Textual Amendments

F2 S. 2 repealed (31.5.1991) by Environmental Protection Act 1990 (c. 43, SIF 46:4), s. 162(2), Sch. 16 Pt. II, S.I. 1991/1319, art. 2

Licensing of disposal of controlled waste.

(1) Except in prescribed cases, a person shall not—
   (a) deposit controlled waste on any land or cause or knowingly permit controlled waste to be deposited on any land; or
   (b) use any plant or equipment, or cause or knowingly permit any plant or equipment to be used, for the purpose of disposing of controlled waste or of dealing in a prescribed manner with controlled waste, unless the land on which the waste is deposited or, as the case may be, the site of the plant or equipment is occupied by the holder of a licence issued in pursuance of section 5 of this Act (in this Part of this Act referred to as a “disposal licence”) which authorises the deposit or use in question and the deposit or use is in accordance with the conditions, if any, specified in the licence.

(2) Except in a case falling within the following subsection, a person who contravenes any of the provisions of the preceding subsection shall, subject to subsection (4) of this section, be guilty of an offence and liable on summary conviction to a fine of an amount not exceeding £400 or on conviction on indictment to imprisonment for a term not exceeding two years or a fine or both.

(3) A person who contravenes paragraph (a) of subsection (1) of this section in a case where—
   (a) the waste in question is of a kind which is poisonous, noxious or polluting; and
   (b) its presence on the land is likely to give rise to an environmental hazard; and
   (c) it is deposited on the land in such circumstances or for such a period that whoever deposited it there may reasonably be assumed to have abandoned
it there or to have brought it there for the purpose of its being disposed of (whether by himself or others) as waste,
shall, subject to the following subsection, be guilty of an offence and liable on summary conviction to imprisonment for a term not exceeding six months or a fine not exceeding £400 or both or, on conviction on indictment, to imprisonment for a term not exceeding five years or a fine or both.

(4) It shall be a defence for a person charged with an offence under this section to prove—

(a) that he—

(i) took care to inform himself, from persons who were in a position to provide the information, as to whether the deposit or use to which the charge relates would be in contravention of subsection (1) of this section, and

(ii) did not know and had no reason to suppose that the information given to him was false or misleading and that the deposit or use might be in contravention of that subsection; or

(b) that he acted under instructions from his employer and neither knew nor had reason to suppose that the deposit or use was in contravention of the said subsection (1); or

(c) in the case of an offence of making, causing or permitting a deposit or use otherwise than in accordance with conditions specified in a disposal licence, that he took all such steps as were reasonably open to him to ensure that the conditions were complied with; or

(d) that the acts specified in the charge were done in an emergency in order to avoid danger to the public and that, as soon as reasonably practicable after they were done, particulars of them were furnished to the disposal authority in whose area the acts were done.

[ In this section and subsections (5) and (6) of the following section “land” includes land covered with waters where the land is above the low-water mark of ordinary spring tides and the waters are not inland waters (within the meaning of Chapter I of Part III of the Water Act 1989).]
Provisions supplementary to s. 3.

(1) Where activities for which a disposal licence is required apart from this subsection have been carried on on any land during the period of six months ending with the date when subsection (1) of the preceding section comes into force, nothing in that subsection shall apply to the carrying on of those activities on the land during the period of one year beginning with that date and, where at the end of that period an appeal is pending in pursuance of section 10 of this Act against a rejection of an application for a disposal licence in respect of those activities on the land or against a decision to issue such a licence which specifies conditions, until the appeal is determined.

(2) Nothing in subsection (1) of the preceding section applies to household waste from a private dwelling which is deposited, disposed of or dealt with within the curtilage of the dwelling by or with the permission of the occupier of the dwelling.

