(2) As from the appointed day in the county—

- (a) no apparatus to which this section applies shall be installed on or in any premises in the county unless it is provided with a cut-off switch; and
- (b) the switch shall be so placed, and coloured or marked, as to satisfy such reasonable requirements as the fire authority may impose to secure that it shall be readily recognisable by, and accessible to, firemen.

(3) Not less than six weeks before work is begun to install apparatus to which this section applies, the owner or the occupier of the premises where the apparatus is to be installed shall give notice to the fire authority showing where the cut-off switch is to be placed and how it is to be coloured or marked.

(6) Where apparatus to which this section applies has been installed before the appointed day, the fire authority may serve on the owner or occupier of the premises a notice—

- (a) in the case of apparatus already provided with a cut-off switch, stating that they are not satisfied with the position, colouring or marking of the switch, and requiring him, within such period as may be specified in the notice, to take such steps as will secure that the switch will be so placed and coloured or marked as to be readily recognisable by, and accessible to, firemen in accordance with the reasonable requirements of the fire authority; or
- (b) in the case of apparatus not already provided with a cut-off switch, requiring him, within such period as may be specified in the notice, to provide a cut-off switch in such a position and so coloured or marked as to be readily recognisable by, and accessible to, firemen in accordance with the reasonable requirements of the fire authority.

(7) A cut-off switch which complies with the regulations of the Institution of Electrical Engineers for a fireman's emergency switch as to position, colour and marking shall, for the purposes of this section, be deemed to satisfy the requirements of the fire authority.

(8) The provisions of section 290 of the Act of 1936 shall apply to notices given by the fire authority under this section as they apply to the notices mentioned in subsection (1) of that section and as if reference therein to a local authority included reference to the fire authority.

(9) The foregoing provisions of this section shall not apply to apparatus installed, or proposed to be installed, on or in premises in respect of which a licence under the Cinematograph Acts 1909 and 1952 is for the time being in force but, where any apparatus to which this section applies is proposed to be installed on or in any such premises, the owner or occupier of the premises shall, before the apparatus is installed, give notice to the fire authority informing them of the position in which it is proposed to place the cut-off switch and how it is to be coloured or marked.

(10) The owner or occupier of premises where apparatus to which this section applies is installed which does not comply with subsection (2) above, and the owner or the occupier of the premises who does not comply with the requirements of the fire authority stated in a notice under subsection (6) above, shall be guilty of an offence and liable on summary conviction to a fine not exceeding £200 and to a daily fine not exceeding £20.

55.—(1) Except as provided in subsection (2) below, where plans for the erection or extension of a building are deposited with a district council in accordance with building regulations, the district council shall reject the plans unless, after consultation with the fire authority, they are satisfied that the plans show—

(a) that there will be adequate means of access for the fire brigade to the building or, as the case may be, to the building as extended; and

(b) that the building or, as the case may be, the extension of the building will not render inadequate existing means of access for the fire brigade to a neighbouring building.

(2) (a) No requirement concerning means of access to a building or to a neighbouring building shall be made under this section in the case of a building to be erected or extended in pursuance of a planning permission granted upon an application made under the Act of 1971 unless notice of the provisions of this section is endorsed on or accompanies the planning permission.

(b) No requirement concerning means of access to a building shall be made under this section in the case of a building in respect of which a requirement may be made under subsection (2) (a) of section 52 (Fire precautions in high buildings) of this Act.

Defective
electrical
installations
in houses.

56.—(1) In this section “electrical installation” means any electrical wiring or fittings installed in a house, not being electrical wiring or fittings belonging to the electricity board.

(2) Where it appears to a district council that, by reason of any defect in any electrical installation in any occupied house, or in any part of a building occupied as a separate dwelling, in a district, that house or, as the case may be, that part of the building is in such a state as to be dangerous, the district council may, by notice, require the owner of the house or building to carry out such work as shall be necessary to remedy the defect.

(3) The provisions of section 290 of the Act of 1936 shall apply in relation to notices given under subsection (2) above as they apply in relation to the notices mentioned in subsection (1) thereof.

(4) Among the grounds upon which an appeal may be brought under subsection (3) of the said section 290 against a notice under subsection (2) above shall be that it is not reasonably practicable to comply with the notice, or that, having regard to the period during which the house or part of the building is likely to continue to be used for human habitation, it is unreasonable to require the execution of the work.

