with any person who may accompany the officer under paragraph (3), to enter the premises, if need be by reasonable force.

(6) A warrant granted under this regulation continues in force for one month.

(7) An officer who enters any unoccupied premises must leave them as effectively secured against unauthorised entry as they were before entry.

Powers of authorised officers

29. An authorised officer may—

(a) inspect and examine any animal;

(b) inspect any product, or genetic material, including its packaging, seals, marking, labelling and presentation, and any plant or equipment used for or in connection with it;

(c) have access to, and inspect and copy any documents or records (in whatever form they are held), and remove them to enable them to be copied;

(d) have access to, inspect and check the operation of any computer and any associated apparatus used in connection with the records, and may require any computer records to be produced in a form in which they may be taken away;

(e) seize and detain anything required as evidence;

(f) open any bundle, package, packing case, or item of personal luggage, or require any person in possession of or accompanying the same to open it and inspect the contents; and

(g) take samples of any animal or product for laboratory tests, for checking against any relevant document relating to the animal or product,

for the purpose of enforcing these Regulations or any condition of import.

Consignments from another member State constituting a risk to health

30.—(1) If an animal or genetic material brought in from another member State constitutes a serious risk to human or animal health or comes from a region contaminated by an epizootic disease, an authorised officer may serve a notice on the person appearing to be in charge of the animal or genetic material requiring that person—

(a) to detain and isolate—

(i) the animal; and

(ii) any animal with which it has been in contact; or

(iii) the genetic material,

and take such further action as may be specified in the notice for the purpose of preventing the introduction or spreading of disease; or

(b) without delay—
(i) to slaughter the animal; or
(ii) to destroy the genetic material,
in accordance with such conditions as may be specified in the notice.

(2) An authorised officer who knows or suspects that animals or genetic material do not comply with the provisions of Article 3 of Council Directive 90/425/EEC concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market(25), may, if animal health and welfare considerations so permit, give the person in charge of the consignment or the person appearing to be in charge of those animals or genetic material by way of notice the choice of—

(a) where the cause of non-compliance is the presence in animals of residues in excess of that permitted under regulation 9 of the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) Regulations 1997(26), maintaining the animals under supervision until the residue levels fall to the levels permitted by the legislation;

(b) slaughtering the animals or destroying the genetic material in accordance with such conditions as may be specified in the notice; or

(c) returning the animals or genetic material to the member State of dispatch, with the authorisation of the competent authority of the member State of dispatch and with prior notification to any member State of transit.

(3) If the consignment fails to comply only by reason of an irregularity in respect of the required consignment documentation, the authorised officer may not serve a notice under paragraph (2) unless—

(a) the officer has given the person in charge of the consignment a notice requiring the production of the required documentation within seven days and the detention of the consignment in accordance with the terms of the notice; and

(b) the required documentation has not been produced within that time.

(4) If a notice served under this regulation is not complied with the authorised officer may seize any animal or genetic material to which it relates, and arrange for the requirements of the notice to be complied with at the expense of the person on whom the notice was served.

Exchange of information

31.—(1) The Commissioners of Her Majesty’s Revenue and Customs, a general customs official and an enforcement authority may exchange information for the purposes of these Regulations, and may divulge information to the enforcement authorities in Wales, England and Northern Ireland for the purposes of this Part or the equivalent legislation in those jurisdictions.

(2) Paragraph (1) is without prejudice to any other power of the Commissioners, any general customs official or any enforcement authority to disclose information.

These Regulations implement the following four European Directives in Scotland:—

- Council Directive 90/425/EEC concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market (OJ L 224, 18.8.1990, p.29);

They also revoke and replace the Regulations specified in regulation 38 which previously implemented these Directives.

The European Union legislation required to be complied with before animals or goods can be released from control at the port of importation (the “border inspection post”) is listed in Schedule 1.

A business and regulatory impact assessment has not been produced for this instrument as no new impact on the private, voluntary or public sectors is foreseen.
