

SCHEDULE 8

RADIOACTIVE SUBSTANCES ACTIVITIES

PART 2

Amendments to common framework provisions

Authorisation by permit or registration

14.—(1) SEPA may only authorise the activities to which sub-paragraph (2) applies by granting a permit.

(2) This sub-paragraph applies to—

- (a) the deliberate administration of radioactive substances to an animal for the purpose of veterinary diagnosis, treatment or research (in so far as the radiation protection of the public is concerned);
- (b) the management of radioactive waste on a nuclear site;
- (c) the management of radioactive waste at a uranium mine;
- (d) any activity involving a high-activity sealed source;
- (e) the operation, decommissioning and closure of a facility for the long term storage or disposal of radioactive waste;
- (f) the management of radioactive waste for the purpose of long term storage or disposal; and
- (g) the discharge of significant amounts of radioactive waste into the environment.

Changes to legislation:

There are currently no known outstanding effects for the The Environmental Authorisations (Scotland) Regulations 2018, Paragraph 14.
