F34 Subject to the following provisions of this paragraph, where in accordance with section 3(1) to (3) of this Act activities of a body (hereafter referred to as “the predecessor”) are taken over by one of the Research Councils, then on the date of that event (hereafter referred to as “the transfer date”) there shall by virtue of this Act and without further assurance be transferred to that Council all property, rights, liabilities...
and obligations to which immediately before the transfer date the predecessor was entitled or subject in connection with those activities.

(2) Subject as aforesaid, every agreement to which in relation to or for the purposes of the relevant activities the predecessor was a party immediately before the transfer date, whether in writing or not and whether or not of such a nature that rights, liabilities and obligations thereunder could be assigned by the predecessor, shall, unless its terms or subject-matter make it impossible that it should have effect as modified in the manner provided by this sub-paragraph, have effect as from the transfer date as if—

(5) Any legal proceedings or application to any authority pending on the transfer date by or against the predecessor in relation to or for the purposes of the relevant activities may be continued on and after that date by or against the Research Council.

(6) In relation to activities of the Council for Scientific and Industrial Research which are taken over by a government department, the foregoing sub-paragraphs shall apply with the substitution for references to a Research Council of references to that department or the Minister in charge of it, as the case requires; and on any question whether for purposes of this paragraph any matter is to be treated as referable to one branch or another of the activities of the Council for Scientific and Industrial Research, or to whom under this paragraph any property, rights, liabilities or obligations of that Council are transferred, the certificate of the [Secretary of State] shall be conclusive.
