2019 No. 36

The Cremation (Scotland) Regulations 2019

Management and operation of crematoriums

Maintenance and operation of crematoriums

4.—(1) The cremation authority must, in respect of each crematorium for which it is the cremation authority, ensure—

- (a) the equipment installed at each crematorium is maintained—
 - (i) in efficient working order,
 - (ii) in good repair, and
 - (iii) in a clean and orderly condition,
 - (b) staff are trained in the operation of the equipment installed at the crematorium, and
 - (c) the equipment is regularly serviced.
- (2) The cremation authority must prepare and maintain a written record of—
- (a) all training undertaken by staff operating at the crematorium, and
 - (b) each service check carried out in accordance with paragraph (1)(c).
