 - (a) the taking or killing is necessary—
 - (i) to prevent serious damage to any unenclosed woodland which forms part of that land, or serious damage, whether direct or indirect, to the natural heritage generally; or
 - (ii) in the interests of public safety; and
 - (b) no other means of control which might reasonably be adopted in the circumstances would be adequate.

Control agreements and control schemes

6 Control areas.

In this Act the area to which a control agreement or a control scheme relates is, in relation to that agreement or, as the case may be, scheme, referred to as the “control area”.

7 Control agreements.

- (1) Subject to the following provisions of this section, where the Commission are satisfied that, on any land, deer—
- (a) have caused, are causing, or are likely to cause—
 - (i) damage to woodland, to agricultural production, including any crops or foodstuffs, or, whether directly or indirectly, to the natural heritage generally; or
 - (ii) injury to livestock, whether by serious overgrazing of pastures, competing with any such livestock for supplementary feeding, or otherwise; or
 - (b) have become a danger or a potential danger to public safety, and that for the prevention of further such damage, injury or, as the case may be, danger or potential danger, the deer in that locality should be reduced in number, they shall form a preliminary view, having due regard to the nature and character of the land in question, as to what measures should be taken for that reduction in number; and, for the purposes of this section and section 8 of this Act, “measures” includes the taking and removal of deer.
- (2) For the purposes of subsection (1) above “the natural heritage” includes any alteration or enhancement of the natural heritage which is taking place, or is proposed to take place, either naturally or as a result of a change of use determined by the owner or occupier of the land in question; and “damage” shall be construed accordingly.
- (3) Where it appears to the Commission that the circumstances obtaining in a particular area require the complete exclusion of all deer, or of all deer of any species, from that area, they may form the view that any deer within that area should be taken, removed or killed.
- (4) After they have formed—
- (a) the preliminary view mentioned in subsection (1) above; or
 - (b) the view mentioned in subsection (3) above,
- the Commission shall consult with such owners or occupiers of land as the Commission consider to be substantially interested, to secure agreement—
- (i) that measures require to be taken;
 - (ii) as to what measures require to be taken, and within what time limit;
 - (iii) as to who is to carry out such measures; and

Status: Point in time view as at 18/10/1996.

- (iv) as to any other matters which appear to the Commission to be necessary for the purposes of such an agreement.
- (5) Where agreement is reached on the matters mentioned in subsection (4) above the Commission shall draw up an agreement (a “control agreement”) specifying the parties to it, and any such control agreement may—
- (a) describe the control area by reference to a map and specify the approximate extent of that area;
 - (b) specify the measures which are to be taken in relation to the deer in that area or any part of it;
 - (c) specify, where the deer are to be reduced in number, the number and, if necessary in the opinion of the Commission, the species, sex and class, of the deer to be killed in or taken and removed from the control area or any part of it, and the limit on the number of deer of each species, sex or class to be allowed to be established in the control area or any part of it;
 - (d) specify the measures which are to be taken by the owners or occupiers for the time being of land in the control area or any of them for the purposes of the agreement; and
 - (e) set out the time limits within which the owners or occupiers are to take any such measures,
- and the Commission shall send a copy of the control agreement to all the persons who were involved in the consultation referred to in subsection (4) above.
- (6) The Commission and any of the parties to a control agreement may agree at any time to vary its terms.

8 Control schemes.

- (1) Where the Commission are satisfied—
- (a) that—
 - (i) it is not possible to secure a control agreement; or
 - (ii) that a control agreement is not being carried out;
 and
 - (b) that—
 - (i) deer have caused and are causing serious damage to woodland or to agricultural production, including crops and foodstuffs, or serious damage, whether directly or indirectly, to the natural heritage, or serious injury to livestock, however caused, or have become and remain a danger to public safety; and
 - (ii) action is necessary to prevent such serious damage, serious injury, or danger,
 they shall make a scheme (a “control scheme”) for the carrying out of such measures as they consider necessary for the purposes mentioned in subsection (1) or, as the case may be, subsection (3) of section 7 of this Act.
- (2) Subsection (1) above does not apply in relation to any control agreement proposed or entered into for the purpose of altering or enhancing the natural heritage.
- (3) A control scheme shall—

