2. In so far as anything done under a statutory provision in force in any area which is repealed by this Act could have been done under any provision of any public general Act relating to the same matter in the same area, it shall not be invalidated by the repeal but shall have effect as if done under that last-mentioned provision.

3.—(1) Anything begun under a statutory provision repealed by this Act may be continued under any provision of this Act or of any public general Act relating to the same matter as if begun under that last-mentioned provision.

(2) Where any period of time specified in, or having effect in relation to, a statutory provision repealed by this Act is current at the date of such repeal, any provision of this Act or of a public general Act relating to the same matter shall have effect as if it were in force when that period began to run.

(3) References in this Act to things done, left undone, suffered or occurring in the past shall, so far as the context requires for the continuity of operation between a statutory provision in force in any area which is repealed by this Act and any provision of this Act relating to the same matter in the same area, be construed as including reference to things done, left undone, suffered or occurring before the coming into operation of that provision of this Act.
