PART 1

THE CIVIL NUCLEAR INDUSTRY

CHAPTER 1

NUCLEAR DECOMMISSIONING

Establishment of NDA

1 The Nuclear Decommissioning Authority

(1) There shall be a body corporate to be known as the Nuclear Decommissioning Authority (“the NDA”).

(2) The NDA is not to be treated—

(a) except so far as necessary for the purposes of its function under section 7(2), as performing any duty or exercising any power on behalf of the Crown; or

(b) as enjoying any status, immunity or privilege of the Crown;

and the NDA’s property is not to be regarded as property of the Crown, or as held on behalf of the Crown.

Commencement Information

2 Constitution of NDA

(1) The NDA—

(a) shall consist of not fewer than seven and not more than thirteen members; and
(b) shall have a membership comprising both non-executive members and executive members.

(2) The non-executive members shall be—
   (a) a chairman appointed by the Secretary of State; and
   (b) a number of other persons appointed by the Secretary of State (after consultation with the chairman);

and (subject to subsection (1)) it is for the Secretary of State to determine how many non-executive members there are to be in addition to the chairman.

(3) The executive members shall be—
   (a) a person appointed by the non-executive members to be the NDA’s chief executive; and
   (b) the other persons (if any) appointed by them (after consultation with the chief executive) to be executive members in addition to the chief executive;

and it is for the non-executive members to determine (subject to subsection (8)) whether there are to be executive members in addition to the chief executive, and (if so) how many.

(4) The approval of the Secretary of State is required for the appointment of the chief executive.

(5) Before—
   (a) appointing a person to be the chairman or otherwise to be a non-executive member of the NDA, or
   (b) approving the appointment of a person to be the chief executive,

the Secretary of State must consult the Scottish Ministers.

(6) Subsection (5) may be satisfied by consultation that took place wholly or partly before the commencement of this section.

(7) If there are executive members in addition to the chief executive, each must be a member of the staff of the NDA.

(8) Where the Secretary of State so provides by a direction to the NDA, the non-executive members must secure that the number of executive members in addition to the chief executive—
   (a) is not less than the minimum set by the direction; and
   (b) does not exceed the maximum so set;

and the direction must not set a maximum of more than three.

(9) The Secretary of State must exercise his powers under this section to secure, so far as practicable, that the number of executive members is at all times less than the number of non-executive members.

(10) Schedule 1 (which contains further provision about the constitution, staffing and proceedings of the NDA) has effect; and subsections (1) to (9) have effect subject to paragraph 4 of that Schedule.

3 Designated responsibilities

(1) The principal function of the NDA shall be to have responsibility for securing—
   (a) the operation, pending the commencement of their decommissioning, of
data designated nuclear installations;
   (b) the decommissioning of those and other designated nuclear installations;
   (c) the cleaning-up of designated nuclear sites;
   (d) the operation of designated facilities for treating, storing, transporting or
      disposing of hazardous material;
   (e) the treatment, storage, transportation and disposal, in designated
      circumstances, of hazardous material; and
   (f) the decommissioning of designated installations comprised in NDA facilities.

by the performance of its duties under sections 15 and 16.

(3) A designation for the purposes of this section—
   (a) of an installation, site or facility, and
   (b) of the circumstances in which the NDA is to have responsibility for securing
      the treatment, storage, transportation or disposal of matter or waste,

has (subject to section 6) to be in the form of a direction given by the Secretary of
State to the NDA.

(4) A direction must not give the NDA a responsibility mentioned in this section in relation
to an installation, site or facility unless the person with control of it at the time when
the direction is given is—
   (a) a Crown appointee;
   (b) the UKAEA;
   (c) a publicly owned company;
   (d) the NDA itself; or
   (e) a person who has consented to the giving of the direction.

(5) A direction designating an installation, site or facility must specify the paragraph or
paragraphs of subsection (1) for the purposes of which it is being designated.

