2. The maximum rate for conveyance is the maximum rate which the Company may charge for the conveyance of merchandise by merchandise train; and, subject to the exceptions and provisions specified in this schedule, includes the provision of locomotive power and trucks by the Company, and every other expense incidental to such conveyance not herein-after provided for. Provided that—

(a.) The provision of trucks is not included in the maximum rates applicable to merchandise specified in Class A. of the classification, and the Company shall not be required to provide trucks for the conveyance of such merchandise, or for the conveyance of lime in bulk or salt in bulk, or of the following articles when carried in such a manner as to injure the trucks of the Company; that is to say, ammoniacal liquor, creosote, coal tar, gas tar, gas water, or gravel tarred for paving.

(b.) Any difference arising under this section shall be determined by an arbitrator to be appointed by the Board of Trade at the instance of either party. And services rendered in connexion with such use and occupation.

Any difference arising under this section shall be determined by an arbitrator to be appointed by the Board of Trade at the instance of either party.

11. Where merchandise is conveyed for an entire distance which does not exceed in the case of merchandise in respect of which a station terminal is chargeable at each end of the transit three miles, or in the case of merchandise in respect of which a station terminal is chargeable at one end of the transit four and a half miles, or in the case of merchandise in respect of which no station terminal is chargeable six miles, the Company may, except as hereinafter specially provided, make the charges for conveyance authorised by this schedule as for three miles, four and a half miles, and six miles respectively. Provided that where merchandise is conveyed by the Company partly on the railway and partly on the railway of any other Company, the railway and the railway of such other Company shall, for the purpose of reckoning such short distance, be considered as one railway.
