

SCHEDULE 3

Artificial intelligence

Interpretation

1. In this Schedule—

“artificial intelligence” means technology enabling the programming or training of a device or software to—

- (i) perceive environments through the use of data;
- (ii) interpret data using automated processing designed to approximate cognitive abilities; and
- (iii) make recommendations, predictions or decisions;

with a view to achieving a specific objective;

“advanced robotics” has the same meaning as in Schedule 2;

“cognitive abilities” means reasoning, perception, communication, learning, planning, problem solving, abstract thinking, decision-making or organisation;

“cyber security” means the activities necessary to protect network and information systems, the users of such systems, and other persons affected by cyber threats;

“cyber threat” means any potential circumstance, event or action that could damage, disrupt or otherwise adversely affect network and information systems, the users of such systems and other persons;

“network and information system” has the same meaning as in regulation 1 of the Network and Information Systems Regulations 2018⁽¹⁾;

“technology” has the same meaning as in Schedule 2 to the Export Control Order 2008⁽²⁾.

⁽¹⁾ S.I. 2018/506. There are amendments to regulation 1, which are not relevant for the purposes of these Regulations.

⁽²⁾ S.I. 2008/3231. Schedule 2 was substituted by S.I. 2017/85 and subsequently amended by S.I. 2017/697, 2018/165, 2018/939 and 2019/989.