(6) But, except in so far as the direction containing the designation otherwise provides, the
designation of a principal nuclear site for cleaning-up is to have effect for the purposes
of this Chapter as including a designation, as an installation to be decommissioned, of
every installation situated in or on that site.

(7) The Secretary of State must—
   (a) lay before Parliament a copy of every direction containing a designation;
   (b) publish the contents of every such direction in the manner which, in his
      opinion, is most appropriate for bringing it to the attention of persons likely
      to be affected by it; and
   (c) send a copy of every direction giving the NDA a responsibility in relation to
      an installation, site or facility to the person with control of that installation,
      site or facility.
(8) The Scottish Ministers must lay before the Scottish Parliament a copy of every direction which by virtue of section 6 is given jointly by them and the Secretary of State.

(9) The Secretary of State may exclude—
   (a) from what he lays before Parliament and publishes under this section, and
   (b) from what is to be laid before the Scottish Parliament by the Scottish Ministers,
   anything the publication of which he considers to be against the interests of national security.

4 Additional responsibilities under designating directions

(1) Where the NDA is given a responsibility for securing the operation of an installation or facility, a direction may also give the NDA further responsibilities in relation to the management of the site where that installation or facility is situated.

   (d) facilities of any description situated in or on such other land.

(3) The NDA is not to be given further responsibilities under subsection (1) or (2) except where the Secretary of State considers it appropriate to do so—
   (a) for the purpose of facilitating the carrying out by the NDA of any of its functions; or
   (b) for a purpose otherwise incidental to the carrying out of those functions.

(4) Where a direction gives the NDA a responsibility for securing the treatment, storage, transportation or disposal of matter or waste, it may also give the NDA responsibility for securing the design, construction and operation of a facility for that purpose.

   (a) may specify that the site is to be treated for the purposes of section 18 as a related site; and
   (b) if it does so, must specify the installation, site or facility by reference to which the Secretary of State is satisfied as mentioned in subsection (2)(a).

(2) A direction must not specify that a site is to be treated as a related site unless—
   (a) the Secretary of State is satisfied that it has become contaminated (whether radioactively or chemically) as a result of nuclear activities in or on a particular installation, site or facility;

(3) On the giving by the Secretary of State of a direction specifying that a site is to be treated as a related site, he must send a copy of the direction to every person with control of an installation, site or facility by reference to which it is to be so treated.

(4) For the purposes of this section something is contaminated as a result of nuclear activities in or on a particular installation, site or facility if the contamination (whenever occurring), or any of it, is the direct or indirect result of one or more of the following—

(2) That duty is to be enforceable by the NDA in civil proceedings—
   (a) for an injunction or interdict;
   (b) for specific performance of a statutory duty under section 45 of the Court of Session Act 1988 (c. 36); or
   (c) for any other appropriate remedy or relief.

(3) That duty is subject to the obligation of the NDA to discharge its financial responsibilities under section 21.

(4) A person with control of an installation, site or facility is not to be subject to that duty to the extent that he is relieved of it by the provisions of an agreement—
   (a) between the NDA and that person; or
   (b) between the NDA and a body corporate of which that person is a subsidiary.

(5) The Secretary of State may by order provide, in the case of an installation, site or facility the person with control of which is a Crown appointee, that the Crown appointee is not to be subject, to the extent specified in the order, to the duty to comply with directions under section 18.

(6) An order for the purposes of subsection (5) is subject to the negative resolution procedure.

21  Financial responsibilities of NDA

(1) The NDA’s responsibility for securing—
   (a) the decommissioning or operation of an installation or facility to which this section applies, or
   (b) the cleaning-up of a site to which this section applies, or of a related site, includes the financial responsibility for the decommissioning or operation of the installation or facility, or for the cleaning-up.

   that other person is not to be, or to be capable of becoming, liable to meet any of the
   costs of doing the things that are required to be secured by the NDA in the discharge
   of its responsibilities in relation to that installation, site or facility.

