[Distributions by insurance companies authorised under the Solvency 2 Directive]

(1) This section applies in relation to any authorised insurance company carrying on long-term business that is authorised in accordance with Article 14 of the Solvency 2 Directive.

(2) For the purposes of section 830(2), the realised profit or loss of the company for the period in respect of which its relevant accounts (within the meaning of section 836) are prepared is taken to be the amount given by the formula in subsection (4) (with a positive figure taken to be a realised profit and a negative figure taken to be a realised loss).

(3) But the company’s profits available for distribution are limited to an amount that does not exceed its accumulated profits (whether realised or not), so far as not previously
utilised by distribution or capitalisation, less its accumulated losses (whether realised or not), so far as not previously written off in a reduction or reorganisation of capital duly made.

(4) The formula is

\[ A - L - D \]

, where—

“A” is the total value of the company’s assets;

“L” is the total value of the company’s liabilities; and

“D” is the total value of the items within subsection (5) relating to the company;

and, in each case, the value is to be determined as at the date of the company’s balance sheet that forms part of the accounts mentioned in subsection (2).

(5) The items within this subsection are—

(a) if the value of shares held by the company in a qualifying investment subsidiary exceeds the value of the consideration given by it for their acquisition, the amount of that excess;

(b) any asset of the company representing a surplus in a defined benefit pension scheme;

(c) if the value of the assets held by the company in a ring-fenced fund exceeds the value of the liabilities incurred by the company in respect of that fund, the amount of that excess;

(d) the amount of any liability of the company in respect of deferred tax shown in the company’s balance sheet that relates to any asset within paragraph (a), (b) or (c);

(e) if—

(i) the company has permission under regulation 42 of the Solvency 2 Regulations 2015 to apply a matching adjustment to a relevant risk-free interest rate term structure to calculate the best estimate of a portfolio of the company’s life insurance or reinsurance obligations, and

(ii) the value of the portfolio of the company’s assets assigned by the company to cover the best estimate exceeds the value of the portfolio of the company’s life insurance or reinsurance obligations,

the amount of that excess; and

(f) the following capital items of the company—

(i) paid-in ordinary share capital together with any related share premium account;

(ii) paid-in preference shares which are not liabilities of the company together with any related share premium account;

(iii) capital redemption reserve; and

(iv) any other reserve that the company is prohibited from distributing (ignoring this Part for this purpose).

(6) So far as anything falls within more than one of the above paragraphs of subsection (5), its value is to be taken into account only once.

(7) The company’s assets and liabilities must be valued in accordance with—
(a) rules made by the Prudential Regulation Authority under Part 9A of the Financial Services and Markets Act 2000 implementing Articles 75 to 85, and 308b to 308e, of the Solvency 2 Directive; and
(b) Articles 7 to 61 of Commission Delegated Regulation (EU) 2015/35 supplementing that directive.

(8) If the company carries on both long-term business and other insurance business—
(a) this section is to be applied on the assumption that the company carries on only the long-term business; and
(b) the remainder of this Part is to be applied on the assumption that the company carries on only that other insurance business;
and, in applying paragraph (a) or (b), such apportionments of amounts referable to the long-term business or other insurance business are to be made as are just and reasonable.

(9) In this section—
“best estimate”, “paid-in ordinary share capital”, “paid-in preference shares”, “relevant risk-free interest rate term structure” and “ring-fenced fund” have the same meaning as in the Solvency 2 Directive and any directly applicable regulations made under it;
“defined benefit pension scheme” means a pension scheme (as defined by section 1(5) of the Pension Schemes Act 1993) which is a defined benefits scheme within the meaning given by section 2 of the Pension Schemes Act 2015;
“long-term business” means business that consists of effecting or carrying out contracts of long-term insurance (and this definition must be read with section 22 of the Financial Services and Markets Act 2000, any relevant order under that section and Schedule 2 to that Act);
“qualifying investment subsidiary” means an undertaking in which the company holds a participation within the meaning given by Article 13(20) of the Solvency 2 Directive and which is not held by the company as part of its portfolio of investments;
835  Power to extend provisions relating to investment companies

836  Justification of distribution by reference to relevant accounts

(1) Whether a distribution may be made by a company without contravening this Part is determined by reference to the following items as stated in the relevant accounts—

(a) profits, losses, assets and liabilities;

(b) provisions of the following kinds—

(i) where the relevant accounts are Companies Act accounts, provisions of a kind specified for the purposes of this subsection by regulations under section 396;

(ii) where the relevant accounts are IAS accounts, provisions of any kind;

(c) share capital and reserves (including undistributable reserves).

(2) The relevant accounts are the company's last annual accounts, except that—

(a) where the distribution would be found to contravene this Part by reference to the company's last annual accounts, it may be justified by reference to interim accounts, and

(b) where the distribution is proposed to be declared during the company's first accounting reference period, or before any accounts have been circulated in respect of that period, it may be justified by reference to initial accounts.