(5) Not later than the seventh day after that on which the district council give notice under subsection (2) above they shall send a copy of the notice to the electricity board.

(6) This section shall not apply to a house in an area declared to be a clearance area or which has been declared to be unfit for human habitation.

(2) (a) The county council may make byelaws applicable in any district or part thereof for securing that arrangements are made for preventing or reducing danger from fire arising in connection with oil-burning equipment installed or placed in any building, or on any land, in the area to which the byelaws apply.

(b) Without prejudice to the generality of paragraph (a) above, byelaws made under this subsection may include provisions prescribing the works, apparatus and fittings and fire-fighting appliances to be provided in connection with the installation or placing of oil-burning equipment, and the mode of arrangement of any such works, apparatus, fittings and appliances.

(c) In relation to byelaws made under this subsection, section 236 of the Act of 1972 (procedure for making and confirming byelaws) shall have effect as if in subsection (7), after “ confirm ” where it secondly occurs, there were inserted “ or confirm with modifications ”.

(d) If the Secretary of State, on considering byelaws submitted under section 236 of the Act of 1972 as having effect in accordance with paragraph (c) above, proposes to make a modification which appears to him to be substantial, he shall inform the county council and require them to take any steps he thinks necessary for informing persons likely to be concerned with that modification, and shall not confirm the byelaws until there has elapsed such period as he thinks reasonable for consideration of, and comment upon, the proposed modification by the county council and by other persons who have been informed of it.

(3) As from the appointed day in any district, being a day not earlier than the day on which byelaws made under subsection (2) above come into operation in the district, any person intending to install or place oil-burning equipment in any building, or on any land, in the area of the district to which the byelaws apply shall give to the district council not less than 14 days’ notice of his intention to do so.

(b) If the district council do not, within 8 weeks after the submission of plans and specifications of any oil-burning equipment under this subsection, notify the person who submitted the plans and specifications of their disapproval of the said plans and specifications stating the reasons for their disapproval, they shall be deemed to have approved them.

(5) (a) If, on an application made by a person proposing to install or place oil-burning equipment in any building, or on any land, in their district, for waiver of the specification for such equipment prescribed in the byelaws the district council, after consultation with the fire authority, are satisfied that proper arrangements will be made for preventing or reducing danger from fire arising in connection with the equipment, they may dispense with, or relax, the requirements of the byelaws and approve the installation or the placing of the equipment notwithstanding that it does not comply with the specification for such equipment prescribed in the byelaws.

(b) If the district council do not, within 8 weeks after the making of an application under this subsection, or such longer period as the applicant may in writing allow, notify him of their approval of the application, they shall be deemed to have disapproved it.

(c) The decision of the Secretary of State on any such appeal shall have effect as if it were a decision of the district council given under subsection (4) (a) or, as the case may be, subsection (5) (a) above.

(7) Any person who installs oil-burning equipment in any building, or on any land, in the area to which byelaws made under subsection (2) above apply without giving such notice as may be required under subsection (3) above, shall be guilty of an offence and liable on summary conviction to a fine not exceeding £200.

(8) (a) Any person who contravenes any byelaw made under subsection (2) above shall be guilty of an offence and liable on summary conviction to a fine not exceeding £200 and to a daily fine not exceeding £20.

(2) An order made by the county council under subsection (1) above shall fix the date as from which the order shall take effect but shall be subject to confirmation by the Minister who may, on confirming any such order, make modifications of the order.

(4) The byelaws which may from time to time be made by the council in pursuance of this section may provide for the imposition on summary conviction of a fine not exceeding £50 for a contravention of any of the byelaws and, in the case of a continuing offence, a further fine not exceeding £5 for each day during which the offence continues after conviction thereof.