(4) Accordingly, where the NDA has the financial responsibility in the case of an
installation, site or facility—
   (a) it must not impose charges on the person with control of the installation, site

   or otherwise met by the NDA,

   is to be construed as restricting the extent to which the person with control of the
   installation, site or facility may be or become subject, in relation to a person other than
   the NDA, to the liability or obligation in respect of which the costs arise.

(6) It shall be the duty of the NDA for the purpose of discharging its financial
responsibilities to make all such arrangements as it thinks fit for securing that the
person with control of the installation, site or facility is able to meet, as they become
due, all his liabilities to persons other than the NDA in respect of matters for which
the NDA has financial responsibility or that those liabilities are otherwise discharged.

(7) It shall also be the duty of the NDA to make all such arrangements as it thinks fit
for securing that amounts paid under this section to that person include such sums (if
any) as the NDA considers it appropriate to pay by way of incentives to that person
to discharge his duty to comply with directions under section 18 in the manner that
the NDA thinks most effective.

(8) The NDA is to be taken to have discharged its responsibility for meeting costs under
this section if it is satisfied that those costs—
   (a) have been met by another person directly or indirectly out of money provided
   by Parliament; or
   (b) are to be so met.
(9) The preceding provisions of this section have effect in relation to an installation, site or facility subject to the terms of—
   (a) any agreement between the NDA and the person with control of the installation, site or facility; or
   (b) any agreement between the NDA and a body corporate of which that person is a subsidiary.

(10) The NDA’s financial responsibilities under this section are in addition to its financial responsibilities apart from this section.

(11) In this section “related site” has the same meaning as in section 18.

(5) In determining—
   (a) whether to make a grant under this section to the NDA, and
   (b) the amount of such a grant,
the Secretary of State must have regard, in particular, to the extent to which he considers that the NDA should exercise its power to make grants or loans of the kind mentioned in section 10(2)(c) in order to mitigate the effects of the cessation (whether before or after designation) of the operation of a designated installation.

(b) in the case of a partial transfer, the transferor had applied for the grant (in place of his existing authorisation) of the authorisation he would hold in those circumstances.

(6) The authorising authority may proceed with the application without—

(a) sending a copy of the application to a local authority mentioned in subsection (4), or

(b) consulting an authority or body mentioned in section 16(5) about the proposed transfer,

if it appears to the authorising authority that arrangements for the disposal of radioactive waste are unlikely to be changed, as a result of the transfer, in a way that would be of interest to that authority or body.

(7) The authorising authority may grant the application if, and only if, it is satisfied—

(a) that the transferee has or will have operational control over the disposals to which the transferred authorisation will relate;

(b) that he is able and willing to ensure compliance with the limitations and conditions of the authorisation that he will hold if the application is granted; and

(c) that no other grounds exist on which it would be reasonable to refuse to grant the application.

(8) Where the authorising authority grants the application, it must—

(a) fix the date from which the transfer applied for is to have effect;

(b) furnish the transferee with a certificate containing all material particulars of the authorisation he holds as a result of the transfer;

(c) in the case of a partial transfer, furnish the transferor with a similar certificate as respects the authorisation he holds as a result of the transfer; and
(d) subject to directions under section 25, send a copy of the certificate furnished to the transferee, and of any certificate furnished to the transferor—

(i) to every local authority in whose area radioactive waste may be disposed of under the authorisation to which the certificate relates; and

(ii) to every person consulted about the transfer under so much of subsection (5) as requires consultation in accordance with section 16(5).

(9) The time fixed as the time from which the transfer is to have effect must be not less than twenty-eight days after the day (if any) on which the authorising authority, when it fixes that time, expects copies of the certificates mentioned in paragraph (d) of subsection (8) to be sent out in accordance with that paragraph.

(10) Subsection (9) does not apply if, in the opinion of the authorising authority, it is necessary for the transfer to have immediate effect or otherwise to be expedited.

(11) In this section “authorising authority”—

(a) in relation to an authorisation having effect in Great Britain, means the appropriate Agency; and

(b) in relation to an authorisation having effect in Northern Ireland, means the chief inspector.”

