
DRAFT STATUTORY INSTRUMENTS

2018 No.

The Renewable Heat Incentive Scheme Regulations 2018

PART 2

Eligibility and matters relating to eligibility

CHAPTER 2

Eligibility criteria for technologies

Eligible installations generating heat using air source heat pumps

- 10.** This regulation applies if the plant complies with all of the following requirements—
- (a) it is an air source heat pump;
 - (b) in the case of a plant with an installation capacity of 45kWth or less, the plant meets the requirements in regulation 18;
 - (c) it has a coefficient of performance of at least 2.9;
 - (d) it has been designed and installed to operate with a seasonal performance factor of at least 2.5;
 - (e) it is not designed to provide cooling; and
 - (f) it is not designed to use heat in air which has been expelled—
 - (i) from a building; or
 - (ii) directly from a process which generates heat.
