EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend the Electrical Safety Standards in the Private Rented Sector (England) Regulations 2020 (“the Principal Regulations”). They are, in part, enabled by amendments made by the Social Housing (Regulation) Act 2023 (c. 36) to the power in section 122 of the Housing and Planning Act 2016 (c. 22).

In overview, these Regulations extend requirements in the Principal Regulations relating to the inspection and testing of electrical installations in rented accommodation to registered providers of social housing (“registered providers”). They also impose requirements relating to the checking of electrical equipment provided by such landlords under a tenancy of social housing and make some other consequential and related amendments.

Regulation 3(2)(b) of these Regulations amends the Principal Regulations so that they apply in relation to all specified tenancies in England. A specified tenancy is defined in regulation 2 of the Principal Regulations and is a tenancy of residential premises in England which grants the tenant a right to occupy the premises as their only or main residence and under which rent is payable (apart from certain types of tenancy listed in Schedule 1). Regulation 12 of these Regulations amends Schedule 1 of the Principal Regulations to remove the exclusion from that definition of tenancies where the landlord is a private registered provider of social housing. It also adds an exclusion for tenancies of moveable structures, vehicles and vessels.

Regulation 3 of the Principal Regulations, as amended by regulation 5 of these Regulations, requires landlords of specified tenancies (whether private landlords or registered providers) to ensure that the electrical safety standards are met during any period that residential premises are occupied under such a tenancy and to ensure that every electrical installation in the premises is inspected and tested by a qualified person before the tenancy commences and at regular intervals thereafter. Regulation 3 also imposes duties relating to reports of such inspections and any

necessary remedial work. The amendments made by these Regulations include provision for a defence to the breach of duties under regulation 3(1), (4) and (6) if all reasonable steps have been taken to comply. Amendments add a requirement that reports under regulation 3 must, where applicable, state whether the checking of electrical equipment required by new regulation 3B(1) of the Principal Regulations, inserted by regulation 6 of these Regulations, is up to date and make some other consequential and minor drafting changes.

New regulation 3B(1) of the Principal Regulations, inserted by regulation 6 of these Regulations, requires registered providers that are landlords of specified tenancies of social housing under which electrical equipment is provided to ensure that the equipment they provide is safe for continued use and to ensure that a qualified person has checked that each item of electrical equipment so provided is safe for continued use before the tenancy commences and at regular intervals thereafter. New regulations 3C and 3D of the Principal Regulations, also inserted by regulation 6 of these Regulations, impose duties relating to reports of such checks and any necessary remedial work. There is provision for a defence to the breach of duties under new regulations 3B(1) and 3C(2)(b) (remediation or replacement of unsafe equipment) if all reasonable steps have been taken to comply.

Regulation 7 of these Regulations inserts transitional provision into the Principal Regulations that applies in respect of tenancies provided by registered providers that were granted before 1st December 2025. For such tenancies the first inspection and test of electrical installations under regulation 3(1)(c) and, if applicable, check of relevant electrical equipment under new regulation 3B(1)(c), must take place before 1st November 2026.

Regulations 4 to 12 of the Principal Regulations, which regulations 8 to 10 of these Regulations amend, make provision for the enforcement of the requirements in regulation 3 and new regulations 3B to 3D of the Principal Regulations, including provision enabling a local housing authority to require a landlord to comply with a remedial notice, to arrange remedial action and emergency remedial action, and to fine landlords if they fail to comply with those duties. The maximum financial penalty is increased to £40,000 from £30,000 by regulation 10. Regulation 9 of these Regulations amends the defence to a failure to comply with the duty to comply with a remedial notice. It extends the provision that currently applies if a tenant refuses access to the landlord to refusals of access to a person acting on behalf of the landlord.

Regulation 11 of these Regulations inserts a statutory review requirement into the Principal Regulations. The first review must take place by 1st November 2030. Reviews must take place at intervals not exceeding 5 years thereafter.

Schedule 2 to the Principal Regulations, which is amended by regulation 13 of these Regulations, deals with procedural matters relating to financial penalties for breach of the duties in regulation 3 and new regulations 3B to 3D of the Principal Regulations and makes provision relating to the retention of the proceeds of such financial penalties by a local housing authority and appeals against the imposition of a financial penalty.