(10) Expressions used in this section and in Part 1 of the 1989 Act have the same meanings in this section as in that Part.
91 Extension of transmission licences offshore

(1) This section applies where, at the commencement of this section, a transmission licence is in force that authorises a person to co-ordinate and direct the flow of electricity onto and over a transmission system by means of which electricity is transmitted within Great Britain, or within an area of Great Britain (the “co-ordination licence”).

(2) The Secretary of State may make such modifications of the co-ordination licence as he considers appropriate for the purpose of applying the authorisation and conditions of the licence in relation to the transmission of electricity within one or both of the following—
   (a) an area of the territorial sea adjacent to Great Britain; and
   (b) an area designated under section 1(7) of the Continental Shelf Act 1964.

(3) The modifications that may be made by the Secretary of State under subsection (2) include such modifications of the co-ordination licence (including modifications of the conditions included in it) as the Secretary of State considers appropriate for incidental, consequential or transitional purposes.

(4) Where the Secretary of State considers it appropriate to do so for purposes that in relation to modifications made under subsection (2) are incidental or consequential purposes, he may make—
   (a) modifications of the conditions of a particular licence (other than the co-ordination licence);
   (b) modifications of the standard conditions of licences of any type.

(5) Before making a modification under this section, the Secretary of State must consult—
   (a) the holder of any licence being modified; and
   (b) such other persons as he considers appropriate.

(6) Subsection (5) may be satisfied by consultation that took place wholly or partly before the passing of the Energy Act 2011.

(7) The Secretary of State must publish every modification made by him under this section.

(8) The publication must be in such manner as the Secretary of State considers appropriate.

(9) A modification under subsection (2) or (4)(a) of part of a standard condition of a licence does not prevent any other part of the condition from continuing to be regarded as a standard condition for the purposes of Part 1 of the 1989 Act.

(10) Where the Secretary of State makes modifications under subsection (4)(b) of the standard conditions of licences of any type, GEMA must—
(a) make (as nearly as may be) the same modifications of those standard conditions for the purposes of their incorporation in licences of that type granted after that time; and

(b) publish the modifications in such manner as it considers appropriate.

(11) The Secretary of State’s powers under this section are exercisable only during the eighteen months beginning with [F74 the passing of the Energy Act 2011].

(12) Expressions used in this section and in Part 1 of the 1989 Act have the same meanings in this section as in that Part.

(2) That provision may include—

(a) provision, in prescribed cases, for the publication of a proposal to grant an offshore transmission licence;

(4) The approval of the Secretary of State is required for the making of regulations under this section.

(5) In this section—

(b) waters within an area designated under section 1(7) of the Continental Shelf Act 1964.”

93 **Consents for generating stations offshore**

(1) In section 36(1) of the 1989 Act (consent required for construction etc. of generating stations), after “constructed” insert “ at a relevant place (within the meaning of section 4), and a generating station at such a place shall not be ”.

(2) Before paragraph 8 of Schedule 8 to that Act (procedure for consents under sections 36 and 37) insert—

7A (1) This paragraph applies to every case where an application for a consent under section 36 of this Act relates to—
(a) the construction or operation of a generating station the whole or a part of which is to be, or is, at a place that is not within the area of a relevant planning authority; or
(b) the extension of a generating station at or to a place the whole or a part of which is not within such an area.

(2) This Schedule shall have effect in relation to cases to which this paragraph applies with the following modifications.

(3) In paragraph 1(1), for the words from “land to which” onwards substitute “ place to which the application relates, that is, the place where it is proposed to construct the generating station, where the proposed extension will be or where the station proposed to be operated is situated. ”

(4) Paragraph 2 does not apply where no part of the place to which the application relates is within the area of a relevant planning authority.

(5) In paragraph 4—
(a) in sub-paragraph (1)—

(c) in sub-paragraph (3), for “in the locality” substitute “who are likely to be affected by the consent applied for if it is given”.