(3) It shall be the duty of the Secretary of State, in exercising the power conferred on him by subsection (1) of the preceding section to prescribe excepted cases, to have regard in particular to the expediency of excluding from the controls imposed by virtue of that subsection—
   (a) any deposits which are small enough to be properly excluded from those controls or are of such a temporary nature that they may be so excluded;
   (b) any uses of plant or equipment which are innocuous enough to be so excluded;
   (c) cases for which adequate controls are provided by an enactment other than that subsection;

and without prejudice to the generality of section 104(1)(a) of this Act the said power may be so exercised as to prescribe different excepted cases for different areas.

(4) For the purposes of subsection (3) of the preceding section—
   (a) the presence of waste on land gives rise to an environmental hazard if the waste has been deposited in such a manner or in such a quantity (whether that quantity by itself or cumulatively with other deposits of the same or different substances) as to subject persons or animals to a material risk of death, injury or impairment of health or as to threaten the pollution (whether on the surface or underground) of any water supply; and
   (b) the fact that waste is deposited in containers shall not of itself be taken to exclude any risk which might be expected to arise if the waste were not in containers.

(5) In the case of any deposit of waste, the degree of risk relevant for the purposes of the preceding subsection shall be assessed with particular regard—
   (a) to the measures, if any, taken by the person depositing the waste, or by the owner or occupier of the land, or by others, for minimising the risk; and
   (b) to the likelihood of the waste, or any container in which it is deposited, being tampered with by children or others.]

Textual Amendments
S. 4 repealed (1.5.1994 save in respect of specified activities, as to which in force as provided by S.I. 1994/1096, art. 3, 1.4.2015 for S. in so far as not already in force) by Environmental Protection Act.
Licences to dispose of waste.

(1) An application for a disposal licence in respect of any land in the area of a disposal authority must be made in writing to the authority.

(2) A disposal licence shall not be issued for a use of land, plant or equipment for which planning permission is required in pursuance of the Town and Country Planning Act 1990 or, in Scotland, the Town and Country Planning (Scotland) Act 1997 unless such permission is in force.

(3) Where an application has been received for a disposal licence for a use of land, plant or equipment for which such planning permission as aforesaid is in force, it shall be the duty of the appropriate Agency not to reject the application unless that Agency is satisfied that its rejection is necessary for the purpose of preventing pollution of water or danger to public health.

(4) Where the appropriate Agency proposes to issue a disposal licence, it shall be the duty of that Agency before it does so—

- to refer the proposal to any collection authority whose area includes any part of the relevant land; and
- to consider any representations about the proposal which, during the period of twenty-one days beginning with that on which the proposal is received by a body mentioned in paragraph (a) of this subsection or during such longer period as [that Agency] and that body agree in writing, [that Agency] receives from that body (including in particular any representations about the conditions which that body considers should be specified in the licence);

(5) . . .

(6) A person who, in an application for a disposal licence, makes any statement which he knows to be false in a material particular or recklessly makes any statement which is false in a material particular shall be guilty of an offence and liable on summary conviction to a fine not exceeding £400 or on conviction on indictment to imprisonment for a term not exceeding two years or a fine or both.
Provisions supplementary to s. 5.

(1) Provision may be made by regulations . . .  as to the conditions specified in a disposal licence which shall be disregarded for the purposes of sections 3(1) and 31(2)(a) of this Act.

(2) . . . a disposal licence may include such conditions as the appropriate Agency sees fit to specify in the licence; and without prejudice to the generality of the preceding provisions of this subsection, any such conditions may relate to—

(a) the duration of the licence;
(b) the supervision by the holder of the licence of activities to which the licence relates;
(c) the kinds and quantities of waste which may be dealt with in pursuance of the licence or which may be so dealt with during a specified period, the methods of dealing with them and the recording of information relating to them;
(d) the precautions to be taken on any land to which the licence relates;
(e) the steps to be taken with a view to facilitating compliance with any conditions of such planning permission as is mentioned in subsection (2) of the preceding section;
(f) the hours during which waste may be dealt with in pursuance of the licence; and
(g) the works to be carried out, in connection with the land, plant or equipment to which the licence relates, before the activities authorised by the licence are begun or while they are continuing;

and it is hereby declared that a condition may require the carrying out of works or the doing of any other thing which that Agency considers appropriate in connection with the licence notwithstanding that the licence holder is not entitled as of right to carry out the works or do the thing.