(a) electric lines or works (as respectively defined in the Electric Lighting Act 1882) belonging to or maintained by the Merseyside and North Wales Electricity Board or the Central Electricity Generating Board;

(b) mains, pipes, valves, siphons, stopcocks, pillars or other apparatus belonging to or erected or maintained by the British Gas Corporation;

(c) mains, pipes, valves, hydrants, plugs, tubes, stopcocks or other apparatus belonging to or maintained by the North West Water Authority; and includes any works constructed for the lodging therein of apparatus;

“in” in a context referring to apparatus includes under, over, across, along or upon;

“position” includes depth;

“the subsidiary works” means the works authorised by subsection (2) of section 85 (Continuance and maintenance of works) of this Act;

“the undertakers” means the British Gas Corporation, the Central Electricity Generating Board, the Merseyside and North Wales Electricity Board, and the North West Water Authority, or any of them, and in relation to any apparatus or property means the undertakers to whom the apparatus or property belongs or, as the case may be, by whom the apparatus is maintained, and in relation to the supply of electricity, gas or water means the undertakers by whom the supply is provided:

(2) Notwithstanding anything in this Part no apparatus shall be removed from any land or street in which it is situated, nor shall any right of the undertakers to use, maintain, repair, renew or inspect any apparatus in that land or street be extinguished, until any necessary adequate alternative apparatus has been provided and is in operation to the reasonable satisfaction of the undertakers:

- (3) (a) If the county council, for the purpose of or in connection with the construction of any of the subsidiary works, require the removal of any apparatus, they shall give to the undertakers written notice of their requirement together with a plan and section of the work proposed and of the proposed position of the alternative apparatus (if any) to be provided;
- (b) If the county council require the undertakers to remove any apparatus permanently from any land or street, or if in consequence of the exercise of the powers of this Part the undertakers shall reasonably require the permanent removal of any apparatus, the county council shall, if practicable, afford to the undertakers the necessary facilities and rights for the laying down or erection in other lands of the county council of adequate alternative apparatus and thereafter for the maintenance, repair, renewal and inspection of that apparatus:

Provided that if the alternative apparatus or any part thereof is to be laid down or erected elsewhere than in other lands of the county council, and the county council are unable to afford such facilities and rights as aforesaid in the lands in which the alternative apparatus or such part thereof is to be laid down or erected, the undertakers shall, on receipt of a written notice to that effect from the county council, forthwith use their best endeavours to obtain the necessary facilities and rights;

- (c) Any alternative apparatus to be laid down or erected in lands of the county council in pursuance of this paragraph shall be laid down or erected in such manner and in such line or situation as may be agreed between the undertakers and the county council or, in default of agreement, settled by arbitration;
- (d) The undertakers shall, after the line and situation of any necessary alternative apparatus and manner in which the alternative apparatus shall be laid down or erected have been agreed or settled by arbitration as aforesaid, and after the grant to the undertakers of any such facilities and rights as are referred to in sub-paragraph (b) above, proceed with all reasonable dispatch to lay down or erect and bring into operation the alternative apparatus and thereafter to remove any apparatus required by the county council to be removed under this section and, in default, the county council may remove the apparatus;
- (e) Notwithstanding anything in the foregoing provisions of this paragraph, if the county council give notice in writing to the undertakers that they desire themselves

PART XIII

Provided that nothing in this sub-paragraph shall authorise the county council to execute the actual placing, erection, installation, bedding, packing, removal, connection or disconnection of any apparatus or any filling around such apparatus (where the apparatus is laid in a trench) within 30 centimetres above the apparatus;

- (f) Where in accordance with the provisions of this paragraph the county council afford to the undertakers facilities and rights in lands of the county council for the laying down or erection, maintenance, repair, renewal and inspection of alternative apparatus in substitution for apparatus to be removed as aforesaid those facilities and rights shall be granted upon such terms and conditions as may be agreed between the county council and the undertakers or, in default of agreement, determined by arbitration:

Provided that—

(i) in determining such terms and conditions as aforesaid in respect of alternative apparatus to be laid down or erected in or through any of the works the arbitrator shall—

(A) give effect to all reasonable requirements of the county council for ensuring the safety and effective use of the authorised works and the subsidiary works; and

(B) so far as it may be reasonable and practicable to do so in the circumstances of the particular case, give effect to the terms and conditions applicable to the apparatus (if any) constructed through the lands of the county council for which the alternative apparatus is to be substituted;

(ii) if the facilities and rights to be afforded by the county council in respect of any alternative apparatus, and the terms and conditions subject to which the same are to be granted are, in the opinion of the arbitrator, more or less favourable on the whole to

the undertakers than the facilities, rights, terms and conditions applying to the apparatus to be removed, the arbitrator shall make such provision for the payment of compensation to or by the county council by or to the undertakers in respect thereof as shall appear to him to be reasonable having regard to all the circumstances of the particular case:

