Where it is necessary that merchandise should be transhipped from one boat to another boat, in consequence of the boat not being able, owing to its dimensions or draft of water, to proceed over any canal through or along which the traffic is to be conveyed, or where such transhipment is necessary for the purpose of navigating tidal waters beyond the limits of the canal, the Undertakers may make a reasonable charge for any services of transhipment performed by them, the amount of such charge to be determined, in case of difference, by an arbitrator to be appointed by the Board of Trade. Provided that for the aforesaid services of transhipment no other charge than is authorised in this section shall be made under any other provision of this schedule. Provided also that no such charge shall be made in any case where transhipment has been rendered necessary by the neglect of the Undertakers. 12. Where merchandise is conveyed by a bye-trader on the canal in a boat which passes through a lock, the Undertakers may charge a minimum toll of five shillings for such a boat, and for an empty boat passing through one or more locks, the Undertakers may charge the sum of five shillings, provided that such empty boat is not returning after delivering cargo in respect of which there shall have been paid to the Undertakers a minimum toll of five shillings, or is not on its way to load cargo in respect of which a like minimum toll will become payable to the Undertakers. Provided that if two empty narrow boats capable of passing through a lock of the Undertakers alongside one another pass through a lock of the Undertakers at the same time, they shall be reckoned for the purposes of this section as one boat.

Fraction of  
a ton.

14. Where a consignment of merchandise is conveyed by a bye-trader, a fraction of a ton may be charged for according to the number of quarters of a ton in that fraction, and a fraction of a quarter of a ton may be charged for as a quarter of a ton.

Weight.

17. Weight (except as to stone when conveyed by the Undertakers, and charged by measurement, and except as hereinafter provided as to timber) shall be determined according to the imperial avoirdupois weight, which may be ascertained by actual weighing or by the tonnage gauges or indices of the boat containing the merchandise, but in case of dispute, either the Undertakers

In the event of doubt as to the correctness of such declaration, the Undertakers may insist upon measuring the timber, the cost of which measuring and of the necessary unloading and re-loading shall be borne by the party in error, or the Undertakers may demand either from the consignor or consignee of such timber, or from the bye-trader, a copy of the invoice of the timber, and a statutory declaration of the correctness of the same. Upon failure or refusal, after reasonable notice, to furnish any of the aforesaid documents, the Undertakers shall have power to charge either the consignor or consignee or the bye-trader according to the avoirdupois weight of the timber, to be ascertained in the same manner as the weight of other merchandise.