(3) The holder of a disposal licence who without reasonable excuse contravenes a condition of the licence which in pursuance of regulations made by virtue of subsection (1) of this section is to be disregarded for the purposes mentioned in that subsection shall be guilty of an offence and liable on summary conviction to a fine not exceeding level 5 on the standard scale; but no proceedings for such an offence shall be brought in England and Wales except by or with the consent of the Director of Public Prosecutions or by the Environment Agency.

(4) It shall be the duty of the Environment Agency and of SEPA—

(a) to maintain a register containing copies of all disposal licences which are for the time being in force in respect of land in England and Wales or, as the case may be, Scotland;

(b) to secure that the register is open to inspection by members of the public free of charge at all reasonable hours; and

(c) to afford members of the public reasonable facilities for obtaining from that Agency, on payment of reasonable charges, copies of entries in the register.

(5) If within the period of two months beginning with the date on which a duly made application for a disposal licence was received, or within such longer period as the appropriate Agency and the applicant may at any time agree in writing, the appropriate Agency has neither issued a licence in consequence of the application nor given notice to the applicant that that Agency has rejected the application, that Agency shall be deemed to have rejected the application.

(6) References to land in the preceding section and this section include such water as is mentioned in section 4(4) of this Act.

(a) relevant territorial waters, that is to say, subject to subsection (5) below, the waters which extend seaward for three miles from the baselines from which the breadth of the territorial sea adjacent to Scotland is measured;

(b) coastal waters, that is to say, any waters which are within the area which extends landward from those baselines as far as the limit of the highest tide or, in the case of the waters of any relevant river or watercourse, as far as the fresh-water limit of the river or watercourse, together with the waters of any enclosed dock which adjoins waters within that area;

(c) inland waters, that is to say, the waters of any relevant loch or pond or of so much of any relevant river or watercourse as is above the fresh-water limit;

(d) ground waters, that is to say, any waters contained in underground strata, or in—

(i) a well, borehole or similar work sunk into underground strata, including any adit or passage constructed in connection with the well, borehole or work for facilitating the collection of water in the well, borehole or work; or

(ii) any excavation into underground strata where the level of water in the excavation depends wholly or mainly on water entering it from the strata.

(2) The Secretary of State—

(a) shall deposit maps with SEPA showing what appear to him to be the fresh-water limits of every relevant river or watercourse . . .

(b) may from time to time, if he considers it appropriate to do so by reason of any change of what appears to him to be the fresh-water limit of any
river or watercourse, deposit a map showing a revised limit for that river or watercourse;

and in subsection (1) above “fresh-water limit”, in relation to any river or watercourse, means the place for the time being shown as the fresh-water limit of that river or watercourse in the latest map deposited for that river or watercourse under this subsection.

(3) It shall be the duty of F127 SEPA to keep any maps deposited with it under subsection (2) above available, at all reasonable times, for inspection by the public free of charge.

(4) In this section—

“miles” means international nautical miles of 1,852 metres;

“loch or pond” includes a reservoir of any description;

“relevant loch or pond” means (subject to subsection (5) below) any loch or pond which (whether it is natural or artificial or above or below ground) discharges into a relevant river or watercourse or into another loch or pond which is itself a relevant loch or pond;

“relevant river or watercourse” means any river or watercourse (including an underground river or watercourse and an artificial river or watercourse) which is neither a public sewer nor a sewer or drain which drains into a public sewer.

(5) The Secretary of State may by order provide—

(a) that any area of the territorial sea adjacent to Scotland is to be treated as if it were an area of relevant territorial waters for the purposes of this Part;

(b) that any loch or pond which does not discharge into a relevant river or watercourse or into a relevant loch or pond is to be treated for those purposes as a relevant loch or pond.