- (4) (a) Not less than 28 days before commencing to execute any of the subsidiary works which is near to, or is likely to affect, any apparatus the removal of which has not been required by the county council under paragraph (3) (a) above, the county council shall submit to the undertakers a plan, section and particulars of the work to be executed;
- (b) Such work shall be executed substantially in accordance with the plan, section and particulars submitted as aforesaid and in accordance with such reasonable requirements as may be made by the undertakers for the alteration or otherwise for the protection of the apparatus, or for securing access thereto, and the undertakers shall be entitled by their officer to watch and inspect the execution of such work:

Provided that—

(i) if the undertakers within 14 days after the submission to them of any such plan, section and particulars shall, in consequence of the work proposed by the county council, reasonably require the removal of any apparatus and give written notice to the county council of such requirement, the foregoing provisions of this section shall apply and have effect as if the removal of such apparatus had been required by the county council under paragraph (3) (a) above; and

(ii) nothing in this sub-paragraph shall preclude the county council from submitting at any time, or from time to time, but, except in case of emergency, not less than 28 days before commencing the execution of any such work, a new plan, section and particulars in lieu of the plan, section and particulars previously submitted and thereupon the provisions of this paragraph shall apply to and in respect of such new plan, section and particulars;

- (c) The county council shall not be required to comply with sub-paragraph (a) above in case of emergency, but, in such a case, they shall give to the undertakers notice as soon as reasonably practicable, and a plan, section and particulars of the work as soon as reasonably prac-

(b) the cutting off of any apparatus from any other apparatus;

(c) the superintending, or watching and inspecting under paragraph (4) above of any works executed by the county council; and

(d) any other work or thing rendered reasonably necessary in consequence of the operations referred to in this paragraph:

Provided that—

(i) if the undertakers provide, lay down, erect or place apparatus of better type or of greater capacity or (otherwise than at the request of the county council or in accordance with the award of an arbitrator) at a greater depth than the existing apparatus, the undertakers shall bear such proportion of the cost of such provision, laying down, erection or placing as represents the amount by which such cost exceeds the cost which would have been incurred if the type or capacity or depth of the apparatus so provided, laid down, erected or placed had been the same as that of the existing apparatus;

(ii) any amount payable by the county council to the undertakers under this paragraph in respect of the provision, laying down, erection or placing of new apparatus in substitution for apparatus provided, laid down, erected or placed more than $7\frac{1}{2}$ years earlier, shall be reduced by the amount of any financial benefit which may be derived by the undertakers from the deferment of the time for the renewal of the apparatus in the ordinary course:

- (6) Where by reason or in consequence of the exercise of the powers of this Part any apparatus for which alternative apparatus is not substituted under this section is rendered derelict or unnecessary, the county council shall pay to the undertakers the then value of such apparatus (which shall thereupon become the property of the county council) and the reasonable cost of, and incidental to, the cutting off of the apparatus from any other apparatus and the execution or doing of any works or things rendered necessary or expedient by reason or in consequence of the apparatus being so rendered derelict or unnecessary:
- (7) (a) Not less than 28 days before providing a marshalling area the county council shall submit to the undertakers a plan showing any such marshalling area which is near to, or the provision or use of which is likely to affect, any apparatus;
- (b) Any such marshalling area provided by the county council shall be provided substantially in accordance with the plan submitted as aforesaid and in accordance with such reasonable requirements as may be made by the undertakers, within 14 days after the submission to them of any such plan, for the execution of works for the protection, strengthening or alteration of the apparatus, or for securing access thereto, and the undertakers shall be entitled by their officer to watch and inspect the execution of work (if any) so required;
- (c) Nothing in this paragraph shall prevent the county council from submitting at any time, or from time to time, but, except in case of emergency, not less than 28 days before providing any such marshalling area, a new plan in lieu of the plan previously submitted and thereupon the provisions of this paragraph shall apply in respect of such new plan:
- (8) The county council shall repay to the undertakers the reasonable expenses incurred by them in or in connection with the watching and inspecting under paragraph (7) above of any work executed by the county council:
- (9) Notwithstanding—
- (a) that any road or part of a road has been stopped up under the Mersey Tunnel Acts 1925 to 1972;