(6) Paragraph 5 does not apply; but sub-paragraphs (7) to (10) apply where—

(a) a public inquiry is to be held in accordance with paragraph 2(2) or 3(2); and

(b) the application for consent relates to a place a part of which is in the area of one or more relevant planning authorities.

(7) Except in so far as the Secretary of State otherwise directs, an inquiry held in accordance with paragraph 2(2) must be confined to so much of the application as relates to land within the area of the authority by whom an objection has been made.

(8) The Secretary of State must have regard to objections made otherwise than by the authority in question in determining whether to give a direction under sub-paragraph (7) and in determining (where he gives one) what direction to give.

(9) The Secretary of State may direct that separate inquiries may be held in relation to any or each of the following—

(a) so much of the application as relates to land within the area of a particular relevant planning authority;

(b) so much of the application as relates to anywhere that is not within the area of a relevant planning authority.

(10) For the purposes of sub-paragraph (7) a planning authority that has made an objection is to be treated as not having done so if the Secretary of State proposes to accede to the application subject to such modifications or conditions as meet that objection.”

(3) In section 36(9) of that Act (definition of extension), after “land” insert “or area of waters”.

(4) The functions conferred by virtue of this section on the Secretary of State are not to be exercisable by the Scottish Ministers, except in pursuance of an Order in Council made after the passing of this Act under section 63 of the Scotland Act 1998 (c. 46).
“(1A) Regulations under this section may include provision for securing the purposes mentioned in subsection (1) in relation to the territorial sea adjacent to Great Britain or any Renewable Energy Zone.”

36B Duties in relation to navigation

(1) Neither the Secretary of State nor the Scottish Ministers may grant a consent in relation to any particular offshore generating activities if he considers, or (as the case may be) they consider, that interference with the use of recognised sea lanes essential to international navigation—
   (a) is likely to be caused by the carrying on of those activities; or
   (b) is likely to result from their having been carried on.

(2) It shall be the duty both of the Secretary of State and of the Scottish Ministers, in determining—
   (a) whether to give a consent for any particular offshore generating activities, and
   (b) what conditions to include in such a consent,

   to have regard to the extent and nature of any obstruction of or danger to navigation which (without amounting to interference with the use of such sea lanes) is likely to be caused by the carrying on of the activities, or is likely to result from their having been carried on.

(3) In determining for the purposes of this section what interference, obstruction or danger is likely and its extent and nature, the Secretary of State or (as the case may be) the Scottish Ministers must have regard to the likely overall effect (both while being carried on and subsequently) of—
   (a) the activities in question; and
   (b) such other offshore generating activities as are either already the subject of consents or are activities in respect of which it appears likely that consents will be granted.

(4) For the purposes of this section the effects of offshore generating activities include—
   (a) how, in relation to those activities, the Secretary of State and the Scottish Ministers have exercised or will exercise their powers under section 36A above and section 100 of the Energy Act 2004 (extinguishment of public rights of navigation); and
   (b) how, in relation to those activities, the Secretary of State has exercised or will exercise his powers under sections 95 and 96 and Chapter 3 of Part 2 of that Act (safety zones and decommissioning).

(5) If the person who has granted a consent in relation to any offshore generating activities thinks it appropriate to do so in the interests of the safety of navigation, he may at any time vary conditions of the consent so as to modify in relation to any of the following matters the obligations imposed by those conditions—
   (a) the provision of aids to navigation (including, in particular, lights and signals);
   (b) the stationing of guard ships in the vicinity of the place where the activities are being or are to be carried on; or
   (c) the taking of other measures for the purposes of, or in connection with, the control of the movement of vessels in that vicinity.
(6) A modification in exercise of the power under subsection (5) must be set out in a notice given by the person who granted the consent to the person whose obligations are modified.

