
DRAFT STATUTORY INSTRUMENTS

2011 No.

The Renewable Heat Incentive Scheme Regulations 2011

PART 2

Eligibility and matters relating to eligibility

CHAPTER 3

Eligibility criteria in relation to metering and steam measuring

Metering of plants in simple systems

- 16.**—(1) This regulation applies where—
- (a) the plant is generating and supplying heat solely for one or more eligible purposes within one building;
 - (b) no heat generated by the plant is delivered by steam; and
 - (c) the plant is not a CHP system.
- (2) Where this regulation applies, a class 2 heat meter must be installed to measure the heat in kWh generated by the plant.