(6) The power of the Secretary of State to make an order under subsection (5) above shall be exercisable by statutory instrument subject to annulment in pursuance of a resolution of either House of Parliament; and such an order may—

(a) contain such supplemental, consequential and transitional provision as the Secretary of State considers appropriate; and

60  Control of noise on construction sites.

(1) This section applies to works of the following description, that is to say—
   (a) the erection, construction, alteration, repair or maintenance of buildings,
       structures or roads;
   (b) breaking up, opening or boring under any road or adjacent land in connection
       with the construction, inspection, maintenance or removal of works;
   (c) demolition or dredging work; and
   (d) (whether or not also comprised in paragraph (a), (b) or (c) above) any work
       of engineering construction.

(2) Where it appears to a local authority that works to which this section applies are being,
   or are going to be, carried out on any premises, the local authority may serve a notice
   imposing requirements as to the way in which the works are to be carried out and may
   if it thinks fit publish notice of the requirements in such way as appears to the local
   authority to be appropriate.

(3) The notice may in particular—
   (a) specify the plant or machinery which is, or is not, to be used;
   (b) specify the hours during which the works may be carried out;
   (c) specify the level of noise which may be emitted from the premises in question
       or at any specified point on those premises or which may be so emitted during
       specified hours; and
   (d) provide for any change of circumstances.

(4) In acting under this section the local authority shall have regard—
61 Prior consent for work on construction sites.

(1) A person who intends to carry out works to which the preceding section applies may apply to the local authority for a consent under this section.
(2) Where approval under building regulations[^182] under Part II of the[^183] Public Health Act 1936[^183], or in Scotland a[^185] building warrant[^187] under[^186] section 9[^186] of the Building (Scotland) Act[^184] 2003[^184] (asp 8)[^184], is required for the carrying out of the works, the application under this section must be made at the same time as, or later than, the request for the approval under building regulations or, as the case may be, the application for a[^185] building warrant[^185] under the said Act of[^186] 2003[^186].

(3) An application under this section shall contain particulars of—

(a) the works, and the method by which they are to be carried out; and

(b) the steps proposed to be taken to minimise noise resulting from the works.

(4) If the local authority considers that the application contains sufficient information for the purpose and that, if the works are carried out in accordance with the application, it would not serve a notice under the preceding section in respect of those works, the local authority shall give its consent to the application.

(5) In acting under this section a local authority shall have regard to the considerations set out in subsection (4) of the preceding section and shall have power to—

(a) Attach any conditions to a consent; and

(b) limit or qualify a consent to allow for any change in circumstances; and

(c) limit the duration of a consent,

and any person who knowingly carries out the works, or permits the works to be carried out, in contravention of any conditions attached to a consent under this section shall be guilty of an offence against this Part of this Act.

(6) The local authority shall inform the applicant of its decision on the application within twenty-eight days from receipt of the application; and if the local authority gives its consent to the application it may if it thinks fit publish notice of the consent, and of the works to which it relates, in such way as appears to the local authority to be appropriate.

(7) If—

(a) the local authority does not give a consent within the said period of twenty-eight days; or

(b) the local authority gives its consent within the said period of twenty-eight days but attaches any condition to the consent or limits or qualifies the consent in any way,

the applicant may appeal to a magistrates’ court within twenty-one days from the end of that period.

(8) In any proceedings for an offence under section 60(8) of this Act it shall be a defence to prove that the alleged contravention amounted to the carrying out of the works in accordance with a consent given under this section.

(9) A consent given under this section shall contain a statement to the effect that the consent does not of itself constitute any ground of defence against any proceedings instituted under[^187] ...[^188] section 82 of the Environmental Protection Act 1990[^188].

(10) Where a consent has been given under this section and the works are carried out by a person other than the applicant for the consent, it shall be the duty of the applicant to take all reasonable steps to bring the consent to the notice of that other person; and if he fails to comply with this subsection he shall be guilty of an offence against this Part of this Act.