(3) The requirements of—

section 837 (as regards the company's last annual accounts),

section 838 (as regards interim accounts), and

section 839 (as regards initial accounts),

must be complied with, as and where applicable.

(4) If any applicable requirement of those sections is not complied with, the accounts may not be relied on for the purposes of this Part and the distribution is accordingly treated as contravening this Part.
Requirements applicable in relation to relevant accounts

837 Requirements where last annual accounts used

(1) The company's last annual accounts means the company's individual accounts—
   (a) that were last circulated to members in accordance with section 423 (duty to
circulate copies of annual accounts and reports), or
   (b) ........................................................

(2) The accounts must have been properly prepared in accordance with this Act, or have
been so prepared subject only to matters that are not material for determining (by
reference to the items mentioned in section 836(1)) whether the distribution would
contravene this Part.

(3) Unless the company is exempt from audit and the directors take advantage of that
exemption, the auditor must have made his report on the accounts.

(4) If that report was qualified—
   (a) the auditor must have stated in writing (either at the time of his report or
subsequently) whether in his opinion the matters in respect of which his
report is qualified are material for determining whether a distribution would
contravene this Part, and
   (b) a copy of that statement must—
      (i) in the case of a private company, have been circulated to members in
accordance with section 423, or
      (ii) in the case of a public company, have been laid before the company
in general meeting.

(5) An auditor's statement is sufficient for the purposes of a distribution if it relates to
distributions of a description that includes the distribution in question, even if at the
time of the statement it had not been proposed.

840 Successive distributions etc by reference to the same accounts

(b) relevant financial assistance has been given, or other relevant payments have been made, since those accounts were prepared,

the provisions of this Part apply as if the amount of the proposed distribution was increased by the amount of the previous distributions, financial assistance and other payments.

(2) The financial assistance and other payments that are relevant for this purpose are—

(a) financial assistance lawfully given by the company out of its distributable profits;

(b) financial assistance given by the company in contravention of section 678 or 679 (prohibited financial assistance) in a case where the giving of that assistance reduces the company's net assets or increases its net liabilities;

CHAPTER 3
SUPPLEMENTARY PROVISIONS

Accounting matters

841 Realised losses and profits and revaluation of fixed assets

(1) The following provisions have effect for the purposes of this Part.

(2) The following are treated as realised losses—

(a) in the case of Companies Act accounts, provisions of a kind specified for the purposes of this paragraph by regulations under section 396 (except revaluation provisions);
(b) in the case of IAS accounts, provisions of any kind (except revaluation provisions).

(3) A “revaluation provision” means a provision in respect of a diminution in value of a fixed asset appearing on a revaluation of all the fixed assets of the company, or of all of its fixed assets other than goodwill.

(4) For the purpose of subsections (2) and (3) any consideration by the directors of the value at a particular time of a fixed asset is treated as a revaluation provided—

(a) the directors are satisfied that the aggregate value at that time of the fixed assets of the company that have not actually been revalued is not less than the aggregate amount at which they are then stated in the company’s accounts, and
(b) it is stated in a note to the accounts—

(i) that the directors have considered the value of some or all of the fixed assets of the company without actually revaluing them,
(ii) that they are satisfied that the aggregate value of those assets at the time of their consideration was not less than the aggregate amount at which they were then stated in the company's accounts, and

(iii) that accordingly, by virtue of this subsection, amounts are stated in the accounts on the basis that a revaluation of fixed assets of the company is treated as having taken place at that time.

(5) Where—

(a) on the revaluation of a fixed asset, an unrealised profit is shown to have been made, and

(b) on or after the revaluation, a sum is written off or retained for depreciation of that asset over a period,

an amount equal to the amount by which that sum exceeds the sum which would have been so written off or retained for the depreciation of that asset over that period, if that profit had not been made, is treated as a realised profit made over that period.

---

**842 Determination of profit or loss in respect of asset where records incomplete**

In determining for the purposes of this Part whether a company has made a profit or loss in respect of an asset where—

(a) there is no record of the original cost of the asset, or

(b) a record cannot be obtained without unreasonable expense or delay,

its cost is taken to be the value ascribed to it in the earliest available record of its value made on or after its acquisition by the company.

---

**843 Realised profits and losses of long-term insurance business**

The provisions of this section have effect for the purposes of this Part as it applies in relation to an authorised insurance company carrying on long-term business, other than—

(a) a person to whom section 833A applies; or

(b) an insurance special purpose vehicle.

(2) An amount included in the relevant part of the company's balance sheet that—

(a) represents a surplus in the fund or funds maintained by it in respect of its long-term business, and
(b) has not been allocated to policy holders or, as the case may be, carried forward unappropriated in accordance with asset identification rules made under section 142(2) of the Financial Services and Markets Act 2000 (c. 8), is treated as a realised profit.