 - (c) specify, where the deer are to be reduced in number, the number and, if necessary in the opinion of the Commission, the species, sex and class, of the deer to be killed in or taken and removed from the control area or any part of it, and the limit on the number of deer of each species, sex or class to be allowed to be established in the control area or any part of it;
 - (d) specify the measures which are to be taken by the owners or occupiers for the time being of land in the control area or any of them for the purposes of paragraphs (a) to (c) above;
 - (e) prescribe time limits within which the owners or occupiers are to take any such measures as are mentioned in paragraph (d) above;
 - (f) include any incidental, consequential or supplemental provisions that may be necessary.
- (4) A control scheme may specify different measures to be taken by different owners or occupiers of land in the control area, and may provide for the extension of any time limit prescribed therein.
- (5) Nothing in subsection (3) or (4) above shall empower the Commission to impose on any owner or occupier of land a requirement to construct a fence on his land or on any part of it against the movement of deer, and for the purposes of this section “fence” shall include any artificial obstruction.
- (6) A control scheme shall require confirmation by the Secretary of State before it comes into operation; and Schedule 2 to this Act (which makes provision in relation to the making, confirmation, variation and revocation of control schemes) shall have effect.
- (7) Where any control scheme has been confirmed, every owner or occupier shall take such measures as the scheme may require of him in accordance with its provisions.
- (8) Where the Commission are of the opinion that any owner or occupier of land has failed to comply with subsection (7) above, they shall carry out the requirement, if they are satisfied that it is still necessary to do so; and where the carrying out of such a requirement involves the killing or taking of deer, the Commission shall have power to dispose by sale or otherwise of any deer so killed or taken.

9 Recovery of expenses incurred in fulfilment of control scheme.

- (1) Where any expenses incurred by the Commission in the performance of their duty under section 8(8) of this Act exceed the amount of the proceeds of the sale of any deer killed or taken in pursuance of that performance, the excess shall be recoverable by them from the owner or occupier concerned.
- (2) The Commission shall furnish to any owner or occupier concerned a statement showing—
- (a) the expenses incurred in the performance of their duty under the said section 8(8);
 - (b) the amount received in respect of the sale of deer; and
 - (c) the amount recoverable from any owner or occupier under this section.
- (3) Any owner or occupier who is aggrieved by a statement under subsection (2) above may, within one month of the statement having been furnished to him, appeal to the Scottish Land Court.

Status: Point in time view as at 18/10/1996.

Changes to legislation: There are currently no known outstanding effects for the Deer (Scotland) Act 1996. (See end of Document for details)

- (4) On an appeal under subsection (3) above, the Scottish Land Court may, if it appears to them to be equitable to do so, vary the amount recoverable from the appellant.
- (5) Subject to the approval of the Secretary of State, the Commission may, in any particular case, waive their right to any expenses recoverable under this section.

Emergency measures

10 Emergency measures to prevent damage by deer.

- (1) This subsection applies where the Commission are satisfied—
 - (a) that deer—
 - (i) are causing serious damage to woodland or to agricultural production, including any crops or foodstuffs; or
 - (ii) are causing injury to livestock, whether by serious overgrazing of pastures, competing with any such livestock for supplementary feeding, or otherwise; or
 - (iii) constitute a danger or a potential danger to public safety;
 - (b) that none of their other powers is adequate to deal with the situation; and
 - (c) that the killing of the deer is necessary to prevent further such damage or injury or to remove the danger or potential danger.
- (2) Where subsection (1) applies and the Commission are satisfied that—
 - (a) the deer mentioned in that subsection come from particular land; and
 - (b) any person having the right to kill deer on that land will forthwith undertake the killing of the deer so mentioned,
 the Commission shall make a request in writing to that person to that effect.
- (3) Where a request under subsection (2) above has been made to a person, the Commission shall not issue an authorisation under subsection (4) below unless it appears to them that he has become unable or unwilling to comply with the terms of the request.
- (4) Subject to subsection (3) above, where subsection (1) above applies the Commission shall authorise in writing, subject to such conditions as may be specified in the authorisation, any person who in their opinion is competent to do so to follow and kill on such land as may be mentioned in the authorisation such deer as appear to that person to be causing the damage or injury or constituting the danger or potential danger.
- (5) Where, as mentioned in paragraph (a)(iii) of subsection (1) above, deer constitute a danger or potential danger to public safety, and, in the opinion of the Commission or the person authorised by them under subsection (4) above, the killing of the deer would itself constitute a potential danger to public safety, the person so authorised by the Commission shall instead take and remove the deer from the land in question by such means as are appropriate.
- (6) An authorisation under subsection (4) above shall remain in force from the date on which it is issued for such period, not exceeding twenty eight days, as may be specified in the authorisation.

11 Application of section 10 in relation to the natural heritage.

Section 10 of this Act shall apply in relation to the natural heritage as it applies to woodland, where the Commission are satisfied that deer are causing serious damage to the natural heritage—

- (a) on enclosed land; or
- (b) on unenclosed land, but only if the Commission are also satisfied that the damage is being caused by reason of the presence on the land in question of a significantly higher density of deer population than is usual in all the circumstances.