(7) In this section—

“consent” means a consent under section 36 above;

“offshore generating activities” means—

(a) the construction or operation of a generating station that is to comprise or comprises (in whole or in part) renewable energy installations; or

(b) an extension of a generating station that is to comprise (in whole or in part) renewable energy installations or an extension of such an installation;

(a) anything that constitutes the use of such a sea lane for the purposes of Article 60(7) of the United Nations Convention on the Law of the Sea 1982 (Cmnd 8941); or

(b) any use of waters in the territorial sea adjacent to Great Britain that would fall within paragraph (a) if the waters were in a Renewable Energy Zone.

(8) In subsection (7) “extension”, in relation to a renewable energy installation, has the same meaning as in Chapter 2 of Part 2 of the Energy Act 2004.”

(2) In paragraph 8 of Schedule 8 to that Act (supplementary provisions relating to applications under section 36 of that Act), after sub-paragraph (2) insert—

“(3) Where an application for a declaration under section 36A of this Act is made with an application for a consent under section 36 of this Act, the application for the declaration shall be treated for the purposes of this Schedule as part of the application for the consent.”

(3) In section 3D of that Act (principal objective and general duties not to apply to Secretary of State’s functions under section 36 or 37), for “section 36 or 37” substitute “ sections 36 to 37 ”.

“(ga) subject to subsection (3) of this section, any operations comprised in offshore generating activities carried out in accordance with a consent under section 36 of the Electricity Act 1989 granted after the commencement of section 99 of the Energy Act 2004;[890]

(5) After subsection (2) of that section insert—

(1) The [F98appropriate Minister] may not give a notice under section 105(2)(b) to a body corporate associated with a person (“the responsible person”) within section 105(1) (a), (b) or (c) unless the [F98appropriate Minister]—
(a) has given a notice to the responsible person under section 105(2)(a), and
(b) is not satisfied that adequate arrangements (including financial arrangements) have been made by the responsible person to ensure that a satisfactory decommissioning programme will be carried out.

(2) Subsection (1) does not apply if—

(7) In any case, A controls B if A has the power, directly or indirectly, to secure that the affairs of B are conducted in accordance with A’s wishes.

(8) In determining whether, by virtue of subsections (4) to (7), A controls B, A is to be taken to possess—

(9) The objective of an energy administration (in addition to the objective mentioned in subsection (1)) is to secure—

(a) that those functions are and continue to be carried out in an efficient and effective manner; and
(b) that it becomes unnecessary, by one or both of the means mentioned in subsection (2), for the energy administration order to remain in force for that purpose.

(10) The duty under section 154(3), so far as it relates to the objective mentioned in subsection (9)—

(a) applies only to the extent that securing that objective is not inconsistent with securing the objective mentioned in subsection (1);

(2) The court may make an energy administration order in relation to a company only if it is satisfied—

(a) that the company is unable to pay its debts;
(b) that it is likely to be unable to pay its debts; or
(c) that, on a petition by the Secretary of State under section 124A of the 1986 Act (petition for winding up on grounds of public interest), it would be just and equitable (disregarding the objective of the energy administration) to wind up the company in the public interest.

(3) The court must not make an energy administration order in relation to a company on the ground set out in subsection (2)(c) unless the Secretary of State has certified to the court that the case is one in which he considers (disregarding the objective of the energy administration) that it would be appropriate for him to petition under section 124A of the 1986 Act.

(a) publish a report dealing, as regards both the short term and the long term, with the availability of electricity and gas for meeting the reasonable demands of consumers in Great Britain; and

(b) lay that report before Parliament.
(2) The report must include, in particular, overall assessments, as regards both the short term and the long term, of each of the following—
   (a) generating capacity in Great Britain and its offshore waters so far as it will be utilised for generating electricity for introduction into transmission systems in Great Britain;
   (b) the availability of capacity in those systems and in distribution systems in Great Britain for transmitting and distributing electricity for supply to consumers in Great Britain;
   (c) the availability of capacity in infrastructure in Great Britain for use in connection with the introduction of gas into licensed pipe-line systems in Great Britain; and
   (d) the availability of capacity in those systems for conveying gas to consumers in Great Britain.

