

SCHEDULE 3

Mandatory licence conditions

Gas safety

5. Where the premises has a gas supply—
 - (a) the holder of the licence must arrange for an annual gas safety inspection of all gas pipes, flues and appliances in the premises,
 - (b) if, after an annual inspection, any appliance does not meet the required safety standard, the holder of the licence must not allow a short-term let of the premises until the works necessary to bring the appliance to the required safety standard have been carried out.