(3) For the purposes of subsection (2)—
   (a) the relevant part of the balance sheet is that part of the balance sheet that represents accumulated profit or loss;
   (b) a surplus in the fund or funds maintained by the company in respect of its long-term business means an excess of the assets representing that fund or those funds over the liabilities of the company attributable to its long-term business, as shown by an actuarial investigation.

(4) A deficit in the fund or funds maintained by the company in respect of its long-term business is treated as a realised loss.

For this purpose a deficit in any such fund or funds means an excess of the liabilities of the company attributable to its long-term business over the assets representing that fund or those funds, as shown by an actuarial investigation.

(5) Subject to subsections (2) and (4), any profit or loss arising in the company's long-term business is to be left out of account.

(6) For the purposes of this section an “actuarial investigation” means an investigation made into the financial condition of an authorised insurance company in respect of its long-term business—
   (a) carried out once in every period of twelve months in accordance with rules made under Part 10 of the Financial Services and Markets Act 2000, or
   (b) carried out in accordance with a requirement imposed under section 166 of that Act,
by an actuary appointed as actuary to the company.

(7) In this section “long-term business” means business that consists of effecting or carrying out contracts of long-term insurance.

This definition must be read with section 22 of the Financial Services and Markets Act 2000, any relevant order under that section and Schedule 2 to that Act.

(F20) In this section “insurance special purpose vehicle” means a special purpose vehicle within the meaning of [F21 Article 13(26) of Directive 2009/138/EC of the European Parliament and of the Council of 25 November 2009 on the taking-up and pursuit of the business of Insurance and Reinsurance (Solvency II)] .]

F20 S. 843(8) inserted (10.12.2007) by The Reinsurance Directive Regulations 2007 (S.I. 2007/3253), reg. 2(3), Sch. 3 para. 2(1)(b)

F21 Words in s. 843(8) substituted (1.1.2016) by The Solvency 2 Regulations 2015 (S.I. 2015/575), reg. 1(2), Sch. 1 para. 25
844 Treatment of development costs

(1) Where development costs are shown or included as an asset in a company's accounts, any amount shown or included in respect of those costs is treated—
(a) for the purposes of section 830 (distributions to be made out of profits available for the purpose) as a realised loss, and
(b) for the purposes of section 832 (distributions by investment companies out of accumulated revenue profits) as a realised revenue loss.

This is subject to the following exceptions.

(2) Subsection (1) does not apply to any part of that amount representing an unrealised profit made on revaluation of those costs.

(3) Subsection (1) does not apply if—
(a) there are special circumstances in the company's case justifying the directors in deciding that the amount there mentioned is not to be treated as required by subsection (1),
(b) it is stated—
(i) in the case of Companies Act accounts, in the note required by regulations under section 396 as to the reasons for showing development costs as an asset, or
(ii) in the case of IAS accounts, in any note to the accounts, that the amount is not to be so treated, and
(c) the note explains the circumstances relied upon to justify the decision of the directors to that effect.

845 Distributions in kind: determination of amount

(1) This section applies for determining the amount of a distribution consisting of or including, or treated as arising in consequence of, the sale, transfer or other disposition by a company of a non-cash asset where—
(a) at the time of the distribution the company has profits available for distribution, and
(b) if the amount of the distribution were to be determined in accordance with this section, the company could make the distribution without contravening this Part.

(2) The amount of the distribution (or the relevant part of it) is taken to be—

(a) in a case where the amount or value of the consideration for the disposition is not less than the book value of the asset, zero;

(b) in any other case, the amount by which the book value of the asset exceeds the amount or value of any consideration for the disposition.

(3) For the purposes of subsection (1)(a) the company's profits available for distribution are treated as increased by the amount (if any) by which the amount or value of any consideration for the disposition exceeds the book value of the asset.

(4) In this section “book value”, in relation to an asset, means—

(a) the amount at which the asset is stated in the relevant accounts, or

(b) where the asset is not stated in those accounts at any amount, zero.

(5) The provisions of Chapter 2 (justification of distribution by reference to accounts) have effect subject to this section.

### 846 Distributions in kind: treatment of unrealised profits

(1) This section applies where—

(a) a company makes a distribution consisting of or including, or treated as arising in consequence of, the sale, transfer or other disposition by the company of a non-cash asset, and

(b) any part of the amount at which that asset is stated in the relevant accounts represents an unrealised profit.

(2) That profit is treated as a realised profit—

(a) for the purpose of determining the lawfulness of the distribution in accordance with this Part (whether before or after the distribution takes place), and

(b) for the purpose of the application, in relation to anything done with a view to or in connection with the making of the distribution, of any provision of regulations under section 396 under which only realised profits are to be included in or transferred to the profit and loss account.

(b) in the case of a distribution made otherwise than in cash, to pay the company a sum equal to the value of the distribution (or part) at that time.
