(7) A cut-off switch which complies with the regulations of the Institution of Electrical Engineers for a fireman's emergency switch as to position, colour and marking shall for the purposes of this section be deemed to satisfy the requirements of the fire authority.

- (a) that there will be adequate means of access for the fire brigade to the building or, as the case may be, to the building as extended; and
- (b) that the building or, as the case may be, the extension of the building will not render inadequate existing means of access for the fire brigade to a neighbouring building.

(2) No requirement concerning means of access to a building or to a neighbouring building shall be made under this section in the case of a building to be erected or extended in pursuance of a planning permission granted upon an application made under the Act of 1971 unless notice of the provisions of this section is endorsed on or accompanies the planning permission.

(3) Section 64 (2) and section 65 (2) to (5) of the Act of 1936 (notice of rejection or passing of plans and enforcement of requirements) shall apply as if this section were a section of the Act of 1936.