(2A) In 2012 and in every subsequent calendar year the report must also include, in particular, as regards each of the assessment periods, an assessment by the Secretary of State of what electricity supply capacity is required.

(2B) For the purposes of subsection (2A) the electricity supply capacity required is the capacity required for the purpose of meeting the demands of consumers for the supply of electricity in Great Britain, including spare capacity to allow for unexpected demands or unexpected loss of capacity.

(2C) The assessment periods, in relation to a report under subsection (1), are—
   (a) each of the four calendar years immediately following the year of the report; or
   (b) any other periods that the Secretary of State specifies by order.

   (a) the generation of electricity;
   (b) the operation of electricity interconnectors;
   (c) the storage of electricity;
   (d) the extent to which the available capacity of a generating station is likely to be lower than its maximum possible capacity due to routine maintenance, weather conditions or any other expected limitation on its operation;
   (e) demand side response.

(3) The report, other than the assessment by virtue of subsection (2A), must be prepared jointly by the Secretary of State and GEMA.

(3A) An order under this section is subject to the negative resolution procedure.

Determination of appeals

(1) This section applies to every appeal brought under section 173 of this Act.

(2) In determining the appeal the [F172CMA] must have regard, to the same extent as is required of GEMA, to the matters to which GEMA must have regard—

   (b) in the performance of its duties under those sections; and
   (c) in the performance of its duties under sections 4AB and 4A of that Act of 1986 and sections 3B and 3C of the 1989 Act (environmental and health and safety considerations).

(3) In determining the appeal the [F172CMA]—
   (a) may have regard to any matter to which GEMA was not able to have regard in the case of the decision appealed against; but
   (b) must not, in the exercise of that power, have regard to any matter to which GEMA would not have been entitled to have regard in that case had it had the opportunity of doing so.

(4) The [F172CMA] may allow the appeal only if it is satisfied that the decision appealed against was wrong on one or more of the following grounds—
   (a) that GEMA failed properly to have regard to the matters mentioned in subsection (2);
   (b) that GEMA failed properly to have regard to the purposes for which the relevant condition has effect;
   (c) that GEMA failed to give the appropriate weight to one or more of those matters or purposes;
   (d) that the decision was based, wholly or partly, on an error of fact;
   (e) that the decision was wrong in law.

(5) Where the [F172CMA] does not allow the appeal, it must confirm the decision appealed against.

   (a) quash the decision appealed against;
(b) remit the matter to GEMA for reconsideration and determination in accordance with the directions given by the [F172CMA];
(c) where it quashes the refusal of a consent, give directions to GEMA, and to such other persons as it considers appropriate, for securing that the relevant condition has effect as if the consent had been given.

(7) A person shall not be directed under subsection (6) to do anything that he would not have power to do apart from the direction.

(8) A person to whom a direction is given under subsection (6) must comply with it; and such a direction given to a person other than GEMA shall be enforceable as if it were an order of the High Court or (in Scotland) of the Court of Session.

(9) The decision of the [F173CMA] on the appeal—
(a) must be contained in an order made by [F174the CMA];
(b) must set out the reasons for the decision;
(c) takes effect at the time specified in the order or determined in accordance with provision set out in that order;
(d) must be notified by [F174the CMA] to the persons who (within the meaning of Schedule 22) were parties to the appeal; and

(10) The [F175CMA] may exclude from what it publishes under subsection (9)(e) any information which it is satisfied is—
(a) commercial information the disclosure of which would, or might, significantly harm the legitimate business interests of an undertaking to which it relates;
(b) information relating to the private affairs of an individual the disclosure of which would, or might, in its opinion, significantly harm his interests.

Part 1 of the 1989 Act shall have effect as if every requirement or other duty imposed on a licence holder under this section were a relevant requirement within the meaning of that Part (see section 25(8) of that Act).

