- (2) An order under this section may make such provision as the Secretary of State considers necessary or expedient for the safety or convenience of those using the crossing; and, in particular—
 - (a) may require any such barriers or other protective equipment as may be specified in the order to be provided at or near the crossing, and to be maintained and operated, in accordance with the order; and

- (6) The Secretary of State may not make an order under this section in respect of a level crossing (other than an order revoking a previous order) unless requested to do so by the operator of the crossing.
- (7) A request under subsection (6) above must be accompanied by a draft of the order which the operator desires the Secretary of State to make.
- (8) Before making such a request, the operator must give written notice of his intention to do so to each local authority in whose area the level crossing is situated; and the notice—
- (a) must be accompanied by a copy of the draft order which the operator intends to submit to the Secretary of State; and
 - (b) must specify the period (not being less than two months) within which the local authority may make representations to the Secretary of State in respect of the request.
- (9) The Secretary of State must consider any representations in respect of the request made by such a local authority within the period specified in accordance with subsection (8) (b) above and may then, if he decides to make the order, make it in accordance with the draft submitted to him or with such modifications as he thinks fit.
