COMMENTARY ON SECTIONS

Part 16: General and Miscellaneous

Section 202: Civil partnerships on religious premises

Examples

- Regulations under section 6A could provide that, for example, Church of England premises may be approved for the registration of civil partnerships only with the consent of the General Synod of the Church of England.
- A couple seeking to register their civil partnership in a church that had not been approved for that purpose could not require those responsible for the church to allow them to hold the registration there. Nor could they require the denomination responsible for the church to seek approval to enable this.