In this section—

“authorised distributor” and “authorised supplier” have the same meanings as in Part 1 of the 1989 Act;

“authorised transmitter” means a person authorised by a licence under section 6(1)(b) of that Act to participate in the transmission of electricity;

Adjustment of transmission charges

The Secretary of State may make an order under this section if it appears to him—

(a) that a particular area in Great Britain is suitable as a location for the generation of electricity from renewable sources;

(b) that, as a result, that area represents an area of high potential for the development of the generation of electricity from such sources; and

(c) that that development is likely to be deterred, or otherwise hindered in a material respect, by the level of charges that would (apart from the order) be imposed by authorised transmitters on persons generating electricity in that area from renewable sources.

An order under this section is one that establishes a scheme which—

(a) limits the amounts of charges that authorised transmitters may impose on persons so generating electricity in that area to amounts determined in accordance with provision contained in the scheme; and

(b) requires the charges imposed by the authorised transmitters on authorised suppliers to be adjusted in accordance with the scheme for the purpose of making good shortfalls resulting from that limitation.
(3) An order under this section establishing a scheme in relation to the generation of electricity from renewable sources in a particular area must specify the area.

(3A) If subsection (1) is satisfied in the case of two or more separate areas in Great Britain, an order under this section may relate to both, or all, of those areas.

(3B) This section has effect in relation to an order which, by virtue of subsection (3A), relates to two or more areas as if references in subsections (2), (3) and (10) to the area to which the scheme established by the order relates (however expressed) were references to the combined area.

(4) For the purpose of facilitating the implementation of a scheme an order under this section may make such modifications as the Secretary of State considers appropriate of the conditions of the licences of authorised transmitters and of authorised suppliers.

(5) For the purpose of carrying out the functions conferred on him by or under this section the Secretary of State may require—
   (a) an authorised supplier,
   (b) an authorised distributor, or
   (c) an authorised transmitter,
   to supply him, in a specified form and within a specified time, with information of a specified description.

(6) No person may be required under subsection (5) to supply information he could not be compelled to give in evidence in civil proceedings in the High Court or the Court of Session.

(7) Before making an order under this section the Secretary of State must—
   (a) publish a draft of any scheme proposed to be established by the order;
   (b) publish an assessment of the costs likely to be incurred by different persons in consequence of the order; and
   (c) consult authorised suppliers and such other persons likely to be affected by the order as he considers appropriate.

(8) An assessment published under subsection (7)(b) must set out, in particular, the Secretary of State’s assessment of the likely effect of the order on charges for electricity in Great Britain.

(9) Subsection (7) may be satisfied by publications and consultation taking place wholly or partly before the commencement of this section.

(10) Where a scheme in relation to the generation of electricity from renewable sources within a particular area is in force, no scheme shall be established in relation to the generation of electricity from renewable sources outside that area.

(11) A scheme shall not be applied in relation to a time [later than 4 October 2034].

(12) A scheme—
   (a) shall not be applied for a period of more than five years; but
   (b) subject to subsection (11), may be renewed at any time by a further order under this section for a period of no more than five years from the coming into force of the further order.
(13) Part 1 of the 1989 Act shall have effect as if every requirement or other duty imposed on a licence holder under this section were a relevant requirement within the meaning of that Part (see section 25(8) of that Act).

(14) In this section—

“authorised distributor” and “authorised supplier” have the same meanings as in Part 1 of the 1989 Act;

“authorised transmitter” means a person authorised by a licence under section 6(1)(b) of that Act to participate in the transmission of electricity;

“licence” means a licence for the purposes of section 4 of that Act;

“licence holder” has the same meaning as in Part 1 of that Act;

“renewable sources” means sources of energy in relation to which the following condition is satisfied, namely, that the production of renewables obligation certificates (within the meaning of section 32B of that Act) in respect of electricity generated from those sources is capable of satisfying a renewables obligation imposed by a renewables obligation order (within the meaning of section 32 of that Act);

“scheme” means a scheme established by an order under this section.

(15) The power to make an order containing provision authorised by this section is subject to the affirmative resolution procedure.
